INTRODUCING THE 2010 CAMARO.

Not just a sports car of today, but a performance machine engineered for the demands of tomorrow. Meet the 2010 Chevy Camaro. Its **CRAFTED SHEET METAL** – meticulously tailored to strict tolerances – emanates cutting-edge style. But this visceral presence only hints at the wonder of progressive performance technology that it envelops. An advanced, direct-injection **3.6L V6** with Variable Valve Timing (VVT) and projected **300 HP** is expected to offer an astonishing available **27 MPG HWY.**¹ While the High Output **6.2L V8** with Active Fuel Management generates an unrelenting projected available **400 HP.**² Couple either powerful engine with the available, smooth **SIX-SPEED** transmission – featuring steering wheel-mounted **TAPSHIFT** controls – for the ultimate in precision control.
