

Cadillac

The choice of 1976

Whatever you want in a luxury car ...

Cadillac has it.

IN KINDS OF CARS.

You can select from ten basic Cadillac models, represented by those shown right: (foreground) Coupe deVille in Crystal Blue Firemist with an available White Cabriolet roof; (right foreground) Fleetwood Brougham in Chesterfield Brown with an Ivory padded vinyl roof; (left center) Seville by Cadillac in Georgian Silver with a matching Silver padded vinyl top; (right center) Eldorado Coupe in Phoenician Ivory with a matching padded vinyl roof; and (background) Calais Sedan in Claret.

The first luxury of Cadillac is, of course, the luxury of choice.

Family size luxury. Sedan deVille, Coupe deVille, Calais Sedan and Calais Coupe.

Personal size luxury. Eldorado Coupe, Custom Cabriolet and Eldorado Convertible (the last convertible to be built in America).

International size luxury. Seville by Cadillac.

Executive size luxury. Fleetwood Brougham, Cadillac Limousine and the Nine-Passenger Sedan.

Special Editions. Fleetwood Talisman, Brougham d'Elegance, DeVille d'Elegance. And DeVille Cabriolet.

IN COMFORT AND LUXURY.

Cadillac for '76. You don't pamper it. It pampers you. Whatever size...whatever model you choose.

Because every Cadillac comes equipped with Cadillac comfort, convenience and luxury. If anything, carried to a new level of sophistication in 1976 by a number of refinements. Seen and unseen. From a new available feature that automatically locks doors when the shift lever is moved to "Drive"...to a Freedom™ Battery that never needs water. For Cadillac 1976, the emphasis is on changes and refinements that enhance customer value.

IN ENGINEERING ADVANCEMENTS.

Every Cadillac proudly displayed on these pages incorporates American automotive engineering advancements that, in some cases, have long since been taken for granted. A case in point: Cadillac's Variable Ratio Power Steering. Infinitely variable, it automatically changes ratios to adjust to your changing driving situation. Result: easier parking and cornering while retaining the feel of the highway at cruising speeds.

Of course, one of the most exciting engineering advancements in years involves Cadillac's Electronic-Fuel-Injected Engines. Available on all Cadillac models except Nine-Passenger Sedan and Limousine (a 5.7 Litre, EFI Engine is standard on Seville), they are designed to provide efficiency over a wide variety of driving conditions and driver habits. With quick response. Fast starting. Consistent performance. Smooth engine idle. And few required maintenance operations.

IN TOTAL CADILLAC VALUE.

It all comes down, in one way or another, to Total Cadillac Value. That's the value inherent in every 1976 Cadillac...when you buy it...when you drive it...and when you trade it. Total Cadillac Value is the sum total of everything that makes a Cadillac a Cadillac.

And that includes—not only the roominess, comfort and elegance of Cadillac itself—but also other equally important considerations. Such as Cadillac's resale value—consistently the highest of all U.S. luxury car makes. Plus some things you can't put a dollar-figure on. Like the good feeling in knowing you and your family are riding in a Cadillac.

Small wonder Cadillac repeat ownership is consistently the highest of any U.S. luxury car make.

The Fleetwood Brougham EXECUTIVE SIZE LUXURY.

With its individually longer wheelbase (three inches longer than Sedan deVille)...with its stately beauty that is both spirited and dignified...with its roominess and refinements for 1976, this is indeed one of the world's great sedans. The ride: superb. Luxury abounds. With such features standard

as Cadillac's Signal-Seeking AM/FM Stereo Radio. From its jewel-like stand-up wreath and crest to its impressive new tail lamps, this is spaciousness and luxury in the Cadillac manner. With such touches as carpeted footrests and individual reading lights.

The tailored look! It's new for 1976 and completely in character with Fleetwood Brougham. One expression of it is in Minoa, a handsome new ribbed velour with leather bolsters. It is shown below in Light Ivory-Gold and available in Light Gray and Dark Blue. Another is Mansion, a

smooth-finish material of understated elegance. It is available in Black, Dark Blue-Green, Light Gray, Dark Blue and Light Buckskin. Or, if you prefer, you may order soft, supple, Sierra grain leather in any of 11 trim combinations. Standard for 1976 are Cadillac's Dual Comfort 60/40 front seats with

center fold-down armrest. You may specify Cadillac's Electronic-Fuel-Injected Engine, Weather Band Radio, Astrorooftop, Opera Lamps, Illuminated Entry System, Lighted Vanity Mirror and many other features to individualize your 1976 Fleetwood Brougham even further.

The Fleetwood Brougham in Florentine Gold Firemist with padded White vinyl roof and Turbine Vaned wheel discs.

The Eldorado Coupe PERSONAL SIZE LUXURY.

Here is one of the world's most exciting cars . . . the only American luxury car with front-wheel drive . . . four-wheel disc brakes . . . and choice of coupe or convertible. And to accent that great profile for 1976 are luxury wheel discs with a jewel-like wreath and crest on a field of black. But

the most rewarding Eldorado experience occurs behind the wheel — as you feel the traction and maneuverability of front-wheel drive (especially on slippery road surfaces). As well as the added front seat roominess it provides. Standard features even include an AM/FM Signal-Seeking Stereo Radio.

Inside, as well as out, you see the combination of sportiness and luxury that is Eldorado. In such details as the unique, carved gunstock design of its simulated wood instrument panel insert. And in the choice of materials for 1976. There's Mansion Knit, a rich, smooth-finish material available in Dark

Blue, Light Ivory-Gold, Light Buckskin and Black, as shown. Or select the Merlin Plaid in either Dark Blue-Green or Dark Firehorn. Also available is soft Sierra grain leather in any of 11 trim combinations. To the host of features that are standard on Eldorado, you may add Cadillac's Electronic-Fuel-

Injected Engine, AM/FM Signal-Seeking Stereo Radio with a 24-hour weather band, our Astroroof and 50/50 Dual Comfort front seats with a power recliner and 6-way power seat adjuster for the passenger side. Cadillac Eldorado for '76. Luxury, comfort and convenience in a personal size car.

The Eldorado Coupe in Georgian Silver with available Silver Cabriolet vinyl roof.

The Eldorado Convertible LAST OF THE BREED.

This is more than one of the finest convertibles ever built. It is the only convertible now built in America—and it will not be repeated in 1977. You could say that Cadillac saved the best till last . . . because this is a magnificent automobile. With its ingenious inward-folding top that provides full-

width seating for rear passengers. With its unique combination of front-wheel drive and four-wheel disc brakes. With a host of standard features that include an AM/FM Signal-Seeking Stereo Radio, Automatic Climate Control and Automatic Level Control.

The richness of soft and supple Sierra grain leather is standard, of course. Here shown in White with Dark Firehorn carpeting. Other combinations include White with Black, White with Dark Blue, White with Dark Blue-Green, Antique Light Gray, Black, Antique Light Blue, Antique Dark Blue-

Green, Light Ivory-Gold, Antique Light Buckskin and Antique Dark Firehorn. Convertible tops are available in Black, Ivory, White, Buckskin, Dark Blue, Firehorn and Dark Blue-Green. Tying in are 21 exterior colors (thirteen new for 1976)—with accent stripes available in eight colors. Available is

a hard boot for the convertible top. Other features available include: Cruise Control, Cadillac's Electronic-Fuel-Injected Engine and 50/50 Dual Comfort front seats with individual fold-down armrests, and you can specify a power recliner and 6-way power seat adjuster for the passenger side.

The Eldorado Convertible in Firehorn with a White Leather interior.

The Seville INTERNATIONAL SIZE LUXURY.

Timeless in styling. Cadillac in craftsmanship. Seville is designed to be one of the finest production cars built anywhere in the world. Responsive—Cadillac's Electronic-Fuel-Injected, 5.7 Litre Engine is standard. Maneuverable. Easy to park. Quiet. Smooth of ride. And efficient. In EPA

mileage tests, Seville got 21 miles per gallon in the highway test and 15 miles per gallon in the city test. (For California figures, see your Cadillac Dealer.) About 25 inches shorter than full-sized U.S. luxury cars, it has about the same overall height for interior roominess and comfort.

Here is one of the world's best equipped cars. Standard features range from a Fuel Monitor System to Cadillac's AM/FM Signal-Seeking Stereo Radio with Automatic Power Antenna . . . from Automatic Climate Control to Automatic Level Control. Interiors are understated. Tasteful. And so very

comfortable; the kind of comfort you would expect of Cadillac. A wide choice of trims is available. Shown below in Dark Blue is Mansion Knit, a smooth-finish material that whispers elegance. Or choose from any of six other colors—Light Gray, Black, Dark Blue-Green, Light Ivory-Gold, Light

Buckskin or Dark Firethorn. Or, if you prefer, select soft, supple, Sierra grain leather available in White, Antique Light Blue, Antique Dark Blue-Green, Black, Light Ivory-Gold, Antique Light Buckskin, Antique Dark Firethorn or Antique Light Gray.

The Seville by Cadillac in Innsbruck Blue with Silver Blue Metallic padded vinyl roof.

The Sedan de Ville

FAMILY SIZE LUXURY.

There are many reasons why the DeVilles are perennially among America's most popular luxury cars. Start with four-door Cadillac roominess and comfort. Add to that DeVille elegance...and ride. And long-lasting value. This year, there's even more. New convenience features that

are standard... the Freedom™ Battery that never needs water is just one. And new features you may specify... such as door locks that automatically lock when you place the shift lever in "Drive", a Fuel Monitor System, Cruise Control and Sunroof.

The supple leather interiors available on Sedan deVille are as rich and as comfortable as they look. The one featured below is Antique Light Buckskin, which is just one of 11 leather trim combinations available. Sedan deVille for '76 also offers a new ribbed knit material called Magnan that is as

attractive to the touch as it is to the eye. It's available in Black, Dark Blue, Light Ivory-Gold, Light Buckskin, Dark Blue-Green and Dark Firehorn. The popular Merlin Plaid comes in Dark Blue-Green or Dark Firehorn. Also available is Manhattan, an elegant velour in Blue and Light Buck-

skin. Interior comfort and beauty are Sedan deVille strengths again this year. (Then, what year haven't they been?) Distinctive simulated Rosewood appliques and laminates highlight the doors and instrument panel. You may specify a power reclining seat for the passenger side.

The Cadillac Sedan deVille in Claret with White padded vinyl roof

The Coupe de Ville

AMERICA'S FAVORITE LUXURY CAR.

The 1976 Cadillac Coupe deVille is again out front with all the important considerations Americans seem to want most in their luxury cars. That is... elegant lines, traditional styling and full-sized responsiveness. What's the secret behind DeVille's popularity? Consistently high resale value,

for one thing. For another, standard features that range from Automatic Climate Control to Power Door Locks. And it's the features you can specify...like Cadillac's Electronic-Fuel-Injected Engine, Astrorooft and an AM/FM Signal-Seeking Stereo Radio with a 24-hour weather band.

For many Coupe deVille buyers, it's the car's interiors that set it apart from other luxury cars. This year's interiors are a good case in point. For example, the Merlin Dark Blue-Green Plaid, shown below, is Cadillac elegance at its best. It is also available in Dark Firethorn. Or, you may choose

from six Magnan ribbed fabrics or 11 different available leather interiors. Also available: Manhattan velour in Blue and Light Buckskin. While you are selecting an interior that is just right for you, consider some of the other items that could add to your Cadillac driving pleasure. Like a Tilt

and Telescope Steering Wheel or Cruise Control... which allow you to enjoy your Cadillac ride even more. There's Sunroof, too. It operates like the Astrorooft except the electrically powered panel is not translucent. A nice way to let the air and sunshine in.

The Cadillac Coupe deVille in Galloway Green Firemist with available White padded Cabriolet roof.

The Calais CADILLAC VALUE IN ACTION.

It's true. Whatever you want in a luxury car, Cadillac has it this year. Including attractive values...in the 1976 Calais Coupe and Calais Sedan. These cars epitomize Total Cadillac Value...the value that is inherent in every Cadillac. When you buy it, when you drive it, when

you trade it. And these luxury automobiles come with all the most wanted features that you've come to expect from Cadillac: Automatic Climate Control, Quartz Digital Clock, Power Door Locks, Tinted Glass, Lamp Monitors...just to mention a few.

Two kinds of people can appreciate the Calais interiors for 1976—the young and the young-at-heart. For here is the excitement and the elegance of Morgan Plaid. Shown below in Blue-Green/Gray/Black, this bright and vibrant material returns as standard on Calais . . . because it was so

well received in '75. Morgan Plaid is also available in Black/Gray/Red, Blue/Gray/Black and Red/Gray/Black. Or, if you prefer, you may specify an expanded vinyl interior in either Antique Light Buckskin or Black. But, whichever you choose, it will quickly become obvious that your 1976 Calais

is clearly Cadillac through and through. With a host of features that are standard—such as AM/FM Radio with Power Antenna that automatically rises to a preselected height when you turn on the radio and recedes into the fender when the radio or ignition is turned off.

The Cadillac Calais Coupe in Dunbarton Green with White available padded roof.

The Cadillac Calais Sedan in Academy Gray.

Limousine & Nine-Passenger Sedan EXECUTIVE SIZE LUXURY

The choice of 1976, when it comes to interior size and comfort, spaciousness and privacy, is the Cadillac Limousine or Fleetwood Nine-Passenger Sedan. The Cadillac Limousine is still the only American-made car designed and built as a Limousine. And each model

comes with the refinements one might expect in cars of this stature. Like two separate Automatic Climate Control systems—one up front for the driver and another in the back exclusively for passengers. In every way, these are the Flagships of the Cadillac line.

The interiors of the 1976 Limousine and Nine-Passenger Sedan are a thoughtful reflection of the very private world that Cadillac's designers set out to create. A place of luxury and comfort. But also of business. Careful consideration went into the selection of the materials . . . such as the Dark

Blue Medici crushed velour fabric shown below. Needs vary. Tastes differ. That's why Cadillac offers Medici in Black, along with Light Gray Magnan Knit interior. But what separates the Sedan and Limousine from other great luxury cars? Size, certainly. Full-width folding seats allow for three

additional passengers. Convenience. The control panel permits passengers to raise and lower windows, turn on reading lamps, switch on the news or, in the Limousine, raise or lower the driver/passenger partition. Very special cars for people interested in luxury . . . in an executive size.

The Cadillac Limousine in Commodore Blue with padded matching Cross Grain vinyl top.

Standard features

Seville

Automatic Climate Control—Heating/cooling/dehumidifying system maintains temperature you select with a single setting.

AM/FM Signal-Seeking Stereo Radio—Seeks out strongest AM, FM or FM stereo stations. Automatic power antenna. Four diagonally opposed speakers.

Fuel Monitor—Lights on instrument panel let you know how you are driving—green for efficiently and amber for inefficiently. Red light indicates low fuel level.

Electronic-Fuel-Injected, 5.7 Litre Engine—Designed to provide efficiency and other benefits over wide variety of conditions.

Automatic Level Control—Automatically adjusts to changing loads to help keep car level.

Power Door Locks—Lock doors individually; or lock all doors with master control on driver and front passenger doors.

Cornering Lights—Project light from the side of car when turning.

Variable Ratio Power Steering—Easy parking, yet retains feel of the road.

Convenient Power Seat Adjuster—50/50 front seats have a six-way power seat adjuster for driver and a two-way power seat adjuster and manual seat back recliner for passenger. Controls on door armrests.

Padded Vinyl Roof—Cross Grain pattern.

Steel-Belted, Wide-Whitewall Radial Tires—Built to GM specifications.

Tilt and Telescope Steering Wheel—Tilts up or down, adjusts in or out.

Controlled Cycle Wiper System—A delay feature adjusts wiper action for light rain.

Lamp Monitors—Show if front and rear lights are functioning.

As well as . . .

Remote Control Left-Side and Right-Side Exterior Rearview Mirrors • Remote Control Trunk Lock Release • Dual Mode Horn • Individual Front Armrests • One-Piece Deep Pile Carpeting • Individual Rear Seat Interior Reading Lamps • Inside Hood Lock Release • Color-Keyed Litter Container • Quartz Digital Clock • Power Windows • Soft Ray Glass • Stowaway Spare Tire • Color-Coordinated Spare Tire Cover and Trunk Carpeting, including Deck Lid • Accent Paint Striping • Assist Straps on Back of Front Seats as well as Overhead Type • Pull-Type Handle on Each Door • Automatic Storing of Safety Belts • Bumper Impact Strips • Dome Courtesy and Reading Lamp • Cigar Lighters • Turbo Hydra-Matic Transmission • High Energy Ignition • Automatic Parking Brake Release

Lamp Monitors and Cornering Lights.

Automatic Climate Control, Tilt/Telescope Steering Wheel.

AM/FM Signal-Seeking Stereo Radio.

Vinyl Cross Grain Padded Roof.

Power Door Locks and Seat Adjuster on Driver's Armrest.

Fully Carpeted Trunk to hold this much luggage.

Space-Age Instrument Panel.

Cadillac and Eldorado

Space-Age Instrument Panel—Information band groups fuel gauge, digital clock and warning lights on upper panel . . . more immediate functions over the steering column.

Automatic Climate Control—Heating/cooling/dehumidifying system maintains the temperature you select. "Economy" setting for improved efficiency.

High Energy Ignition System—Eliminates points, ignition condenser, cam and rubbing block.

Power Door Locks and Power Windows—Master control for windows at driver's position. Lock doors individually; or lock all doors with master control at driver and front passenger positions.

AM/FM Radio with Automatic Power Antenna—Standard on DeVilles, Calais and Limousine.

AM/FM Signal-Seeking Stereo Radio with Power Antenna—Standard on Fleetwood Brougham and Eldorado. Diagonally opposed speakers.

Lamp Monitors—Show if major or secondary light systems are functioning.

Six-Way Power Seat Adjuster—Adjusts front seats forward, back, up, down and tilts forward or back. (Except Calais and Limousine.)

Dual Comfort Seats—(60/40 version standard on Fleetwood Brougham, available on DeVilles and Eldorado.) Allow separate adjustment for driver and front passenger. Available for the passenger's side is a power reclining seat with a six-way power adjuster.

Steel-Belted Radial Tires—Built to GM specifications.

Driver and Front Passenger Reading Lights—Standard on Fleetwood Brougham.

Soft Ray Glass—All models.

Variable Ratio Power Steering—Easy parking and cornering, while retaining a feel of the road. (Not on Limousine.)

Three-Speed Wipers and Washers—

"Mist" position for single-wipe action.

Automatic Parking Brake Release—All models.

Quartz Digital Clock—All models.

Automatic Level Control—All models except DeVilles and Calais.

Hinged Door Pull Handles—On all models except Calais.

Remote Control Left-Side Mirror—(All models.) On Limousine, right-side mirror is standard as well.

Litter Container—Color-keyed to interior.

Dual Master Cylinder Brake System with Disc Brakes in Front—Four-wheel disc brakes on Eldorado.

As well as . . .

- Center Armrests • Turbo Hydra-Matic Transmission • Visor Vanity Mirror
- Cigar Lighters

Space-Age Instrument Panel.

Roomy Trunk.

Automatic Climate Control.

AM/FM Radio. (Signal-Seeking Stereo Radio on Brougham and Eldorado.)

Lamp Monitors and Cornering Lights.

Power Door Locks and Power Windows.

Steel-Belted Radial Tires.

Features Available

Cadillac and Eldorado

Electronic-Fuel-Injected Engine—It is designed to provide efficiency over a wide variety of driving conditions and driver habits—with quick response, fast starting, consistent performance, smooth engine idle and few required maintenance operations. (Except Limousine.)

Weather Band Radio—AM/FM Signal-Seeking Stereo Radio with a 24-hour weather band.

Door Lock System—Locks all doors automatically when the shift lever is moved to a forward drive position.

Astroroof—Laminated and tinted safety glass panel lets the sunshine in even when closed—or keeps it out by sliding an adjustable sun shade. Or lets the air in with the power operated switch. All models except Convertible and Limousine.

Sunroof—Operates like the Astroroof except the electrically powered panel is not translucent.

Theft-Deterrent System—Sounds horn and flashes exterior lights when security of the interior, engine or trunk compartments is violated.

Illuminated Entry System—Pushing front door handle button illuminates door lock cylinder and inside courtesy lights. The lights go off when the ignition is turned on.

Illuminated Vanity Mirror—Visor mirror on the passenger side illuminates when cover is raised.

Fuel Monitor System—Color-coded lights on the instrument panel indicate when fuel consumption rate is efficient or inefficient—and when the fuel supply is low.

Stereo with Tape Player—Cadillac's AM/FM Push-Button Stereo Radio with Integral 8-Track Tape Player. Four diagonally opposed speakers.

Power Recliner Seats—Available for passenger seat on all models with 50/50 Dual Comfort front seats. Power recliner for passenger seat is included as part of the Fleetwood Talisman.

Opera Lamps—Available on Fleetwood Brougham, Limousines, Coupe deVille and Calais Coupe.

Wheel Discs—Available are wire wheel discs, as shown. Also a new disc with a black hub and an argent and chrome turbine vane wheel disc. (Except Eldorado.)

Cruise Control—Maintains a selected speed without using the accelerator pedal.

Electric Rear Window Defogger—Except Limousine.

Air Cushion Restraint System—Not available on Convertible and Limousine.

Manual Recliner—For driver seat on all models with 50/50 Dual Comfort seats.

Track Master Skid-Control—Computerized system that automatically prevents rear wheel lock-up during severe braking situations. (Except Eldorado.)

Twilight Sentinel—Automatically turns driving lights on and off in response to light conditions.

Guide-Matic Headlamp Control—Automatically dims lights with approach of oncoming cars . . . and then returns lights to bright.

Controlled Cycle Wipers—Delay feature adjusts wiping action for light rain or other conditions.

Trailing Package—Heavy-duty equipment grouping for towing up to 6,000 lbs. (Except Limousine.)

Controlled Differential—Directs power to the rear wheel having better traction. (Except Eldorado.)

Automatic Level Control—(Standard on Fleetwood series.) Automatically adjusts to changing loads.

Remote Control Trunk Lock & Electric Pulldown—A control button inside the glove compartment automatically releases the trunk lid lock.

Tilt and Telescope Steering Wheel—Swings up for easy entry-exit. Also slides and adjusts in or out.

Leather Interiors—11 trim combinations. (Standard on Convertible.)

Remote Control Right-Side Mirror—Standard on Limousine.

Outside Thermometer—Mounted on base of left-side mirror.

Fremont Paints—High metallic paints known for richness of color.

Carpeted Floor Mats—Seven coordinating colors.

- License Frames • Electric Rear Window Defogger • Trunk Mat
- Performance Axle • Trailing Package • Automatic Door Locks • 6-Way Passenger Power Seat Adjuster
- Power Recliner Passenger Seat
- Manual Recliner Driver Seat • Accessory Engine Block Heater (dealer installed) • Rear Shoulder Belts (dealer installed)

Astroroof from the outside in and from the inside out.

Wire Wheel Discs.

Power Recliner Seat.

Stereo with Tape Player.

Theft-Deterrent System.

Illuminated Entry System.

Lighted Vanity Mirror.

Special Editions Here in Cadillac special edition cars is a further expression of luxury of choice in action...a delightful way to express your individuality.

Talisman console opened.

Fleetwood Talisman. This sumptuous version of the Fleetwood Brougham is pure luxury. Individual front seats are trimmed in Medici, a stunning crushed velour available in Dark Blue or Black, above. Between each front seat is a console with an illuminated and lockable storage compartment. Outside, the car features a padded Elk Grain vinyl roof, turbine vane wheel discs and identification on the roof panel.

Brougham d'Elegance. This edition offers a new concept in automotive seating luxury—Cadillac Contoured Pillow Seats. (Similar to upper right photo.) The Brougham d'Elegance seats are trimmed in handsome Mansion Knit, available in Light Gray, Black, Dark Blue, Dark Blue-Green and Light Buckskin. Other luxury touches include Mansion-trimmed seat back storage pockets, deep pile carpeting, turbine vane wheel discs, opera lamps, 50/50 Dual Comfort front seats, padded Elk Grain vinyl roof and brushed chrome door mouldings.

Contoured Pillow Seat on d'Elegance.

Opera light on DeVille d'Elegance Coupe.

DeVille d'Elegance. A new expression of comfort—Cadillac Contoured Pillow Seating—is featured in this luxury combination for both Sedan deVille and Coupe deVille. Here it is trimmed in Magnan, a ribbed knit available in Black, Dark Blue, Dark Blue-Green and Light Buckskin, shown above. Starting with distinctive see-through stand-up crest, this is a car of true elegance...with opera lights on the Coupe. Plus...accent striping on the hood, sides and rear deck, deep pile carpeting and 50/50 Dual Comfort front seats.

Cabriolet. Both the Coupe deVille and Coupe deVille d'Elegance are available with the Cabriolet roof. This dramatic vinyl roof design highlights a chrome accent strip, as well as a see-through stand-up crest on the hood.

Specifications

Cadillac and Eldorado

Engine	
8-Cylinder, 90° V-Type	4.300
Bore	4.404
Stroke	4.404
Displacement	500 cubic inches (8.2 liters)
Compression Ratio	.85 to 1
Firing Order	1-5-6-3-4-2-7-8
Mounts	3 points, rubber insulated
Emission Controls	Positive Crankcase Ventilation, Air Injector Reactor, Exhaust Gas Recirculation w/exhaust pressure transducer, Early Fuel Evaporation, Evaporative Control

Note: Air Injector Reactor system and exhaust pressure transducer utilized on California and EFI cars only.

Fuel System	
Carburetion System	4V "Quadrajit"
Fuel Filter	In-line pump & in fuel tank
Pump	Mechanical, in-line

Note: The 1999 Cadillac engine is designed to operate only on unleaded gasoline of 91 Research Octane. The gasoline should also have at least a Motor Octane of 85. Unleaded gasoline is essential for proper emission control system operation, and it will reduce spark plug fouling. The use of leaded gasoline can severely minimize the effectiveness of the emission control system and result in the loss of warranty coverage.

Fuel Injection System	
Type	Speed-density, port injection
Delivery	Time, 2-phase, 4 cyl. each phase
Filter	In-line, 20 micron
Pumps	2 electric (in-line, in-tank)

Fuel Tank	
Capacity	27.5 gallons (approx.)
Emission Controls (For Vapor Control)	Fuel tank vented through charcoal canister

Electrical	
Freedom Battery	12 volt, negative ground, 3500-watt, 66 plates, side terminals. No filler/vent caps
Generator	.63 amp, 80 amp, on Limousine
Voltage Regulator	Solid state, integral with generator

Ignition	HEI with 8-mm silicone insulated wiring
Transmission	
Except Eldorado	'400 Series," 3-speed Turbo Hydra-Matic
Eldorado	'425 Series," 3-speed Turbo Hydra-Matic for front-wheel drive

Propeller (Drive) Shaft	Except Eldorado
Front and rear universal velocity joints	Limousine has additional center constant velocity joint

Rear Axle Differential	Hypoid type with ring gear
Ratio—Standard	2.73 to 1—Except Limousine
—Available	3.15 to 1—Standard Limousine
Available Controlled Differential	Clutch type

Final Drive (Eldorado)	Spiral bevel type
Ratio—Standard	2.73 to 1
—Available	3.07 to 1

Front Suspension	Upper and lower suspension arms
Springs	Coil (torsion bars on Eldorado)
Steering Knuckle	Integral knuckle, arm and caliper support; integral hubs and rotors on spindles (except Eldorado)

	Separate hub and rotor on Eldorado
Bearings	Tapered roller
Stabilizer Bar	Rod and link type
Spherical (Ball) Joints	Wear indicator on lower joints

Shock Absorbers	Hydraulic double action
Rear Suspension	Four-link drive—coil spring
Springs	Coil
Shock Absorbers	Hydraulic double action
Height Control	Automatic Level Control (except Calais & DeVille)

Brakes—Except Eldorado	Disc—drum self-adjusting
-------------------------------	--------------------------

Master Cylinder	Dual hydraulic
Power Booster	—
Except Limousine & Commercial	Tandem vacuum

Limousine & Commercial	"Hydro-Boost" unit correlated with power steering pump
Combination Valve	Front metering valve, pressure differential switch, rear proportioning valve

Front	Ventilated discs
Caliper	Single piston sliding
Rear	Duo servo drums

Drums	12" finned cast iron
Lining Material (Front & Rear)	Molded asbestos
Swept Area (Total)	428.5 sq. in.
Parking Brake	Silent action with vacuum release
Action	Mechanical on rear brakes

Telltale Light	Indicates hydraulic malfunction or parking brake applied
Linings	Audible wear indicators

Brakes—Eldorado	Disc—disc self-adjusting
Master Cylinder	Dual hydraulic
Power Booster	"Hydro-Boost" unit correlated with power steering pump
Combination Valve	Pressure differential switch, rear proportioning valve

Front & Rear	Single piston sliding calipers, ventilated discs
Swept Area (Total)	448 sq. in.
Lining Material (Front & Rear)	Molded asbestos
Parking Brake	Silent action with vacuum release
Action	Mechanical on rear caliper

Telltale Light	Indicates hydraulic malfunction or parking brake applied
Linings	Audible wear indicators

Steering	Variable Ratio Power (Constant Ratio on Limousine)
Damper—Eldorado Only	Hydraulic shock absorber

Overall Ratio	
Calais, DeVille, Brougham	17.8 to 9.1
Eldorado	20.0 to 17.7
Limousine	19.5

Frame	Perimeter type with heavy gauge boxed side rails
--------------	--

Wheels & Tires	
Tires	GM Specification Steel-Belted Radial
Sidewall—Except Limousine	Wide white stripe
Limousine	White stripe
Size—Except Limousine	LR 78-15-B

Safety Features

Occupant Protection	
Seat belts with push-button buckles for all passenger positions	
Two-point combination seat and shoulder belts for driver and right front passenger (with reminder light, buzzer and inertia reel)	
Energy-absorbing steering column	
Passenger guard door locks	
Safety door latches and hinges	
Folding seat back latches	
Energy-absorbing padded instrument panel and front seat back tops	
Contoured windshield header (except Convertible)	
Thick laminate windshield	
Safety armrests	
Safety steering wheel	
Cargo Guard (except Limousine)	
Contoured roof inner panel (except Convertible)	
Glove box and console door latch impact security	
Shield on contoured door and window regulator handles	
Soft, low-profile coat hooks	
Automatic locking front and rear outboard seat belt retractors	
Shoulder belt anchorages for rear seat outboard occupants	
Pressure lock radiator cap	
High-strength front seat anchorages and construction	
High-strength rear seat retention	
Stamped steel door hinges	
Air Cushion Restraint System for front seat occupants (available at extra cost on all models except Limousine and Eldorado Convertible)	

Accident Prevention	
Side marker lights and reflectors	
Parking lamps that illuminate with headlamps	
Four-way hazard warning flashers	
Backup-up light	
Lane change feature in direction signal control	
Windshield defrosters, washer and three-speed wipers	
Wide view inside day/night mirror (vinyl edged, shatter resistant glass and deflecting support)	
Under rearview mirror	
Dual master cylinder brake system with warning light	
Starter safety system (mechanical lockout)	
Front air safety hood latches	
Headlamp aiming access provision	
Low-grade instrument panel top, inside windshield moldings, wiper arms and blades and steering wheel metallic surfaces	
Safety key ring	
Uniform shift quadrant	
No-winged wheel nuts, discs and caps	
Front disc brakes with audible wear indicators	
Self-adjusting brake	
Illumination of windshield wiper and washer, heater/air conditioning and defroster controls	
Pressure relief gas cap	
Anti-theft	
Anti-theft ignition key reminder buzzer	
Anti-theft steering column lock	
Anti-theft key system (one key for ignition only, other key for glove compartment, doors and trunk)	
Visible vehicle identification	
Temper-resistant odometer with telltale feature	

Seville

Engine	8-Cylinder, 90° V-Type
Bore	4.037
Stroke	3.365
Displacement	350 cubic inches (5.7 litres)
Compression Ratio	8.0 to 1
Firing Order	1-8-4-3-6-5-7-2
Mounts	3 points, rubber insulated
Emission Controls	Positive Crankcase Ventilation, Air Injector Reactor, Exhaust Pressure Transducer, Exhaust Gas Recirculation

Lubrication Full-pressure, full-flow oil filter

Fuel System

Induction System	Cadillac Electronic Fuel Injection
Type	Speed-densily, port-injected
Delivery	Timed, 2-phase, 4 cylinders each
Filter	In-line, 20 micron
Pumps	2 electric (1 in-line, 1 in-tank)

Note: The Cadillac Seville engine is designed to operate only on unleaded gasoline of at least 91 Research Octane. The gasoline should also have a Motor Octane of at least 83. Unleaded gasoline is essential for proper emission control system operation and it will reduce spark plug fouling. The use of leaded gasoline can severely reduce the effectiveness of the emission control system.

Fuel Tank

Capacity	21 gallons (approx.)
Emission Controls (For Vapor Control)	Domed fuel tank, charcoal canister

Electrical

Battery	12 volt, negative ground Freedom™ Battery, 3500-watt, sealed top, side terminal, no filler/vent caps, 90 plates
Generator	80 amp
Voltage Regulator	Solid state, integral with generator
Ignition	HEI with 8-mm silicone wiring
Transmission	"400 series" 3-speed Turbo Hydra-Matic

Propeller (Drive) Shaft Rear has constant velocity joint, front of shaft is a single "U" joint

Rear Axle	Salisbury type with 8 $\frac{1}{2}$ " ring gear Ratio—Standard 2.56 to 1 —Optional 3.08 to 1
Optional Controlled Differential	Clutch type

Front Suspension Unequal length upper & lower suspension arms

Springs	Coil
Steering Knuckle	Integral knuckle, arm & caliper support, integral hubs & rotors on spindles

Bearings Tapered roller
Stabilizer Bar 1" diameter, rod & link
Spherical (Ball) Joints Wear indicator on lower joints

Shock Absorbers Hydraulic double action

Rear Suspension	Multiple leaf spring
Stabilizer Bar	$\frac{3}{4}$ " diameter, rod & link

Shock Absorbers Hydraulic double action
Height Control Automatic Level Control

Brakes Disc—drum self-adjusting
Master Cylinder Dual hydraulic
Power Brake Booster8" dual diaphragm vacuum
Combination Valve Front metering valve, pressure differential switch, & rear proportioning valve

Front Caliper Ventilated discs
Rear Single piston floating
Drums Duo-servo drum
Lining Material (Front & Rear) Molded asbestos
Swept Area (Total) 350.8 sq. in.
Parking Brake Silent action with vacuum release
Action Mechanical on rear brakes
Telltale Light Indicates hydraulic malfunction or parking brake applied

Linings Audible wear indicators
Steering Variable Ratio Power
Damper Hydraulic shock absorber
Overall Ratio 16.4-13.8
Wheel & Tire Tilt & Telescoping

Wheels & Tires
Tires GM Specification Steel-Belted Radial
Sidewall Wide whitewall
Size GR 78-15B
Spare GR 78-15B Stowaway
Wheels 15 x 6 JJ

Headlamps Rectangular
Cornering Lights Front fender integral with side marker

Lamp Monitors Standard front & rear

Overall Sizes
Tread Width 61.3 front, 59.0 rear
Wheelbase 114.3"
Overall Length 204.0"
Overall Width 71.8"
Overall Height 54.7"
Shipping Weight (Less Options) 4232 pounds

Noise & Vibration Features
Steering Linkage Damper (Hydraulic Shock Absorber)
Sheet Metal Dampers (Hydraulic Shock Absorbers)
Isoflex Body Mounts
Transmission Rear Support Lateral Strut Rod
Propeller Shaft Tunnel Strap
Rear Leaf Spring Dampers
Insulated Fuel Line Retainers

Safety Features

Occupant Protection
Seat belts with push-button buckles for all passenger positions
Two front seat lap-shoulder belt combination for driver and right front passenger (with reminder light and crumles and inertia reel)
Energy-absorbing steering column
Passenger guard door locks
Safety door latches and hinges
Energy-absorbing padded instrument panel and front seat back tops

Contoured windshield header
Thick laminate windshield
Safety armrests
Safety steering wheel
Cargo Guard
Contoured roof inner panel
Glove box door latch impact security
Smooth contoured door handles
Soft, low-profile coat hooks and dome lamp
Automatic locking front and rear outboard seat belt retractors
Shoulder belt anchorages for rear seat outboard occupants
Pressure lock radiator cap
High-strength front seat anchorages and construction
High-strength rear seat retention
Stamped steel door hinges

Accident Prevention

Side marker lights and reflectors
Parking lamps that illuminate with headlamps
Four-way hazard warning flasher
Backup lights
Lane change feature in direction signal control
Windshield defrosters, washer and three-speed wipers
Wide-view inside day/night mirror (vinyl-edged, shatter-resistant glass and deflecting support)
Outside rearview mirror
Dual master cylinder brake system with warning light
Starter Safety System (mechanical lockout)
Dual action safety hood latches
Headlamp aiming access provision
Low-glare instrument panel top, inside windshield moldings, wiper arms and blades and steering wheel metallic surfaces

Safety wheel rims
Uniform shift quadrant
No-winged wheel nuts, discs and caps
Front disc brakes with audible wear indicators
Self-adjusting brakes
Illumination of windshield wiper and washer, heater air conditioning and defroster controls
Pressure relief gas cap

Anti-theft
Anti-theft ignition key reminder buzzer
Anti-theft steering column lock
Inside hood latch release
Anti-theft key system (one key for ignition only, other key for glove compartment, doors and trunk)
Visible vehicle identification
Tammer-resistant odometer with telltale feature
