2009 **RDX**

FORGET PAST AUTOMOTIVE EXPERIENCES.  
LOOK BEYOND CURRENT EXPECTATIONS.  
CHALLENGE. DISCOVER. ASPIRE. ADVANCE.

ADVANCE IS NOT JUST ABOUT MOVEMENT,  
IT IS ABOUT PROGRESS.

It is seeing a curve in the road and envisioning a whole new way through it. It is rejecting the inevitability of traffic and instead doing something about it. It is about creating transformative technologies like Super Handling All-Wheel Drive™ (SH-AWD®) and navigation with both AcuraLink® real-time traffic and weather. It is about finding inspiration beyond the world of current automotive design. It is using premier race circuits as testing grounds for our ideas. Advance is not about reacting to the way things are today, it is about anticipating what's next. In performance. In technology. In safety. In design. All for the purpose of heightening anticipation for your next drive.

We race to win. And in our very first start as a factory team, an Acura American Le Mans car took the top spot in the 2007 Twelve Hours of Sebring. This year, as we build on all we learned, we continue a commitment to constant advancement and of testing technology at the highest level, so we can one day bring it to you.

THOUGH NOT INTENDED  
FOR THE SHOWROOM,  
ITS COMBINATION OF PRECISION  
AND PASSION SIGNALS  
THE FUTURE OF ACURA DESIGN.

BUILT WITH THE CAPACITY TO HOLD YOUR MOST VALUED POSSESSIONS.

THINGS LIKE PASSION,  
SPONTANEITY,  
CONFIDENCE, JOY.

The 2009 Acura RDX. With its spirited performance, leading-edge technology and breakthrough design, it advances the idea of what a crossover SUV can do.

**Crafted to connect.**

The progressive nature of the RDX is equally recognizable to everyone it passes on the highway, and to anyone who settles into its cabin. And while its aesthetic may be modern, it is anything but cold. The vehicle's memory system can recognize two distinct driver profiles and welcomes you aboard by adjusting the driver's seat and outside mirrors to your individual preference the moment you open the driver's door.

Heated front seats and a dual-zone climate control system further provide for your ideal comfort. Opt for the Technology package and the vehicle's GPS capabilities will even keep track of the movement of the sun and automatically adjust the climate control accordingly.

## CAN STEEL AND ALUMINUM STOKE THE FLAMES OF PASSION?

**Immediate response.  
Lightweight efficiency.  
Uninterrupted power.**

As quickly as the impulse for action arises, the RDX responds. Open the throttle and the turbocharged engine reacts with immediate acceleration. The familiar problem of turbo lag has been nearly eliminated. The trick is to get the turbo spinning quickly at low engine speeds. To accomplish this, a valve narrows the air passage to increase the air's velocity. As the engine speed increases, the valve opens, allowing the increased air volume to flow freely. This keeps turbine speeds consistently high throughout the power curve for power on demand whenever you need it.

The satisfying immediacy of power output is also aided by the engine's i-VTEC system that micro-manages the timing and lift of the intake valves. The result is a big dose of torque off the line and elevated horsepower down the road.

The foundation of  
precise handling.

As adept as the RDX's turbocharged engine and Super Handling All-Wheel Drive (SH-AWD) are at generating exhilaration, without a strong foundation, a lot of that potential would be lost. The extensive use of high-tensile steel in key areas of the chassis gives the RDX class-leading rigidity and helps lower the center of gravity for more nimble cornering.

Taking full advantage of this strong foundation is a 4-wheel independent suspension system tuned to provide a taut response. Quick-ratio steering and a turbo-tuned transmission that can hold lower gears longer during sport-oriented driving also help give the RDX the kind of moves that contradict its SUV classification.

## THE LIST OF ANTICIPATORY SYSTEMS EVEN INCLUDES SUPER HANDLING ALL-WHEEL DRIVE.

Dry-weather performance.  
Foul-weather stability.  
Exhilarating response.

Because every driving situation you encounter is unique, the RDX's Super Handling All-Wheel Drive is uniquely qualified for the job. Unlike most systems that only react to wheel slippage, SH-AWD is also an active participant in the delivery of precise handling. Anticipating where more traction is needed in a variety of situations, such as accelerating through a curve, it distributes power to the appropriate wheels even before any slippage occurs.

When you take a corner, the system can also send up to 100% of available rear-wheel torque to the outside wheel and spin that wheel slightly faster. The combination of these two actions substantially increases the vehicle's turning force while providing greater stability and control.

Hands-free connectivity.  
Voice Recognition

Taking charge of a vehicle as thrilling as the RDX shouldn't keep you from connecting with other avenues of enjoyment in your life. With an available Technology package that includes voice recognition, simply press the steering wheel-mounted voice control button and you have intimate control of a number of vehicle systems. Whether you desire directions, a favorite song or an ideal temperature, your word is the RDX's command.

**DESTINATION DATABASE** :::

See current information on 7,000,000 points of interest, from the nearest ATM to local hotels right on the screen of the available navigation system.<sup>2</sup>

**ZAGAT SURVEY® RESTAURANT REVIEWS** :::

Get trusted recommendations, complete with food, service and decor ratings with this feature of the available navigation system.

**BLUETOOTH® HANDSFREELINK®** :::

Link your compatible Bluetooth®-enabled mobile phone and you can make and receive calls without taking your hands off the wheel.<sup>3</sup>

**AUDIO SYSTEM CONTROLS** :::

The RDX's ability to recognize a vast list of commands lets you verbally control most of the functions of the vehicle's audio system.

**ACURALINK REAL-TIME TRAFFIC** :::

The available navigation system quickly communicates traffic flow as well as collisions, road construction and weather-related incidents.<sup>4</sup>

**DUAL-ZONE CLIMATE CONTROL** :::

Simply voice your preference and the system will adjust the temperature to accommodate each front occupant's individual choice.

**ACURALINK REAL-TIME TRAFFIC** AN EASY-TO-READ COLOR-CODED SYSTEM QUICKLY COMMUNICATES TRAFFIC FLOW AS WELL AS COLLISIONS, ROAD CONSTRUCTION AND WEATHER-RELATED DELAYS IN MANY MAJOR U.S. CITIES.<sup>4</sup>

**INTUITIVE INTERACTION** ACURA BELIEVES IN MAKING TECHNOLOGY BOTH USEFUL AND USABLE. MULTIPLE METHODS OF OPERATION, INCLUDING VOICE RECOGNITION, LET YOU INTERACT IN THE METHOD THAT IS MOST COMFORTABLE FOR YOU.

**LANE GUIDANCE** THE ACURA NAVIGATION SYSTEM<sup>2</sup> NOT ONLY PLOTS YOUR PATH ON A MAP, BUT IT ALSO HAS SPECIAL DISPLAYS TO GUIDE YOU THROUGH FREEWAY RAMPs, INTERCHANGES AND FORKS IN THE ROAD.

Inside the RDX, even information is power.

An advanced look at what lies ahead.  
Acura Navigation System<sup>2</sup>

Choose the available Technology package and the definition of "parts unknown" gets a major readjustment. Enter a destination into the navigation system either manually or through voice recognition and this system will guide you there with turn-by-turn directions or voice prompts. Miss a turn and the system recalculates your route based on your current location to help get you back on track. If you need help deciding on a destination, the DVD database provides 7,000,000 points of interest as well as Zagat Survey<sup>®</sup> ratings.

Acura/ELS Surround® Premium Audio System

Grammy® Award-winning engineer and producer Elliot Scheiner, the "ELS" in ELS Surround, helped us create a system (available with the Technology package) that can simulate the sound quality of the original studio recording.

Enveloping you in 410 watts of true discrete 5.1 surround sound, it can even simulate surround sound from regular CDs. Both the 10-speaker Acura/ELS system and the 7-speaker standard audio system feature a 6-disc in-dash CD changer, XM Radio<sup>5</sup> and an auxiliary input jack for personal music players.

Inspiration is more likely to strike when you keep your options wide open.

A desire for velocity does not require the abandonment of utility. At least not with the RDX. Even with all five seats occupied, there's still almost 28 cu ft of storage space in back. Fold the 60/40 split rear seat all the way down and you now have over 60 cu ft to play with. Various pockets, bins and hidden compartments throughout the cabin offer additional storage options.

**REARVIEW CAMERA** PART OF THE AVAILABLE TECHNOLOGY PACKAGE, THIS FEATURE DISPLAYS WHAT'S DIRECTLY BEHIND YOU ON THE NAVIGATION SYSTEM'S SCREEN WHEN YOU SHIFT THE VEHICLE INTO REVERSE.

**VEHICLE STABILITY ASSIST™ (VSA®)** IF SENSORS DETECT UNDERSTEER OR OVERSTEER, VSA WILL FIRST USE THE SH-AWD SYSTEM TO CORRECT THE SITUATION BY ALTERING THE TORQUE DISTRIBUTION AMONG THE FOUR WHEELS. IF NECESSARY, THE SYSTEM WILL ALSO AUTOMATICALLY ADJUST THE ENGINE'S TORQUE AND APPLY BRAKING TO INDIVIDUAL WHEELS TO HELP STABILIZE THE VEHICLE.

**TIRE PRESSURE MONITORING SYSTEM<sup>8</sup> :::**  
This system actively monitors and displays the air pressure of each tire.

**ELECTRONIC BRAKE DISTRIBUTION :::**  
This feature actively apportions braking force to each wheel based on dynamic loading.

**BRAKE ASSIST :::**  
This system can detect emergency braking and apply maximum brake force.

## ANTICIPATING YOUR NEEDS IN AN UNCERTAIN WORLD.

The Acura philosophy of Safety Through Innovation is the result of our belief that no area of engineering advancement is more important than the field of driver and passenger safety. It has led us to design and build vehicles that perform at the highest levels in both collision avoidance and injury mitigation. The RDX is a showcase of this devotion with its vast array of advanced safety technologies. As a result, the RDX has been recognized as an IIHS Top Safety Pick<sup>6</sup> and received NHTSA's 5-star crash ratings for frontal- and side-impact crash tests.<sup>7</sup>
