

1995 Honda Vehicles

*Life is a series of adventures
connected by roads.
What will you be driving?*

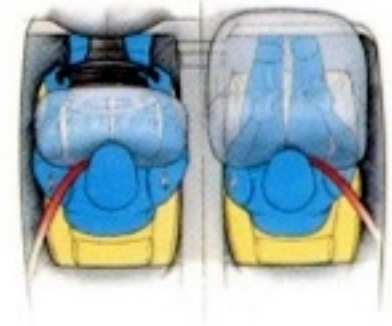

1995 Honda Vehicles A Honda is a car with spirit. A car that shares your needs and wants. Where attention to detail is paramount. Reliability is a standard feature. And fun is not forgotten. Do you prefer two doors or four? A hatchback or four-wheel drive? There is a Honda here for you.

And chances are the Honda you choose was created by any of the 14,000 men and women who

design, manufacture and market Honda products right here in America. In fact, five out of every seven Hondas sold in America are manufactured in the U.S. and Canada. And over the last decade, we've invested more than three billion dollars in U.S. operations. It's yet another way Honda continues to raise the standard by which all cars are measured. And remain a car ahead.

A Car Ahead. This has been a Honda design philosophy through the years. We strive to achieve our goals by always placing our customers ahead. That is why you will find dual airbags in all Accord, Civic, del Sol, Prelude and Odyssey models. As well as advanced double wishbone suspension systems. And high-quality, dependable engines famous for smoothness and efficiency. These are examples of technology that makes a difference.

The Accord Sedan.

One of life's

finer pleasures.
