IMPALA LS

200 HP, 29 MPG, 5 STARS ...
POWERFUL, EFFICIENT, SECURE.

3800
SERIES II

◀ **TORQUE YOU CAN REALLY FEEL —
AND 29 MPG TOO!**

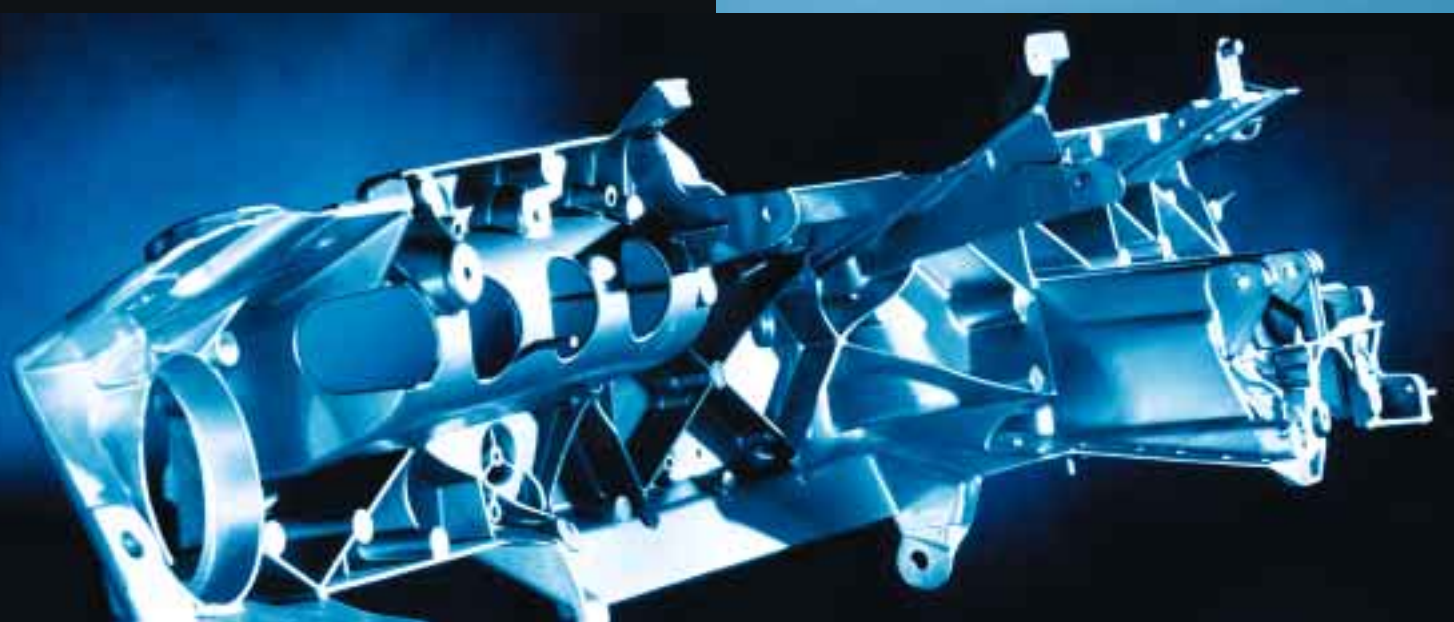

The acclaimed 200-hp, 3800 V6 engine in the 2003 Impala LS has a wide, flat torque curve for quick city traffic acceleration and ample highway merging and passing power. In fact, the spacious Impala has faster acceleration than Toyota Camry SE — and better highway fuel economy too (an EPA estimated 29 MPG highway)*. Responsive, fuel-efficient and beautifully designed, this car is everything you expect a Chevy Impala to be. You'll love driving it.

*Performance claim based on Pro Formance Driving Events in acceleration tests using Impala LS with 3800 V6 engine and Toyota Camry SE with 3.0 Liter V6 engine. Fuel economy claim based on Impala LS with 3800 V6, EPA est. MPG 29 highway and Toyota Camry SE with 3.0 Liter V6, EPA est. MPG 28 highway.

▲ **A FOUR-WHEEL INDEPENDENT SUSPENSION
PROVIDES IMPRESSIVE POISE AND BALANCE**

A tuned four-wheel independent Sport Touring suspension is an important reason why Impala LS has such a quiet ride, impressive agility and a "sport sedan" attitude. You'll also enjoy the security and confidence of all-speed Traction Control in the 2003 Impala LS.

◀ **THE SECURITY OF FOUR-WHEEL DISC BRAKES**

Massive four-wheel disc brakes add to the secure feeling every time you get behind the wheel. A sophisticated antilock brake system and Tire Inflation Monitor are standard on Impala LS and optional on Impala.

▶ **THE STRENGTH OF MAGBEAM CONSTRUCTION**

The MagBeam instrument-panel support (constructed of superstrong yet lightweight magnesium) increases structural rigidity, which in turn enhances the Impala driving experience.

**IMPALA EARNS HIGHEST U.S. GOVERNMENT
SAFETY RATING IN FRONT CRASH TESTING:**

This five-star rating is the highest possible front crash test rating for the driver and front passenger. This test of the 2002 Impala was conducted by the National Highway Traffic Safety Administration (NHTSA) as part of its New Car Assessment Program (NCAP).

**IN AN IMPALA, SAFETY-CAGE BODY
CONSTRUCTION IS ALL AROUND YOU ▼**

Impala has a high-strength steel "safety-cage" body structure with side-door beams. Front and rear "crush zones" absorb energy in a collision to help preserve the integrity of the passenger compartment.

INSIDE IMPALA LS

SPACIOUS LUXURY, THOUGHTFUL DESIGN.

You'll love the way Impala LS surrounds you with quality appointments and indulges you with thoughtful amenities. LS offers you the choice of a Sport Cloth interior or optional leather seating surfaces. Test drive this spacious, well-designed Chevrolet and you might not want to bring it back. Impala LS is that good — and that much fun to drive.

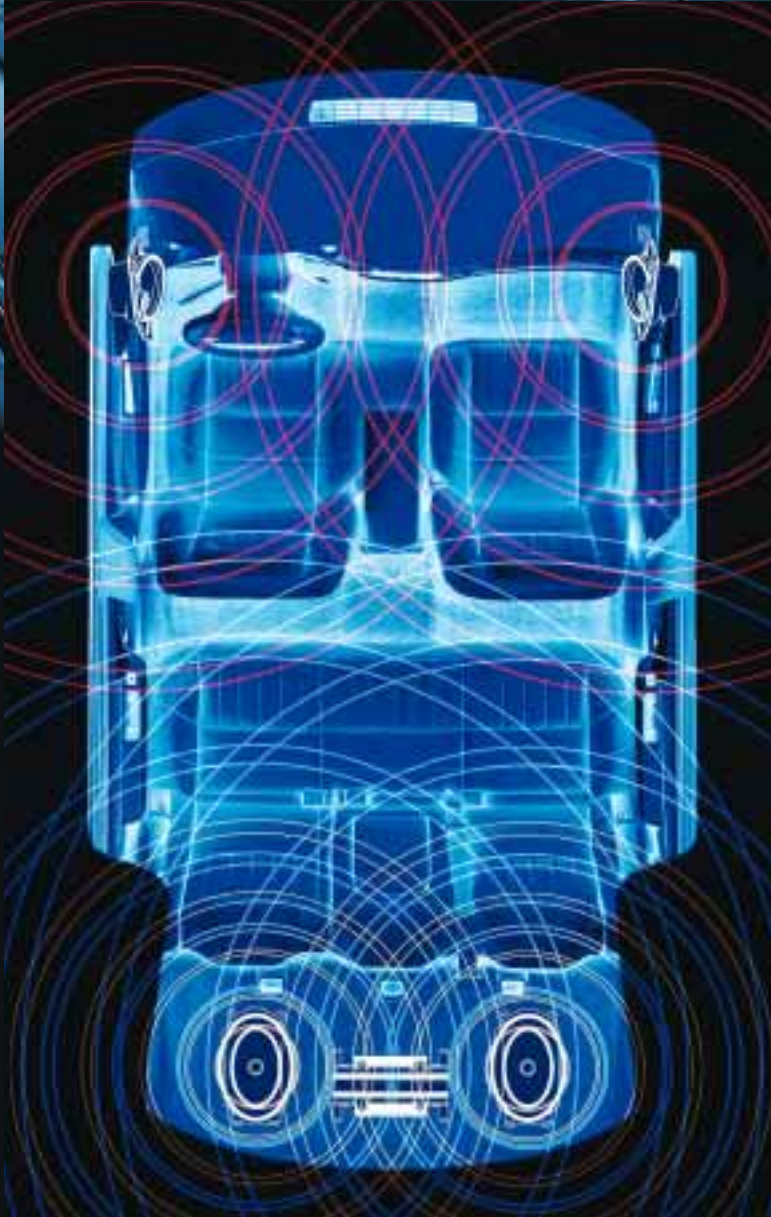

SATELLITE
RADIO

▲ NEW FOR 2003: XM SATELLITE RADIO

Impala's optional XM Satellite Radio delivers digital-quality sound with 100 channels of the best in music, news, sports and talk, coast to coast. Choose from 15 different program categories ranging from rock to urban to country and everything in between, with many channels completely commercial-free. And you'll still receive the same AM/FM stations you always have. Plus, for 2003, GM vehicles are the first cars and trucks to offer factory-installed XM. Visit gm.xmradio.com to learn more. XM is available only in the 48 contiguous states. Activation fee and service subscription extra.

◀ PREMIUM SOUND SYSTEM

Impala's optional 200-watt, six-channel premium sound system with auxiliary amplifier utilizes Special Dynamics Processing to increase dynamic impact and provide clear, lush sound, even at low listening levels. So whether you like talk radio, rap, jazz or country, turn it up and enjoy the crystal-clear sound quality.

◀ OPTIONAL DRIVER INFORMATION & SECURITY GROUP KEEPS YOU INFORMED ▶

A trip computer, outside temperature display, compass, HomeLink transmitter and content theft alarm system are included in this option group. View the attached Impala CD-ROM for complete details on the Impala Driver Information Center.

◀ WE'LL BE THERE ... WITH THE ONSTAR SAFE & SOUND PACKAGE*

An OnStar Safe & Sound Package is available on all 2003 Impala models. With the touch of a button, an OnStar Advisor is available to contact emergency service providers or roadside assistance. For more information on the complete range of OnStar services, visit onstar.com.

*Call 1-800-ONSTAR-7 or visit onstar.com for system information and details.

CHEVY IMPALA

RESPONSIVE, SOLID, DEPENDABLE.

THE SECURITY OF BATTERY-RUNDOWN PROTECTION

Standard in every 2003 Impala, this thoughtfully designed system automatically shuts off courtesy lights — dome, reading and glove box — if they're accidentally left on for 10 minutes, to prevent battery rundown.

IMPRESSIVE FUEL ECONOMY

With the 200-hp Series II 3800 V6 (standard in Impala LS), EPA estimated MPG is 19 city, 29 highway. In an Impala, you'll enjoy better highway fuel economy than in the V6 Toyota Camry.

Based on 2002 EPA estimated MPG, Toyota Camry (20 city, 28 highway).

MAGBEAM STRUCTURE BAR ADDS TO THE QUALITY FEEL

A magnesium instrument-panel beam spans the width of the car, helping to reduce vibration that can occur over time, especially in the heating, air conditioning and audio systems.

AN ALUMINUM ENGINE CRADLE ALLOWS PRECISE SUSPENSION TUNING

A significant contributor to Impala's agile maneuverability is an engine cradle made of extruded aluminum that's lighter and stiffer than conventional steel cradles — which in turn allows precise tuning of the suspension.

A RACE CAR-INSPIRED STRUT TOWER BRACE ADDS STRUCTURAL RIGIDITY

A strut tower-to-tower steel brace adds to the structural integrity and enhances Impala's precise driving response.

A PROGRAMMABLE DRIVING ENVIRONMENT

Features you can program include the horn chirp that accompanies Remote Keyless Entry. Delayed headlamp illumination and automatic door lock/unlock sequence can be programmed through Impala's advanced audio system.

ENJOY THE ALL-WEATHER CONFIDENCE OF ELECTRONIC TRACTION CONTROL

All-speed Electronic Traction Control helps maintain traction by reducing wheel spin on most slippery surfaces. The system reduces engine power and automatically modulates the brakes. Electronic Traction Control is standard in Impala LS and optional in Impala.

THE STRENGTH AND QUALITY OF A ONE-PIECE SIDE "RING" STRUCTURE

A one-piece door "ring" provides structural rigidity and uniform build quality. This is an important reason why Impala has such a quiet ride and solid feel on the road.

STANDARD: MASSIVE FOUR-WHEEL DISC BRAKES

Impala offers standard large-diameter, four-wheel disc brakes. Front brake cooling ducts direct air onto the front rotors and calipers, for excellent dissipation of brake heat to help minimize fading.

RIDE-ENHANCING FOUR-WHEEL INDEPENDENT SUSPENSION

A precisely tuned four-wheel independent suspension and standard 16-inch wheels provide a superb blend of driving comfort and confidence-inspiring control.

EASY-TO-USE LATCH SYSTEM FOR CHILD SAFETY SEATS

The 2003 Impala is designed to accommodate a child safety seat in any of the rear seating positions. Impala also has the LATCH (Lower Anchors and Top tethers for Children) system. Located behind the top of the rear seat and at the bottom of the rear seatback cushion, these anchors are designed to make it easier to install compatible child safety seats properly.

ADDITIONAL 2003 IMPALA SAFETY FEATURES

FIVE-STAR SAFETY RATING

In U.S. government tests, the 2002 Impala earned the highest possible front crash rating for the driver and front passenger — five stars. (Based on frontal crash testing conducted by the National Highway Traffic Safety Administration.)

DRIVER SIDE-IMPACT AIR BAG*

The optional side-impact air bag helps reduce the risk of certain injuries to the driver in side impacts. You also get driver and front-passenger dual-stage front air bags as standard equipment.

*A NOTE ON CHILD SAFETY:

Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the Owner's Manual and your child's safety seat instructions for more safety information.

OPTIONAL ONSTAR SAFE & SOUND PACKAGE

In the event of an accident in which your front air bags deploy, OnStar will attempt to contact you to inquire whether you need assistance. The helpful Advisors, who are on call 24 hours a day, will immediately contact emergency assistance, if needed, and provide them with your Impala's exact location. With the touch of a button, an OnStar Advisor is available to contact roadside assistance, too.

*Call 1-800-ONSTAR-7 or visit onstar.com for system information and details.

IMPALA SEDAN

EXCELLENCE WITH AN EXHILARATING EDGE.

Who doesn't want the best? Every day, more Americans are discovering that the spacious Chevy Impala Sedan simply offers a better value than the Toyota Camry LE V6.

Every 2003 Impala includes a four-speed automatic transmission, power four-wheel disc brakes and big 16-inch wheels. This is excellence — with an edge.

*Impala Sedan in Cappuccino Frost Metallic.
Optional equipment shown.*

IMPALA SEDAN INTERIOR

SIX-PASSENGER ROOM, ATTENTION TO DETAIL.

STANDARD IN THE 2003 IMPALA SEDAN:

- Seating for six passengers with more stretch-out comfort than any Camry or Accord sedan
- A spacious 18.6 cu. ft. trunk with a low liftover and optional split-folding rear seat
- Air conditioning (with separate driver and front-passenger temperature controls)
- PASSlock theft-deterrent system
- Power door locks with lockout protection
- Power windows with driver's Express-Down feature and a power trunk release
- Best-in-class highway fuel economy (2002 EPA Large Car Class, estimated MPG 32 highway with standard 3400 V6).

THOUGHTFUL LUXURY: REAR-SEAT HEAT DUCTS ►

Rear-seat passengers stay nice and warm on chilly days, thanks to heat ducts located under Impala's front seats that route warm air into the rear seating area.

◀ SHOULDER BELTS FOR EVERYBODY

Shoulder belts are provided for all three rear-seat passengers. Also standard: easy-to-use LATCH (Lower Anchors and Top tethers for Children) system to make it easier to properly secure a compatible child safety seat in any rear-seat position.

MORE STRETCH-OUT COMFORT THAN YOU'D FIND IN ANY CAMRY OR ACCORD SEDAN ▼

Impala has room for six people to stretch out and enjoy the ride. Seating for six is standard, and "theatre seating" positions the car's rear seat a bit higher than the front seat, so everyone gets a great view of the road ahead. Note: Optional leather seating surfaces shown on these pages.

◀ ENJOY THE COMFORT OF STANDARD DUAL TEMPERATURE CONTROLS

At left: This convenience feature, standard in every Impala, allows the driver and right-front passenger to adjust the temperature in their respective zones for greater comfort. The thoughtfully designed Impala also includes two 12-volt power outlets for electrical accessories such as laptop computers or cell phones.

OPTIONAL TRUNK PASS-THROUGH ADDS TO IMPALA VERSATILITY ►

An optional split-folding rear seat (included with optional Custom Cloth seating and leather seating surfaces) adds to Impala's already impressive cargo-carrying capacity.
