

1985 CHEVROLET

Cavalier

CAVALIER.

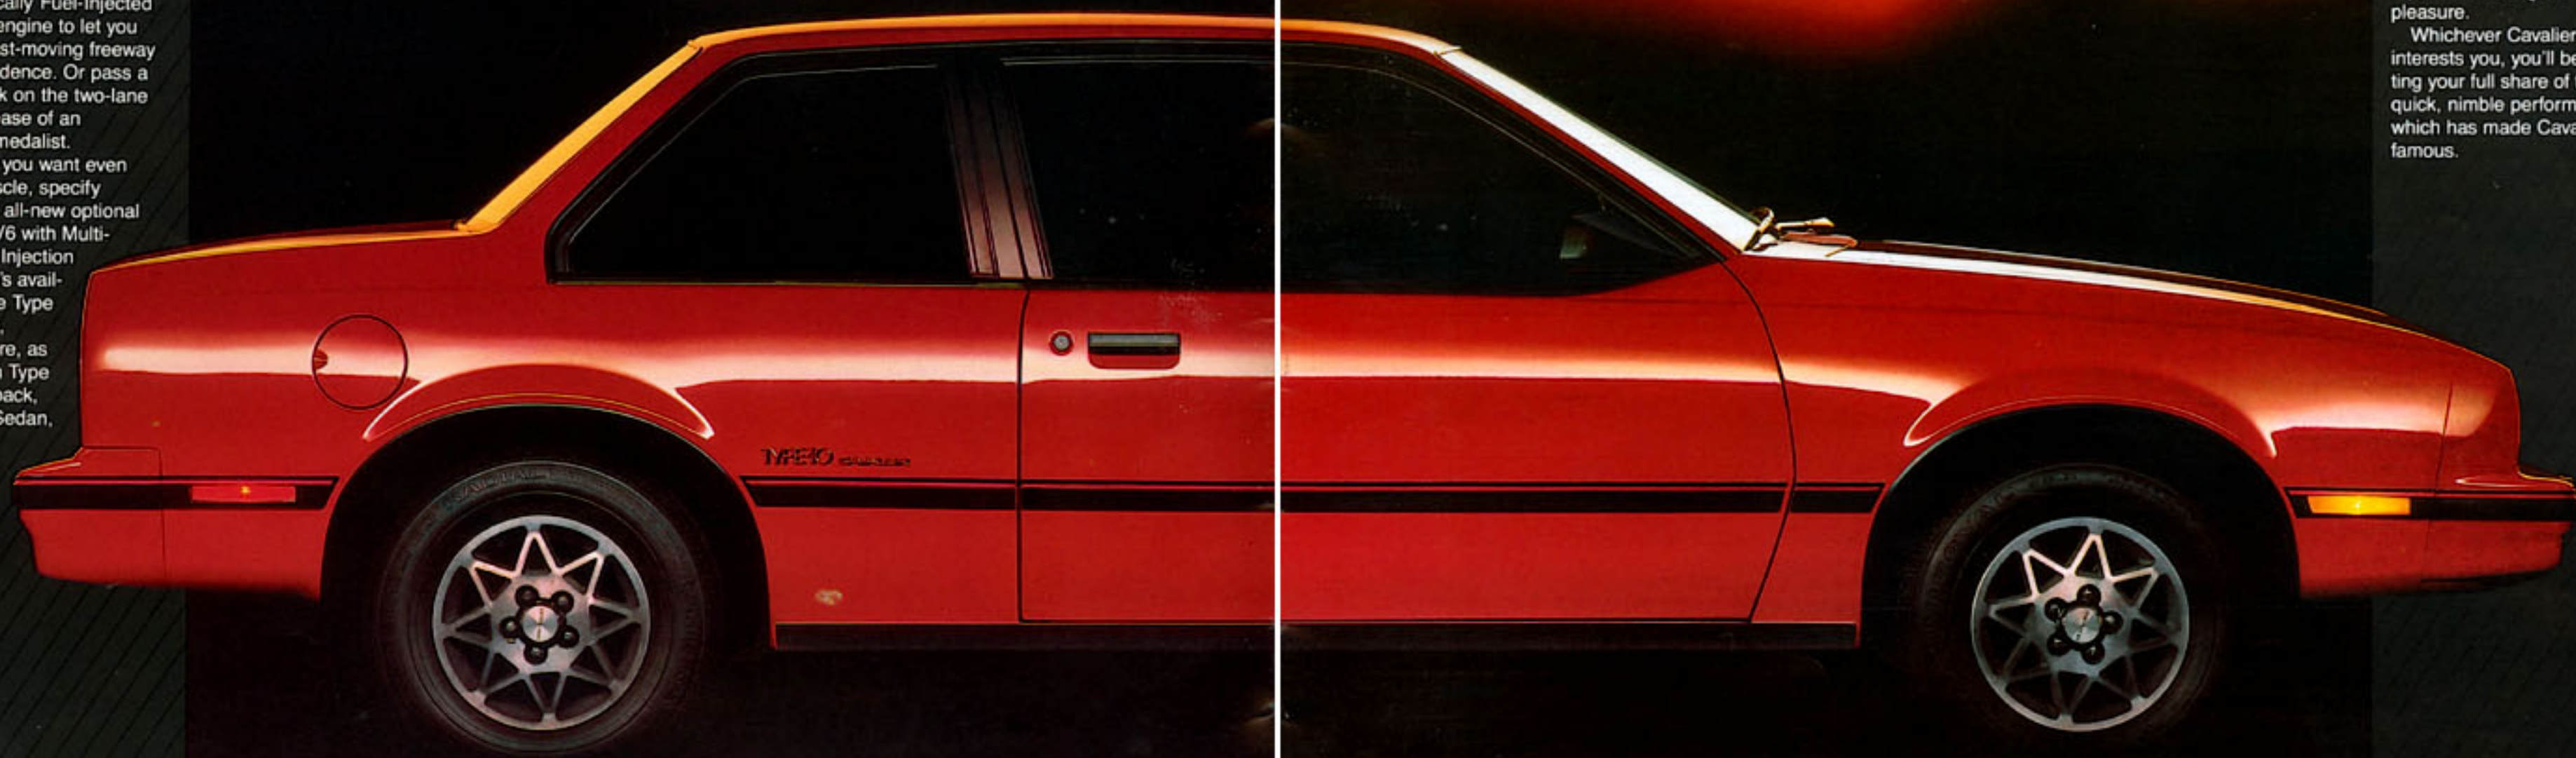

THE QUICK, NIMBLE PERFORMER.

Your first encounter with Cavalier explains why it successfully breaks out of the impossible clutter of competing cars.

Outside, its trim size and crisp lines promise performance that will delight you. Inside, surprising comfort and advanced ergonomics combine to give you a fine sense of driving control.

This is the advanced engineering you've been looking for. With a standard Electronically Fuel-Injected 2.0 Liter engine to let you enter a fast-moving freeway with confidence. Or pass a semi-truck on the two-lane with the ease of an Olympic medalist.

Should you want even more muscle, specify Cavalier's all-new optional 2.8 Liter V6 with Multi-Port Fuel Injection system. It's available in the Type 10 Coupe, shown here, as well as on Type 10 Hatchback, Cavalier Sedan,

Wagon and Convertible.

Such power would be pointless without an equally sophisticated chassis. Explore Cavalier's front-drive traction for yourself. Feel the grip of its new standard all-season, M + S-rated (Mud and Snow), steel-belted radials in any weather. Experience Cavalier's kind of stability and steering response through sharp curves. Relax with road isolation and riding comfort that make any trip, short or long, a pleasure.

Whichever Cavalier model interests you, you'll be getting your full share of the quick, nimble performance which has made Cavalier famous.

Cavalier Type 10 Coupe.

CAVALIER'S AVAILABLE MULTI-PORT FUEL-INJECTED
2.8 LITER V6. COMPUTERIZED PRECISION.
INSTANT RESPONSE.

Open the hood and you know at once that this is no ordinary engine. Beneath the finned aluminum plenum, six precision-tuned runners stand ready to ram air into combustion chambers 2.8 liters strong.

Turn the ignition key and individual Bosch injectors pressurize against engine-synchronized valves, atomizing fuel for fast, clean burn.

This is engine technology so sophisticated that an electronic control module precisely measures air mass, altitude, ambient temperature, barometric pressure and humidity. Then adjusts the pulse duration of the fuel injectors with computer precision for dependable starts and smooth power.

You get this power without all the mileage-robbing emission clean-up devices conventional carburetion requires. You also get features designed to give you:

- Instant throttle response at all speeds.
- Impressive smoothness and power at any speed, in any weather, at any elevation.
- Dependable operation.

The only moving parts are the throttle plate, idle controls and electronic fuel injectors. Everything else is solid-state circuitry sealed from dirt, dust and moisture.

2.0 Liter L4 EFI.

Cavalier's standard 2.0 Liter L4 engine with Electronic Fuel Injection is designed to give you:

- Simple "turn-key" starting, hot or cold, without touching the gas pedal.
- No delays from flooding or vapor lock.
- Quick engine response in any weather.
- Self-adjusting idle to reduce stalling when accessories are switched on.
- No stall on quick braking.
- Optimized performance between recommended service intervals.
- Automatic adjustment to elevation to optimize power and to minimize fuel loss.
- Reduced maintenance (no choke, accelerator pump or carburetor to adjust).
- No "run-on" after the ignition is switched off.
- Better acceleration with available air conditioning that switches off automatically under full throttle.
- Easy starts after refilling should you run out of gas.

 *Produced in U.S., Canada or Mexico.

CAVALIER CONVERTIBLE.
THE OPEN-ROAD
PERFORMER.

The operation is simple.

Two quick movements of your hand release the latches by the inside windshield pillars. The tight-fitting top retracts to the soft whirring of an electric motor as you depress the switch on the dash. Most people can do it without leaving the driver's seat.

The possibilities that open up are endless.

Cruise through town with the soft winds of a warm summer night. Smell the salt air as you run the coastal road along the cliffs. Hunker low in your seat, wool cap over goose-down coat, windows up and heater on, awed by the splendor of a brilliant fall day.

Whatever route you choose, you have the quick, nimble performance of Cavalier to charm you.

CAVALIER SEDAN. THE SOPHISTICATED PERFORMER.

What's made this very stylish sedan America's favorite Cavalier?

A fine blend of performance and sophistication. Here is all the instant response of the standard Electronically Fuel-Injected

2.0 Liter engine. The delight of the smooth-shifting available 5-speed manual transmission. Or, if you prefer, the convenience of the optional 3-speed automatic with torque converter lockup for low-RPM cruising.

Should you want even more performance, Cavalier Sedan also makes available the 2.8 Liter V6 with Multi-Port Fuel Injection and Performance Axle Ratio. It's a perfect companion to Cavalier's F41 Sport Suspension option.

Like every Cavalier, the Sedan gives you the comfort of spring rates that have been computer-tuned for impressive road isolation with excellent wheel control. And sophisticated MacPherson-strut front suspension and rack-and-pinion steering gear that react instantly to your steering input.

To make you feel secure even in foul weather, Cavalier's front-drive traction is now optimized by all-season, steel-belted radials.

And if a car full of adults with luggage becomes your long-distance companion, Cavalier features variable-rate rear springs that adjust to the load to help maintain its admirable riding comfort.

CAVALIER CL CUSTOM INTERIOR.
DESIGNED TO FIT YOU LIKE A
FINE DRIVING
GLOVE.

To stand out from today's competitive clutter, a car must be very comfortable indeed. Much of Cavalier's success must be credited to its excellent accommodations.

Full foam-cushioned, reclining standard front bucket seats offer advanced orthopedic-designed comfort for American-size adults. Extended seat tracks give you plenty of room to stretch out.

Rear seat leg room is generous, too. More than 34 inches in Cavalier Sedan, shown here with available CL Custom Interior.

Road and wind noise isolation set a standard by which other small cars could be judged.

In today's wonderfully competitive market, many cars feel good in a quick test drive around the block. But 10 miles out on the open road you begin to appreciate just how much like a fine driving glove Cavalier fits you.

Cavalier Sedan with CL Custom Interior.

CAVALIER WAGON. THE ADAPTABLE PERFORMER.

On the one hand, Cavalier gives you the traditional wagon virtues: Four-door entry for family and friends. Room for more luggage than a full-size sedan. Folding rear seat-back that opens up high-ceilinging cargo space.

On the other hand, slip into the standard full-foam, reclining bucket seat, pictured here, and you can forget

about all of the above. The available 5-speed manual is right where you want it. The optional tachometer monitors the quick progress of the standard Electronically Fuel-Injected 2.0 Liter engine. The steering wheel commands the technically sophisticated front-drive suspension to respond to you with almost sports car precision.

Sometimes you have to look over your shoulder just to remind yourself that

there's 64 cubic feet of cargo space behind you with the rear seat folded. Space that can simultaneously transport a friend and skis or scuba gear if you add the available split-folding rear seat-backs, shown below.

Whatever you're carrying, Cavalier Wagon's variable-rate rear springs help smooth the ride without bottoming. And Cavalier's 2.8 Liter V6 with Multi-Port Fuel Injection is available just to make certain that, even fully loaded, your little wagon need never be dull.

 P195/70R-13 all-season white-stripe*
 P195/70R-13 all-season white-lettered*
 P215/60R-14 blackwall*
 P215/60R-14 white-lettered*
 *Steel-belted radial ply.

Wheel Equipment:
 Aluminum wheels
 Sport wheel covers
 Styled 14" steel wheels
 Wheel trim rings.

Rear-window washer/wipers and electric defogger are welcome options in foul weather.

Type 10 models feature cockpit-style floor console with cassette tray and coin holder.

GM Protection Plan.

An option that offers service protection in addition to that produced by GM's new-vehicle limited warranty. Available only in the U.S. and Canada for the 1985 model year. Ask your dealer about this option.

FACTS

Safety Features

Occupant Protection

- Manual lap/shoulder belts for driver and right front passenger (driver's side includes visual and audible warning system) ■ Manual lap belts at each rear seat position
- Energy-absorbing steering column ■ Energy-absorbing instrument panel ■ Energy-absorbing tops, front seats
- Laminated safety windshield glass and tempered safety side and rear window glass (except plastic rear window, Cavalier Convertible) ■ Safety interlocking door latches
- Passenger-guard inside door lock handles ■ Inertia-locking, folding front seat-back
- Safety armrests ■ Safety-strength seat attachments
- Head restraints, driver and right front passenger (adjustable/integral).

Accident Avoidance

- Side marker lights and reflectors ■ Parking lamps that illuminate with headlamps
- Four-way hazard warning flasher ■ Backup lights
- Directional signal control (and lane-change feature)
- Windshield defroster, washer and dual-speed wipers
- Inside rearview mirror with vinyl-bonded glass ■ Outside left rearview mirror (right mirror standard on Convertible models) ■ Brake system with dual master cylinder and warning light ■ Starter safety switch ■ Dual-action hood-latch system ■ Low-glare finish on instrument panel top, inside windshield moldings, wiper arms/blades, metallic steering wheel surfaces
- Illuminated heater and defroster controls ■ Illuminated windshield wiper and washer controls (if on instrument panel) ■ Tires with built-in tread-wear indicators.

Anti-Theft

- Audible reminder for ignition key removal ■ Anti-theft steering column lock ■ Visible vehicle identification number.

Let's Get It Together... Buckle Up.

Every new 1985 Cavalier delivered by a Chevrolet dealer in the United States comes with a one-year, \$10,000 seat belt insurance certificate from MIC General Insurance Corporation at no additional charge. \$10,000 will be paid to the estate of any occupant who suffers fatal injuries as a result of an accident involving that vehicle while wearing a GM seat belt. Buckle up every time you drive.

Important: A Word About This Catalog.

We have tried to make this catalog as comprehensive and factual as possible and we hope you find it helpful. However, since the time of printing, some of the information may have been updated. Also, some of the equipment shown or described throughout this catalog is available at extra cost. Your dealer has details and, before ordering, you should ask him to bring you up to date. The right is reserved to make changes at any time, without notice, in prices, colors, materials, equipment, specifications and models. Check with your Chevrolet dealer for complete information.

A Word About Updated Service Information.

Chevrolet regularly sends its dealers useful service bulletins about Chevrolet products. Chevrolet monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll-free 1-800-551-4123.

A Word About Assembly, Components and Optional Equipment in These Chevrolets.

The Chevrolets described in this catalog are assembled at facilities operated by General Motors or GM of Canada. These vehicles incorporate thousands of different components produced by car groups and various component divisions of General Motors and by various suppliers to General Motors. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety and fuel economy requirements, or for other reasons, to produce Chevrolet products with different components or differently sourced components than initially scheduled. All such components have been approved for use in Chevrolet products and will provide the quality performance associated with the Chevrolet name.

With respect to extra-cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask your dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest that you verify that your car includes optional equipment you ordered or, if there are changes, that they are acceptable to you.

A Word About Engines.

Chevrolets are equipped with engines produced at facilities operated by GM car groups, subsidiaries or affiliated companies worldwide.
