

2010 GMC TERRAIN

AN ALL-NEW CROSSOVER SUV

2010 TERRAIN

GMC ENGINEERING EXCELLENCE IN A FIVE-PASSENGER CROSSOVER SUV.

The all-new five-passenger 2010 Terrain is the newest crossover from GMC that blends bold styling with premium features and outstanding fuel economy.* Highlights include an all-new 2.4L four-cylinder Direct Injection engine that offers an estimated highway fuel economy of 30 mpg.* There's also a standard Rear Vision Camera System and a MultiFlex® rear seat designed to provide a high level of passenger comfort and optimal cargo space.

Terrain is coming fall 2009, with front-wheel-drive and all-wheel-drive models offered in SLE and SLT trim levels. For more information, be sure to visit GMC.com/Terrain.

See your local GMC dealer for full details.

*Terrain FWD 21 city/30 hwy. Based on GM preliminary development testing. Fuel economy development is not yet complete. Test results are not finalized. Official EPA estimates not yet available.

PACKAGED WITH PREMIUM FEATURES

The 2010 GMC Terrain will be available in four trim levels. All feature the 182-horsepower 2.4L Direct Injection Variable Valve Timing (VVT) engine mated to a 6-speed automatic transmission and Rear Vision Camera System.

Rear Vision Camera System is standard on all models.

*Always use safety belts and the correct child restraints for your child's age and size. Even in vehicles equipped with air bags and the Passenger Sensing System, children are safer when properly secured in a rear seat in an appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the vehicle's Owner's Manual and child safety seat instructions for more safety information. Head-curtain side air bags are designed to help reduce the risk of head and neck injuries to front and rear seat occupants on the rear side of certain side-impact collisions.

**OnStar services require vehicle electrical system (including battery), wireless service, and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. OnStar Vehicle Diagnostics available on most 2004 model year and newer GM vehicles. Diagnostic capability varies by model. Visit onstar.com for system limitations and details.

†XM Radio requires a subscription, sold separately after the first 90 days. Not available in Alaska or Hawaii. For more information, visit gm.xmradio.com.
