

1963 FORD GALAXIE

GALAXIES · GALAXIE 500'S · GALAXIE 500/XL'S · GALAXIE WAGONS

**THE LOOK, THE POWER...
AND NOW THE FEEL OF THE
FABULOUS THUNDERBIRD!**

Feel the Thunderbird velvet of the 1963 Galaxie's all-new ride. Here's the nearest thing to flight itself. With road-taming improvements topped by new front and rear suspensions, Galaxie's ride and handling are so wonderfully smooth, so effortless, you'll have to try Galaxie to believe it. Until now only Thunderbird knew the secret of this kind of fun and comfort. Until now only Thunderbird had this easy way with a corner—this sports car flair for winding roads.

Matching this big Ford's lavish ride is a live-it-up elegance inside and out, found only in cars costing hundreds more than Galaxie. Thunderbird-inspired, deep foam-padded bucket seats and console in 500/XL's . . . deep foam-padded bench seats in other models . . . full carpeting, crank vent windows, rich "courtesy-lighted" interiors. And, straight from Thunderbird, the Swing-Away Steering Wheel* that moves over a full 9 inches to let you in.

Feel the Super-Torque thrust of Galaxie's new Thunderbird power. Torque is what makes a car go. Super-Torque is what makes a Galaxie go—with horsepower up to a mile-splitting 405.* You can choose from 19 Galaxie power team options—six engines, five transmissions—including Synchro-Smooth Drive, America's first fully synchronized 3-speed manual transmission. Maintenance? It doesn't come any easier. Galaxie's the car that pioneered the twice-a-year or 6,000-mile service schedule!

*Optional

GALAXIE SEDANS

Here's size that makes sense and adds up to solid comfort. Plenty of room for long legs to stretch out . . . for heads to be held high (with hats on!) . . . for broad shoulders to relax without "overlapping" elbows, even when five others ride with you. Generous luggage space for everyone, too, in a trunk nearly 30 cubic feet big (illuminated for nighttime convenience). You can tick off big Galaxie luxury features by the score from white vinyl headlining to color-keyed carpet . . . lighted glove box and front ash tray to new Safety-Yoke door locks . . . self-adjusting brakes to Center-Fill fueling. And, up to this point you haven't even started the engine!

†4,000 miles on 400 V-8's

*Heater is installed during production unless otherwise specified. If deleted, an appropriate price reduction is made.

All-new Ford 300 . . . newest and lowest priced of the big 119-inch wheelbase Fords! Offered in both 2- and 4-door sedans, the 300 brings you big Ford roominess, comfort and convenience... Twice-a-Year Maintenance and all of Ford's service-saving features. The new Ford 300 is built to the same high quality standards as the Galaxie itself. Your choice of three attractive cloth-and-vinyl interior trims in blue, gold, or red. Choose from Galaxie options and accessories (pages 24-25) and Galaxie power teams (pages 26-27). Best news of all, the 300 is priced to outvalue every other full-size car in the low-price field! Ask for complete details on the new Ford 300 at your Ford Dealer's.

New Swing-Away Steering Wheel, available on all models, moves a full 9 inches to the right, providing the driver generous new room for easier entrances and exits. Galaxie Sedan interior (right) is trimmed in beige cloth and vinyl, one of five handsome Galaxie choices. As you see, Galaxie seat is designed high, wide, posture-perfect. Contour-formed foam padding (which you can't see) adds to your supreme riding comfort.

GALAXIE 500 SEDANS

There's ample proof in new Galaxies and 500's that Ford engineering ideas set the pace again in '63. Examine just one area—ride. Over highway, byway or boulevard, the Galaxie glides silent, smooth, serene. Between you and the road is an amazing new suspension system, engineered from the tires on up to smooth away road faults and "tune out" road noise, vibration and harshness. The result is the most lavish ride this side of the high-priced cars. It's a more care-free ride, too, thanks to more Ford engineering ideas that pay off for you in big service savings—36,000 miles between major chassis lubes, 6,000 miles between oil changes and minor lubes, self-adjusting brakes, 36,000-mile fuel filter† . . . many more. How long since you rode in a Galaxie?

†36,000 miles on 405 V-8's

(a) Thunderbird 390 V-8 option provides 300-hp punch—one of five V-8 choices! (b) New lift-lab door handles operate with greater smoothness and ease. (c) New crank-adjusted vent windows in Galaxies add to convenience, precise ventilation control. (d) Galaxie 500 Sedan interior in rich blue pleated cloth and vinyl is one of seven standard trim choices. In addition, 500's offer five pleated all-vinyl trim options that have the look and feel of leather.

At right: Galaxie 500 4-Door Sedan
(also offered in 2-door sedan)

GALAXIE 500 HARDTOPS

The nicest thing that ever happened to hardtops is Thunderbird styling. And the best renditions yet are the two Galaxie 500's you see here. The lines are lean, long, clean and uncluttered—very smart and very widely imitated. The airy openness of this body style (no center posts) appeals to many. Even with windows closed visibility is virtually unobstructed. And typical Ford body quality is very much in evidence. Windows run smoothly, easily up or down . . . mate true and tight when closed. (A special weathertight seal helps keep rain and snow from running down inside the doors.) Doors open and close with finger-tip ease . . . stay solidly and quietly closed . . . all because of new Safety-Yoke door locks. More Ford engineering ideas at work to back up the beauty of Galaxie with solid quality!

Galaxie's new tandem-action electric wipers clear 9% more windshield area, wipe out the "spatter spot" in the middle that old-fashioned wipers still miss. No annoying "slowdown" in wiper action getting under way from a light when you need it most. Galaxie Hardtop interior in rich gold fabrics illustrates one of 12 choices; seven are of pleated cloth and vinyl and five are all-vinyl (optional).

Background: Galaxie 500 4-Door Hardtop

GALAXIE 500 CONVERTIBLE

The Galaxie 500 Convertible is an action car and looks it in every line. The new roofline is lower; the new windshield is set at a more rakish angle; the styling influence of Thunderbird is unmistakable. Under way, the performance promise is brilliantly fulfilled. With Thunderbird V-8* thrust up to 405 hp, the Convertible (or any other Galaxie sedan or hardtop) can put you in full charge of a bundle of blazing action! Top up: the weatherproof vinyl 3-ply top is secured to each roof bow to hold the top snug and sleek as you drive. Top down: it disappears smoothly under the tailored, color-keyed boot. These are just a few of the "goodies" awaiting you in the 500 Convertible. *Optional

Galaxie 500 Convertible "goodies"—
(a) 4-speed floor-mounted stick shift available with any of four V-8's. **(b)** Thunderbird-inspired "floating" mirror is part of the windshield! **(c)** Performance? Try one of the lusty Thunderbird 406 V-8's! **(d)** Sure sign you've been passed by the most beautiful convertible on the road. **(e)** Take your pick of six convertible interior trims; three top colors.

At right: Galaxie 500 Convertible

XL Hardtop Interior (above). Who could resist being carried away by this one? The bucket seats are deep foam-cushioned to cradle you in comfort. (Rear seat is "bucket-styled," equally luxurious and comfortable.) Sculptured chrome seat side shields, mylar highlights in seats and side panels, unique carpet-trimmed doors are a few of XL's elegant touches. Another is the XL command console (shown close-up at left). "Action end" up forward is for short-shift sports stick. At rear is a spacious storage compartment for maps, sunglasses, or camera.

At left: All-new Galaxie 500/XL 4-Door Hardtop (also offered in 2-door model)

GALAXIE 500/XL HARDTOPS

XL stands for "extra lively." Lively in looks, XL hardtops (either the much-talked-about 2-door or the brand-new 4-door) have all the verve of limited-edition foreign offerings that sell for thousands more. Such lively luxuries as leathery vinyl trim, bucket front seats, Thunderbird-inspired command console with either stick shift Fordomatic (std.), Cruise-O-Matic (opt.) or 4-speed manual (opt.). Turn the key and you can have action as lively as you like with the 164-hp Galaxie V-8 (std.), or Thunderbird V-8 options of 220 hp, 300 hp, 385 hp or the big 6-barrel bravo with 405 hp! Try the extra lively going of an XL hardtop with a lusty Thunderbird V-8 just once and you'll never be fully satisfied with anything else.

GALAXIE 500/XL CONVERTIBLE

XL stands for "extra luxury." Wherever appreciators of the finer things gather and the talk turns to cars, you're sure to hear about the XL Convertible. Here's where Ford stylists, who have created a gorgeous convertible in the Galaxie 500, have even outdone themselves! Add to Galaxie's glamour a dash of sports car spirit—front bucket seats, deep-pleated and foam-cushioned . . . full-length command console in between with short-shift "sports stick" . . . bucket-tailored 3-passenger rear seat—ruddy vinyls sparkling with mylar all around. To tailor XL Convertible performance to your preference, take your pick from eight Galaxie power teams. For convertible fanciers, an XL is the *piece de résistance*. And, if you're not already a convertible fancier, an XL can make you one—fast!

Trunk Volume 27.4 cu. ft.

Soft lights and sweet luxury. Clean, low-lined beauty of XL Convertible is emphasized by this unusual view. Padded boot has top trim tucked beneath with not a single fastener showing to tell you how it's done.

Unique safety-courtesy lights in either door shine clear beam into car, red warning beam rearward. Concealed panel light illuminates the console. Bright style note: XL bucket seat trims come in seven luxurious all-vinyl choices.

At right: Galaxie 500/XL Convertible

Galaxies are *built for people*, which means not only big in size, but extra generous in comfort and convenience. Doors swing wide to let you step in with ease. Seats are designed high, wide and deep . . . and cushioned sofa-soft. There's always plenty of room to sit back and enjoy the ride . . . room for everybody's head, shoulders, arms and legs . . . *even with six* in the car. Galaxie convenience is everywhere. It's the wide arm rest at your elbow . . . luxuriously smooth, crank-adjusted vent windows. It's a "courtesy-lighted" interior as soon as you open the door or glove compartment . . . or, with taillights on, even the big Galaxie trunk!

Just look at all the savings a '63 Galaxie offers you! Service stops come only twice a year, or each 6,000 miles. You drive 36,000 miles between major chassis lubes . . . 6,000 miles between oil and oil filter changes and minor lubes. Fuel filter goes 36,000 miles before replacement†. Brakes and engine valves‡ are self-adjusting. Muffler is fully aluminized for longer life, body rocker panels are galvanized to resist rust, corrosion. And your new Galaxie comes to you complete with engine coolant-antifreeze good for 36,000 miles or two years—just about as care-free as a '63 can be!

†16,000 miles on 406 V-8's ‡In all except 406 V-8's

The luxury feel of Thunderbird is in every new Galaxie. You sense it in the uninterrupted smoothness . . . the near-complete absence of noise and vibration of the lavish new ride. Steering is trim and true . . . cornering is thoroughly controlled, remarkably flat. At the light, you drive forward on an even keel without rear-end "squat." Braking is sure and swift—without "nose dive"—even in short-space stops. It all adds up to rare, wonderful driving fun. And, riding or driving, you'll love every minute you spend in a Galaxie.

Ford going has been great ever since the first Ford V-8. Now there are five . . . with Thunderbird thunder and thrust that zooms up to 405 hp! With most you can name your choice of GO-now transmissions. With any of these Super-Torque Galaxie power teams you get a special kind of performance . . . sizzling, scintillating, velvet-smooth. That's as close as words come to it. Drive a Galaxie; put it through its paces and words won't be necessary—you'll know!

*Delete option. See footnote, page 4

Left: Galaxie wagons offer you the most convenient loadspace (91½ cu. ft.) in the wagon world! Flat, level and all in one place, big Galaxie loadspace stretches over 10 ft. to end of open tailgate. Load floor is over 5 ft. wide, tailgate width over 4 ft. and loading height just 26 in.

Below: 6-Passenger Country Sedan interior of beige all-vinyl, one of five smart Country Sedan trims.

Above: 6-Passenger Country Sedan (also offered in 9-passenger model)

COUNTRY SEDANS

What goes into the making of a *great* station wagon? All the things that have made Ford America's wagon specialist . . . and Country Sedans such great wagon favorites. First, big loadspace, 91½ cu. ft. of it in either 6- or 9-passenger models (*all* of it easily accessible *above* the load floor). Next, quick-converting passenger seats plus counterbalanced tailgates with roll-down windows to make that big loadspace faster, easier and more convenient to get at and use. Among

other Galaxie wagon bonuses (these *are* Galaxies, don't forget) are crisp, clean Thunderbird styling . . . Ford's Twice-a-Year Maintenance (6,000 miles between service stops) with 36,000 miles between major chassis lubes, 6,000 miles between oil changes and minor lubes, brakes that adjust themselves, self-adjusting engine valves, plus all the rest of Ford's wonderful service savings. Add to the list . . . rich cloth-and-vinyl or all-vinyl interiors styled with Galaxie elegance. Above all, you'll find Country Sedans carry low Ford prices to make them great wagon values as well.

Only Galaxies come this glamorous—in this case a Galaxie wagon, the 9-Passenger Country Squire. This Squire trim of deep-pleated blue all-vinyl is one of seven choices available in either 6- or 9-passenger model. Seats are every bit as comfortable as they look because Ford gives you foam cushioning in wagon seats front and rear. Squires show their Galaxie luxury in every way; include in their standard equipment, color-keyed rayon-nylon carpeting, electric clock, power tailgate window, even backup lights.

Country Squire Standard Equipment

Additional luxury items over and above Country Sedan equipment listed on page 18:

Choice of Pleated "Gleam" Cloth and Vinyl Interior Trims in Red, Blue, Beige, and Turquoise; Pleated All-Vinyl in Red, Blue, and Beige
