

# 1985 Oldsmobile • A Special Feel

Album #1: *Ninety-Eight Regency • Delta 88 Royale  
Tornado • Custom Cruiser*

*There is a special feel  
in an Oldsmobile.*

*Welcome to the 1985 Oldsmobile  
album of fine cars.*

*Here you can sample a medley  
of our newest automotive hits.  
Each one a masterwork of style,  
performance and value. Each one  
playing out the qualities that make an  
Olds worth owning.*

*Everyone, a harmonious blending  
of all the attributes that give that*

*special feel to an Oldsmobile.*

*First, we invite you to enjoy the  
most recent winner on our hit  
parade, the 1985 Ninety-Eight  
Regency. It's a new dimension in  
Oldsmobile luxury.*

*Next, music to your ears—Delta  
88 Royale, the family car that didn't*

*forget the family. It offers a lot of  
value and family comfort.*

*Then, the Oldsmobile Toronado, an  
exciting arrangement of style and  
performance in a personal luxury car.*

*Finally, Custom Cruiser. Big,  
roomy and elegant, a perennial  
favorite on the station wagon charts.*

*And like all Oldsmobiles—each one  
has been meticulously orchestrated  
by people who care about the quality  
of what they do.*

*Yes, there is a special feel in an  
Oldsmobile and for 1985, it goes like  
this . . .*

## Ninety-Eight Regency Brougham Sedan

*Carries you with taste, refinement  
and impeccable manners.*

*Here is a thoroughly "polished"  
luxury car, inside and out. It reflects  
the latest in Oldsmobile technology  
with unsurpassed luxury. Inside,  
elegant accommodations for six.  
Outside, a lustrous new multi-coat/*

*high-gloss enamel finish. Under the  
hood, the smooth, spirited perfor-  
mance of a 3.8-liter multi-port fuel  
injected V6 or available 4.3-liter  
diesel V6. On the road, Oldsmobile's  
precise road management system. It*

*combines front-wheel drive, rack-  
and-pinion steering, four-wheel  
independent suspension and elec-  
tronic load levelers to provide a  
luxury-car ride second to none.*

## *Ninety-Eight Regency Brougham*

*All the comforts of a private club, including the elegant appointments.*

*It's quiet. It's restful. It's inviting and comfortable. Traditional Oldsmobile luxury for six. Interiors feature rich velour seats or available genuine leather in the seating areas. Behind the wheel, 6-way power control for*

*the driver's seat is standard, while a "memory seat" which can be preset for two drivers is available. To add to the comfort and luxury, consider the advanced technology also available: electronic instrument panel,*

*electronic auto calculator and trip computer, voice information reminder system, electronic day-night mirror, and for the ultimate in sound, the electronically tuned Delco-GM/Bose music system.*

## *Ninety-Eight Regency Brougham Coupe.*

*It will move you with its pure luxury  
and precise road management.*

*A luxury car of this stature deserves  
a luxury ride to match: precise road  
management. Your Ninety-Eight  
Regency tracks sure and true with  
front-wheel drive and rack-and-*

*pinion steering. Bumps and shock  
are effectively neutralized by four-  
wheel independent suspension.  
Weight distribution is automatically  
equalized by an electronic load level-*

*ing system. Even the engine and sus-  
pension have been isolated from the  
body for quiet comfort.*

## Ninety-Eight Regency Sedan and Coupe

*The marriage of logic and luxury:  
advanced technology with gracious accommodations.*

*Ninety-Eight Regency is the "thinking man's" luxury car. Having evaluated other luxury cars, Regency owners have concluded that Regency best serves their interests. They respond to traditional Oldsmobile luxury*

*and new advanced technology. They applaud the economy of the 3.0-liter V6, the available 3.8-liter multi-port fuel injected V6 and 4.3-liter diesel V6. They appreciate such standard features as Four-*

*Season air conditioning, Tilt-Wheel Steering, 6-way power seat for the driver—and more—all included in Regency's reasonable price.*

# The Oldsmobile Story.

It's the quality that makes  
an Olds worth owning.

There is a transformation taking place in the American automotive industry. And Oldsmobiles are at the very core of it.

It is a rebirth that is literally redefining the way quality is designed and built into Oldsmobile cars.

This transformation is designed to go beyond your expectations of what a quality car should both look like and behave like.

Quality starts with design.

You'll find this quality reflected in the luxurious Oldsmobiles shown in this catalog. The Toronado. The Delta 88 Royale. The Custom Cruiser. And, especially, the new Ninety-Eight Regency.

For example...

Before the 1985 Ninety-Eight Regency could be built, the way cars are built had to be revolutionized.

It starts with quality people working together, pooling their

resources, everyone an expert at their chosen craft.

It is stylists who, from the very beginning, understood that design engineers had to be able to implement what they had envisioned.

And manufacturing and production engineers who had to know how to build what the stylists and designers created.

It is teams of workers with intensive preparatory training—both in classroom instruction and actual hands-on experience—in robotics, pneumatics, hydraulics, electronics, micro-circuitry and more.

Today, quality requires tools that never existed.

Space-age tools. High-tech tools. The same type of tools that helped America to reach new heights in outer space.

These state-of-the-art devices are the keys that allowed a high standard of quality to be designed into the Oldsmobile Ninety-Eight Regency.

From the start, CAD/CAM—computer-assisted design and computer-assisted manufacture—was an important part of the forward planning that went into the Ninety-Eight Regency. And that regulated its progress thereafter.

183 robots—some as big as a two-story building, some as small as a personal computer—

1. Computers aid in design and manufacture. 2. Worker team. 3. Robotic spray booth. 4. Instrument panel checking station. 5. ELPO bath of rust-resistant primers. 6. Robogate body framing. 7. Final computerized process check.

are used to weld and paint with uncanny precision.

Putting it all together:  
five automated body systems.

They are designed to assure the strength, accuracy and integrity of the Ninety-Eight body structure.

**Automated Underbody System**  
The rear compartment, floor pan and motor compartment are welded together using 21 automatic welders, two welding presses and two robots. Then, 56 robots apply 167 spot welds to secure the side frame.

**Computerized Dimensional Inspection**

A contact probe inspects and verifies 30 pre-defined critical points on the underbody for precision and accuracy.

**Cartrack I Underbody Respot**

16 robots apply an additional 220 spot welds on each underbody to strengthen the body structure and ensure dimensional control.

**Robogate Body Framing**

Here the precise dimensional interrelationship between the major assemblies is established.

The body is automatically clamped into position for the framing operation which employs eight robots.

**Cartrack II Roof Respot**

Automatically locates and welds the roof onto the body to complete the body structure.

Total spot welds on the body done automatically through the entire process will approach almost 5,000.

**It's people who determine Oldsmobile quality.**

Robots and computers and optical scanners all have their place in today's technologically advanced age. Yet it is still trained and dedicated people—using their minds and their hands—who set the standards for excellence in the designing and building of Oldsmobiles.

**New techniques to keep your Ninety-Eight Regency looking "showroom new!"**

For instance, to fight off the effects of weather, the Ninety-Eight body is totally immersed in an ELPO bath of rust-resistant primers, thus forming a protective skin.

A new paint process was developed using multi-coat high-gloss enamels. Nineteen numerically controlled robots apply two coats of base color and two coats of clear paint to the body to give

it a deep, lustrous "hand rubbed" look.

Even after the Ninety-Eight Regency is built, the quality pro-

Quality that was designed in is, in fact, built in.

cess is further heightened by the use of "Dynamic Vehicle Testing." Here Ninety-Eight Regency is computer-directed and monitored on dynamometer rolls. All critical functions are checked to make sure that everything meets Ninety-Eight Regency quality standards.

**See, hear and feel Ninety-Eight Regency quality for yourself.**

You can see Ninety-Eight Regency quality in the even, precise fit where trunk lid meets quarter panel, quarter panel meets door, door meets fender and fender meets hood.

You can hear Ninety-Eight Regency quality with its generous use of insulation and sound-deadening materials.

You can feel the quality every time you close its doors. Solid!

**Quality is what makes an Olds worth owning.™**

Quality is the essential character of the new 1985 Olds Ninety-Eight Regency. But, Oldsmobile's commitment to quality is also reflected in the Toronado, Delta 88 Royale, Cutlass Supreme, Cutlass Ciera, Olds Calais, Firenza and our Cruiser wagons.

Ransom E. Olds stated our goal best, "to build a carriage in as nearly a perfect manner as possible." And after 87 years, we're proud to be living up to those words.

Now we invite you to test drive, inspect, and completely check to your heart's desire the high levels of quality being built into every 1985 Oldsmobile.

Experience for yourself that special feeling of quality that makes any Olds you choose worth owning.

There is a special feel  
in an

## Delta 88 Luxury Sedan

*One great drive follows another.  
And another. And another. Luxuriously.*

*It would be right at home in any setting, on any road. This new Delta 88 Luxury Sedan is highlighted by impressive styling, opera lamps, tinted glass all around and gleaming new paint colors. Inside,*

*the full-foam comfort of the lavish velour seats is enhanced by the 6-way power control of the driver's seat, the power steering with Tilt-Wheel convenience, the power brakes and windows. All these and*

*many others are all standard. A smooth, powerful 5.0-liter V8 assures great drives wherever you choose to go. A 5.7-liter diesel V8 is available. (Not available in California.)*

## Delta 88 Luxury Sedan

Luxury that's fit for  
the First Family.

Yours. After all, who deserves it  
more? Top-of-the-line luxury and  
comfort for six. The elegance of the  
rich velour seating (or available  
leather). The wall-to-wall plushness

of the cut-pile carpeting. Also, pre-  
pare to be pampered by a long list of  
standard features from automatic  
transmission to air conditioning to  
AM/FM stereo with dual rear

speakers. (Radio may be deleted for  
credit.) And power everything! Power  
steering, power brakes, power win-  
dows and door locks, power 6-way  
driver's seat. All standard.

## Delta 88 Royale Brougham Sedan

The kind of comfort your family will appreciate over all the miles.

You could buy it for style and luxury alone. But with an active family, you also need family-sized room and comfort. That's Delta 88 Royale Brougham. Those lavish velour seats are full-foam construction for rest-

ful relaxation over all the miles. Outside noise has been effectively muted with layers of insulation. And rough roads are smoother with efficient Placel shocks and computer-selected coil spring suspension.

20.8 cubic feet of trunk space easily accommodates luggage. Regency Brougham Sedan is practical and comfortable, yet stylish and lavish, too.

## Delta 88 Royale Brougham Coupe

Popular viewpoint: This is one family car that didn't forget the family.

Ask a family what it wants most in a family car and they'll likely answer "room and comfort with a lot of style, a lot of luxury." Delta 88 Royale Brougham replies with room for six with velour luxury. Plush carpeting underfoot. Lavish appointments all around. And the kind of quality and

dependability that keeps it on the road. And Royale Brougham won't forget your family at trade-in time with its traditionally high resale value. The style and luxury; the comfort and dependability really pay off.

## Delta 88 Royale Sedan and Coupe

Great style and value keep its popularity soaring.

Delta 88 owners keep coming back year after year. They find they get a lot of quality and value for the money. Six-passenger room and comfort with full-foam seats, velour interiors, wall-to-wall cut-pile carpeting. A lot of standard equipment, including power steering, power brakes and

AM/FM stereo (which may be deleted for credit). They also get a lot of economy from a standard 3.8-liter V6, and added performance from an available 5.0-liter V8 with 4-speed automatic overdrive transmission. And traditionally high resale, too.

# Delta 88 Royale

Facts, figures and features.

Like to get that special feel? Take the Delta 88 wheel!

3.8-liter V6 is standard, 5.0-liter V8 available, 5.7-liter diesel V8 also available (except in California).

Opera lamps are standard equipment on Delta 88 LS. A touch of luxury.

Remote control side-view mirror is standard. Adjusts to different drivers.

Buckle up the little ones and don't forget to buckle up yourself.

Big, spacious trunk with 20.8 cubic feet to carry what a family needs.

The ride is smooth and quiet with computer-selected coil springs. It's easygoing all the way.

Deluxe Wheel Disc (left) std. on Royale and Brougham. Simulated Wire Wheel Disc with lock (center) std. on Delta 88 LS, avail. other Delta 88 models. Chrome-Styled Wheel (right) avail. on Royale and Brougham.

## Custom Cruiser

"Roughing it" will have to wait till you get to the campsite.

This Olds Cruiser is so smooth and quiet, you'd think it was a fine sedan. Looks like it, too, with its handsome full-foam velour seating or glove-soft vinyl. So convenient, too, with its 3-way power tailgate. You can even order a fold-down third seat for eight-passenger capacity. Fold down

the second and third seat and there's 87.2 cubic feet of cargo space, plus an extra storage compartment with lock. 5.0-liter V8 with 4-speed automatic overdrive transmission is standard. 5.7-liter diesel V8 available (except in California).

## Custom Cruiser

Facts, figures and specs.

3-way power tailgate is standard. You can also order a fold-down third seat.

Custom Cruiser provides 87.2 cubic feet of room with second seat folded down.

A roomy, under-floor storage compartment is standard.

An inside look at Custom Cruiser...

### CUSTOM CRUISER STANDARD EQUIPMENT

Electric sliding Astroroof gives you a fresh outlook on the world.

Delco-GM Bose music system is the finest auto sound system available today.

**Important: A word about this catalog.** We have tried to make this catalog as comprehensive and factual as possible, and we hope you find it helpful. However, since the time of printing, some of the information you will find here may have been updated. Also, some of the equipment shown or described throughout this Olds catalog is available at extra cost. Your dealer has details and, before ordering, you should ask him to bring you up-to-date. The right is reserved to make changes at any time, without notice, in prices, colors, materials, equipment, specifications and models. Check with your Olds dealer for

complete information.

**A word about engines:** Oldsmobiles are equipped with engines produced at facilities operated by GM car groups, subsidiaries or affiliated companies worldwide. Please refer to the "Fuel Economy Estimate Sheet" provided to your dealer for engine source and EPA mileage estimates.

**A word about assembly, components and optional equipment in these Oldsmobile products:** The Oldsmobiles described in this catalog are assembled at facilities operated by General Motors or GM of

Canada. These vehicles incorporate thousands of different components produced by car groups or various component divisions of GM and by various suppliers to GM. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety and fuel economy requirements, or for other reasons, to produce Oldsmobile products with different components or differently sourced components than initially scheduled. All such components have been approved for use in Oldsmobile products and will pro-

vide the quality performance associated with the Oldsmobile name. With respect to extra-cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if the option you ordered is unavailable. We suggest that you verify that your car included the optional equipment you ordered or if there are changes, that they are acceptable to you.

### Protection Plan

**Standard occupant-protection features:** Manual lap/shoulder belts for driver and right front passenger (driver side includes visual and audible warning system) • Manual lap belts at each rear seat position • Energy-absorbing steering column panel • Energy-absorbing instrument panel • Energy-absorbing tops, front seats • Laminated safety windshield glass and tempered safety side and rear window glass • Safety interlocking door latches • Passenger-guard inside door lock handles • Inertia-locking, folding front seat backs • Safety armrests • Safety strength seat adjustments • Head restraints, driver & right front

passenger (adjustable/integral).

**Standard accident-avoidance features:** Side marker lights and reflectors • Parking lamps that illuminate with headlamps • Four-way hazard warning flasher • Backup lights • Directional signal control • Windshield defroster, washer and dual speed wipers • Inside rearview mirror with vinyl-bonded glass • Outside left rearview mirror ("right" also standard on some models) • Brake system with dual master cylinder and warning light • Starter safety switch • Dual action hood latch system. Low-glare finish on instrument panel top, inside

windshield moldings, wiper arms/blades, metallic steering wheel surfaces • Illuminated heater and defroster controls • Illuminated windshield wiper and washer controls • Tires with built-in tread-wear indicators.

**Standard built-in, anti-theft features:** Audible reminder for ignition key removal • Anti-theft steering column lock • Visible vehicle identification number.

Every new 1985 Oldsmobile delivered by an Oldsmobile dealer in the United States comes with a one year, \$10,000 seat belt insurance certificate from MIC General Insurance

Corporation at no additional charge. \$10,000 will be paid to the estate of any occupant who suffers fatal injuries as a result of an accident involving that vehicle while wearing a GM seat belt. Buckle up every time you drive.

**A word about updated service information:** Oldsmobile regularly sends its dealers useful service bulletins about Oldsmobile products. Oldsmobile monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll free 1-800-551-4123.
