Cadillac, America's luxury car leader for 38 consecutive years, is proud to feature famous American landmarks in this catalog.

LEADERSHIP

THERE IS A NEW SPIRIT THAT DRIVES CADILLAC

A spirit that drives us to improve upon an already proud tradition. Because in this age of changing attitudes, Cadillac is leading the way in creating a balanced definition of the luxury car that incorporates new values in a uniquely Cadillac way.

Cadillac's interpretation of the contemporary luxury automobile depends on the following: every quality of a Cadillac must serve to enhance your driving comfort and convenience.

This intrinsic value manifests itself again and again in our products.

THE MOST ELOQUENT DESIGN STATEMENT

Examine the trim, elegant styling of a new Cadillac. It demonstrates that at Cadillac we believe the most eloquent design statement is elegance without excess.

A WORLDWIDE CADILLAC EXCLUSIVE

A new-generation Cadillac with a front-drive, transverse-mounted V8 engine retains an open, spacious atmosphere. This worldwide Cadillac

exclusive saves valuable space which, in turn, is passed along to the passenger compartment.

Other leading-edge technology actually anticipates your needs. Witness the sensor that measures the amount of sunlight entering the car. The Body Computer Module (BCM) then automatically adjusts the electronic climate control.

The accommodating BCM also allows the uninterrupted use of stereo radio, power windows and other power conveniences up to 10 minutes after you turn off the ignition, or until a door is opened.

BALANCED PERFORMANCE

Responsive road manners. Silky ride comfort. These qualities are not mutually exclusive in a Cadillac with front-wheel drive and four-wheel independent suspension.

This unique balance of performance parameters results in handling that is always precise, but never harsh. And every Cadillac is fitted with a V type engine for response that is as spirited as it is smooth.

OUR COMMITMENT TO YOUR SECURITY

Now for 1987 our commitment to your security extends to an advanced Anti-Lock Braking System standard on the all-new Fleetwood Sixty Special, available on select other Cadillac models. And our all-new ultra-luxury

roadster, Cadillac Allanté, has one of the world's most sophisticated Anti-Lock Braking Systems in production today (Bosch ABS III).

THE ULTIMATE COMFORT: PEACE OF MIND

When you look at a Cadillac, you see a reflection of your own high standards.

There's the peace of mind of Cadillac's new 5-year/50,000-mile limited warranty for every De Ville, Touring Edition, Fleetwood d'Elegance, Fleetwood Sixty Special, Fleetwood Seventy Five Limousine, Eldorado, Seville and Brougham.*

After all, another word for a company's confidence in a product's quality is warranty. And another word for quality is Cadillac.

Cadillac for 1987. The spirit of luxury leadership.

*In some cases, a deductible applies. See your dealer for details.

ALLANTÉ

Allanté leather seating.

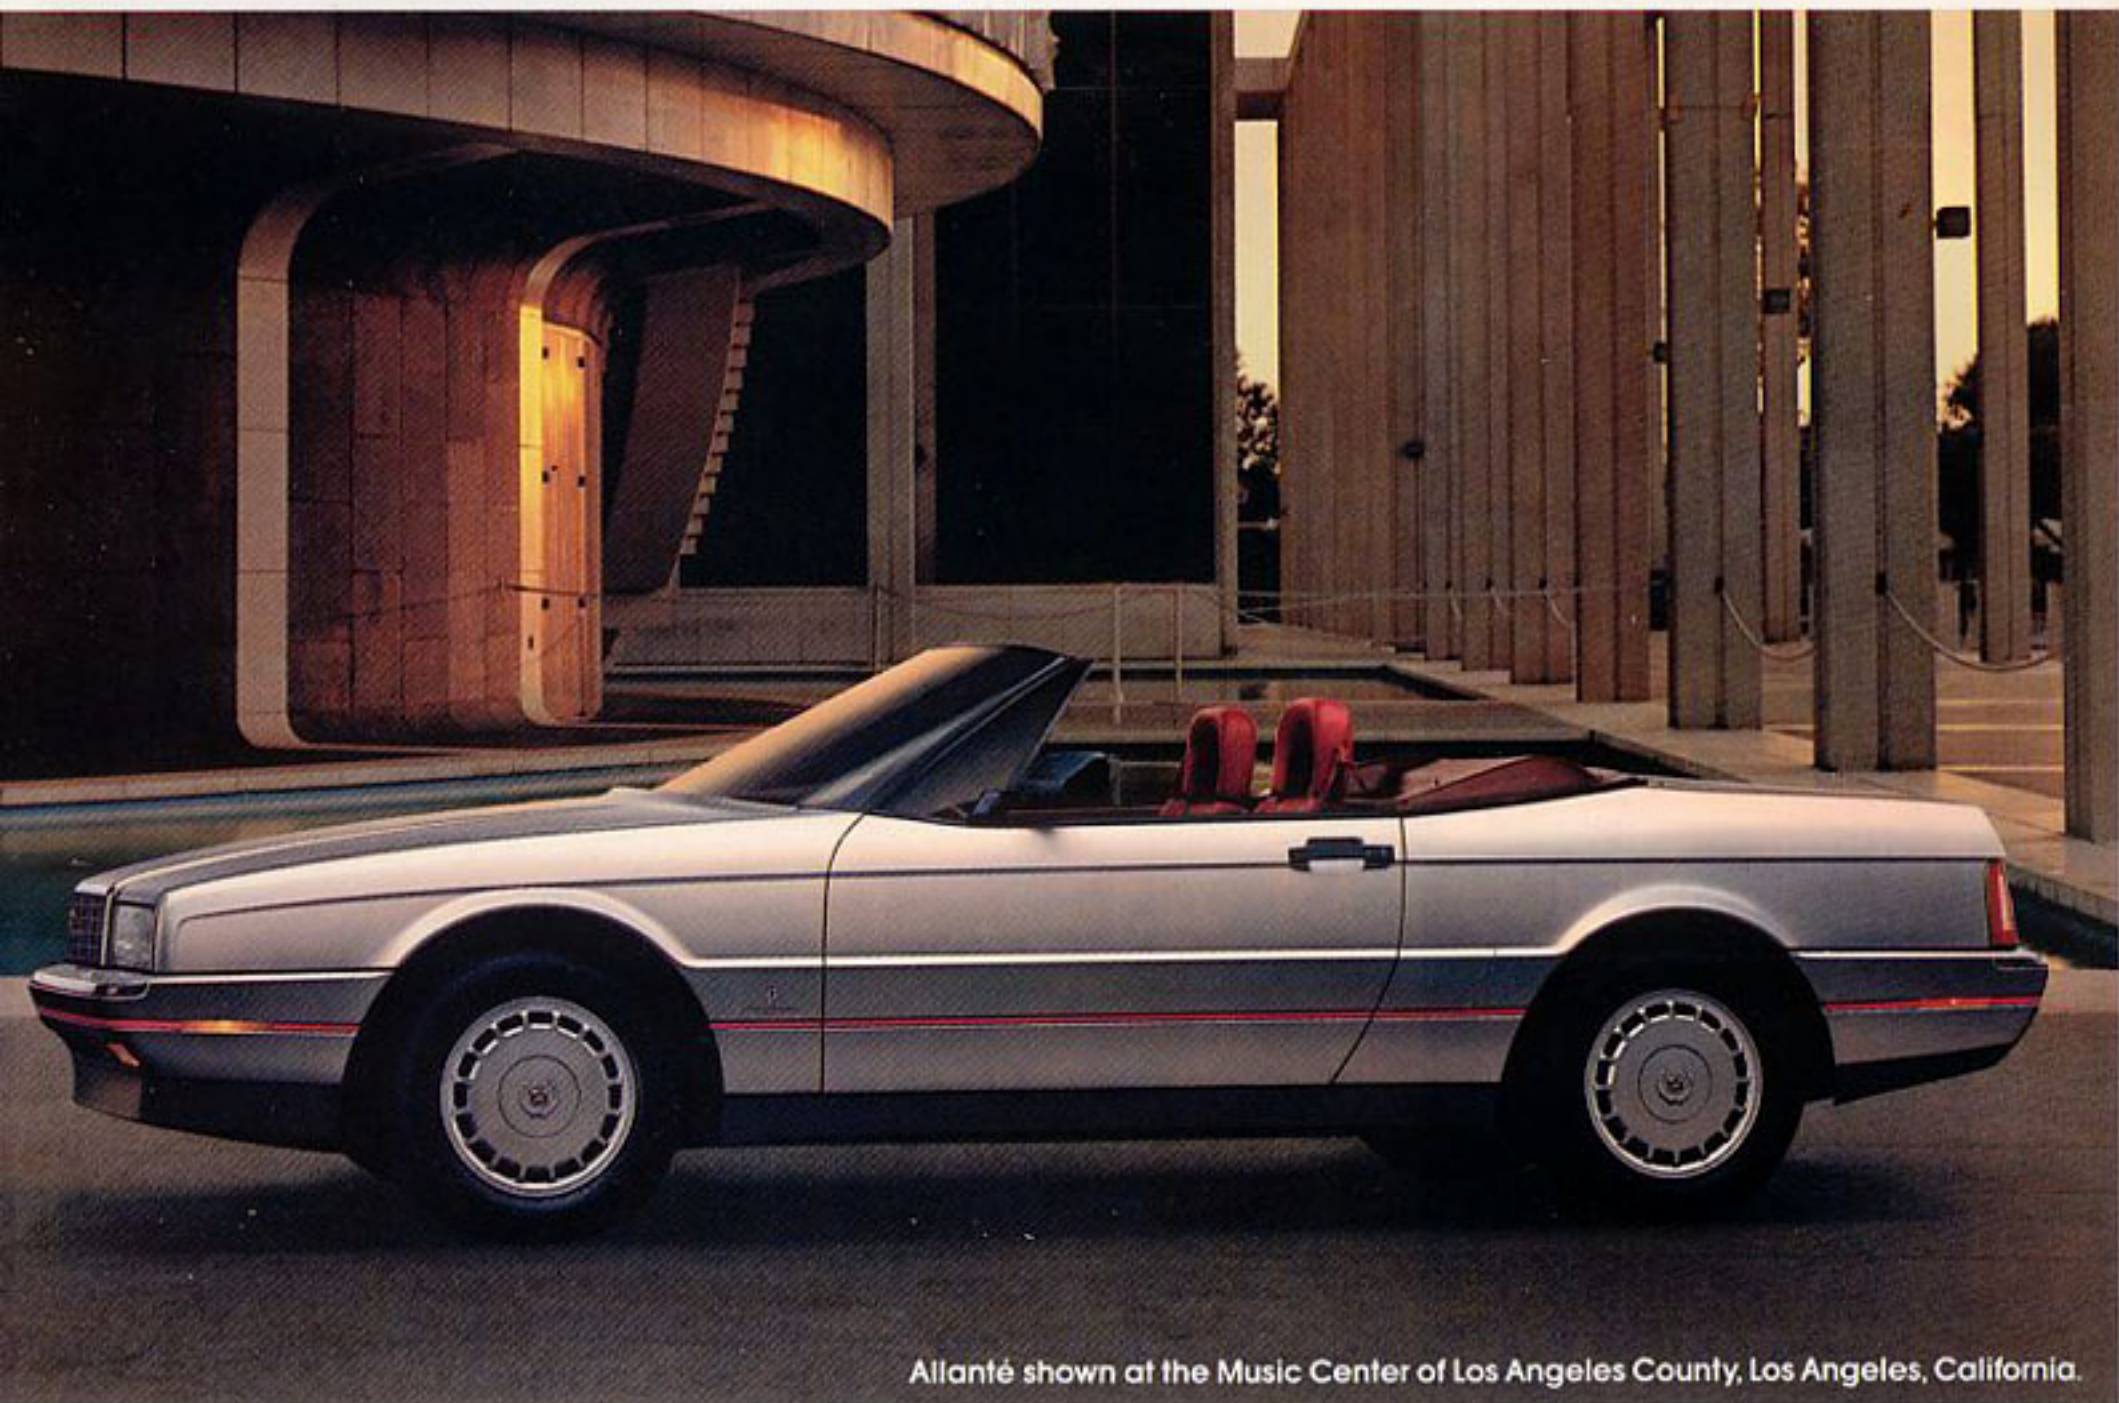

Presenting Allanté, the new spirit of Cadillac.

It is a luxury roadster unlike any that has come before it.

Conceived and commissioned by Cadillac, the world's recognized luxury leader. Coachwork designed

and handcrafted by Pininfarina, master designer of the Ferrari Testarossa and Rolls-Royce Camargue.

The sculptured hood conceals a high-output V8 engine with sequential port fuel injection, for exceptional reserves of smooth power. Handling

Allanté shown at the Music Center of Los Angeles County, Los Angeles, California.

is always precise, never harsh. And only Allanté has the stopping power of the new Bosch III Anti-Lock Braking System, one of the most advanced in production.

Allanté is designed for your total comfort and control. From ten-way

Recaro seats handfitted with Italian leather to Allanté's unique analog-digital instrumentation.

With the top down, Allanté's advanced aerodynamics allow you to hold a normal conversation at 55 miles per hour. Put the hardtop on

(no tools required) and Allanté exhibits the quality of an international-class sedan. Even Allanté's folding convertible top is specially designed to incorporate three glass windows, for enhanced visibility and longevity. Allanté's only extra-cost option is a cellular telephone.

SEDAN DE VILLE

Sedan de Ville with available leather seating areas.

Sedan de Ville for 1987 is the contemporary spirit of Cadillac, demonstrating our belief that today's luxury cars should reflect today's values.

The new longer exterior strikes a delicate balance between fluid,

contemporary form and classic Cadillac lines.

At the same time, those Cadillac hallmarks of six-passenger spaciousness, craftsmanship and fine quality materials remain intact.

Sedan de Ville shown at the Detroit Institute of Arts, Detroit, Michigan.

Comfort. The word takes on new meaning in the 1987 Sedan de Ville. Beyond full-size room for six adults, a smooth, quiet ride, and six-way power seat. To a sense of comfort you feel inside, knowing you're in complete command. With the all-weather traction of front-wheel drive.

The responsiveness of power rack-and-pinion steering and four-wheel independent suspension. The acceleration of a fuel-injected 4.1 liter V8 engine.

And the stopping power of Cadillac's available Anti-Lock Braking System,

which takes the panic out of panic stops by automatically pumping your brakes so you can maintain steering control and actually stop quicker.

Comfort...in all respects. That's the contemporary spirit of Cadillac.

COUPE DE VILLE

New standard Confessa/Royal Prima interior trim.

The two-door version of America's most popular luxury car.

Advanced technology enhances traditional Cadillac virtues. Exclusive front-drive, transverse-mounted V8 helps yield full-size room for six adults.

Sleek door-into-roof design not only enhances the appearance outside, it actually makes Coupe de Ville quieter inside.

A more powerful body computer module now lets you operate the

Coupe De Ville shown at the Vizcaya Museum and Gardens, Miami, Florida.

wipers and radio as well as the available trunk release and the power windows, up to ten minutes after the ignition is shut off, or until a door is opened.

And now, Cadillac's new longer 5-year/50,000-mile limited warranty*

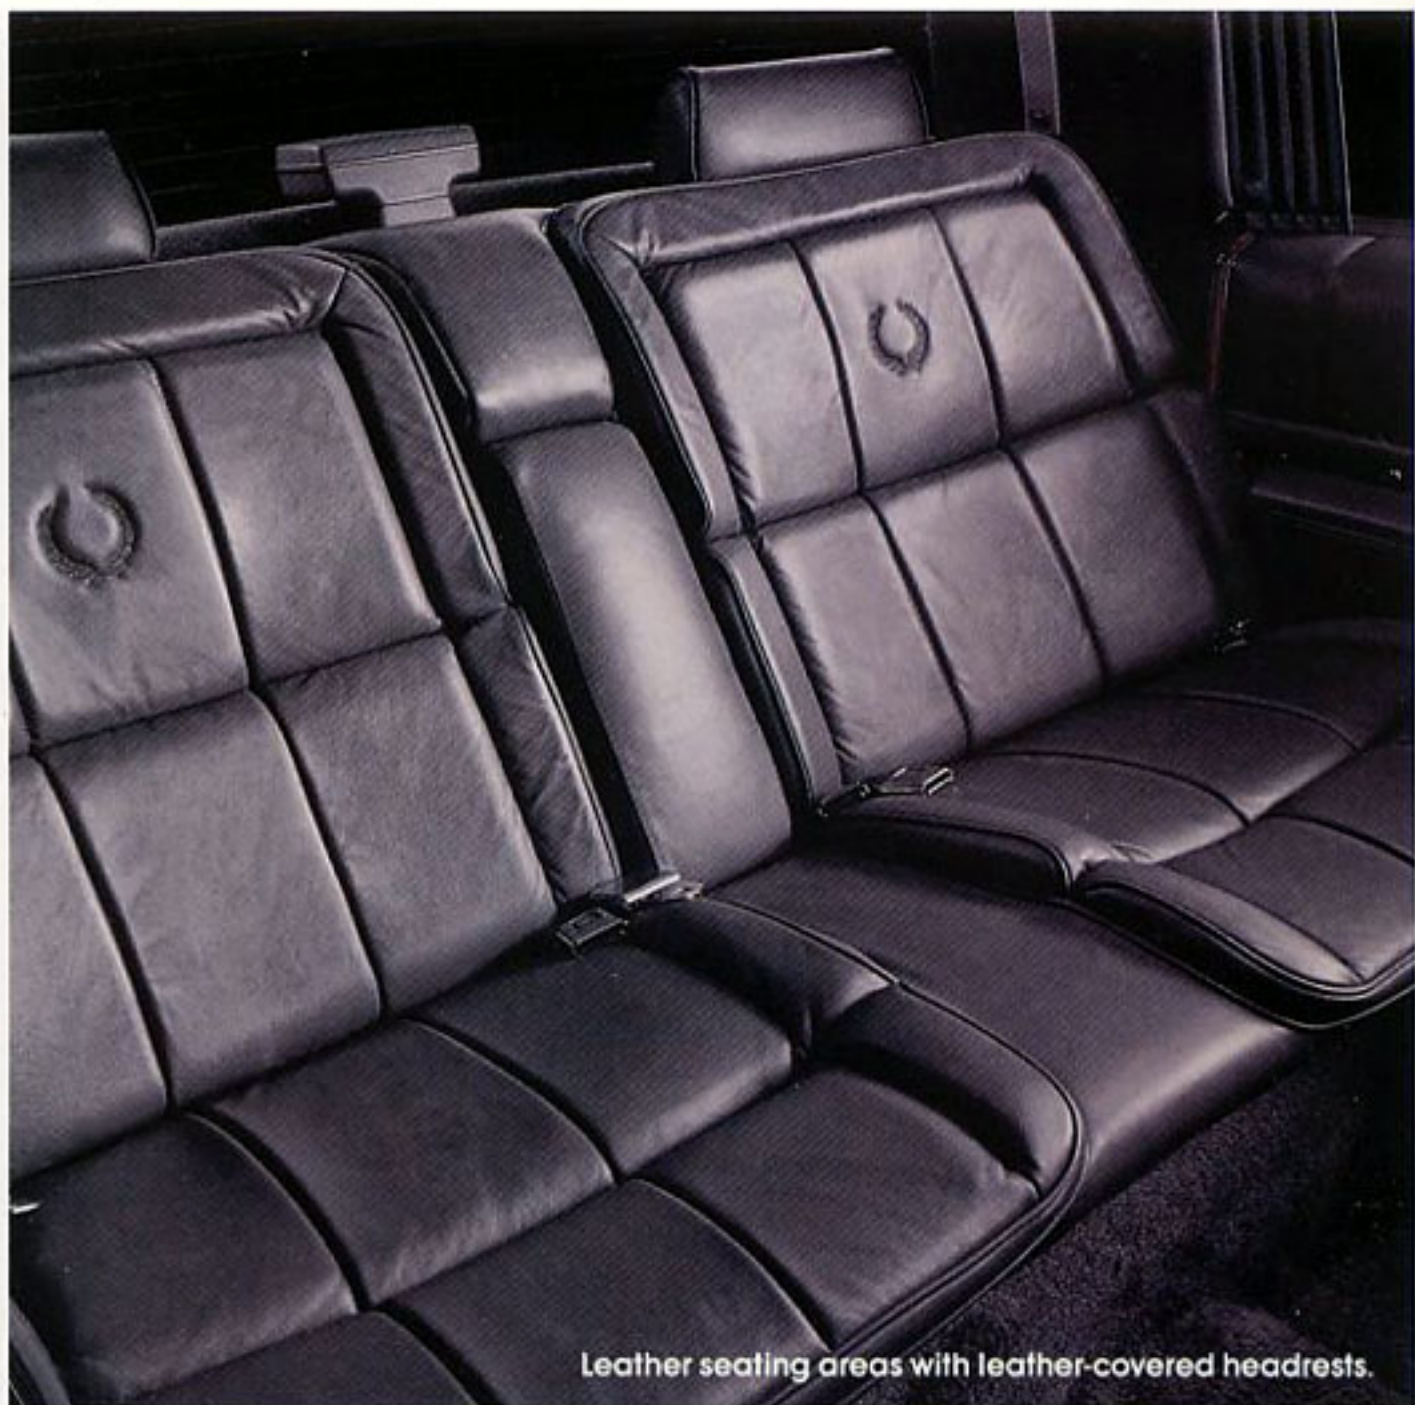

which also includes 5-year/100,000-mile corrosion (rust-through) coverage for body sheet metal panels.

All this, plus available features like Anti-Lock Braking and a cellular telephone that mutes the radio for you.

And to cap it all off, exclusively on Coupe de Ville, you have three available roof treatments to choose from: Cambria cloth, the Formal Cabriolet or the Full Cabriolet roof with its convertible-like appearance.

*In some cases, a deductible applies. See your dealer for details.

TOURING EDITIONS

Leather seating areas with leather-covered headrests.

The Cadillac Touring Sedan and Touring Coupe are designed for people who want exceptional response combined with Cadillac comfort and convenience.

Performance Enhancement Package refinements to the powertrain

provide added horsepower and torque for impressive off-the-line response. The suspension is retuned to maximize the benefits of high-performance Goodyear Eagle GT tires on 15" aluminum alloy wheels,

Touring Sedan shown at the Hoover Dam, Boulder City, Nevada.

solid front and rear stabilizer bars, higher spring rates and faster ratio steering.

From the front air dam with its integral fog lamps to the rear deck lid spoiler, these Touring Editions are a new breed of Cadillac.

Because these are performance cars in the Cadillac context, they go beyond the expected and deliver a superior degree of comfort as well.

With soft, supple leather in the seating areas. On the headrests, both

front and rear. On the steering wheel. The automatic shift lever and the tilt steering wheel lever.

The contemporary spirit of Cadillac. Touring Coupe and Touring Sedan for 1987.

FLEETWOOD D'ELEGANCE

Fleetwood d'Elegance interior with available leather seating areas.

The newly styled, longer Fleetwood d'Elegance is the sophisticated spirit of Cadillac.

As its name implies, the distinctive character of this Cadillac is rooted in elegant styling refinements: Formal Cabriolet roof, opera lamps, wire

wheel discs and new grooved lower body side moldings.

And it is the new composite tungsten halogen headlamps which simultaneously enhance aerodynamics while bringing added styling distinctiveness.

Fleetwood d'Elegance shown at the High Museum of Art, Atlanta, Georgia.

Inside, start with the digital instrument cluster, trimmed with genuine American walnut. Move to the padded steering wheel, tailored with leather. Glance up at the visors, with hidden extenders that cover behind the rearview mirror. And the Fleetwood

d'Elegance script on the glove box. Luxury abounds. In the multi-buttoned d'Elegance seating. In the six-way power front seat adjusters for driver and front passenger. In the convenience of rear-seat reading lamps

and power door lock switches. And thoughtful little touches like integral map pockets in the front doors. Full-size luxury has never been more sophisticated than Fleetwood d'Elegance.

FLEETWOOD SIXTY SPECIAL

Fleetwood Sixty Special interior showing rear footrests and available leather seating areas.

The new Cadillac Fleetwood Sixty Special belongs to an executive class of Cadillacs. It has an extended wheelbase which immediately signals the status of this exclusive Cadillac. Its increased length enhances ride comfort and creates

a rear seat of limousine-like proportions.

At the same time, the Fleetwood Sixty Special has the impressive traction and handling of front-wheel drive and four-wheel independent suspension. And as standard equip-

Fleetwood Sixty Special shown at the Folger Shakespeare Library, Washington, D.C.

ment, the superior control of an advanced Anti-Lock Braking System. As you step across the inscribed door sill plates, it becomes readily apparent why the Fleetwood Sixty Special sets a new standard in executive transportation.

Deep-pile Tampico carpeting spans the lengthened floor, its acoustical insulation adding to the quiet elegance. Carpeted footrests impart a sense and look of comfort and exclusivity.

Overhead, the convenience of a vanity console with two illuminated

vanity mirrors for rear seat passengers.

Doors and instrument panel are trimmed in authentic American walnut.

A very sophisticated addition to the new executive class of Cadillacs.

FLEETWOOD SEVENTY
FIVE AND SEVENTY FIVE
FORMAL LIMOUSINES

Fleetwood Seventy Five Limousine interior showing supplemental seating.

As corporate America has become increasingly sophisticated in its worldwide scope and vision, the Cadillac Limousines have become equally as sophisticated.

The Fleetwood Seventy Five

Limousines incorporate the latest advances in Cadillac technology. A front-drive, transverse-mounted 4.1 liter V8 engine. Electronic Level Control. Independent four-wheel suspension. Digital instrumentation. On-board computer diagnostics.

Fleetwood Seventy Five Limousine shown at Shubert Alley, New York, New York.

Yet, they also preserve such traditional Cadillac amenities as rear-passenger controls for the electronic climate control. A closed-in rear window for greater privacy. A convenient door unlatch button for

rear-seat passengers. Rear prefocused reading lamps. Thoughtful passenger assist handles. And seating for eight in the Fleetwood Seventy Five Limousine.

With its sliding glass center partition, the Fleetwood Seventy Five Formal Limousine seats seven and includes separate air conditioning for rear seat passengers.

ELDORADO

Eldorado interior with available leather seating areas.

Eldorado for 1987, the driving spirit of Cadillac, is designed for people who would rather drive than ride.

A front-drive, transverse-mounted V8 engine with 4.1 liters of power responds instantly with fuel-injected precision. The four-wheel independent suspension delivers impressive

control with a minimum of body roll and sway, even on tight highway entrance ramps. While power-assisted rack and pinion steering delivers an optimal combination of driver feedback on the open road

Eldorado shown at the Kitt Peak National Observatory, Kitt Peak, Arizona.

and power assistance in tight parking situations.

The Digital Instrument Cluster and Driver Information Center are displayed in an instrument panel framed in available genuine American walnut. Front bucket seats are crafted of leather and Cashmere

cloth seating areas, with six-way power adjustment for driver.

The Biarritz is the most sumptuous Eldorado.

Distinctive, from the Cabriolet roof and limousine-style rear window to the two-tone paint treatment.

Front bucket seats with six-way power adjusters, power recliners and power lumbar support. And more.

But to fully understand why we call Eldorado the driving spirit of Cadillac, you have to experience one. And the only place to do that... is behind the wheel.

SEVILLE

Seville interior with available leather seating areas.

Seville for 1987 is the elegant spirit of Cadillac.

Upon closer inspection, you will see remarkable engineering advancements and electronic features.

The reassuring traction and space-efficiency of a front-drive,

transverse-mounted 4.1 liter V8 engine—a worldwide Cadillac exclusive. Confidence-inspiring four-wheel disc brakes and power-assisted rack and pinion steering. The supreme comfort of refined four-wheel independent suspension.

Seville shown at the Adler Planetarium, Chicago, Illinois.

A combination of leather and Cashmere cloth graces the seating areas.

In addition to genuine American walnut on the instrument panel, a standard twilight sentinel remembers to turn your lights on and off, plus an electronic climate control with a sensor monitors the amount of sunlight

coming through the windshield and adjusts the airflow accordingly.

If genius is in the details, it can surely be found in the 1987 Seville.

Seville Elegante is the most elegant expression of the most elegant Cadillac sedan.

Exclusive "mid-tone" color scheme adds to visual distinction.

Inside, carefully tailored leather and Mayfair cloth bucket seats comfort front-seat occupants with six-way power adjustments, power recliners and power lumbar supports.

Seville. The elegant spirit of Cadillac.

BROUGHAM D'ELEGANCE

Brougham d'Elegance interior with available leather seating areas.

This is the classic spirit of Cadillac. Brougham for 1987.

With the longest wheelbase of any regular American production car, except the Cadillac Fleetwood Seventy Five Limousine, cruising down the interstate is pure luxury.

Under the hood there's a four-barrel 5.0 liter V8 engine so powerful you can (when properly equipped with the available trailering package) take an additional 5,000 pounds' worth of trailer or boat along for the ride (including cargo). Plus, there's

Brougham d'Elegance shown at the Academy of Music, Philadelphia, Pennsylvania.

19.5 cubic feet of usable trunk space. Not to mention Brougham's new longer 5-year/50,000-mile limited warranty.*

The Brougham d'Elegance interior offers ample room for six adults, with

plush, multi-buttoned seating. Six-way power seat adjusters for driver and front passenger. Adjustable rear-seat reading lamps. Electronic climate control. An electronically tuned AM/FM stereo radio.

The rear-wheel-drive Brougham

continues to be among the most popular of luxury cars, crafted in the finest Cadillac traditions.

Brougham for 1987. The classic spirit of Cadillac.

*In some cases, a deductible applies. See your dealer for details.

CIMARRON

Standard Cimarron interior with leather seating areas.

There's a sporty spirit at Cadillac, and it's called Cimarron for 1987.

Consider a 47% increase in horsepower over last year's standard engine, with a 2.8 liter, multi-port fuel-injected V6. There's a new,

smooth-shifting 5-speed manual transmission with overdrive. Or, if you prefer, an available three-speed automatic. Plus Bilstein-Delco gas-charged suspension for tenacious road handling.

Cimarron shown at the Laumeier Sculpture Park, St. Louis, Missouri.

Cimarron for 1987. Competitive in performance. Cadillac in appearance. With tungsten halogen composite headlamps and wraparound turn signals highlighting the distinctive front-end styling. Inside, genuine leather covers the

seating areas, the tilt steering wheel and the transmission shifter. The electronically tuned AM/FM stereo radio includes seek and scan (may be deleted for credit). The six-way power driver's seat incorporates lumbar and lateral supports.

Push-button air conditioning, cruise control, power door locks, windows, steering and brakes, even remote-control outside mirrors, they're all included at no additional cost.

Cimarron for 1987. The sporty spirit of Cadillac.

ALLANTÉ

SELECTED STANDARD FEATURES, AVAILABLE FEATURE; SPECIFICATIONS

STANDARD FEATURES:

ROOF TREATMENTS

Aluminum Hardtop with Three Glass Windows—Removable. No Tools Required. Rear Glass Electrically Heated.

SOUND SYSTEMS

The driving pleasure of the new 1987 Cadillac is greatly enhanced by Delco Electronics Sound Systems. This radio is designed with the same technology and expertise that are utilized in the design of engine computers and many other automotive electronic devices.

This world-class audio technology provides the discriminating Cadillac owner the level of comfort and enjoyment expected when driving a Cadillac.

All Cadillac receivers are electronically tuned (ETR) and equipped with four speakers. They include station seeking and scanner, push-button selection for four AM and four FM stations, a detented frequency control knob, station frequency and time on a digital display (time shown on Driver Information Center—Allanté, Eldorado and Seville), and a front-rear fader. (Radio delete option for Cimarron.)

STANDARD:

Delco AM/FM Stereo Radio. In addition to the standard features (above), this receiver has a right-left balance control, individual bass and treble controls, and a built-in loudness (bass boost) circuit.

High-performance front speakers (extended frequency range in Brougham [RWD]) and improved extended frequency range rear speakers are standard, along with a power antenna.

AVAILABLE:

Delco AM Stereo*/FM Stereo receiver with cassette tape player and five-band graphic equalizer. Available for all Cadillacs except Brougham and Allanté.

Owners can tune AM stations that now broadcast in C-Quam stereo along with monaural (normal) AM stations (plus FM and FM stereo).

The receiver also includes a quality cassette tape player featuring automatic tape reverse, Music Search (repeat last selection or skip to next selection), buttons to lock in fast-forward or reverse, lighted tape side indicators, and a tape equalization switch for ferric, CrO₂ and metal tapes.

The five-band graphic equalizer (in place of conventional bass and treble controls) offers control at 60Hz (bass), 250Hz (mid-bass), 1KHz (mid-range), 3.5KHz (mid-treble) and 10KHz (treble). Each slider gives ± 12 dB control over approximately two octaves of range.

*Receives C-Quam® AM stereo broadcasts. Most AM stereo stations across the country broadcast in C-Quam® but some do not. Check with your local stations for compatibility in your area.

Delco Electronically Tuned Receiver with Cassette Tape Player. New for 1987 and available only in Brougham (RWD), includes a built-in loudness (bass boost) circuit along with separate bass and treble tone controls.

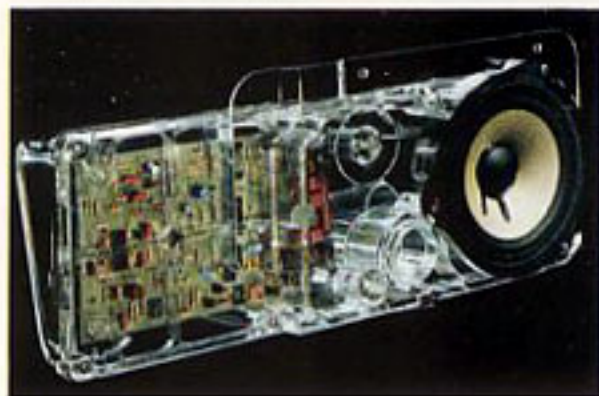

The quality cassette tape player features automatic reverse, lock-in fast-forward or reverse and lighted tape direction indicators.

AM/FM Stereo Cassette with Rear Control. Available only on Fleetwood Seventy Five Limousine. A rear control panel makes these functions—on/off and volume knob (with a power-on indicator), a right-left balance control knob, frequency scan control for the radio, and cassette tape player controls—convenient to rear passengers.

The Universal Citizens Band Transceiver. Available on De Ville, Fleetwood d'Elegance and Fleetwood Sixty Special. Not available with Delco-GM/Bose System. Includes 40-channel CB transceiver, microphone and Tri-Band antenna. CB controls (volume, mode [off/on-monitor], squelch, tuning and CB channel display) located on removable microphone.

Delco-GM/Bose Symphony Sound System. Standard on Allanté. Cadillac's ultimate stereo is customized to the exact dimensions and acoustical characteristics of your Cadillac. Includes four separate amplifiers and speakers, each in its own special enclosure. (Four amplifiers in the trunk on Cimarron.) Also includes Integral Cassette Tape Player with Auto Reverse, Tape Equalization, Dynamic Noise Reduction (DNR™), Dolby® Tape Noise Reduction, Full-Time Loudness Control and more.

SAFETY FEATURES

OCCUPANT PROTECTION

- Manual lap/shoulder safety belts for driver and right front passenger; driver side includes visual and audible warning system
- Manual lap safety belts at each rear seat position (except Limousine auxiliary seats) and center front, when applicable
- Energy-absorbing steering column
- Energy-absorbing instrument panel
- Energy-absorbing front seatback tops
- Laminated safety windshield glass and tempered safety side and rear window glass. (Inner Shield Windshield on Allanté, Seville and Eldorado)
- Safety interlocking door latches
- Passenger-guard inside door lock handles
- Inertia-locking, folding front seatbacks on two-door models
- Safety armrests
- Head restraints, driver & right front passenger (adjustable)
- Dual sun visors
- Smooth contoured door handles
- Pressure lock radiator cap

ACCIDENT AVOIDANCE

- Side marker lights and reflectors
- Parking lamps that illuminate with headlamps

- Four-way hazard warning flasher
- Back-up lights
- Center high-mounted stop lamp
- Directional signal control with lane change feature
- Windshield defroster, washer and dual-speed wipers. (3-speed on Brougham) (Controlled-cycle wipers on Allanté, Seville, Eldorado and Cimarron)
- Inside rearview mirror with vinyl-bonded glass
- Outside left and right rearview mirrors
- Brake system with dual master cylinder and warning light
- Starter safety switch
- Dual-action hood latch system
- Low-glare finish on instrument panel top, inside windshield moldings, wiper arms/blades, metallic steering wheel surfaces
- Illuminated heater and defroster controls
- Illuminated windshield wiper and washer controls if on instrument panel
- Tires with built-in tread-wear indicators
- Safety road wheel rims
- Audible brake lining wear indicators, all disc brakes
- Self-adjusting brake feature
- Pressure relief fuel cap

THEFT DETERRENCE

- Audible reminder for ignition key removal
- Theft-deterrent steering column lock
- Visible vehicle identification number
- Theft-deterrent system standard on Allanté (Available on De Ville, Fleetwood d'Elegance, Fleetwood Sixty Special, Fleetwood Seventy Five Limousine, Seville, Eldorado and Brougham)
- Remote inside hood release
- Theft-deterrent key system (separate ignition key)

CADILLAC'S GOLD KEY DELIVERY SYSTEM

Cadillac's Gold Key Delivery System begins with a thorough inspection of your Cadillac—but that's not all. You also receive an

orientation drive with your sales representative. A thorough explanation of your new Cadillac. An audio cassette of important information (factory-installed cassette tape player optional). And a full tank of fuel. Plus two sets of 23-karat gold-plated keys along with a personalized Gold Key Identification Card.

At your convenience, or at your first regularly scheduled maintenance visit, you can request an exclusive Gold Key vehicle inspection at no additional charge.

FINANCING OR LEASING, IT'S AS EASY AS GMAC.

The good feeling that comes when you buy or lease a new Cadillac can be enhanced when it comes to making the financial arrangements.

Which is why so many people finance with General Motors Acceptance Corporation. With GMAC it's done right in the showroom. Terms are tailor-made to suit your personal needs. You can choose your own monthly payment date. And the rates are friendly as can be.

So when the time comes, just tell us "I want GMAC." We'll take it from there while you relax.

You'll be in good company. All told, nearly 100 million cars and trucks have been financed the GMAC way. The easy way whether you buy or lease.

A WORD ABOUT THIS CATALOG

Cadillac Motor Car Division reserves the right to make changes at any time, without notice, in prices, colors, materials, equipment, specifications and models. Check with your Cadillac dealer for complete information.
