

# 90

DODGE  
DAYTONA

DODGE

---

**1990 Dodge Daytona. Inspired by the notion  
that man was meant to fly.**

---

Fasten your seat belt. Your spirit is about to soar. Presenting the new 1990 formation of Dodge Daytonas: Daytona Shelby, Daytona ES Turbo, Daytona ES, Daytona. Each engineered to ride like the wind. Styled to take your breath away.

Inside, all offer new racing-inspired cockpits for 1990. Restyled instrument panels execute your flight plan. Contoured buckets help you straighten up and fly right. New sculptured door trims. New overhead and floor consoles. First-class accommodations all the way.

Power hungry? Feast on Daytona Shelby with our hottest and newest power plant going: The 2.2-liter SOHC MPI VNT Intercooled Turbo. It accelerates to full boost up to 50 percent faster than last year's engine. You have ignition.

Daytona Shelby sports a new monochromatic paint treatment this year, too. One color, one great new look.

And Shelby's not the only way to fly. Daytona ES Turbo, Daytona ES and Daytona are all ready for take-off with responsive electronic fuel-injected overhead cam power. Available engines include a high-powered 2.5-liter four-cylinder, a pair of turbos and a V-6... whatever moves you.

Fun-to-run automatic or five-speed manual transaxles bring you up to speed in a hurry. Performance handling and braking

systems are on board for the ride, too. And front-wheel drive keeps you riveted to any runway. In any weather.

The sizzling new Dodge Daytona. Happy landings.

Daytona Shelby is shown in Flash Red Clear Coat. Daytona Shelby interior is shown in Black.

2.2-liter VNT turbo engine

Some of the equipment shown or described throughout this catalog is available at extra cost.

About this catalog. Since the time of printing, some of the information you'll find in this catalog may have been updated. Ask your dealer for details.

**Dodge Daytona Shelby.**

**Condition red.**

Some like it hotter. Like you. So fire up Daytona Shelby. And the unbridled excitement of 174 horses, unleashed by a 2.2-liter SOHC MPI VNT Turbo engine with multipoint elec-

tronic fuel injection. So hot, it's intercooled. A high-capacity five-speed transaxle makes the perfect running mate.

High performance hardware? Read it and leap... race-tuned front suspension gas-charged shocks. Power-assisted rack-and-pinion maximum control steering with a tight 14:1 ratio. Oversized solid antisway bars. Ultra-high performance four-wheel power-assisted vented disc brake system. And position-sensitive gas-charged front struts that adjust automatically to road irregularities. It's one of the best-equipped performance cars money can fly.

Where the heat meets the street, speed-rated P205/55VR16 unidirectional steel-belted radials make great landing gear. They're mounted on 16" cast aluminum unidirectional "pumper" wheels that actually help cool the brakes. Shelby looks as mean as it acts, too. Its full wraparound front and rear fascias, bodyside ground effects and rear "whale tale" spoiler make a lasting first impression. Add a sleek new monochromatic paint treatment and you pass with flying colors.

Daytona Shelby shown below in Flash Red Clear Coat.

Shelby's new cockpit. It monitors about everything but your pulse rate.

It's only fitting that Daytona Shelby's cabin be brought up to speed for 1990. After all, this is where the power is in your hands.

Shelby's new analog cluster monitors your every move: Turbo boost gauge. 140-mph electromechanical speedometer. Tachometer. And four check gauges that indicate electrical system voltage, engine oil pressure, and so on.

For more inside information, opt for the new overhead console with compass, temperature module, map lamps and storage bins for a garage door opener and sunglasses.

A new power Enthusiast driver's seat bolsters your confidence. While the redesigned instrument panel brings controls for headlamps, windshield wipers and so on closer to where you're sitting.

We've even switched our switches. They're at your fingertips, and you can use your fingertips to operate them—like electronic suspension controls which let you select three distinct ride levels.

Another touch of refreshing news: Shelby's re-engineered climate control system increases air flow—and comfort—throughout the vehicle.

Shelby interior is shown in optional Black leather.

New leather-wrapped steering wheel—you'll love how it feels. And the way it makes you feel. You'll also feel extra safe, thanks to the standard air bag inside the wheel. It provides unsurpassed driver protection.

New steering-wheel-mounted speed control—it's easier than ever to reach and maintain your desired speed, thanks to this conveniently located unit with acceleration and deceleration features.

New Enthusiast driver's seat—Shelby makes you feel like you're on the edge of your seat, but you won't be...thanks to motorized lumbar adjustments and back-wing supports. An eight-way power Enthusiast driver's seat is optional.

Infinity I sound system—listen to this: AM stereo<sup>®</sup>/FM stereo with memory scan, cassette tape player with automatic reverse, and a bi-amplified eight-speaker system in six locations.

New center console—places the center armrest, parking brake, suspension settings and shifter close at hand.

New center-mounted hand brake lever—right where it should be in a true driver's car.

New leather-wrapped five-speed Getrag manual shifter—with precision gating for smooth shifting.

Daytona ES, Daytona ES Turbo.

Full throttle thrills.

Daytona ES. Daytona ES Turbo. Fast times, times two.

The ES Turbo, shown in Black Clear Coat, leaves its

mark with a gutsy 2.5-liter SOHC MPI Turbo engine. Multipoint electronic fuel injection and twin balance shafts keep things running smoothly. Even during idle time.

Everywhere you turn, ES Turbo is dressed to thrill. Performance handling suspension with high-rate gas-charged position sensitive front struts and rear shocks. Performance-tuned antisway bars and springs. 14:1 quick-ratio power-assisted maximum control steering.

What results is an uncommon bond between human and machine: You drive it, it drives you.

You get the same charge from Daytona ES, even without a turbocharged engine. The standard 2.5-liter SOHC electronic fuel-injected power plant is housed in virtually the same dramatic windswept physique. Ground effects all around. Three-piece rear spoiler. 15-inch Euro cast aluminum wheels. You'll love the way it looks. And the looks you get.

Getting the inside track on ES and ES Turbo is just as much fun. Both offer sport-styled interiors with brand new instrument panels, consoles, and their own unique performance buckets. You're bound to sit up and take notice.

SHELBY

**The Allstate Safety Leadership Award** was presented to Chrysler Corporation in recognition of its being the first American carmaker to provide driver-side air bags as standard equipment on all domestic built 1990 Dodge passenger cars.

**Driver-Side Air Bag System**—Standard on every Daytona, the bag is neatly folded inside the sport steering wheel trim cover. It activates at a 10-mph front-end collision in about 50 milliseconds—just half the time it takes to blink your eye.

**Ultra-High Performance Power-Assisted Four-Wheel Disc Brake System**—Standard on Shelby, it offers larger calipers and rotors than standard brakes. The numbers: 247.6 square inches of front end and 177.8 square inches of rear brake "swept" area. The result: Shelby stops as well as it goes.

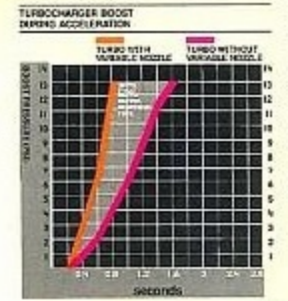

**Twin Balance Shafts**—The VNT Turbo engine incorporates counter-rotating balance shafts which smooth operation throughout the engine speed range. Porsche 944 shares this exotic technology. But at a very exotic price.

**5-Speed High Capacity Close Ratio Manual Overdrive Transaxle**—Standard on Shelby, it brings out the best in the car's new variable nozzle turbo engine. The race-tuned Getrag gear set makes this one of the strongest five speeds ever teamed with a four-cylinder engine.

**Roller Camshaft Followers**—Significantly reduce engine friction, which significantly improves overall engine performance and efficiency.

**Variable-Nozzle Turbocharger**—The heart of the new VNT Turbo engine, it has twelve aerodynamic movable vanes positioned by computer controlled solenoids to optimize power. Think of it as a jockey knowing just when and how hard to whip 174 horses.

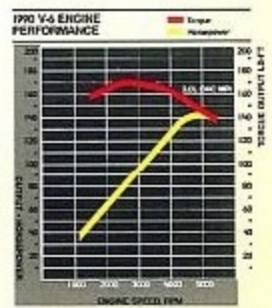

**2.2-liter SOHC MPI VNT Intercooled Turbo Engine**—Put your foot down. This engine responds, thanks to a variable-nozzle turbocharger (VNT) that accelerates to full boost up to 50 percent faster than the same engine without the VNT. Turbo "lag" is virtually eliminated.

**Ultradrive Automatic Transaxle**—Available on Daytona and Daytona ES with the 3.0-liter OHC MPI V-6,\* its sensors monitor the engine to determine exact upshift and downshift points. The result is crisp shifting and quick acceleration.

**IMSA Fire Hawk Showroom Stock Racing**—Showroom-type Daytonas, modified only slightly from those you see at your local Dodge dealer, give the also-rans a quick course in advanced engineering.

**3.0-liter OHC MPI V-6 Engine\***—Bright alloy aluminum cylinder heads, an overhead camshaft and multipoint fuel injection set 141 wild horses free in Daytona or Daytona ES. Peak horsepower is achieved at 5,000 rpm, peak torque at 2,800 rpm. Put another way...ZOOM!

\*Manufactured by Mitsubishi Motors Corporation.

**IMSA GTU Racing**—Performance runs in the Daytona family. IMSA-modified Daytona Shelys chase checkered flags from Sebring to Watkins Glen.

**How Daytona earned its wings.**

Dodge Daytona. A car that almost begs you to test its mettle. And its metal. The world's most advanced automotive componentry goes into it, so you get more out of it.

The exhilaration of turbocharged engine breakthroughs. The smooth efficiency of technically honed automatic and manual transmissions. The confident stopping strength of synchronized braking systems. The performance feel of precisely paired handling, steering and suspension teams. And most of all, the feel behind the wheel...at last, you've found a car that knows exactly what you're driving at.

**Dodge Daytona. Off you go into the wild blue yonder.**

Here's a bolt into the blue. Propelled by a fuel injected 2.5-liter SOHC engine with

twin balance shafts. Turbo and V-6 options. Getrag five-speed transaxle. And highway-hugging front-wheel drive.

Quick-ratio, power-assisted rack-and-pinion steering turns in a great performance. Sport suspension with gas-

charged position-sensitive front struts, front and rear antisway bars and gas-charged shocks get you over life's ups and downs. And power-assisted front disc and rear drum brakes stop you in your tracks.

Inside, there's lots of great news. Recrafted contoured reclining buckets. New sport steering wheel with an air bag. New analog gauges. New center console. And new instrument panel controls that are easier to reach. And operate.

Dodge Daytona is shown below in Daytona Blue Metallic Clear Coat. But in any color, it's still blue heaven.

## Optional Packages

Your best value in ordering available equipment is Daytona's wide selection of optional packages. Savings are realized on these packaged items compared with the cost of purchasing items separately.

### Popular Equipment Discount Package (Available on all Daytona models)\*

This package includes air conditioning, automatic door locks, power windows, electronic speed control, dual power remote control heated mirrors, dual map/reading light, under-hood light, cargo area light, illuminated ignition-key-slot, glove box light, tilt steering column, and fitted front floor mats.

### Automatic Transaxle Package (Available on Daytona Shelby only)

Includes electronic speed control, 2.5-liter SOHC MPI Turbo engine, performance-tuned stainless Pentasteel exhaust system and the three-speed automatic transaxle with a high-stall torque converter and performance axle ratio. Additional package features include a 90-amp alternator, integral turbo boost gauge, power bulge hood and "Turbo" hood decals.

The Automatic Transaxle Package is a no-charge option and is not available with the 2.2-liter VNT Turbo four-cylinder engine.

### Premium Light Package (Available on Daytona and Daytona ES only)

Includes illuminated entry system and illuminated visor vanity mirrors.

### Power Convenience Package (Available on Daytona and Daytona ES only)

Includes automatic door locks and power windows. (Power seat not included in package)

### V-6 Performance Discount Package (Available on Daytona ES only)

Includes 3.0-liter OHC MPI V-6 engine with performance-tuned stainless Pentasteel exhaust system, power-assisted Ultra-high-performance four-wheel disc brakes, additional cargo area carpeting over wheelbase, automatic door locks, Enthusiast bucket seats—cloth with driver-side power lumbar and back wing-support adjustments, door map pocket, leather-wrapped steering wheel, performance handling suspension, power windows, Chrysler Infinity I Sound System AM stereo\*/FM stereo with cassette tape player, seek-and-scan, and eight speakers in six locations.

### Value Package†† (Available on Daytona and Daytona ES only)

Includes automatic door locks, electronic speed control and AM stereo†/FM stereo radio‡ with cassette tape player and four speakers.

### Security Package (Available on Daytona ES Turbo and Daytona Shelby only)

Includes illuminated entry system and anti-theft alarm for doors and hood, featuring horn pulse, park lamps flash and disabled ignition.

### C/S Competition Package (Available on Daytona only)

Includes the intercooled VNT Turbo engine with high-capacity five-speed manual trans-axle, set of four 15-inch by 6.5-inch cast aluminum road wheels, Shelby-type maximum performance suspension, Ultra-high-performance four-wheel disc brakes, tilt steering column, rear deck spoiler, C/S "badging," turbo boost gauge, power bulge hood with "VNT Intercooled" decals, performance-tuned stainless Pentasteel exhaust, and Goodyear Eagle GT P225/50VR15 speed-rated unidirectional performance radial tires (set of four).

### Overhead Convenience Package (Available on Daytona ES, Daytona ES Turbo and Daytona Shelby only)

Includes overhead console with sunglasses and garage door opener storage, electronic compass, outside temperature display, and dual illuminated visor vanity mirrors.

\*Some items in package are standard on ES Turbo and Shelby.  
†Some AM stereo broadcasting may not be compatible with this radio. †See Radio Section for complete description.  
‡Leather-wrapped steering wheel shown is not part of package.

## Exterior Paint Colors:

### Daytona

Accent colors are available and used on Daytona ES and ES Turbo. \*Extra cost. †Not available with C/S Performance/Competition Packages. Clear Coat finish is standard on every 1990 passenger car built by Chrysler Motors. Due to printing limitations, the colors shown will vary slightly from actual hues. See your Dodge dealer for accurate color chips.

### Daytona ES/Turbo

### Daytona Shelby

## Consider Leasing.

Many of today's new car prospects are wisely considering leasing as an alternative to buying. Leasing a new Dodge Daytona usually involves a small security deposit and a first month's lease payment. Monthly payments are usually less than financing a new car purchase. Ask your dealer for details.

## Chrysler Credit Financing

Chrysler Credit offers a variety of finance programs that will help make your new Dodge even more affordable. These special finance and leasing programs are designed to meet the needs of today's automotive buyer. They include Gold Key Lease, America's Choice Payment Plan, College Graduate Plans, Retail Financing, and more. Ask your salesperson for details.

## Chrysler Purchase Assistance Program for the Physically Challenged

Cash reimbursements of up to \$500 are available for qualified adaptive driving devices on 1990 Chrysler Motors cars and trucks. For further information, contact your dealer or the PHYSICALLY CHALLENGED RESOURCE CENTER at 1-800-255-9877.

## 7/70 Power Train Limited Warranty

Upon expiration of the basic 12-month or 12,000-mile limited warranty, coverage is extended on power train components to seven years or 70,000 miles. A deductible applies. See your dealer for a copy of the warranty.

## 7/100 Anticorrosion Limited Warranty

Your dealer will repair or replace at no charge outer body sheet metal panels found to have developed perforation (rust-through) in normal use up to seven years or 100,000 miles. See your dealer for a copy of the warranty.

## Optional Service Contract

Chrysler Service Contracts provide you with additional peace of mind protection for your new vehicle. Chrysler Motors offers a variety of plans to meet your needs. Plan coverage begins after your vehicle's basic warranty expires. A deductible applies. Allowances for car rental and towing are also included.

Certain models, packages, and options are subject to specific restrictions, requirements, or late availability. See your dealer for the latest ordering information.

All product illustrations and specifications are based on current information at the time of publication approval. Although descriptions are believed correct, accuracy cannot be guaranteed. Chrysler Motors reserves the right to make changes from time to time, without notice or obligation, in prices, specifications, colors and materials, and to change or discontinue models. See your dealer for the latest information.

MOPAR parts are engineered by Chrysler Motors for use in your new Dodge Daytona. When replacement is necessary, be sure to specify MOPAR parts. Used by professional mechanics all over the world.

Daytona with C/S Competition Package shown above in Bright White Clear Coat.

#### Infinity Speaker System

High frequency tweeters provide sound clarity, while woofers add maximum sound projection and consistency.

Rear speakers with co-axially mounted woofers and dome-shaped tweeters, assure clear and balanced sound reproduction at all frequencies.

#### Chrysler Infinity I Sound System

(Available on Daytona and Daytona ES, standard on Daytona ES Turbo and Daytona Shelby)  
AM stereo\*/FM stereo electronically tuned; with memory scan, up-and-down seek-and-scan, Dynamic Noise Reduction†; electronic cassette tape player with automatic reverse, true fast-forward and rewind, automatic metal tape sensor, tape program music search, Dolby B‡ Noise Reduction, joystick balance/fader speaker control, Chrysler Infinity bi-amplified eight-speaker system in six locations; integral digital clock.

#### Sounds of Pleasure

##### AM Stereo\*/FM Stereo Radio

(Standard on Daytona and Daytona ES)  
AM stereo\*/FM stereo radio electronically tuned with Dynamic Noise Reduction† with four speakers and integral digital clock.

##### AM Stereo\*/FM Stereo Radio With Cassette Tape Player

(Optional on Daytona and Daytona ES)  
AM stereo\*/FM stereo: electronically tuned, with Dynamic Noise Reduction†, cassette tape player with automatic reverse and locking fast-forward and rewind, bass/treble slide control, four-speaker system instruction/demonstration tape with musical selections and dry-type cleaner integral with tape leader, supplied with this audio system; integral digital clock.

#### Chrysler Infinity II Sound System

(Available on all Daytona models)

†Dynamic Noise Reduction (DNR) is a trademark of National Semiconductor Corporation.  
‡Dolby B is a trademark of Dolby Laboratories.

*"Everybody today talks about building a better America, but to do that somebody has to dare to be different.*

*In the automotive industry, however, one division has consistently been the first to go where no others have gone before...all in the attempt to build a better automobile. That division is Dodge, the performance division of Chrysler Motors.*

*It was Dodge that was first to marry front-wheel drive technology to turbocharged engine technology. It was Dodge that was the first to back the quality of its cars with a 7/70 Protection Plan. It was Dodge that first developed a fully adaptive electronic automatic transaxle and now the first to equip a passenger vehicle with a variable nozzle turbocharger. As we enter the final decade of this century with a wide variety of new technologies and an obsession to be number one in customer satisfaction, Dodge will continue to shatter old ideas, establish new standards, and dare to be different.*

*Is it any wonder then that Dodge has become the fastest growing car and truck division in America?"*

*Lee A. Iacocca*
