NOBODY TAKES CHARGE OF YOUR WAGON NEEDS LIKE CHEVROLET.

Let Chevrolet take charge of your wagon needs. Since Chevrolet offers you the widest choice of wagon-type vehicles, you get the kind of wagon you want, for whomever or whatever you want to carry. People and cargo are accommodated easily by roomy interiors. Wagon and superwagon seating availabilities range from 4 to 12 passengers. Total cargo capacities range from a comfortable 64 cubic feet on up to a commanding 260 cubic feet. Power to match includes a wide range of engines, from an electronically fuel injected gasoline L4 to smooth-running gasoline-powered V6 and V8s on up to a load-shouldering diesel. Front-wheel-drive and 4-wheel-drive vehicles get you through when the going gets tough. Yet all the niceties are there too—all the luxury touches, appointments and good looks you expect. Only Chevrolet offers this much choice in wagons. Take charge of a Chevy Wagon.

Important: A word about this catalog. We have tried to make this catalog as comprehensive and factual as possible and we hope you find it helpful. However, since the time of printing, some of the information you will find here may have been updated. Also, some of the equipment shown or described throughout this catalog is available at extra cost. Your dealer has details and, before ordering, you should ask him to bring you up to date. The right is reserved to make changes at any time, without notice, in prices, colors, materials, equipment, specifications and models. Check with your Chevrolet dealer for complete information.

Pile in the cargo. Cavalier Wagon packs in more gear than many imports, including Mazda GLC Custom and Subaru DL. Cavalier is a five-passenger wagon while many small import wagons seat

only four. And Cavalier Wagon beats out many small imports in head room, leg room, shoulder room and hip room, both front and rear. Fact is, Cavalier Wagon has more EPA-rated passenger

room than *any* small import wagon sold in America.

You ride in comfort on full foam cushioned seats plus new-for-1983 improved front suspension. Cavalier Wagon

gives you the traction of front-wheel drive, which many small import wagons don't even offer. And a responsive new 2.0 Liter engine features Electronic Fuel Injection.

CAVALIER.

Front-wheel drive plus more people-room than the small import wagons.

Cavalier CS Wagon with CL Equipment Package and other options.

1. Total interior volume (passenger and cargo area) measures more than the Nissan Sentra or 810, Mazda GLC, and Toyota Corolla wagon.
2. Front-wheel drive and a new 2.0 Liter engine with Electronic Fuel Injection provide impressive

traction in sand, gravel and mud.
3. Cavalier CL Custom Interior. Includes reclining high-contoured custom seats with moveable headrests, custom door and quarter trim design, and Quiet Sound acoustics.

This six-passenger wagon has all the credentials for solid Chevrolet value. It's roomy, practical and can be custom-tailored to your hauling needs. With the second

seat folded down, 72.4 cu. ft. of space welcomes your loads. Standards abound, including power steering, automatic transmission, and power

front disc/rear drum brake system. The standard 3.8 Liter V6 engine goes to work for you even in tough trailer-towing applications (see your dealer or the

Chevy Recreation & Trailering Guide for specific recommendations). Or you can get all the advantages of an optional diesel engine. Of course, Malibu offers

you an extensive list of other options to choose. See pages 19-20. All things considered, Malibu Wagon may be the best friend a family ever had.

1. Out-of-sight floor stowage is roomy, located below the floor in the rear cargo area. Small items may be tucked in open bins located at each side of cargo area.
2. Tailgate window opens individually for quick access.
3. Tailgate opens down for full access.
4. Electric rear window defogger is available to help keep vision clear.
5. Optional Malibu CL Custom Interior with 55/45 split front seat and folding center armrest.

MALIBU.

Family-size room, family-size value.

Malibu Station Wagon.

Caprice Classic is America's best-selling full-size wagon for a lot of good reasons. Gracious touches inside and out welcome you. Eight passengers are

comfortably accommodated with standard three-seat design. An added note of luxury is provided by an available 50/50 split front seat with passenger

recliner. And over 87 cubic feet of cargo space (with rear seats folded) takes on your most demanding hauling needs handily. Caprice Classic meets

the challenge of moving your loads with its standard 5.0 Liter V8. Or choose the optional 5.7 Liter Diesel V8. Also standard are automatic transmission,

power steering, power tailgate window and more. Chevrolet Caprice Classic. Your first choice when you want to go first class in a full-size wagon.

CAPRICE CLASSIC.

The full-size wagon leader.

Caprice Classic Station Wagon

1. Lockable underfloor stowage helps keep valuables concealed below the rear cargo floor. Four and one-half cubic feet of space hold a lot of gear.
2. Pack up and go. Convenient loading access is over 28 inches high by over 48 inches wide. There's over 4 feet between wheelhousings and 7.5 feet of floor length with rear seats down.
3. For third-seat passengers, door-gate swings wide; for window loading, glass lowers; for load-floor extension, window lowers and door-gate drops to a tailgate position.
4. Caprice Classic standard seating.

SUBURBAN.

The Superspacious Superwagon.

The standard Chevy Suburban is an impressive combination of interior spaciousness and gas-powered towing muscle. With its available second and third seats, there's plenty of leg

and elbow room for up to nine people, plus 35 cu. ft. of cargo space in back. Or if you've got things to move, you can have 144 cu. ft. of wide-open cargo space. Because Suburban is

built Chevy-tough, it can carry payloads up to 3930 lbs. (including people, equipment and cargo). And this same truck toughness makes Suburban very popular for towing trailers

and boats. Its optional 6.2 Liter Diesel engine was specifically designed for trucks. And this 6.2 Liter Diesel has quickly proved to be right for Suburban, offering impressive efficiency*

and extraordinary towing power. Chevy Suburban is also available as a 4-wheel-drive model. *To obtain EPA fuel economy estimates for Chevrolet light-duty trucks, check the wall poster at your dealer's showroom.

1. A properly equipped Series 20 Suburban with the available 6.2 Liter Diesel engine can move up to 13,500 lbs., including itself, passengers, equipment, cargo and trailer.
2. Suburban's available Silverado interior with cut-pile velour cloth upholstery for top-of-the-line comfort and luxury. Shown with second seat folded for easy access to the rear.

C20 Suburban Silverado.

Sportvan can move a lot of people with style, comfort and convenience. The moving force: a standard 6-cylinder gas engine, your choice of three

optional gas V8s—or an optional 6.2 Liter Diesel which is available for the first time. Chevy Sportvan's big, wide sliding doors make it easy to get

people and their baggage in and out. There's standard seating for five, but the 125"-wheelbase G20 Sportvan offers optional seating for eight, and the 125" G30

model offers optional seating for 8 or 12. Quick-release rear bench seats help convert Sportvan from people-carrying to cargo-carrying in a hurry.

SPORTVAN.

Chevy's No. 1 Space Shuttle.

1. The Beauville instrument panel puts the accent on style and function. It's pleasant to look at, and all controls are placed for easy use.
2. With available rear seats, a G30 Chevy Sportvan offers comfort for up to 12 people. With rear seats removed, our 125"-wheelbase van offers 260 cu. ft. of load space, 126.5 inches of load length measured at the floor from the back of the driver's seat.
3. Specify this top-of-the-line Beauville interior option for your Sportvan and you'll get two high-back front bucket seats in velour cloth or dual-tone striped Custom Vinyl, embossed vinyl door and sidewall trim panels, color-keyed carpeting, front door stowage pockets, insulated cloth headliner, and a custom instrument panel.

G20 Beauville Sportvan.

New-size Chevy S-10 Blazer. A totally new Blazer available in 2-wheel or 4-wheel drive. Trim and compact, with available seating for four, and more front leg room than in any full-size

pickup. It's also a getaway truck with surprisingly more cargo length than any other sport utility vehicle*—even full-size models—with the optional rear seat folded down.

Huge 15-inch wheels are standard. On 4-wheel-drive models, a revolutionary new 4WD system lets you shift from rear-wheel drive to 4-wheel-drive high and back at any speed.

The shift console features an illuminated action display which indicates your gear position. This 4WD system is new this year—and no other sport utility vehicle offers it.* V6

power is also available, as well as a maximum towing capability of 5000 lbs. including trailer and cargo. That's towing muscle!

*Excludes other GM products.

S-10 BLAZER.

There's never been an off-roader like it before.

4x4 Chevy S-10 Blazer Sport.

Optional Chevy S-10 Blazer Tahoe interior.

The 4-wheel-drive full-size Chevy Blazer for 1983 is the only sport utility vehicle to offer a diesel V8.* Its optional 6.2 Liter (379 Cu. In.) Diesel, rated at 130 SAE

net HP, has the low-speed torque you need to get you through off-road situations. With optional rear seat, Blazer carries five adults and a total gross payload of

1874 lbs. (passengers, equipment and cargo). Plus automatic locking front hubs for 2WD-4WD shifting under 25 MPH.

*Excludes other GM products.

BLAZER.

Chevy's ultimate off-road animal.

The optional Silverado interior. With available rear seat, it carries five adults.

Blazer Silverado.

GM Continuous Protection Plan

The GM Continuous Protection Plan offers service protection in addition to that provided by GM's new-vehicle limited warranty. Ask your dealer about it. Coverage available only in the U.S.A. and Canada.

Safety Features

Occupant Protection

Manual lap/shoulder belts with push-button buckles for driver and right front passenger (driver's side includes visual and audible warning system); manual lap belt at center position ■ Manual lap belts with push-button buckles at rear passenger positions including the center ■ Energy-absorbing steering column ■ Passenger-guard inside door locks ■ High-strength safety door latches and hinges ■ Energy-absorbing instrument panel and front seat-back tops ■ Laminated safety glass windshield/tempered safety glass side and rear windows ■ Safety armrests ■ Standardized identification symbols for controls and displays ■ Front seat head restraints for driver and right front passenger (adjustable or integral).

Accident Avoidance

Side marker lights and reflectors ■ Parking lamps that illuminate with headlamps ■ Four-way hazard warning flasher ■ Backup lights ■ Lane-change feature in direction signal control ■ Windshield defrosters, washer and dual-speed wipers ■ Vinyl-bonded inside mirror glass ■ Outside left rearview mirror ■ Dual master cylinder brake system with warning light ■ Starter safety switch ■ Dual-action safety hood latch.

Anti-Theft

Audible anti-theft ignition key reminder ■ Anti-theft steering column lock ■ Inside hood release.

See individual 1983 Chevrolet car and truck catalogs for color and trim combinations.

A word about assembly, components and optional equipment in these Chevrolets.

The Chevrolets described in this catalog are assembled at facilities of General Motors Corporation operated by the GM Assembly Division, GM of Canada or GM Truck and Bus Manufacturing Division. These vehicles incorporate thousands of different components produced by various divisions of General Motors and by various suppliers to General Motors. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety and fuel economy requirements, or for other reasons, to produce Chevrolet products with different components or differently sourced components than initially scheduled. All such components have been approved for use in Chevrolet products and will provide the quality performance associated with the Chevrolet name.

With respect to extra-cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may

be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest that you verify that your car includes optional equipment you ordered or, if there are changes, that they are acceptable to you.

The Chevrolet Suburbans are also available under the GMC nameplate (GMC Suburban Series C1500, C2500, K1500 and K2500).

The Chevrolet Sportvans are also available under the GMC nameplate (GMC Rally Van Series G1500, G2500 and G3500).

The Chevrolet S/T Blazer is also available under the GMC nameplate (GMC S/T Jimmy Series S15 and T15).

The Chevrolet full-size Blazer is also available under the GMC nameplate (GMC Jimmy Series K1500).

A word about engines.

Some Chevrolets are equipped with engines produced by other GM divisions, subsidiaries, or affiliated companies worldwide. See your dealer for details.
