THERE IS A NEW SPIRIT THAT DRIVES CADILLAC

A spirit that drives us to improve upon an already proud tradition. Because in this age of changing attitudes, Cadillac is leading the way in creating a balanced redefinition of the luxury car that incorporates new values in a uniquely Cadillac way.

Cadillac believes quality goes beyond impeccable fit and finish to enhance the secure confidence and control you feel behind the wheel.

Cadillac believes an aerodynamic automobile can also be elegantly distinctive.

Cadillac believes responsive handling can co-exist with a smooth ride.

And Cadillac believes that leading-edge technology can enhance the renowned comfort and convenience that make a Cadillac a Cadillac.

Behind this new philosophy, there is the overriding belief that there will always be those who seek the best there is.

THE MOST ELOQUENT DESIGN STATEMENTS

Examine the trim, elegant styling of a new Cadillac. It demonstrates that at Cadillac we believe the most eloquent design statement is elegance without excess. But beyond the classic simplicity, these Cadillacs are more manoeuvrable and easier to park on crowded city streets. A practical convenience. Their aerodynamic lines actually help create an oasis of interior quiet. A soothing comfort.

A WORLDWIDE CADILLAC EXCLUSIVE

The interior environment of a new-generation Cadillac retains an open, spacious atmosphere. A worldwide Cadillac exclusive—the front-drive, transverse-mounted V8—saves valuable space which, in turn, is passed along to the passenger compartment.

Our leading-edge technology has also been enlisted to benefit the Cadillac hallmarks of comfort and convenience. Technology that actually anticipates your needs. Witness the sensor that measures the amount of sunlight entering the car. The Body Computer Module (BCM) that automatically adjusts the Electronic Climate Control. The accommodating BCM allows the uninterrupted use of stereo radio, power

windows and other power conveniences up to 10 minutes after you turn off the ignition.

BALANCED PERFORMANCE

Responsive road manners. Silky ride comfort. These qualities are not mutually exclusive in a Cadillac with front-wheel drive and four-wheel independent suspension. This unique balance of performance parameters results in handling that is always precise, but never harsh. And every Cadillac is fitted with a V type engine for response that is spirited as it is smooth.

THE COMPREHENSIVE NETWORK OF SAFETY FEATURES

There's tremendous peace of mind derived from knowing that you and your family are surrounded by the substance of a Cadillac because of the comprehensive network of safety features integral to its design.

Now for 1987 our commitment to your security extends to an advanced Anti-Lock Braking System standard on the all-new Fleetwood Sixty Special, available on select other Cadillac models. And our all-new ultra-luxury roadster, Cadillac Allante, has the world's most sophisticated Anti-Lock Braking System in production today (Bosch ABS III).

THE ULTIMATE COMFORT: PEACE OF MIND

When you look at a Cadillac, you see a reflection of your own high standards. This quality craftsmanship results from advanced production techniques and repeated inspections by computer, by lasers and by human hands. The benefit to you is a Cadillac designed and engineered to provide you freedom from inconvenience with years of dependable service.

No matter which Cadillac you choose you'll enjoy the ultimate comfort: peace of mind. The peace of mind of Cadillac's 5-year/80,000-kilometre (50,000-mile) limited warranty for every Cadillac except Allante, which has the world's first 7-year/unlimited-mileage warranty.

After all, another word for warranty is confidence. And another word for quality is Cadillac.

Cadillac for 1987. The spirit of luxury leadership.

ALLANTÉ

by Cadillac

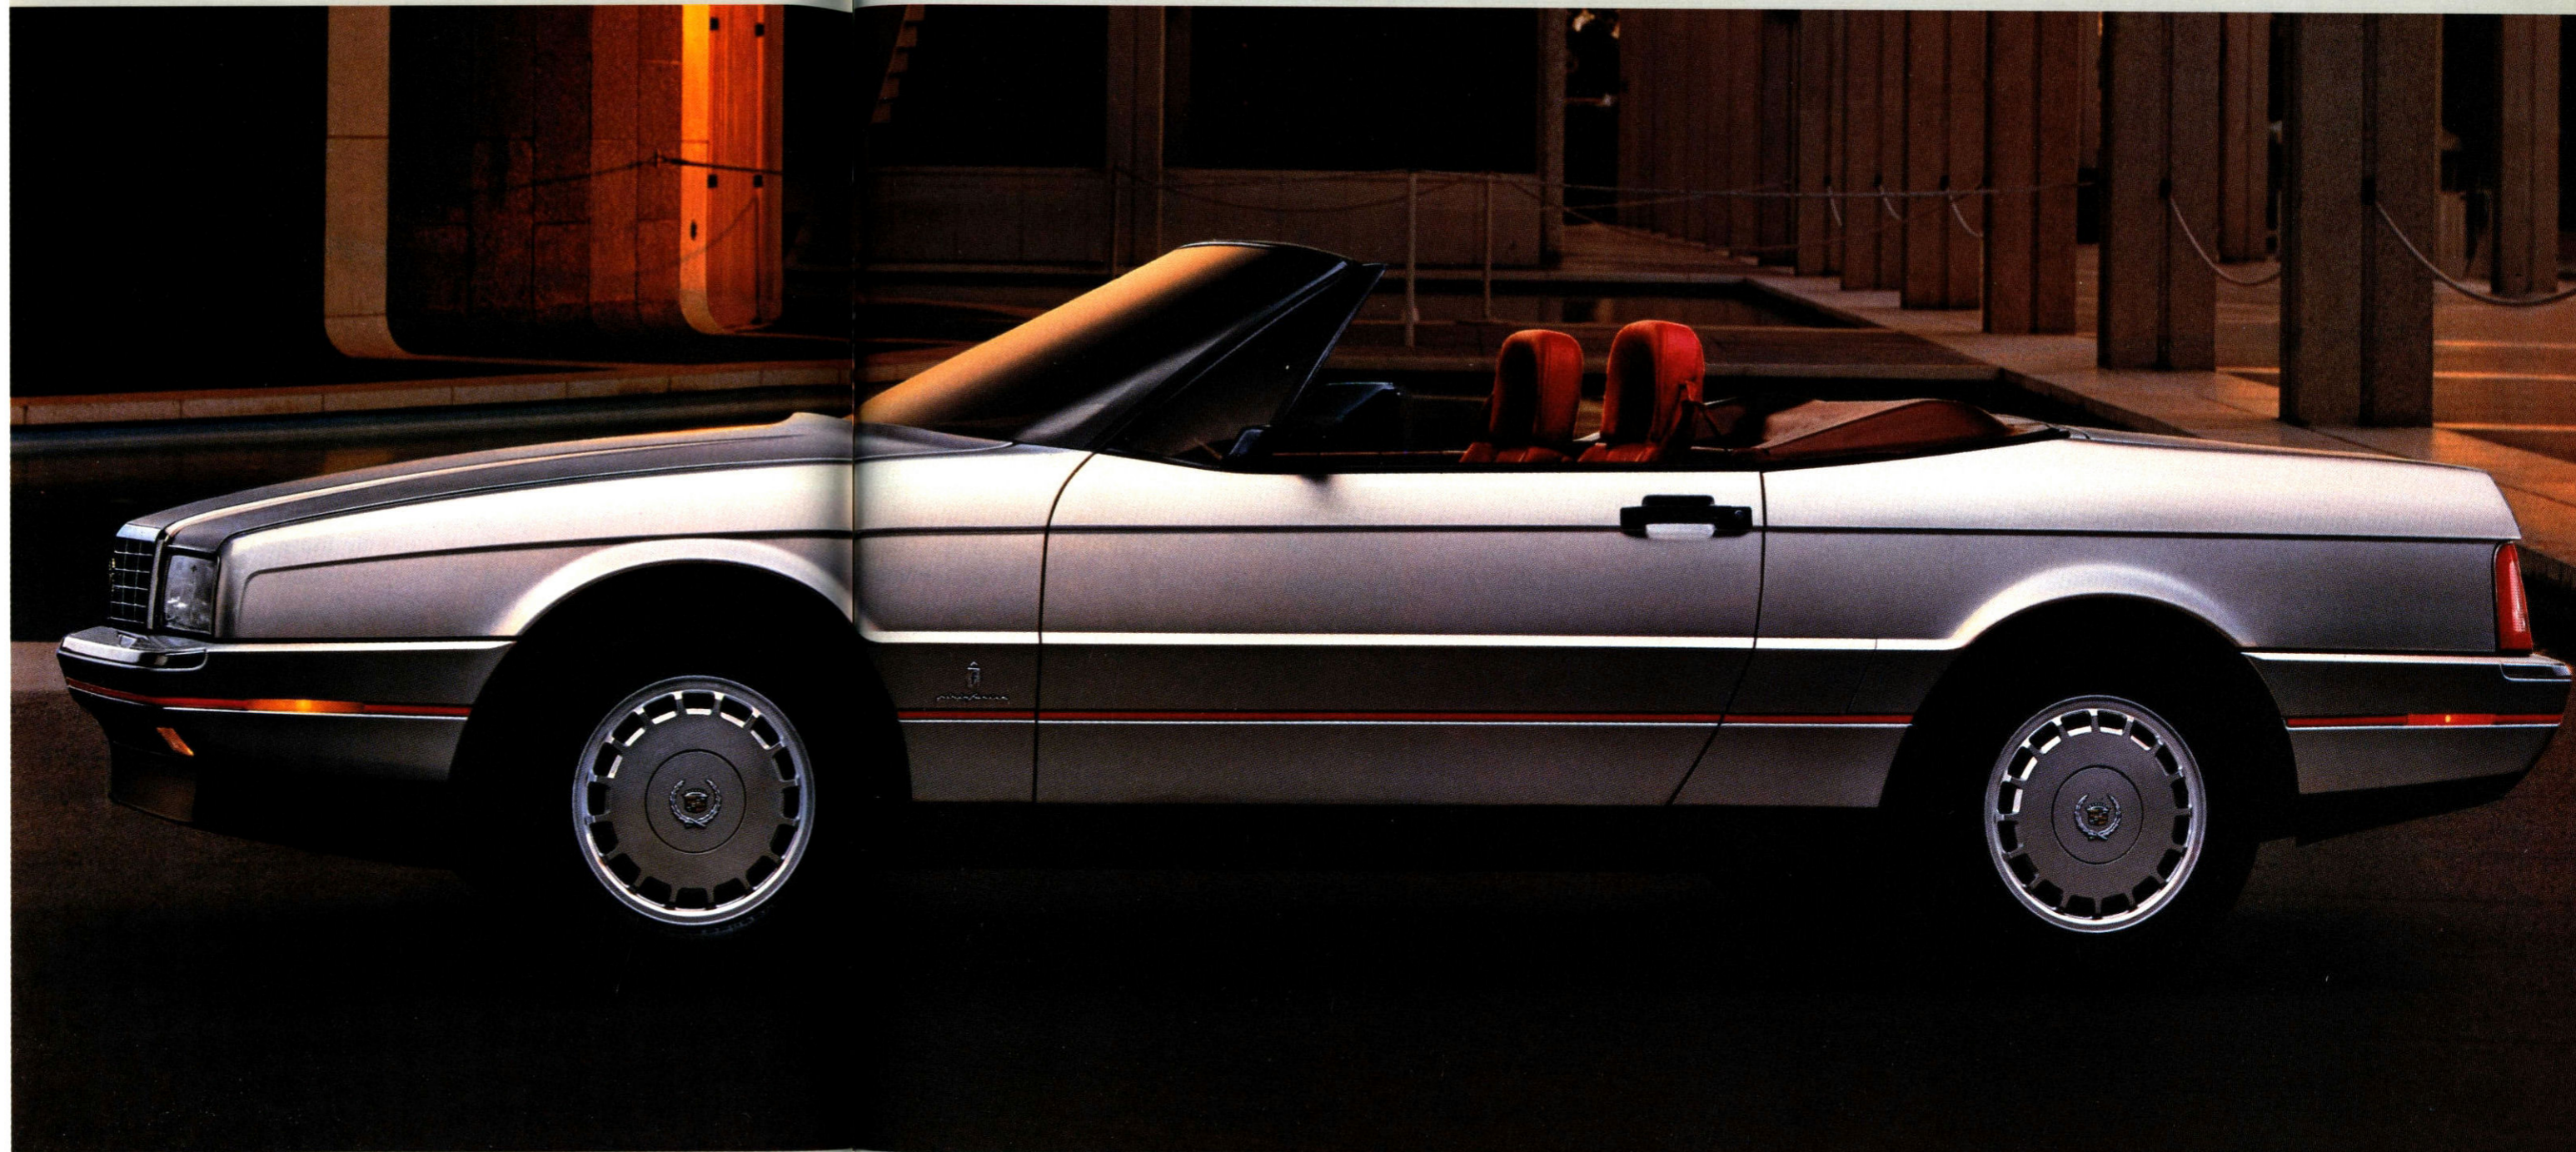

Presenting Allanté, the new spirit of Cadillac. It is a luxury front-wheel drive roadster unlike any that has come before it.

Conceived and commissioned by Cadillac, the world's recognized luxury leader. Designed and handcrafted by Pininfarina, master designer of the Ferrari Testarossa and Rolls Royce Camargue. Each Allanté body and interior is finished in Turin, Italy and then flown to the United States for final assembly by Cadillac.

In creating Allanté, Cadillac has developed a new class of automobile. A new class of performance that merges European road manners with Cadillac comfort.

The sculptured hood conceals a specially-tuned 4.1 Litre Sequential-Port Fuel-Injected V8 engine, that offers seemingly limitless reserves of smooth power. Handling is always precise, never harsh. And only Allanté has the stopping power of the new Bosch III Anti-Lock Braking System, the most advanced in production.

Allanté. Cadillac's new standard for the world.

With the top removed, Allanté's superior aerodynamics allow you, at 88 kilometres per hour (55 mph) to hold a normal conversation.

Allanté's folding top incorporates a special three-glass window design for enhanced visibility and longevity.

Put the hardtop on (no tools required) and Allanté exhibits the qualities of an International-Class sedan.

ALLANTÉ

by Cadillac

Allanté is designed for your comfort and control. The Recaro tradition is evident in Allanté's orthopedically correct approach to passenger seating. Seating that offers firm support in comfort-sensitive areas. And further pampers its occupants with the unmistakable luxury of Italian saddle leather.

A spacious passenger compartment ensures comfort for drivers of virtually any size. The adjustable leather-wrapped steering wheel not only tilts but also telescopes, to further enhance driver comfort and control.

Allanté drivers will also appreciate the proper ergonomic placement of its extensive instrumentation. Here is electronic sophistication unmatched in the ultra-luxury class. The best of digital and electronically created analog displays.

Also unique to Allanté is the second generation of the renowned Delco-GM/Bose Symphony Sound System.

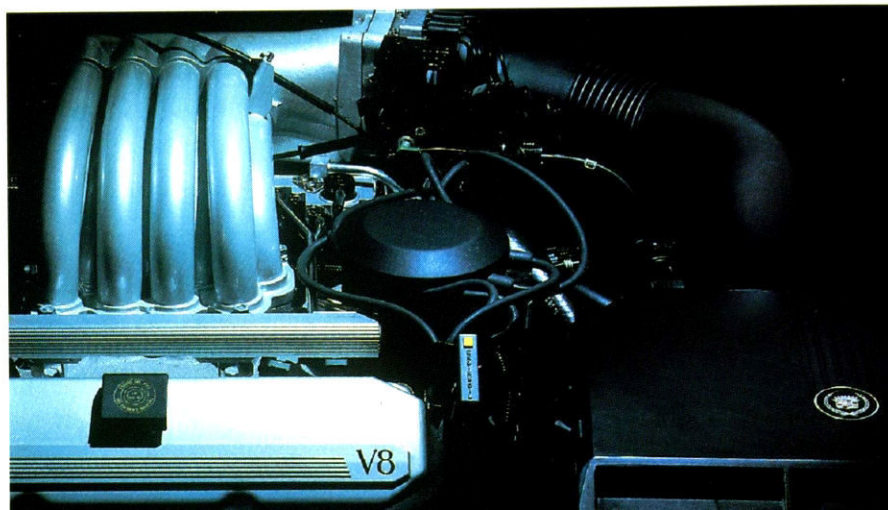

In fact, Allanté is so complete, its only extra-cost option is the provision for a cellular telephone.

And this limited production Cadillac has the world's first 7-year/unlimited mileage warranty.

Ask your Cadillac sales representative for details about this warranty and Allanté. The new spirit of Cadillac.

The Allanté's high-output 4.1 litre Sequential-Port Fuel-Injected V8 engine.

An examination of Allanté's passenger compartment reveals the meticulous attention to detail that has long characterized the Pininfarina approach to coach building.

SEDAN DE VILLE

by Cadillac

At Cadillac, we believe that today's luxury cars should reflect today's values. And we've created Sedan de Ville in keeping with that belief.

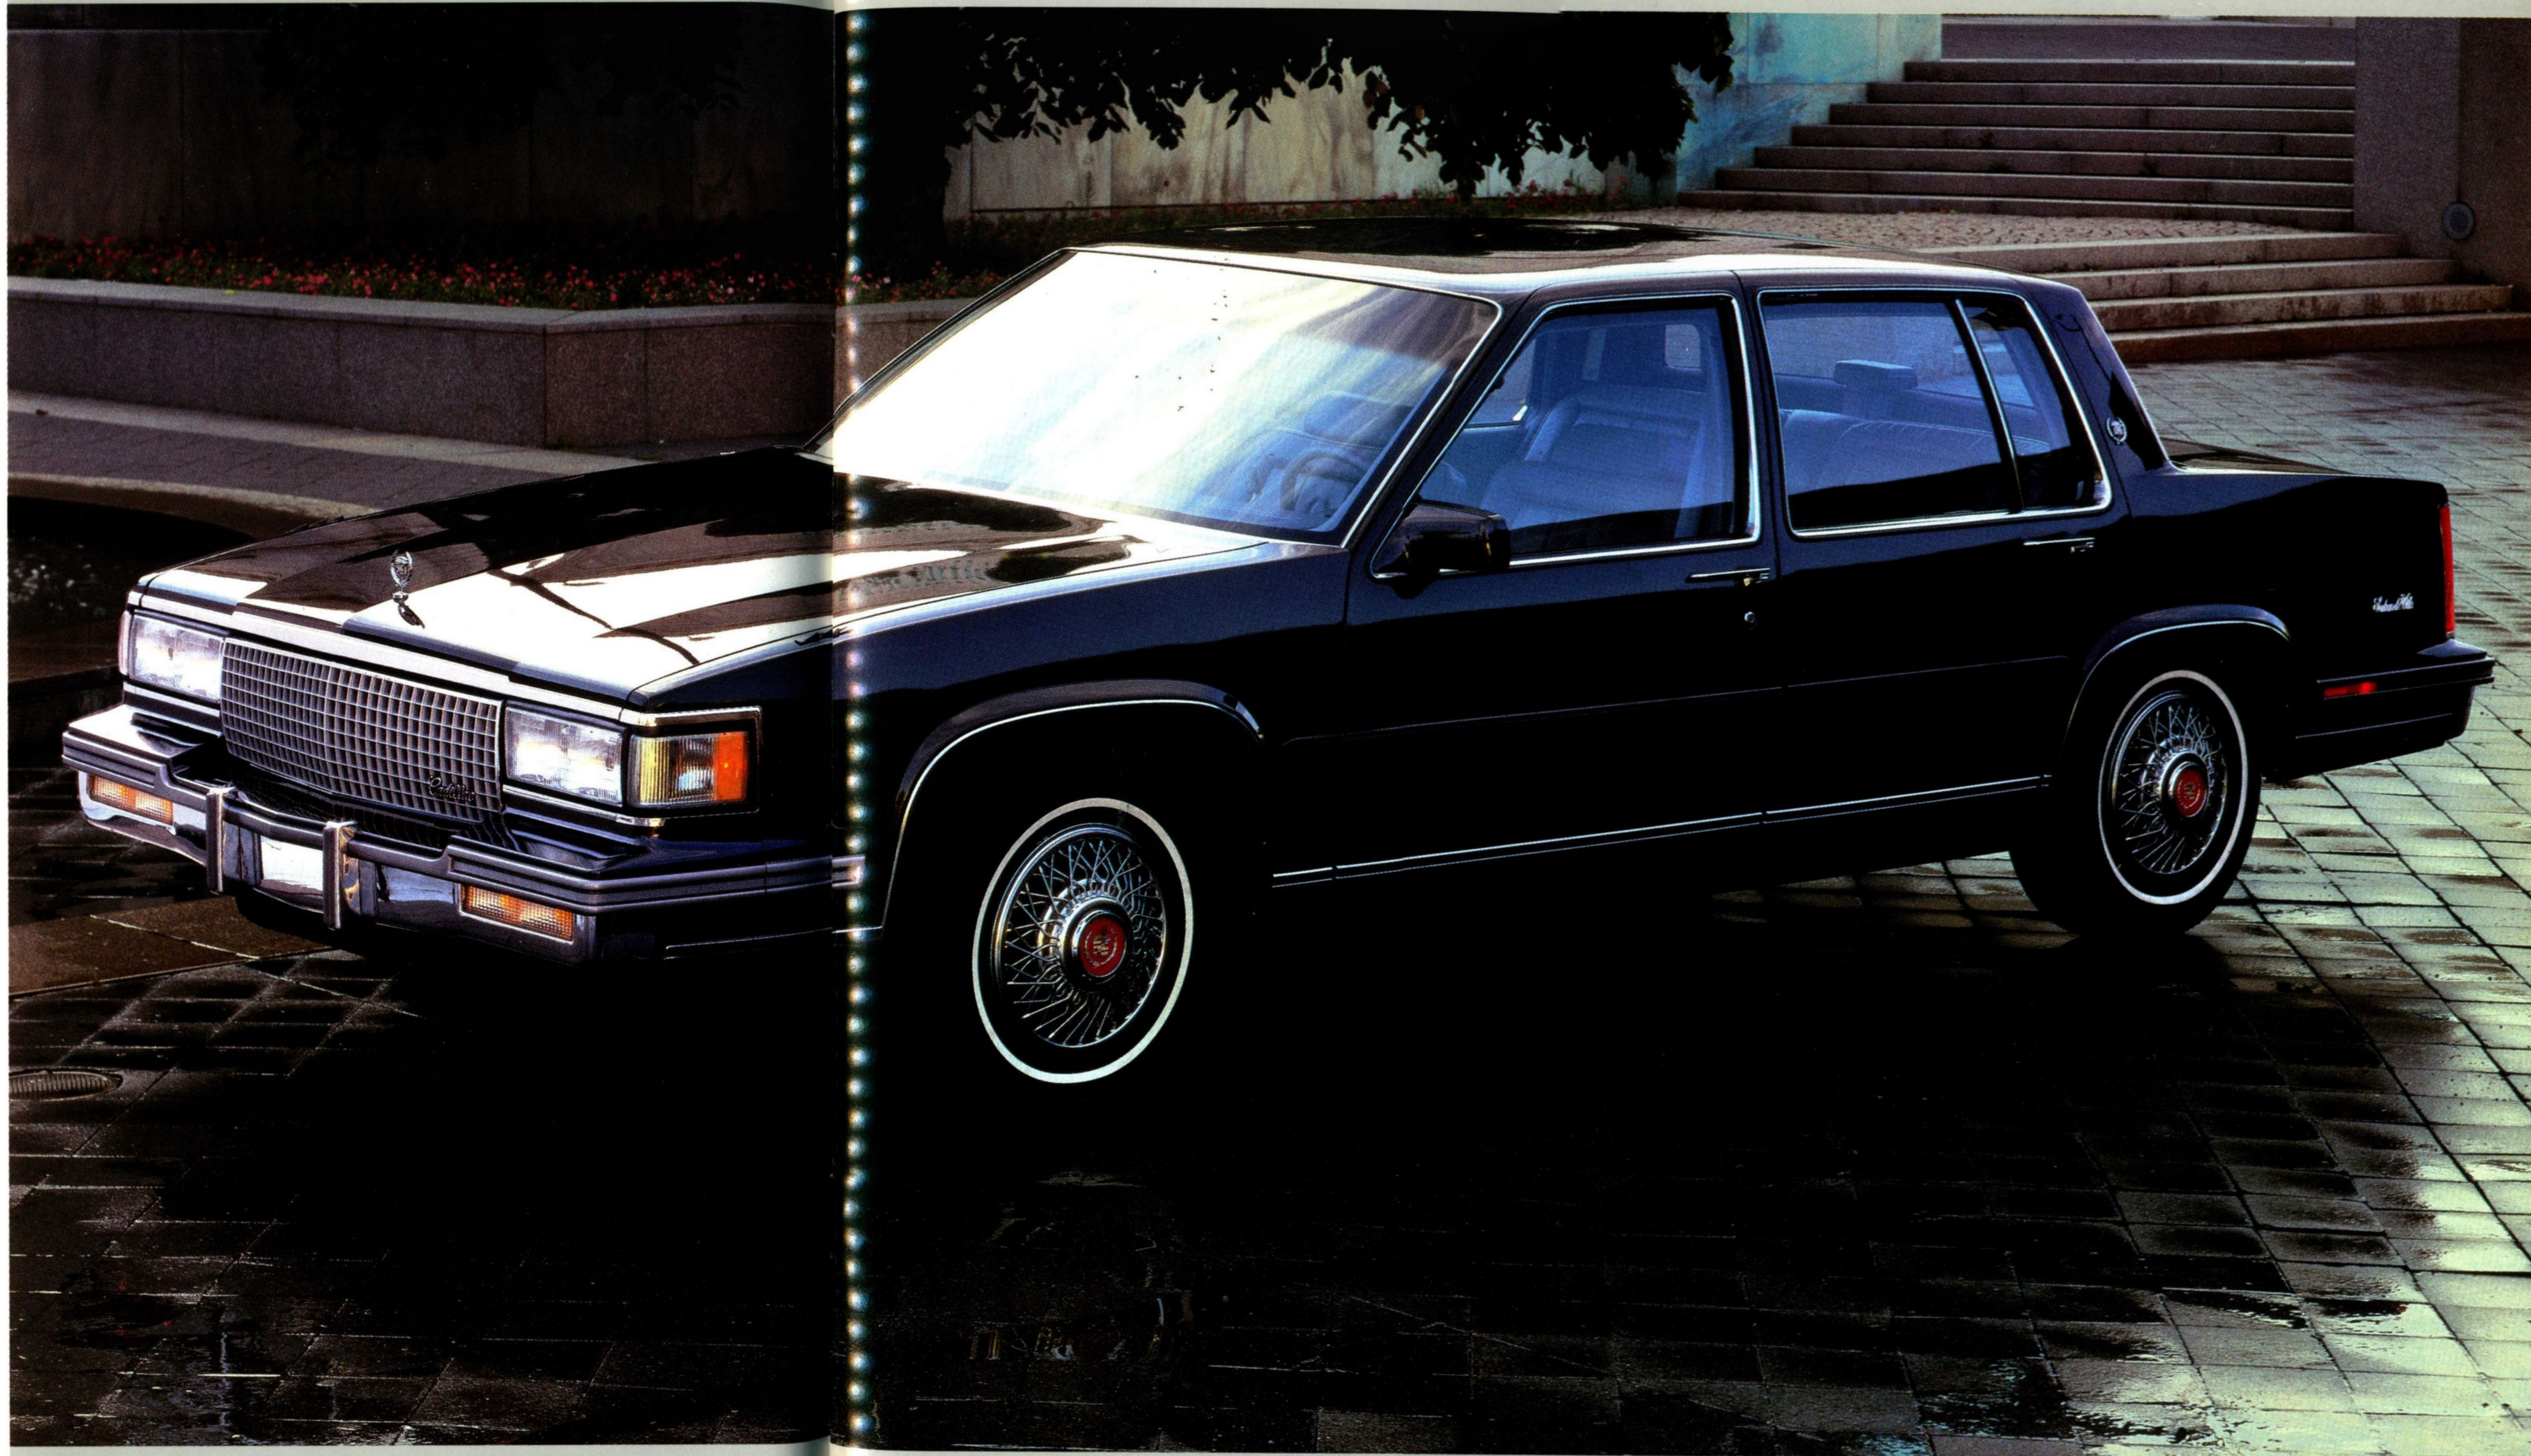

Advances in technology not only anticipate driver and passenger needs before they arise, but contribute to new levels of safety and reliability as well. The distinctive new exterior styling, with composite headlamps, restyled grille and a subtle increase in overall length, strikes a delicate balance between fluid, contemporary form and classic Cadillac lines.

At the same time, those hallmarks of spaciousness and craftsmanship remain intact. Values reflected in Sedan de Ville's full-size room for six adults, its smooth, quiet Cadillac ride and (new for 1987) the safety and convenience of rear power door lock switches.

Beyond the traditional physical aspects, there is also a sense of comfort in knowing you're in complete command. With the all-weather traction of front-wheel drive. The responsiveness of power-assisted rack-and-pinion steering and four-wheel independent suspension. The accelerating power of a transverse-mounted 4.1 Litre V8 engine with Digital Fuel Injection.

Today's values... in all respects. That's the contemporary spirit of Cadillac.

—

Sedan de Ville with available two-tone paint.

COUPE DE VILLE by Cadillac

This is the two-door version of one of North America's most popular luxury cars. But what is it that makes Coupe de Ville so successful?

It's the way advanced technology enhances traditional Cadillac virtues. It's the front-drive transverse-mounted V8 which helps yield full-size room for six adults. It's a sleek door-in-roof design that not only enhances the appearance outside, it actually makes Coupe de Ville quieter inside. It's an Electronic Climate Control system that even displays the temperature outside. It's a more powerful Body Computer Module, which now lets you operate the wipers, radio and available trunk release, as well as the power windows, up to ten minutes after the ignition is turned off.

It's the most comprehensive anti-rust treatment in Cadillac history, as evidenced by a 5-year/unlimited kilometre warranty against rust perforation.

It's all this, plus available features like a vacuum fluorescent digital instrument cluster, Dual Comfort 45/55 front seating, and a sophisticated electronic anti-theft system.

The 1987 Coupe de Ville. It proves again that nothing succeeds like success.

De Ville's available anti lock-braking system takes the panic out of panic stops by automatically pumping your brakes so you can maintain steering control and actually stop quicker.

1987 Coupe de Ville with distinctive new styling that includes composite headlamps, restyled grille, new tail lamps and extended rear quarters.

Available Diamond grain Full Cabriolet roof.

Available Cambria roof.

TOURING EDITIONS *by Cadillac*

The Cadillac Touring Sedan and Touring Coupe are designed for people who want exceptional response and handling combined with Cadillac comfort and convenience.

Performance Enhancement Package refinements to the powertrain provide greater horsepower and torque for impressive off-the-line response. The suspension is retuned to maximize the benefits of high-performance Goodyear Eagle GT tires on 15" aluminum alloy wheels, solid front and rear stabilizer bars, higher spring rates and faster ratio steering.

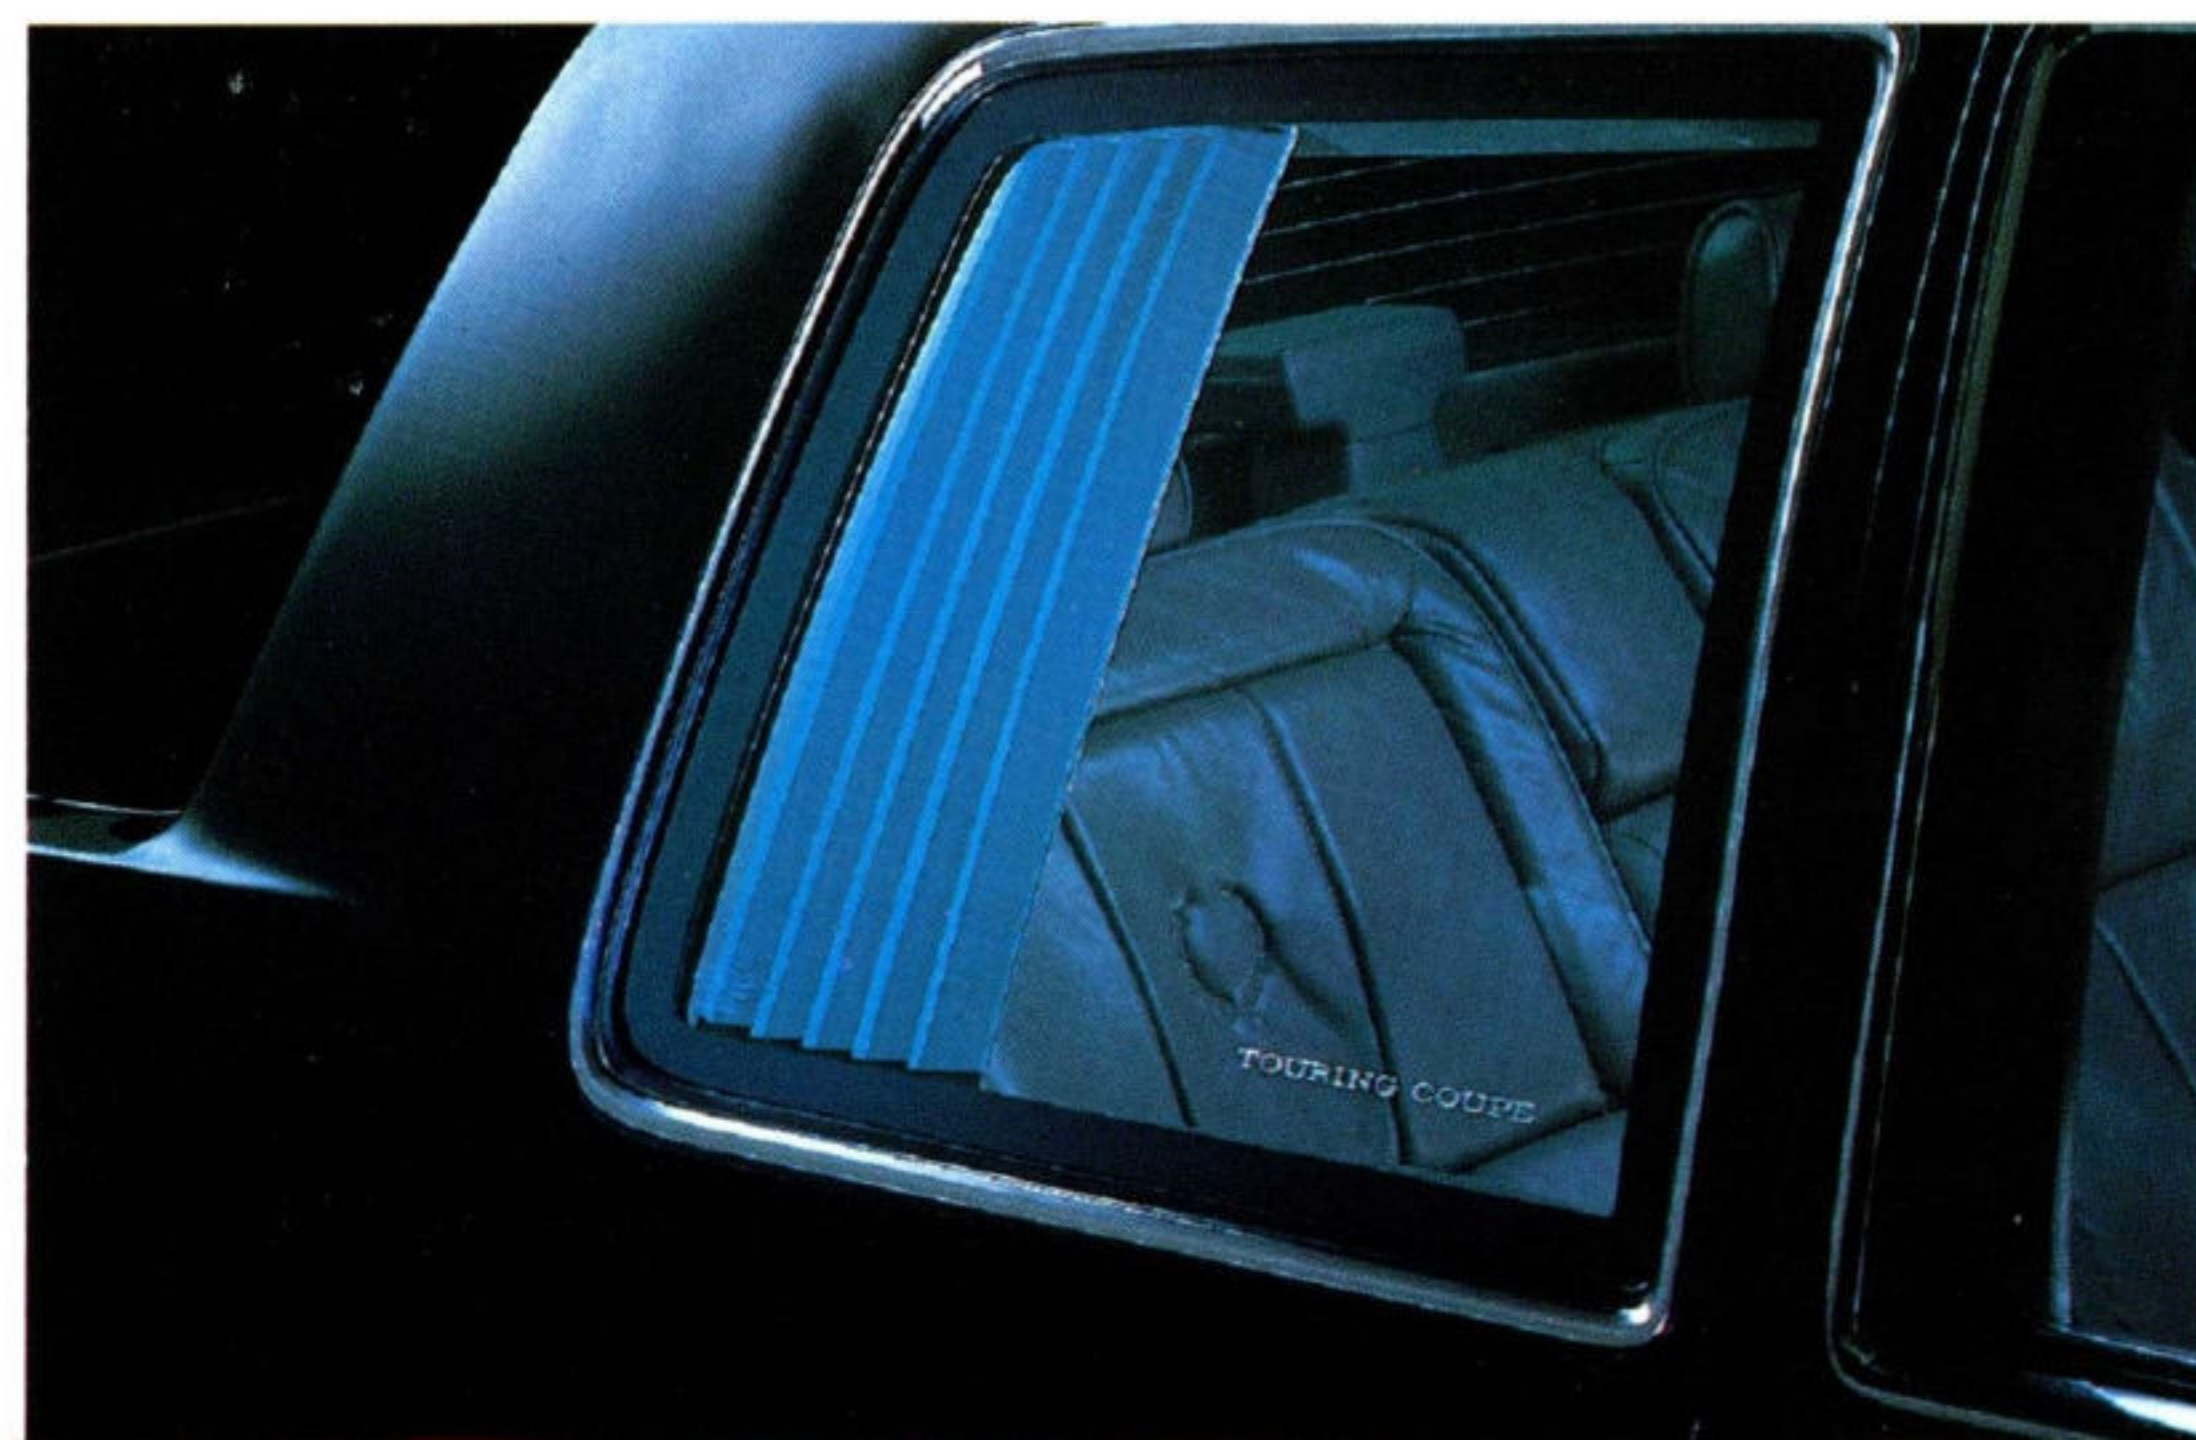

From the front air dam with its integral fog lamps to the rear deck lid spoiler, these Touring Editions are a new breed of Cadillac.

Because these are performance cars in the Cadillac context, they go beyond the expected and deliver a superior degree of comfort as well.

With soft, gray leather in the seating areas. On the headrests, both front and rear. On the steering wheel and automatic shift and tilt steering wheel levers.

The contemporary spirit of Cadillac. Touring Coupe and Touring Sedan for 1987.

Quarter windows on Touring Coupe feature removable vertical louvres.

Available in gray, black and white, each Touring Edition receives two final coats of clear acrylic for a deep, lustrous finish.

FLEETWOOD d'ELEGANCE FLEETWOOD SIXTY SPECIAL

by Cadillac

As its name implies, the distinctive character of Fleetwood d'Elegance is rooted in elegant styling refinements: Formal Cabriolet roof, opera lamps, wire wheel discs and new grooved lower body side mouldings.

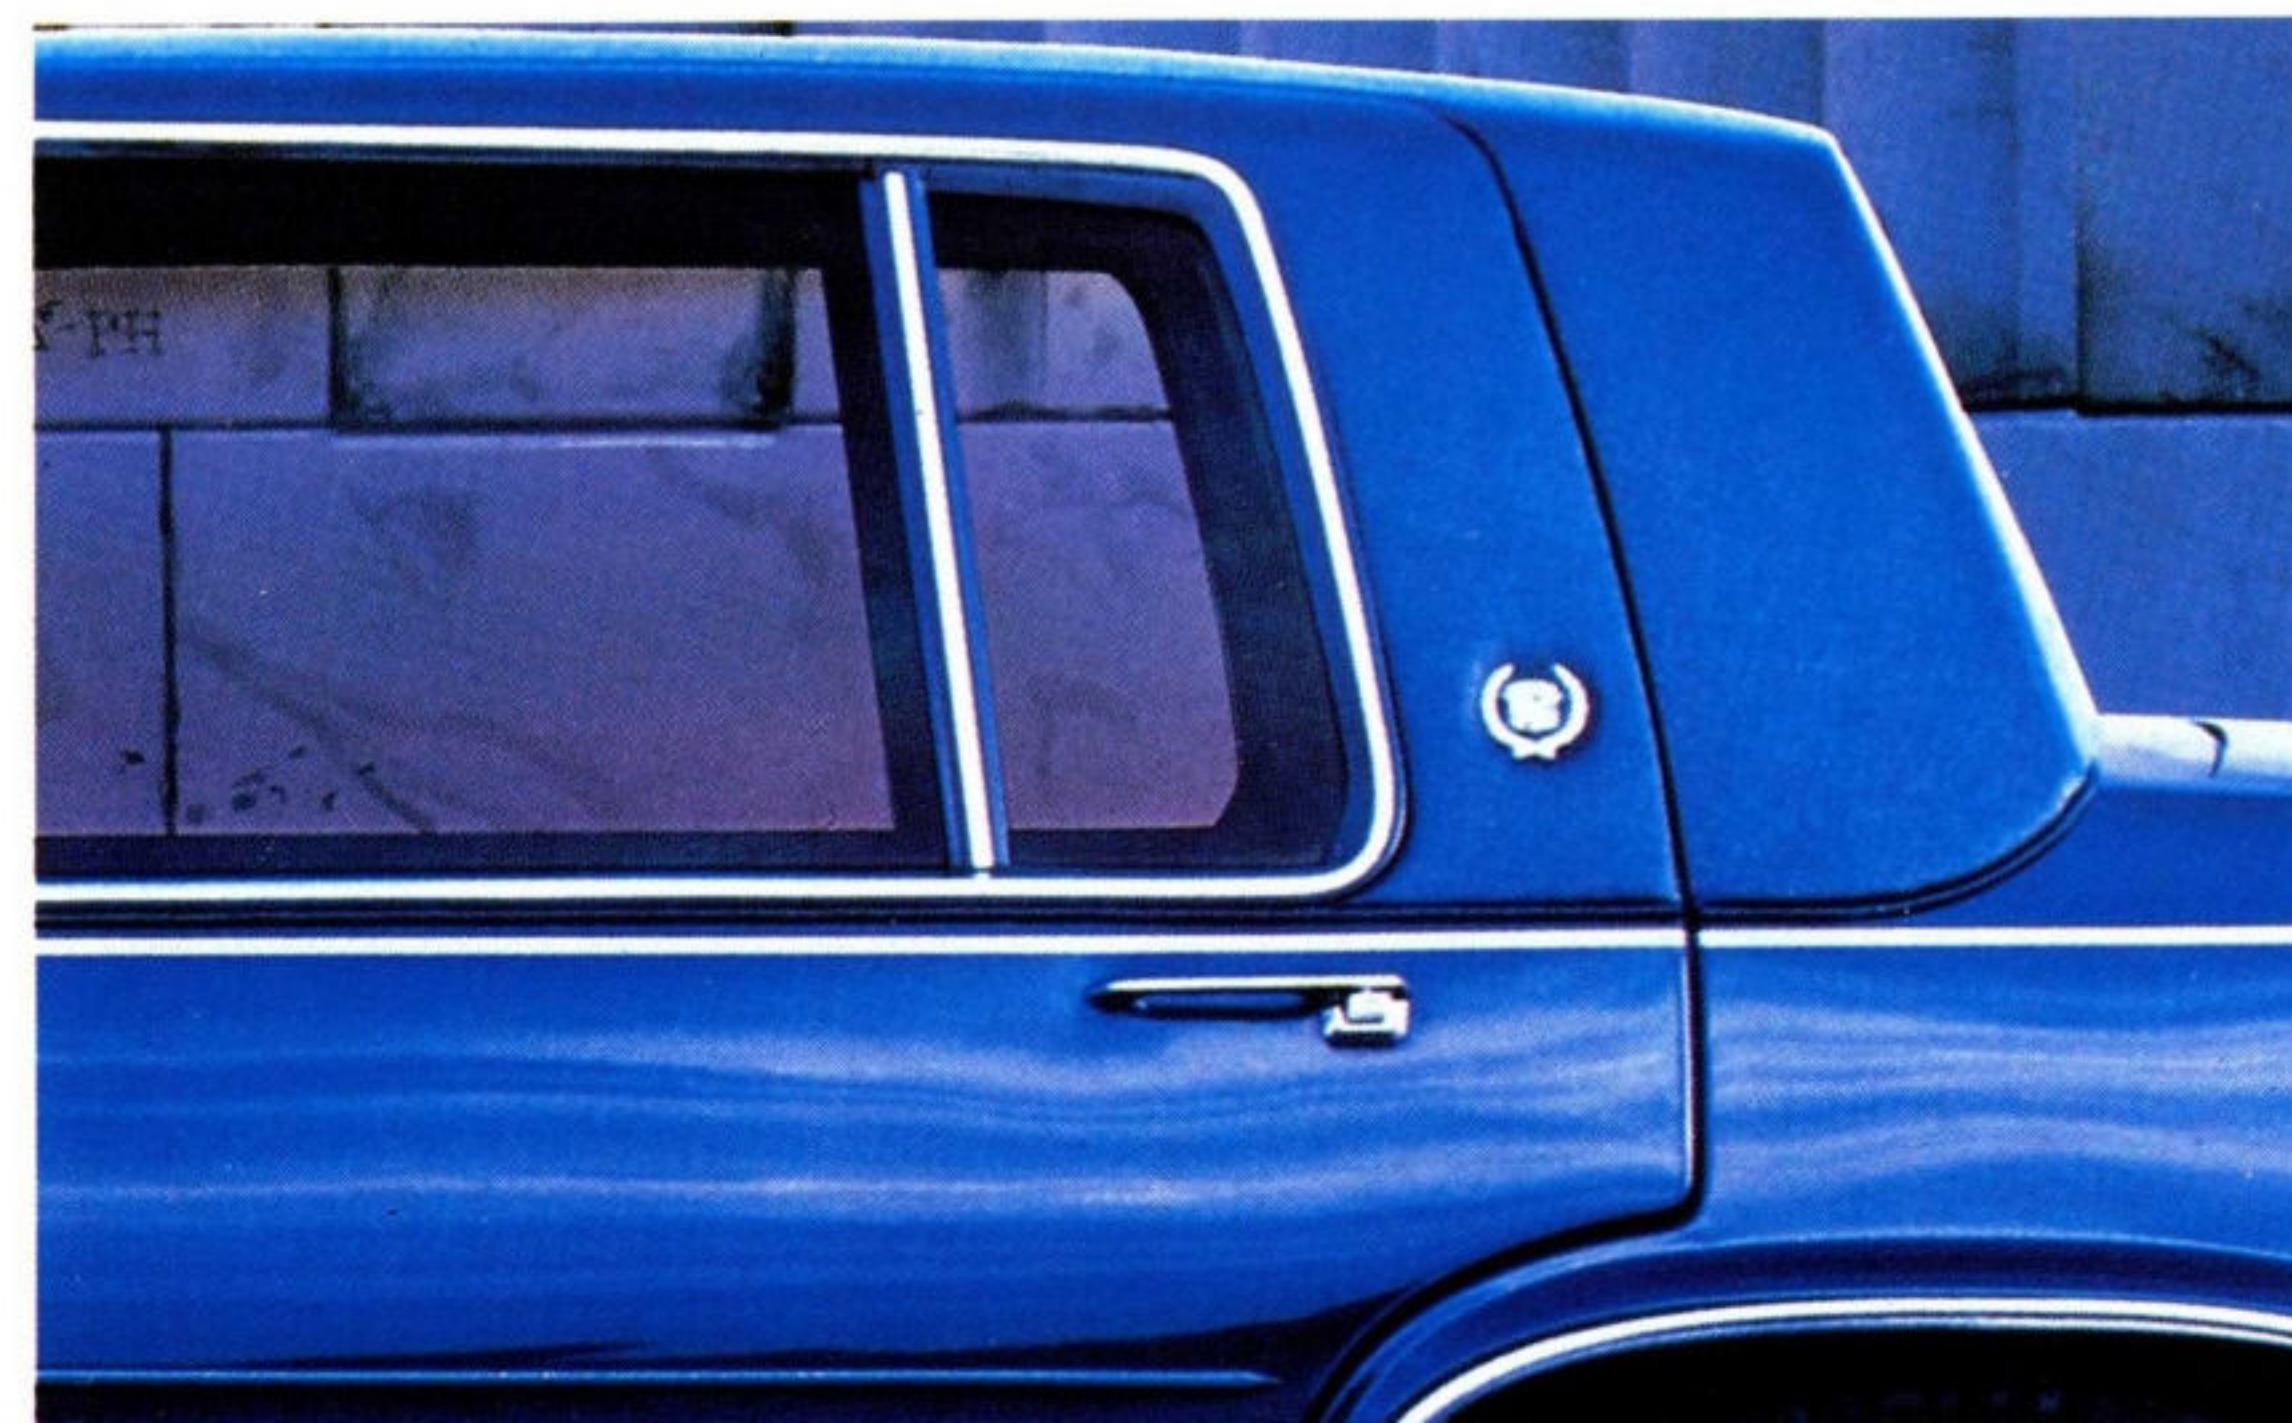

Complementing these features is leading-edge technology that makes Fleetwood d'Elegance a full-size luxury car for today. The space-efficiency of Fleetwood's front-drive, transverse-mounted 4.1 Litre V8 engine helps yield full-size roominess for six adults. The tailored door-into-roof design virtually eliminates wind noise. And the new composite tungsten halogen headlamps simultaneously enhance aerodynamics while bringing added styling distinctiveness.

This sophisticated spirit manifests itself as well in Fleetwood's newest family member, the executive class Fleetwood Sixty Special. Born of d'Elegance luxury, Fleetwood Sixty Special has an extended wheelbase which immediately signals the status of this exclusive Cadillac. This 127 mm (5-inch) increase to the length enhances ride comfort and creates a rear seat of limousine-like proportions.

At the same time, the Fleetwood Sixty Special has the impressive traction and handling of front-wheel drive and four-wheel independent suspension. And as standard equipment, the superior control of an advanced Anti-Lock Braking System.

Fleetwood d'Elegance. Fleetwood Sixty Special. The sophisticated spirit of Cadillac.

◆
A longer, full padded Cabriolet roof accentuates Fleetwood Sixty Special's distinctive exterior styling, and added length.

Full-size luxury has never been more sophisticated than Fleetwood d'Elegance.

FLEETWOOD SEVENTY FIVE LIMOUSINES

by Cadillac

As the corporate world has become increasingly sophisticated in its scope and vision, the Cadillac limousines have become equally sophisticated.

Witness the contemporary styling changes: composite headlamps, restyled grille, wraparound bezel and cornering lamps and full-length wider, lower, bright mouldings and a subtle increase to the overall length of 38 mm (1.5 inches). You'll find that limousine luxury and sophisticated engineering have never been more compatible.

The Fleetwood Seventy Five and Seventy Five Formal Limousines incorporate the latest advances in Cadillac technology. A front-drive, transverse-mounted 4.1 Litre V8 engine. Electronic Level Control. Independent four-wheel suspension. Digital instrumentation. On-board computer diagnostics.

Yet, they also preserve such traditional Cadillac amenities as rear-passenger controls for the Electronic Climate Control. A closed-in rear window for greater privacy. And seating for eight in the Fleetwood Seventy Five Limousine. The Fleetwood Seventy Five Formal Limousine seats seven and includes separate air conditioning for rear seat passengers and front seating areas trimmed in leather.

Please ask your Cadillac sales representative for further information regarding these exceptional limousines.

◆
Fleetwood Seventy Five Formal Limousine's interior features a centre partition with sliding glass privacy panels.

Cadillac's heritage of advanced technology, quality craftsmanship and limousine luxury are embodied in the 1987 Fleetwood Seventy Five and Seventy Five Formal Limousines.

INTERIORS

by Cadillac

SEDAN DE VILLE AND COUPE DE VILLE

A two-tier design instrument panel features a fuel data centre with digital fuel gauge that displays your instantaneous and average rate of fuel consumption, estimated driving range and more. Also an Electronic Climate Control that lets you change interior temperature setting as precisely as one degree.

TOURING EDITIONS

Add the ultimate luxury of leather to de Ville's already opulent interior and you have the driving environment of Cadillac's Touring Editions. An environment which offers leading-edge technology and traditional Cadillac comfort in perfect harmony. With a sporty appearance that captures the spirit of the open road.

FLEETWOOD d'ELEGANCE

As the d'Elegance script on the glove box indicates, this is the sophisticated spirit of Cadillac. The evidence is everywhere. Amenities include: dual comfort 45/55 front seating, padded steering wheel tailored with leather, digital instrument cluster trimmed with genuine American walnut, rear-seat reading lamps and rear-power door lock switches.

FLEETWOOD SIXTY SPECIAL

Deep-pile Tampico carpeting spans the lengthened rear floor, its acoustical insulation adding to the quiet elegance. Carpeted footrests impart a sense and look of comfort and exclusivity. Overhead, the convenience of a vanity console serves your rear seat passengers. And up front, six-way power seating for both driver and passenger.

De Ville's standard interior offers new Contessa cloth inserts with Royal Prima cloth bolsters.

Fleetwood d'Elegance seat trim design features tucked seating areas in Royal Prima cloth (available leather shown).

Cadillac's Touring Editions present a standard interior treatment of soft, supple gray leather.

Fleetwood Sixty Special's tufted, multi-button seating is tailored in Royal Prima cloth (available leather shown).

ELDORADO

by Cadillac

This is the Cadillac for people who would rather drive than ride.

A front-drive, transverse-mounted V8 engine with 4.1 Litres of power lies potent at the pedal, responding instantly with fuel-injected precision. The four-wheel independent suspension delivers impressive control with a minimum of body roll and sway, even on tight highway entrance ramps.

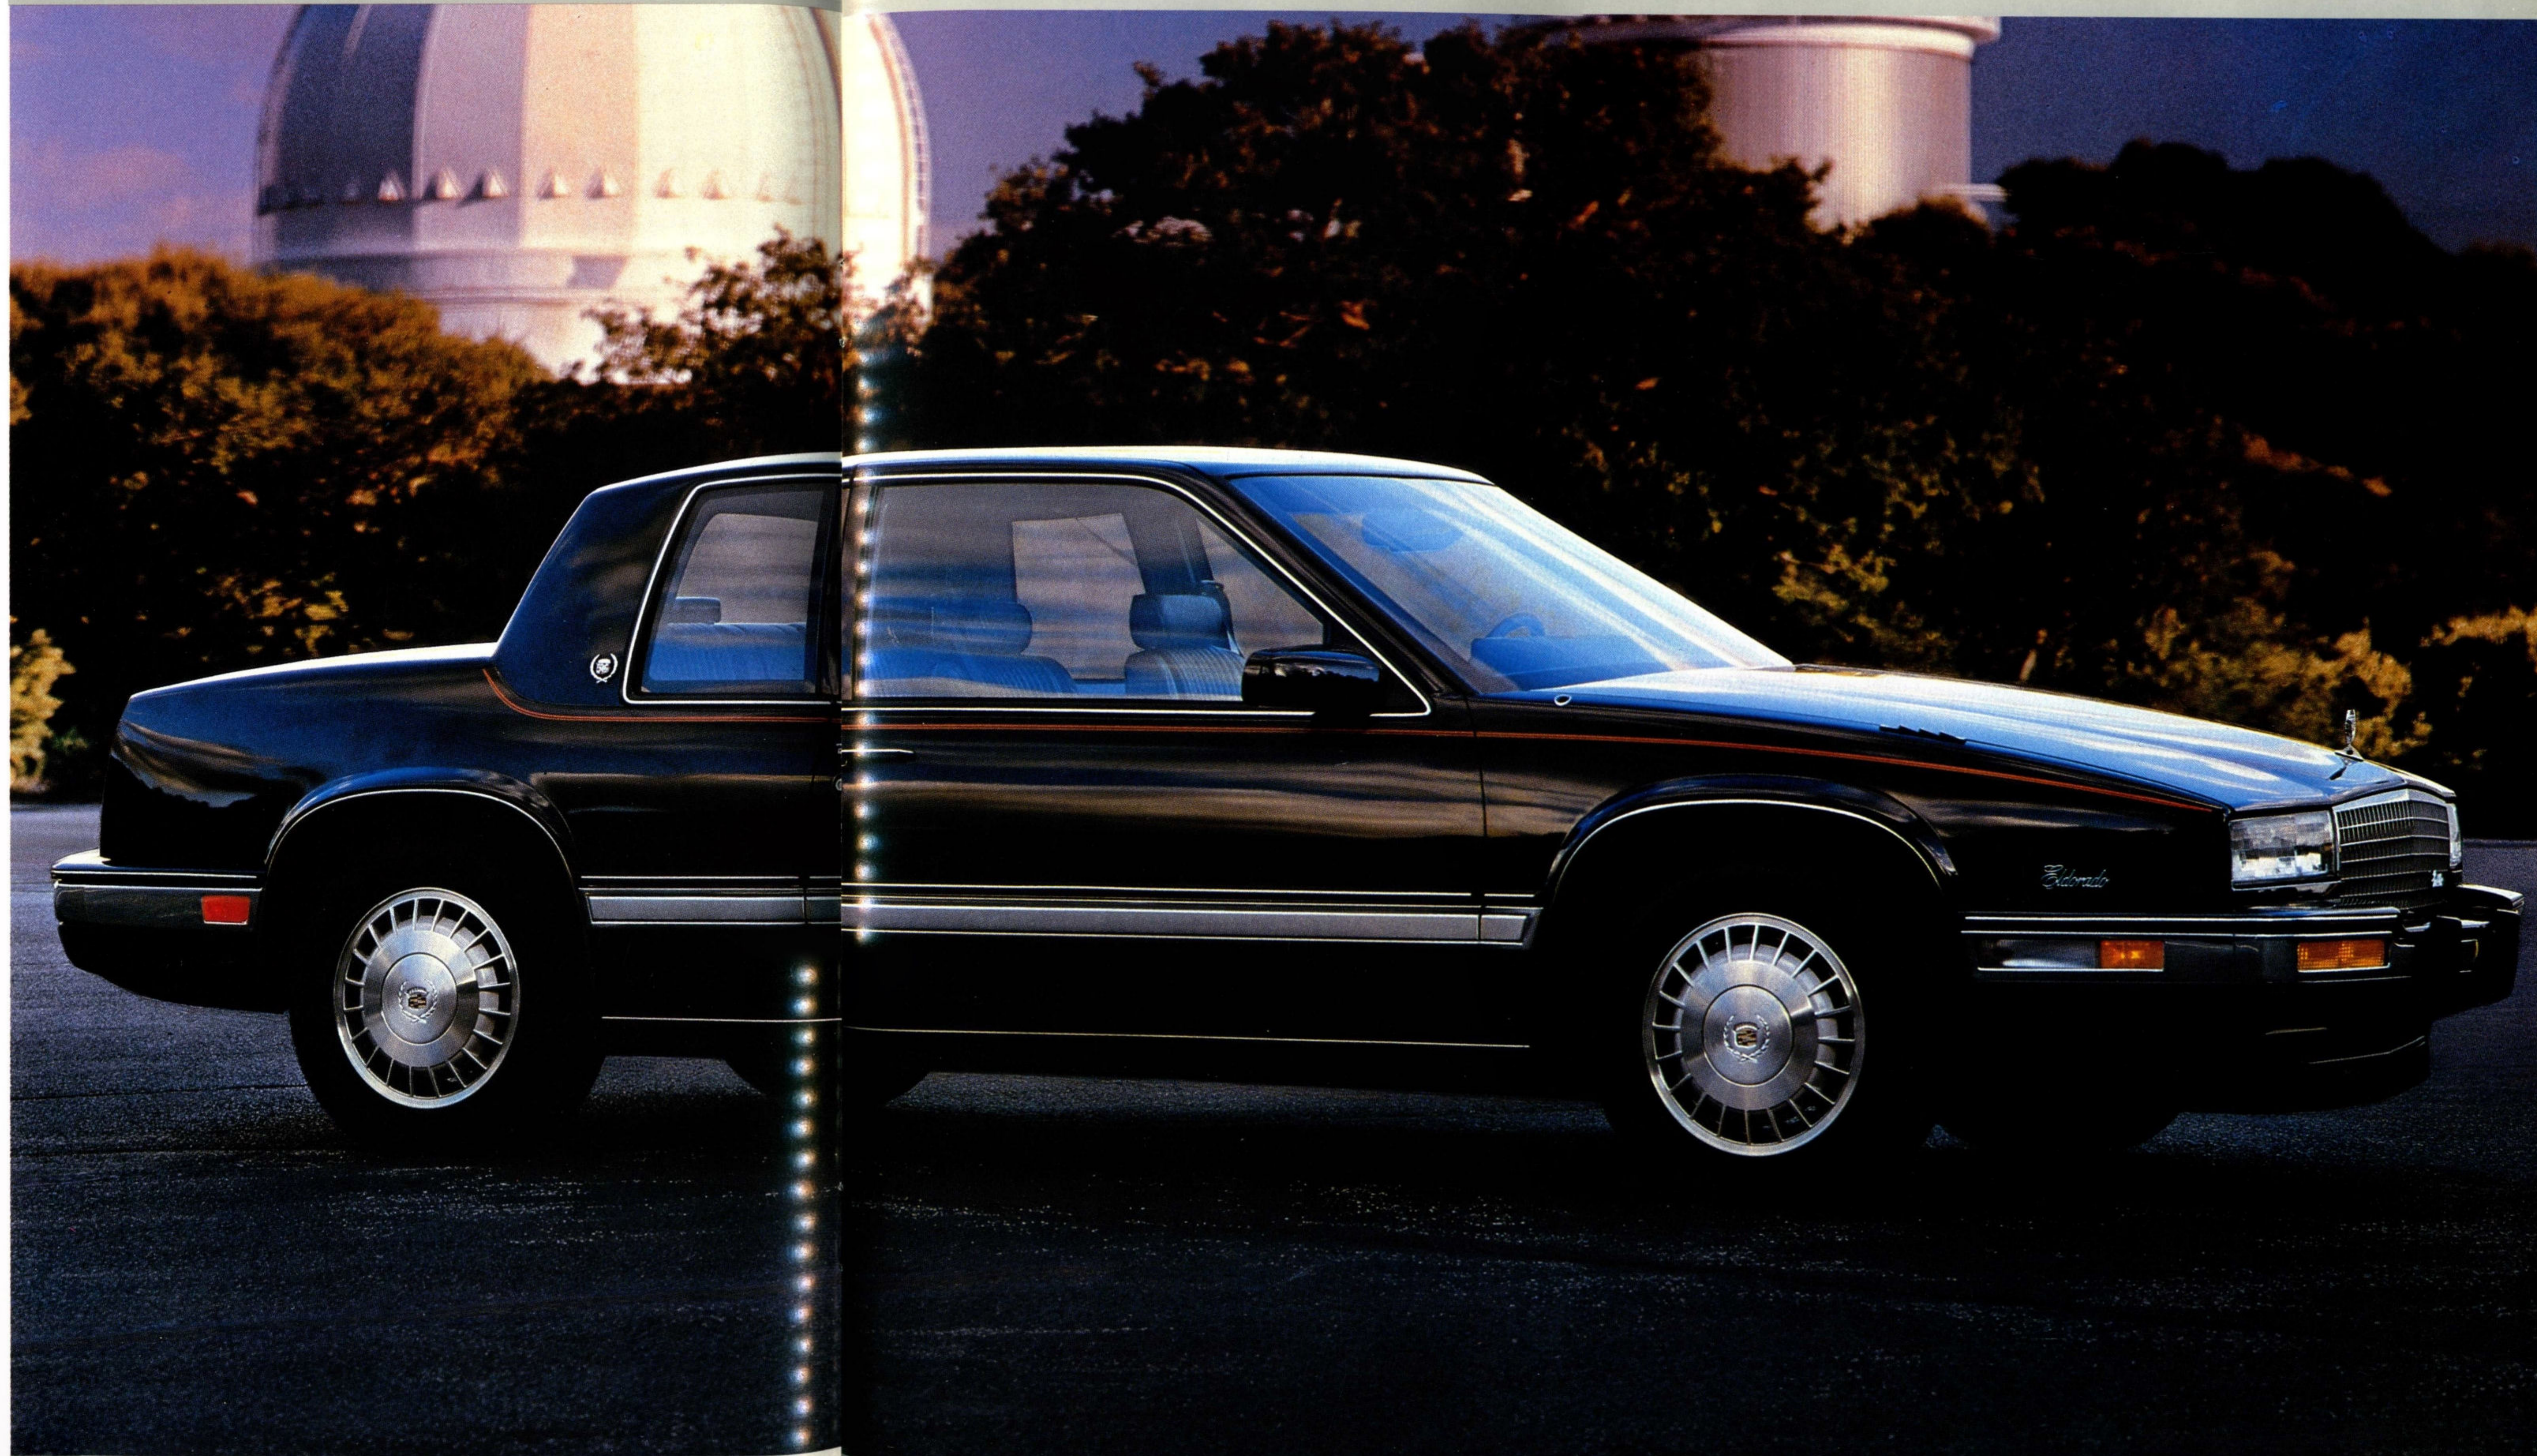

The Cadillac exclusive viscous converter clutch makes gear shifts with the automatic four-speed transmission practically invisible. While power-assisted rack-and-pinion steering delivers the optimal combination of driver feedback on the open road and power assistance in tight parking situations.

But what sets Eldorado apart is that this "driver's car" is also a Cadillac. So while you have access (through the Digital Instrument Cluster and Driver Information Centre) to virtually every bit of mechanical information possible about the functional nature of your engine, it is displayed in an instrument panel framed in available genuine American walnut.

But these are mere facts. To fully understand why we call Eldorado the driving spirit of Cadillac, you have to experience one. And the only place to do that... is behind the wheel.

New available Cabriolet Roof.

ELDORADO BIARRITZ

by Cadillac

There is no question that Biarritz was designed to be the ultimate Eldorado.

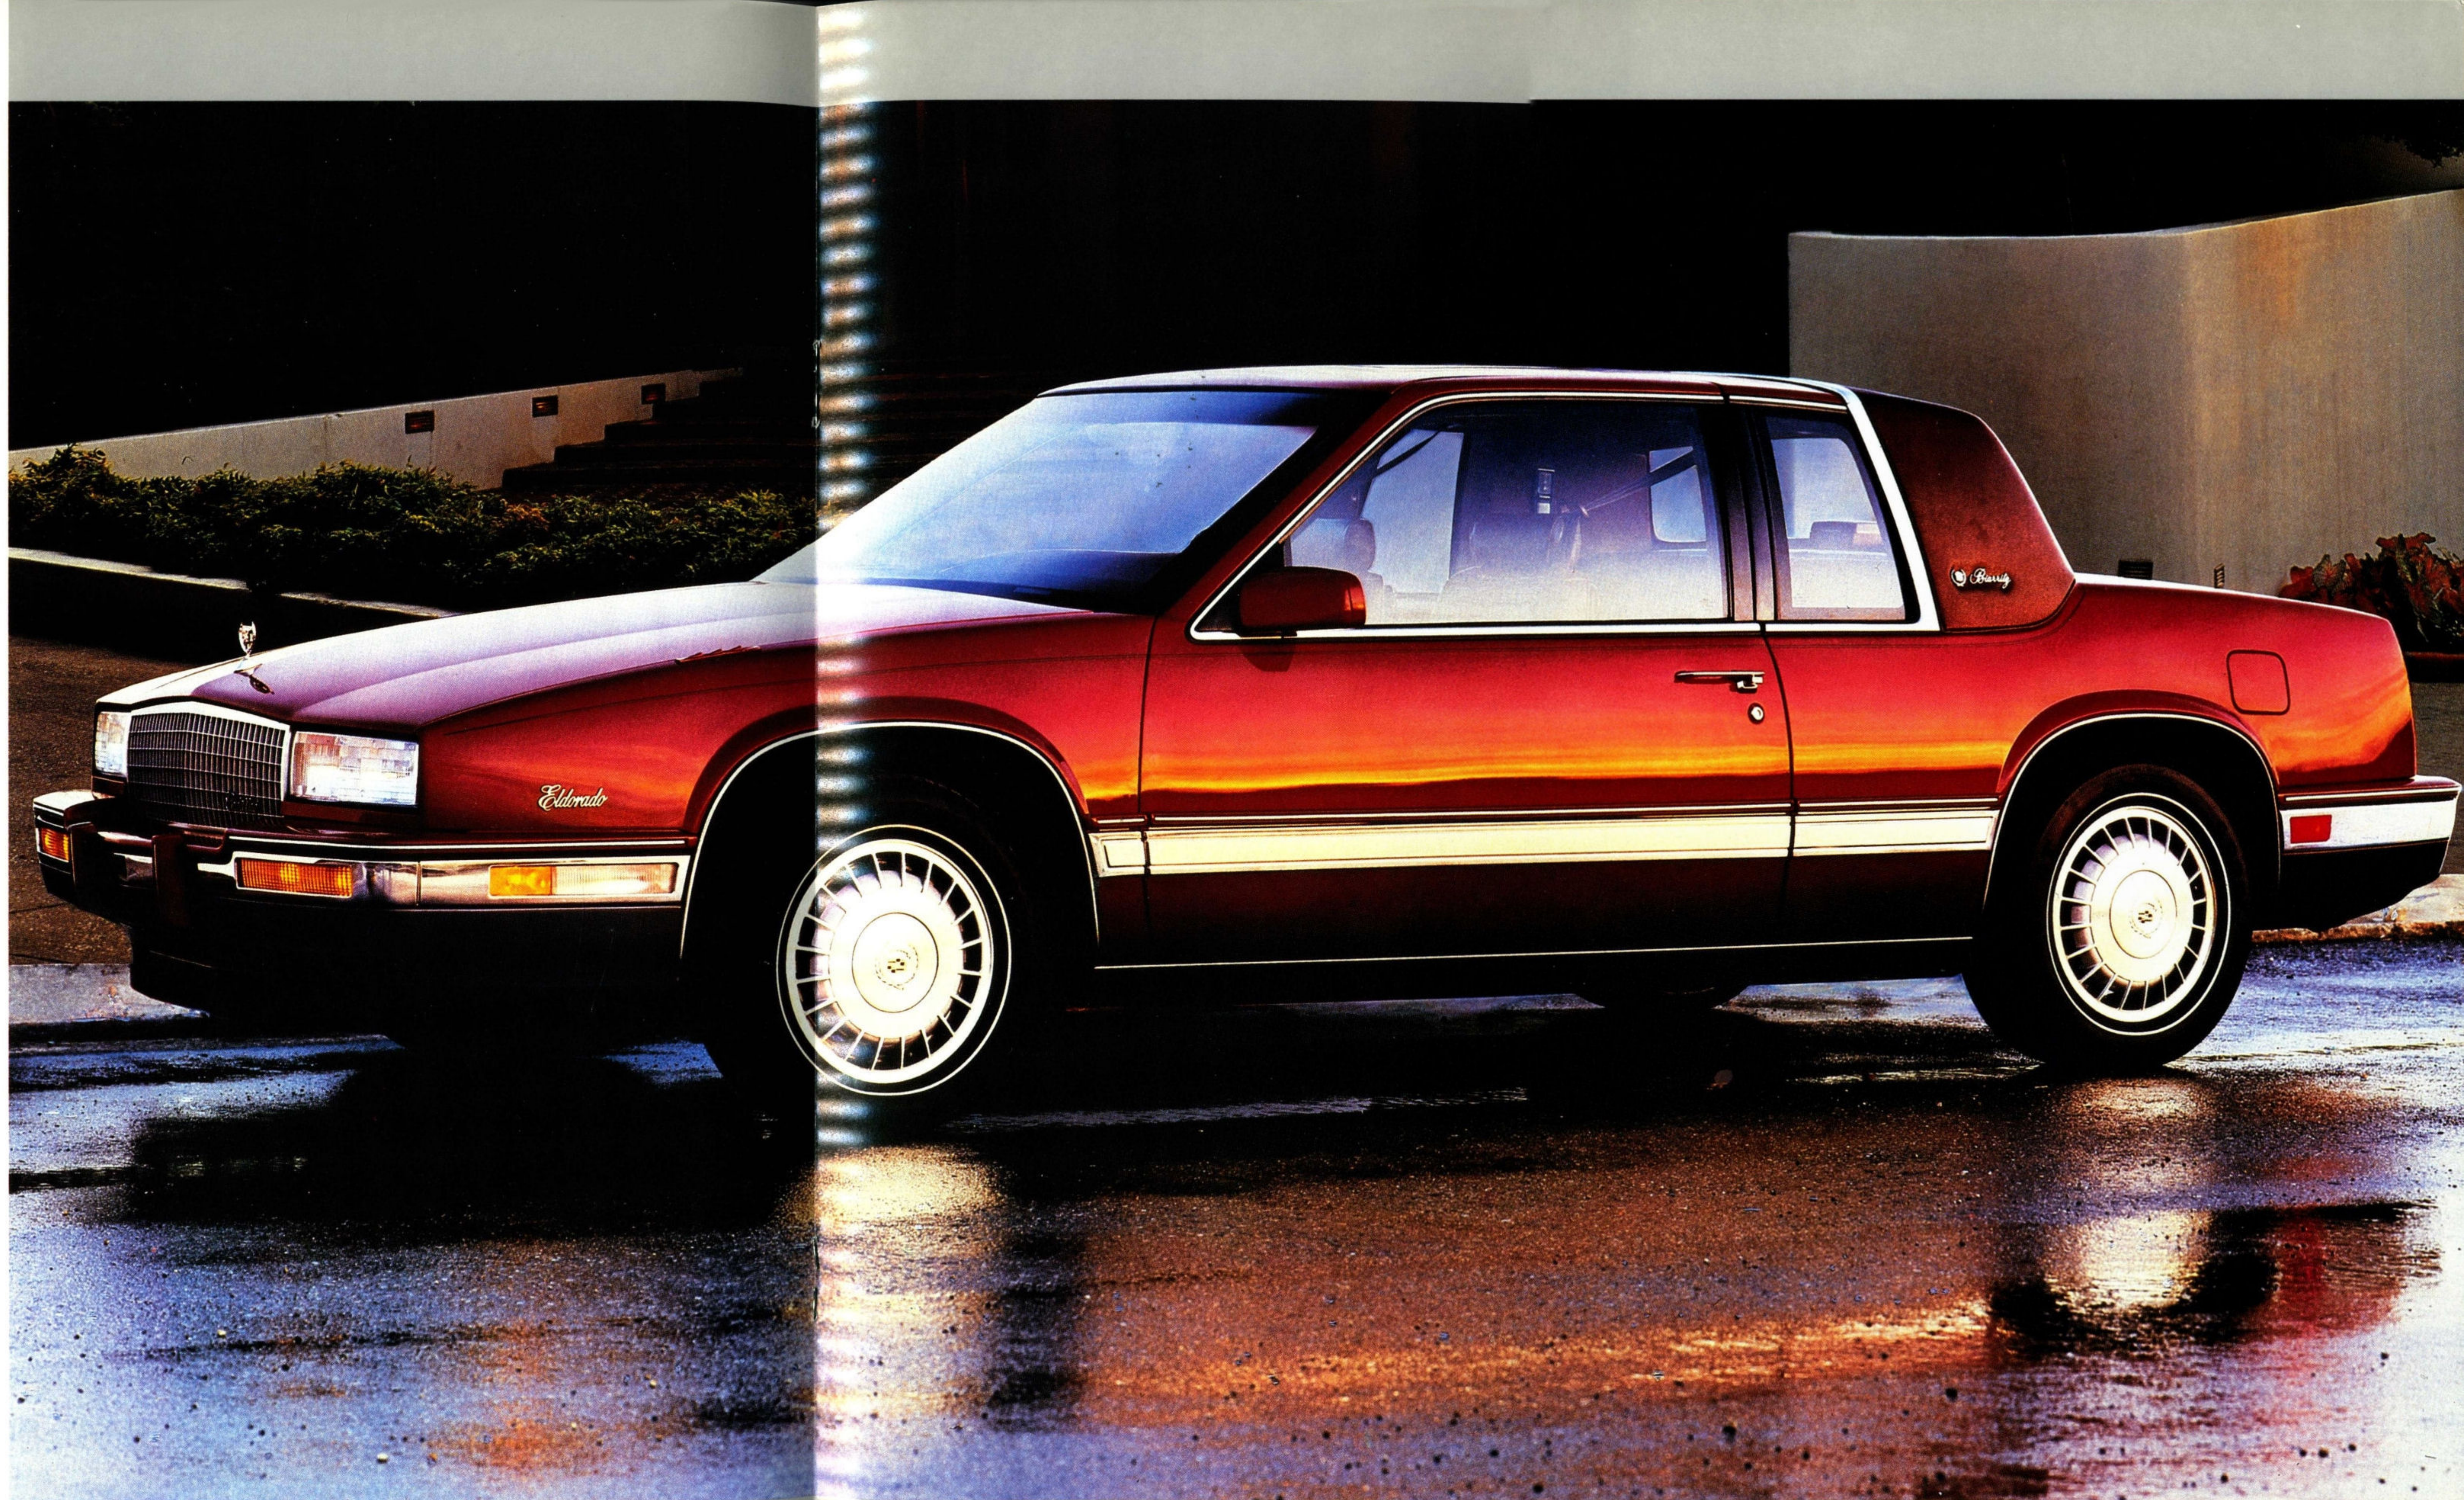

Dramatic and distinctive, from the Cabriolet padded roof and limousine-style rear window to the two-tone paint treatment.

Aerodynamically advanced, with a low front-end and high rear-deck design, door-into-roof styling, flush-mounted windshield and bumpers, integral outside mirrors and clean underbody.

Smooth riding, with an optional Touring Suspension specially refined with new deflected disc strut valving and higher rate front and rear springs, and larger tires mounted on aluminum wheels.

The Eldorado Biarritz interior fulfills both the design objective and the driver's needs beautifully. Front bucket seats with six-way power adjusters, power recliners and power lumbar support. Deluxe Tampico carpeting underfoot. And genuine American walnut on the instrument panel, console and door trim plates.

Sumptuous appointments and sophisticated engineering. The ultimate Eldorado for 1987 is Biarritz.

SEVILLE

by Cadillac

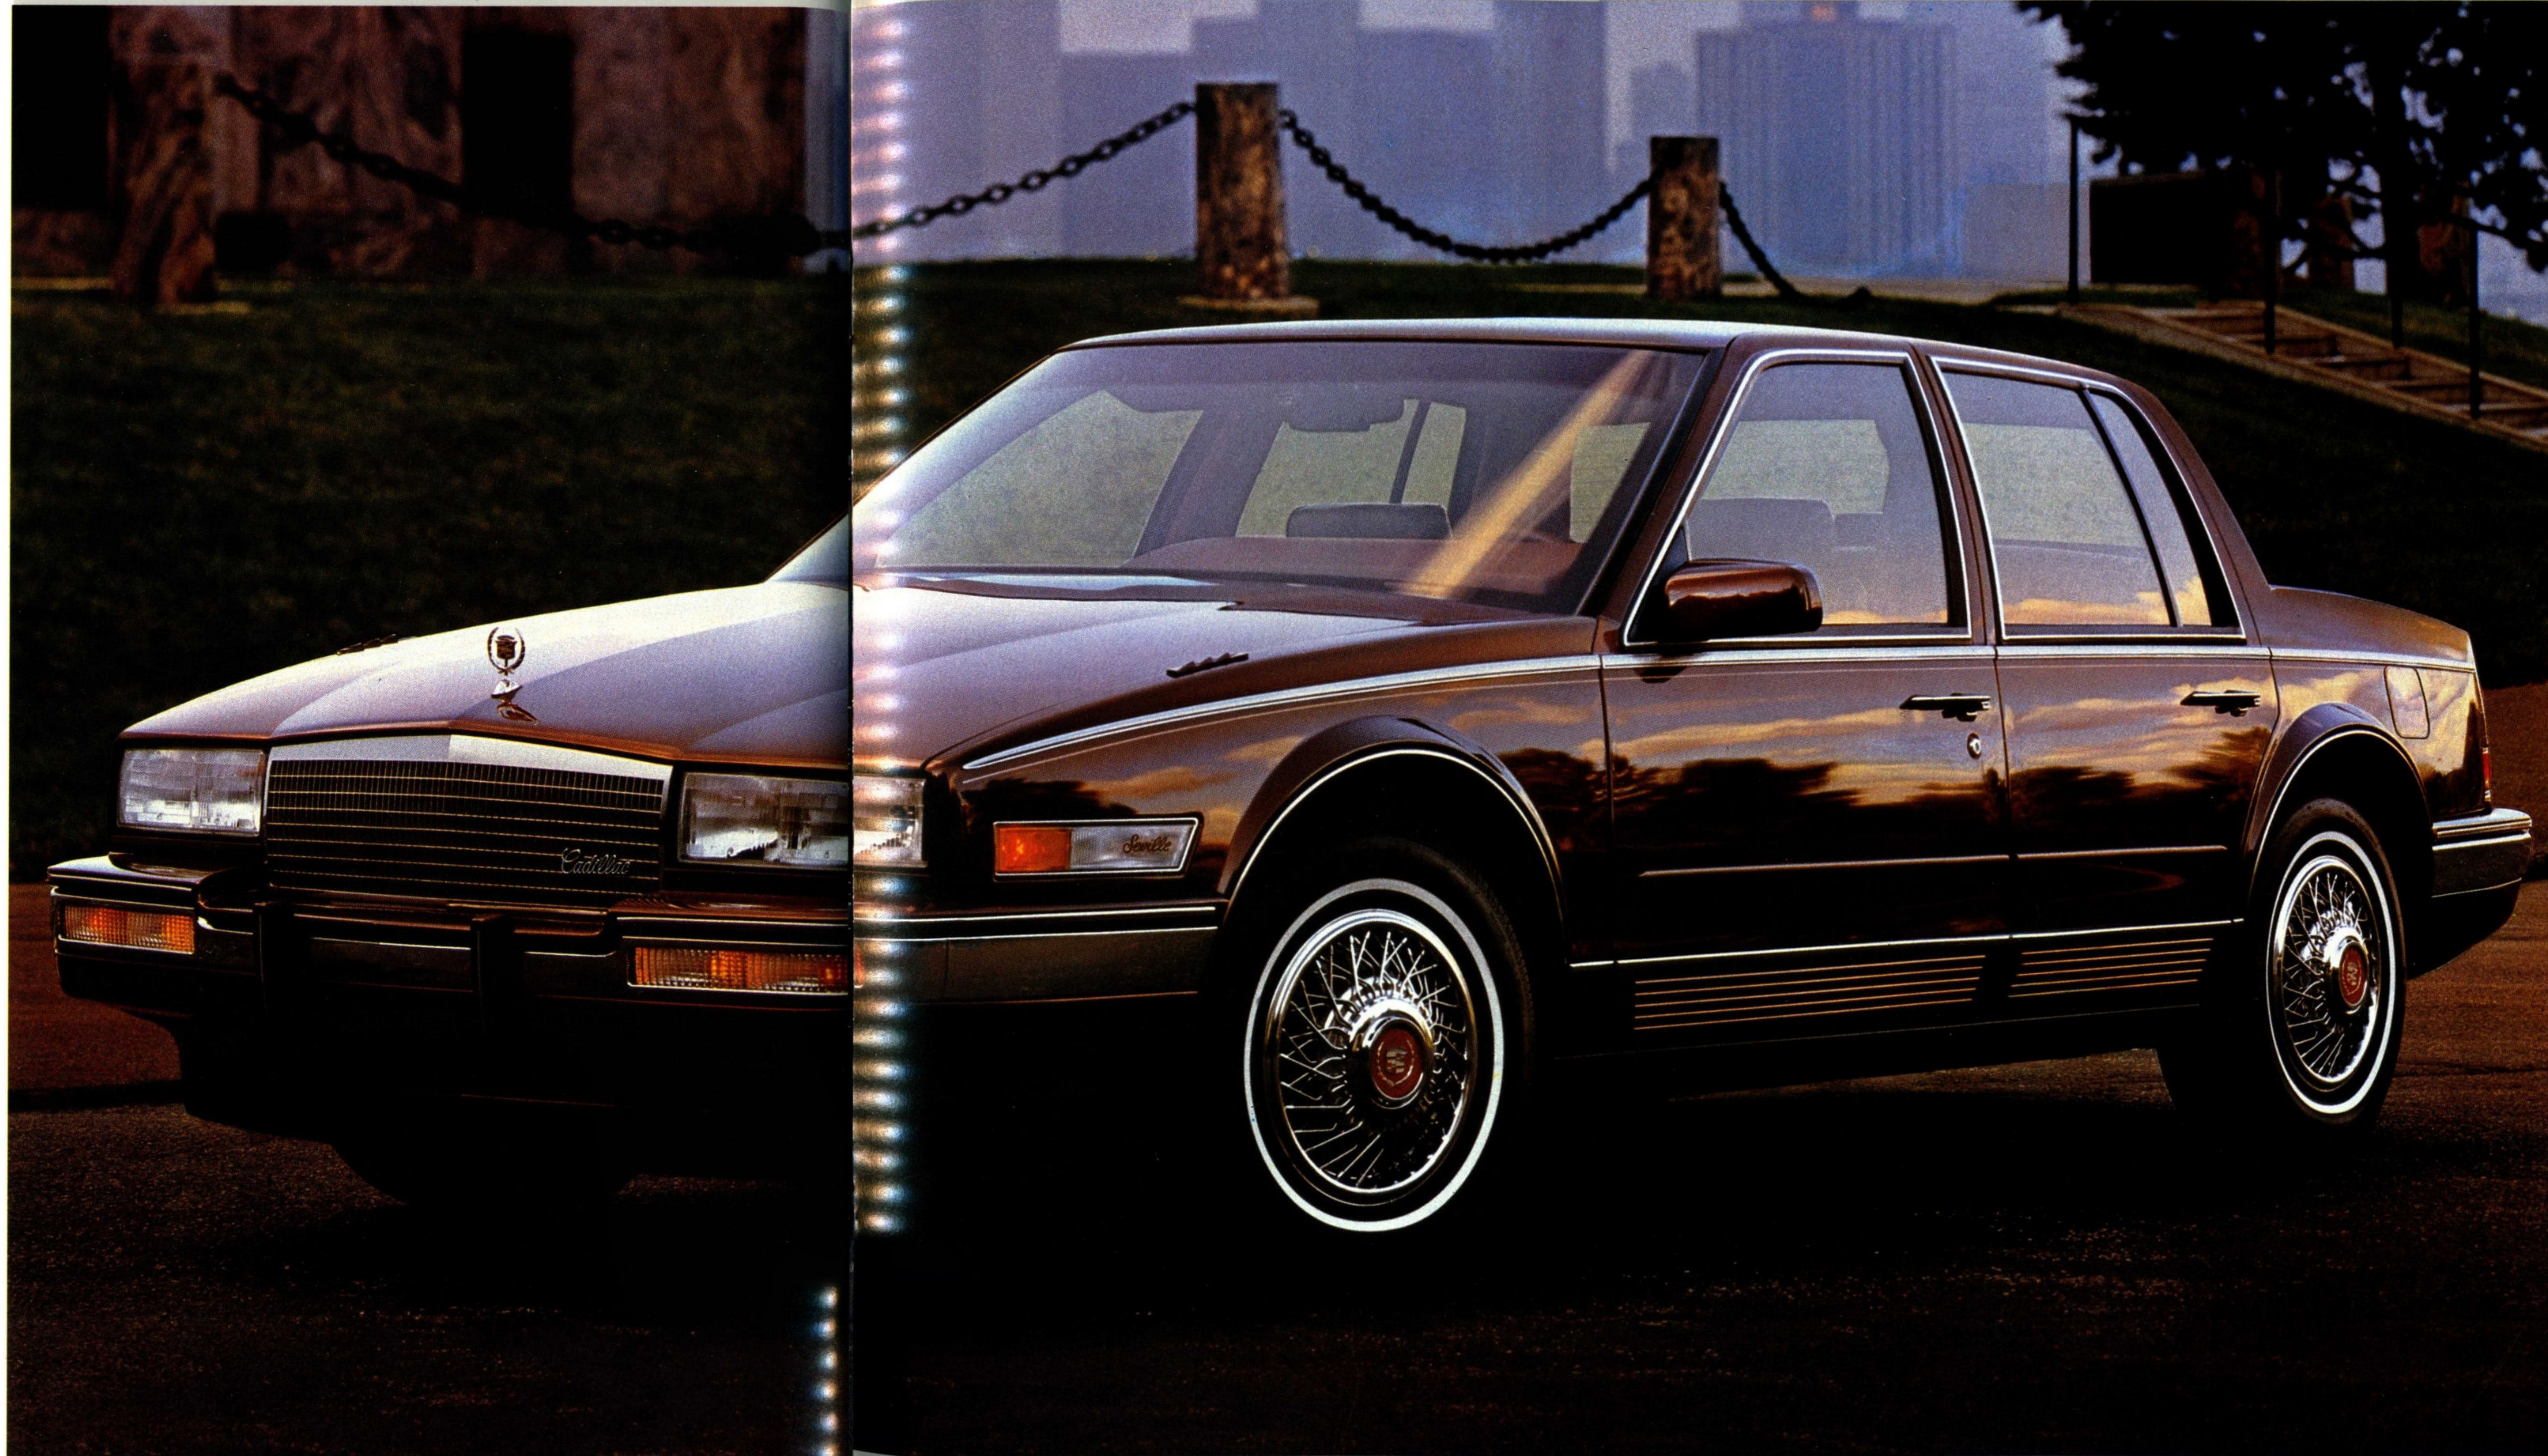

In appearance, the 1987 Seville harkens back to the clean, simple lines of the original Seville, an automotive classic. Upon closer inspection, you will see that it incorporates remarkable engineering advancements and electronic features.

The sophisticated, yet easy-to-read digital presentation of all primary driving information.

The reassuring traction and space-efficiency of a front-drive, transverse-mounted 4.1 Litre V8 engine—a worldwide Cadillac exclusive. Confidence-inspiring four-wheel disc brakes and power-assisted rack-and-pinion steering. The supreme comfort of four-wheel independent suspension, double-isolated in the rear for smoothness.

And the exceptional array of standard features continues with Electronic Climate Control that monitors the amount of sunlight entering the car, an anti-lacerative Inner Shield windshield for added safety, and new rear electric door lock switches that allow you to lock all four doors after retrieval of a briefcase or overcoat upon exiting, without having to return to the front door to lock the car.

Seville for 1987. The Elegant spirit of Cadillac.

SEVILLE ELEGANTE

by Cadillac

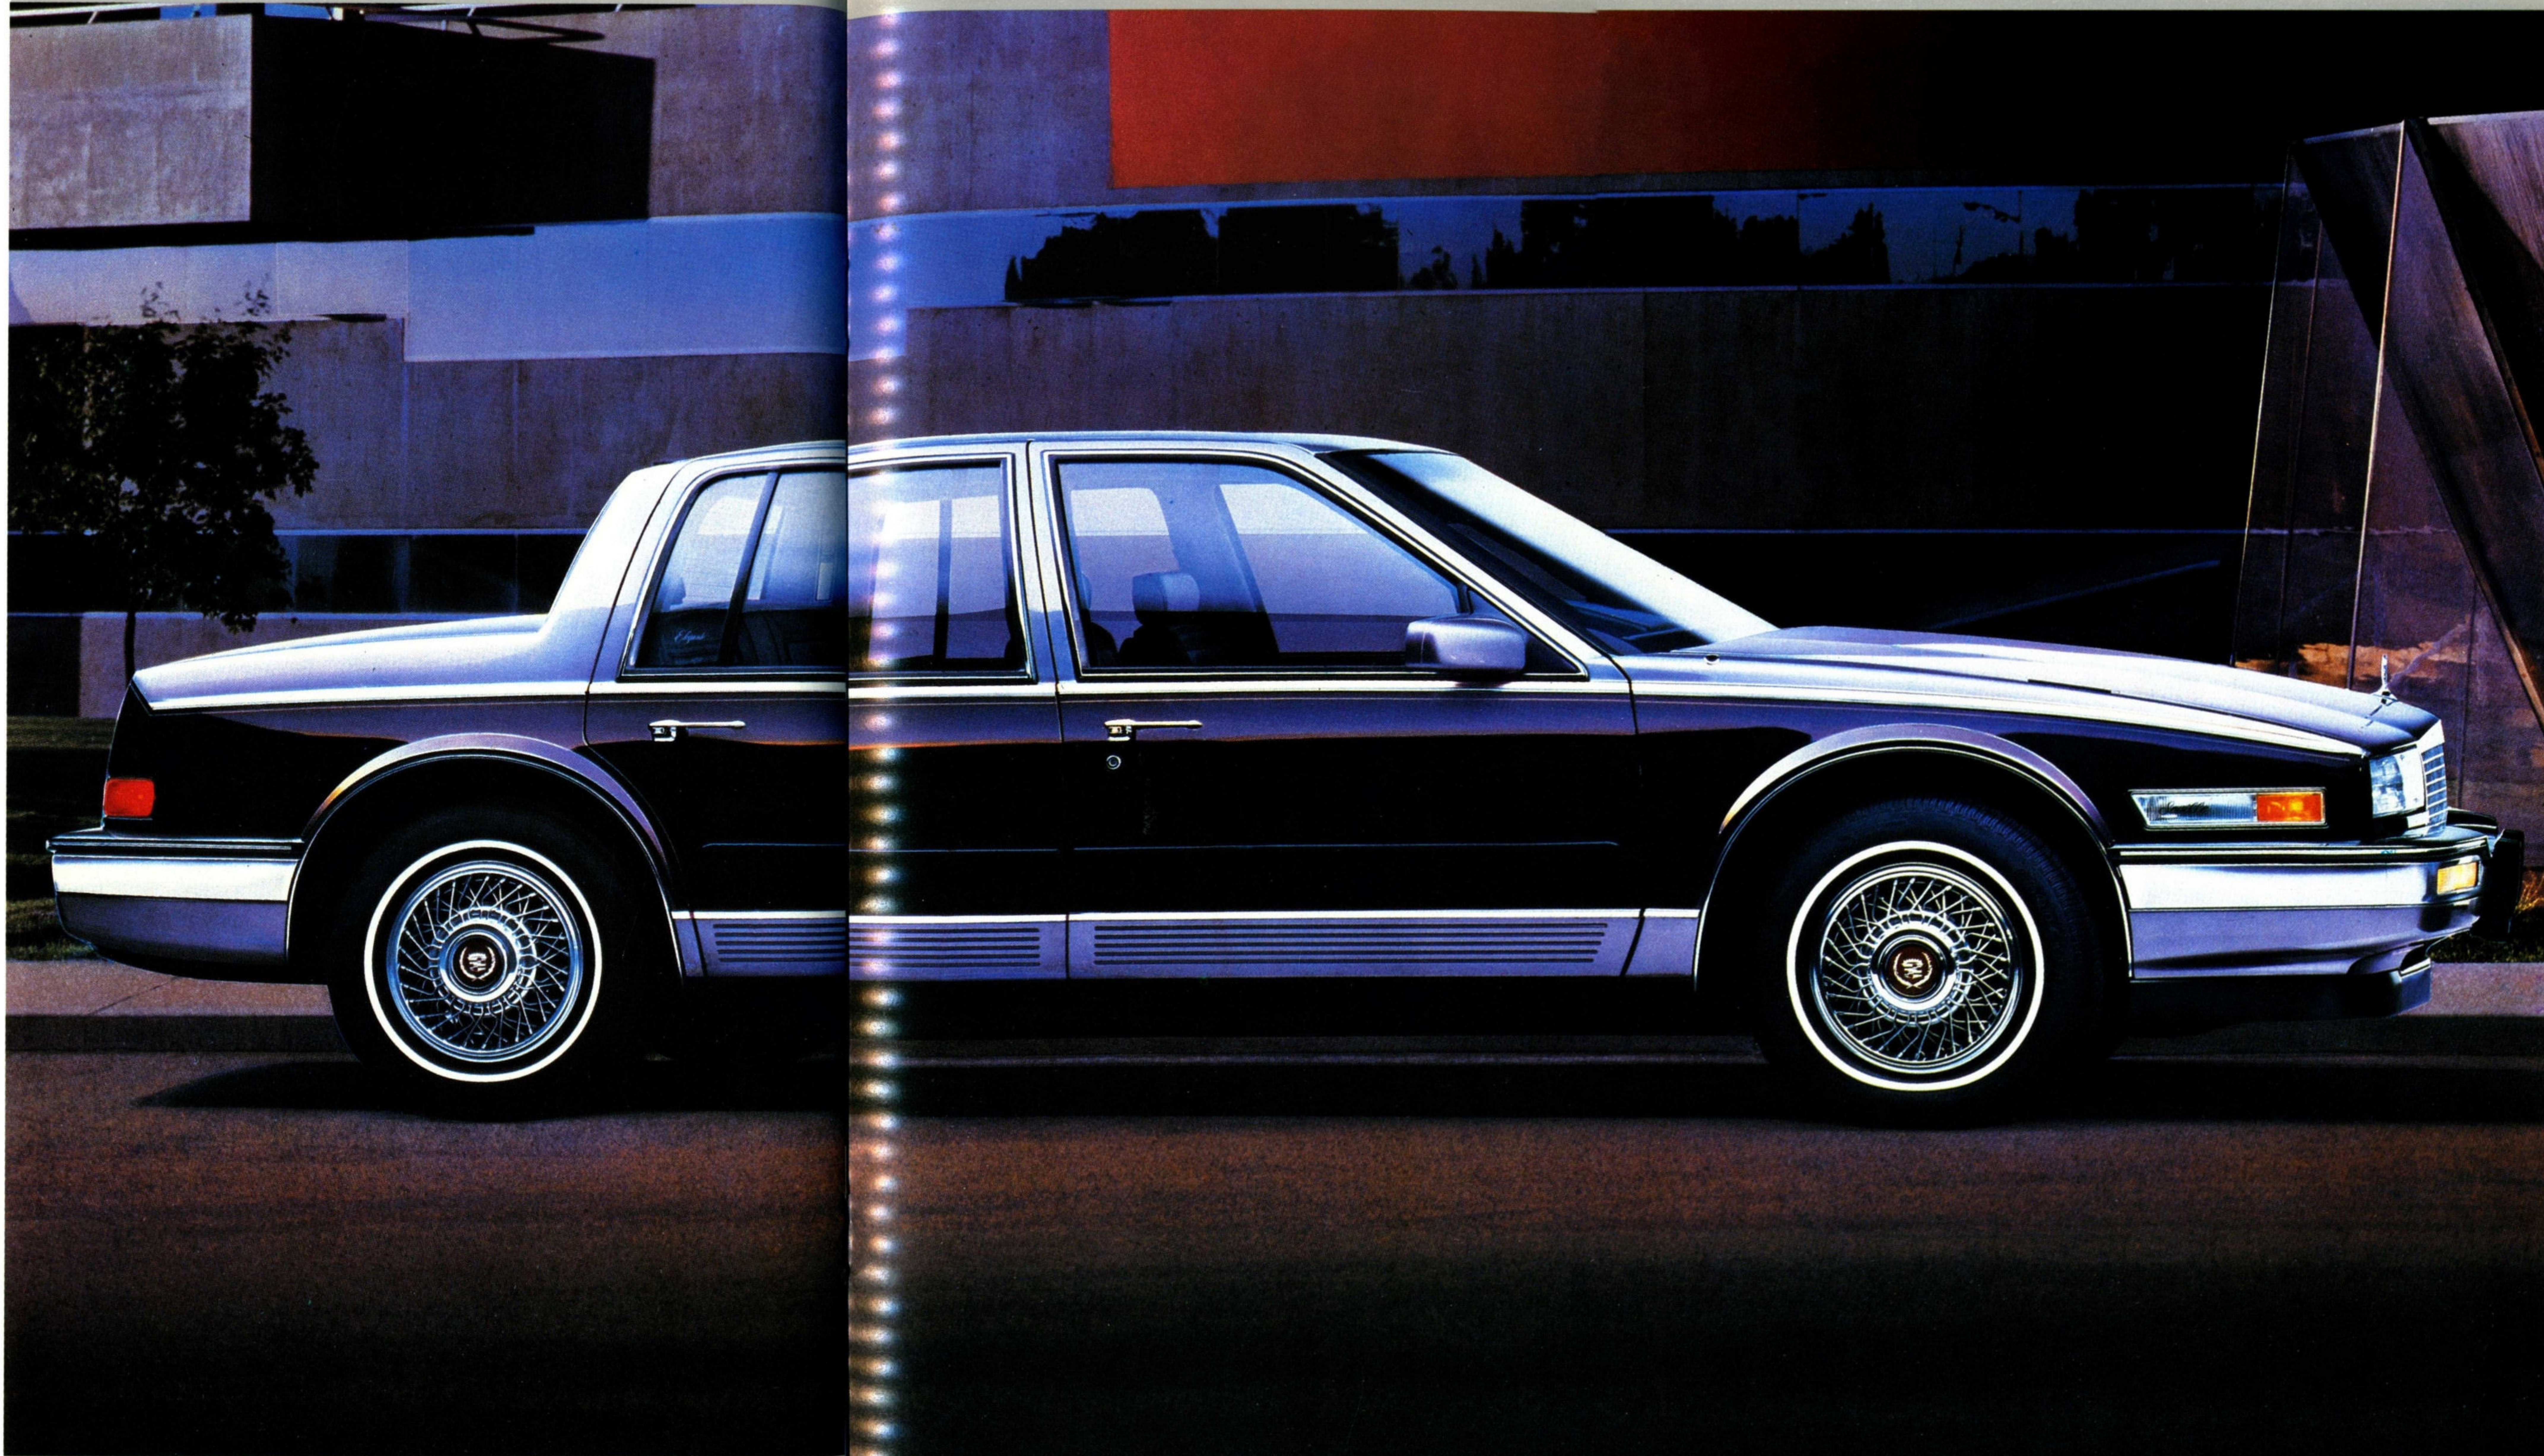

In Seville Elegante, you will discover the most elegant expression of the most elegant Cadillac Sedan.

Exclusive "mid-tone" colour scheme features metallics and Firemist paints in coordinating treatments with contrasting accent stripes. "Elegante" script is silk-screened on the rearmost side windows. Aerodynamic composite tungsten halogen headlamps and wire wheel discs add to the visual distinction.

Inside, bucket seats comfort front-seat occupants with six-way power adjustments, power recliners and power lumbar supports. All carefully tailored in an attractive combination of Mayfair cloth and Sierra grain leather. The custom touch of genuine American walnut graces the instrument panel, steering wheel, console and door trim plates. And there is premium Tampico carpeting throughout. Even on the deluxe, reversible floor mats.

Add the available Delco-GM/Bose Symphony Sound System that has been customized to the exact dimensions and acoustical characteristics of the car, and you will have the ultimate North American luxury car in every respect.

Discover the most elegant expression of Seville. The 1987 Seville Elegante.

INTERIORS by Cadillac

ELDORADO

The "driver's car" that combines impressive performance with interior appointments that bespeak the Cadillac traditions of luxury, comfort and convenience. The front bucket seats are crafted new cashmere cloth and leather, with six-way power adjustment for driver. In back, the new centre armrest closeout panel adds to the luxury appearance. And new vehicle-sensitive safety belts allow greater rear seat passenger comfort and security.

ELDORADO BIARRITZ

From the genuine American walnut encasing the instrumentation to the deep Tampico carpeting underfoot, Biarritz imparts a sense of ultimate Eldorado luxury. The rich wood treatment is continued on the front floor console and door trim plates. Up front, Biarritz bucket seating affords the unmatched comfort and convenience of six-way power adjustment, power recliners and power lumbar support.

SEVILLE

For 1987, Seville standard interior appointments include genuine American walnut on the instrument panel, steering wheel and floor console. A Twilight Sentinel that turns lights on and off. Electronic Climate Control with windshield sunload sensor that adjusts interior airflow. And a Driver Information Centre (DIC) that displays comprehensive driving data and offers the finest in on-board self-diagnostics.

SEVILLE ELEGANTE

Sophistication abounds in this definitive Seville interior. Digital instrumentation is standard. As is the leather-trimmed tilt-and-telescope steering wheel. Leather-trimmed headrests. Front floor console. Six-way power seat adjusters, power recliners and power lumbar support for both driver and front seat passenger. And deluxe Tampico carpeting that covers both floor and floor mats for a uniformly elegant appearance.

New seat back trim panels highlight Eldorado's new Cashmere cloth and leather trim design. Cadillac's Power Lumbar seats feature an inflatable pillow located within the lower front seat backs. A small air compressor inflates and deflates the pillow as desired. Standard on Biarritz and Elegante. Available in Eldorado and Seville.

Eldorado interior with available leather seating areas.

Eldorado Biarritz interior with available leather seating areas.

Seville interior with available leather seating areas.

Seville Elegante's luxury statement is enhanced with the richness of available Sierra Grain leather in seating areas.

BROUGHAM BROUGHAM d'ELEGANCE

by Cadillac

The rear-wheel-drive Brougham and Brougham d'Elegance continue to be the most popular of luxury cars.

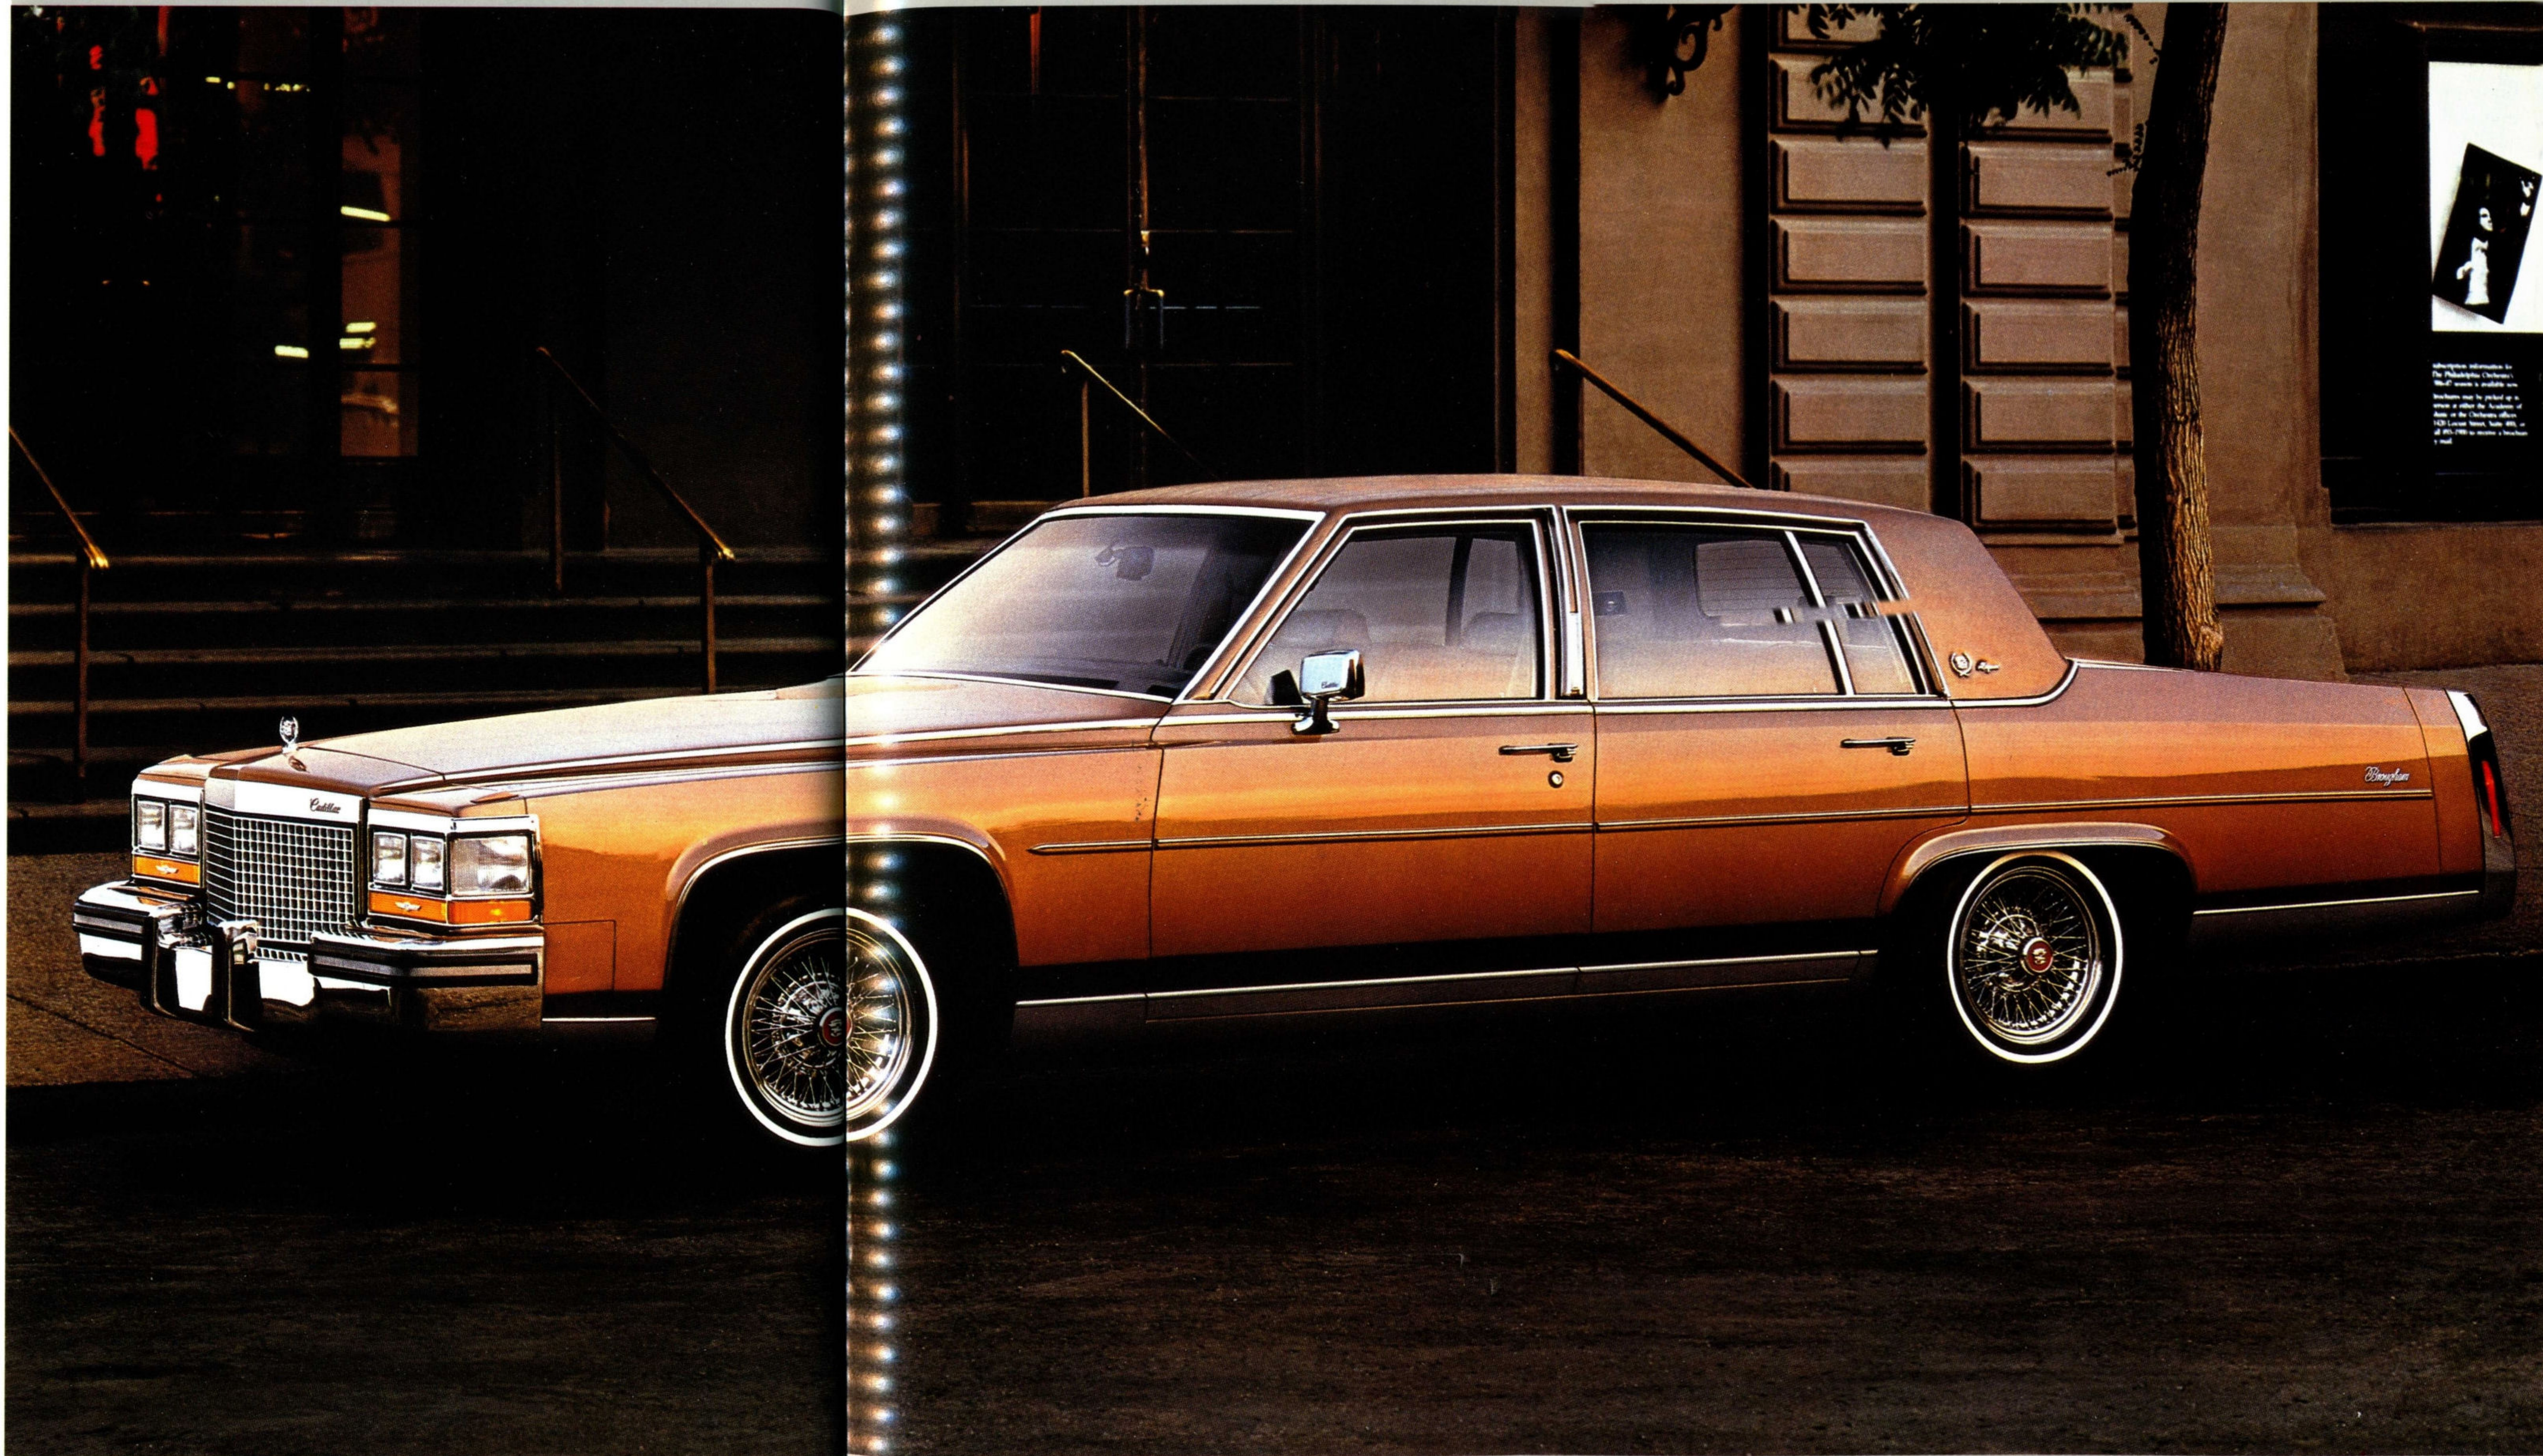

With the longest wheelbase of any regular North American production car, except the Cadillac Limousines, cruising down the highway is pure luxury. Under the hood the four-barrel 5.0 Litre V8 engine is so powerful you can (with the available trailering package) take an additional 2,268.0 kg (5,000 lbs) of trailer or boat along for the ride. Plus, there's 541 Litres (19.5 cubic feet) of usable trunk space.

But substance doesn't triumph at the expense of style. Brougham and Brougham d'Elegance are every inch the classic Cadillac. From the Cadillac wreath and crest atop the grille to the triple-plated chrome bumpers. From the formal limousine-style rear window and padded roof to the most considerate details, like an illuminated entry system that turns on the courtesy lights when you push the door handle button.

Brougham and Brougham d'Elegance. The classic spirit of Cadillac.

Cadillac
5.0 LITER

Subscriptions information for The Automobile Club of America is available on request at the Cadillac office of the Automobile Club of America, 1230 Avenue of the Americas, New York, NY 10020. For more information, call 1-800-451-1234.

INTERIORS

by Cadillac

When you think of traditional Cadillac values, comfort and convenience are uppermost. And one look inside will tell you that these values are well represented in Brougham for 1987.

Here, there is spacious room for six adults. With a full complement of centre and outside armrests. 55/45 front seating offers six-way power adjustment for the driver. And if you choose, all seating is available, beautifully tailored, in rich Sierra grain leather.

Your comfort is further enhanced with Brougham's Electronic Climate Control. So precise, it allows you to adjust the temperature to a single degree. And gives you the outside temperature as well. A new electronically tuned 2000 Series AM/FM radio with seek/scan functions is coupled with extended frequency range front and rear speakers to create a new level of listening enjoyment.

To these outstanding Brougham attributes, Brougham d'Elegance adds its own unique rewards.

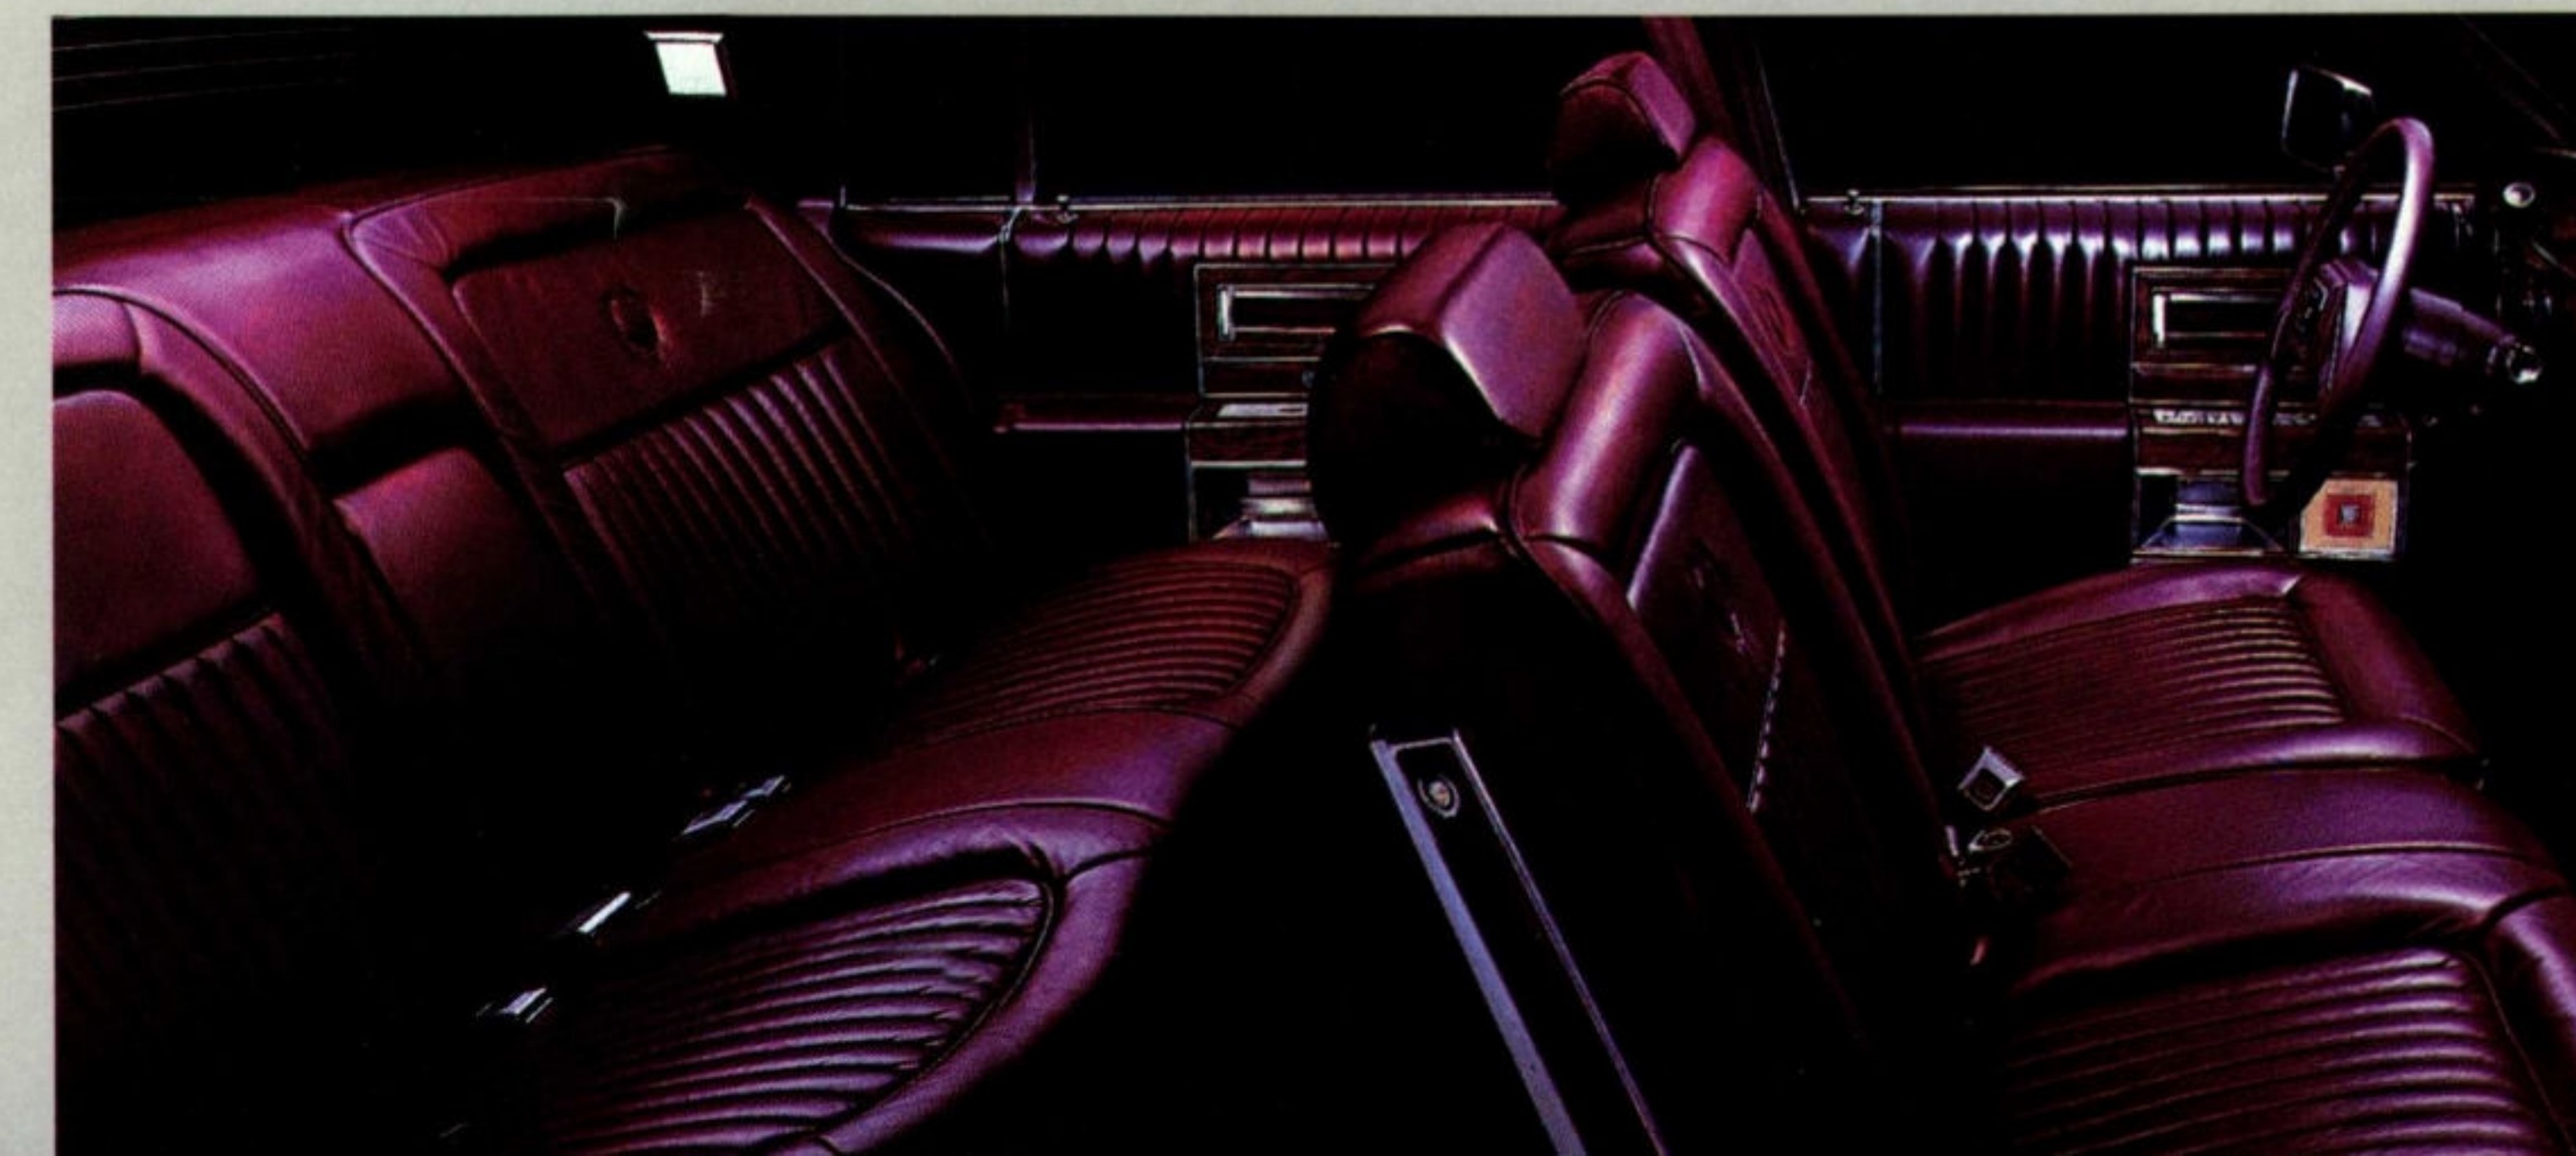

Dual Comfort 50/50 front seating with manual recliner and six-way power adjustment for the front passenger seat. Tufted, pillow-style upholstery and distinctive d'Elegance embroidery on the doors. Deluxe Tampico carpeting throughout (even on the front and rear floor mats). Roof-mounted assist handles. And adjustable rear seat reading lamps.

Seat yourself in a 1987 Brougham or Brougham d'Elegance and let the classic spirit of Cadillac surround you.

Brougham d'Elegance: available leather interior reflects the essence of Cadillac comfort and convenience.

1987 Brougham interior features an attractive new Royal Prima cloth trim design (available leather, shown).

POWER AND TECHNOLOGY

by Cadillac

For 1987, Cadillac redefines luxury performance with the HT 4100 power system. A transverse-mounted 4.1 Litre V8 engine with fuel injection that is standard on every Cadillac except Brougham.

This re-engineered powerplant combines the inherent smoothness of a V8 with the lightweight features of aluminum alloy construction. And offers the benefits of Cadillac's remarkable achievements in combustion efficiency, mass reduction, friction reduction and engine sealing. With lightweight aluminum cylinder heads, fast-burn combustion chambers, and low-tension piston rings... this engine was designed to deliver smooth, responsive performance from the moment you turn the key.

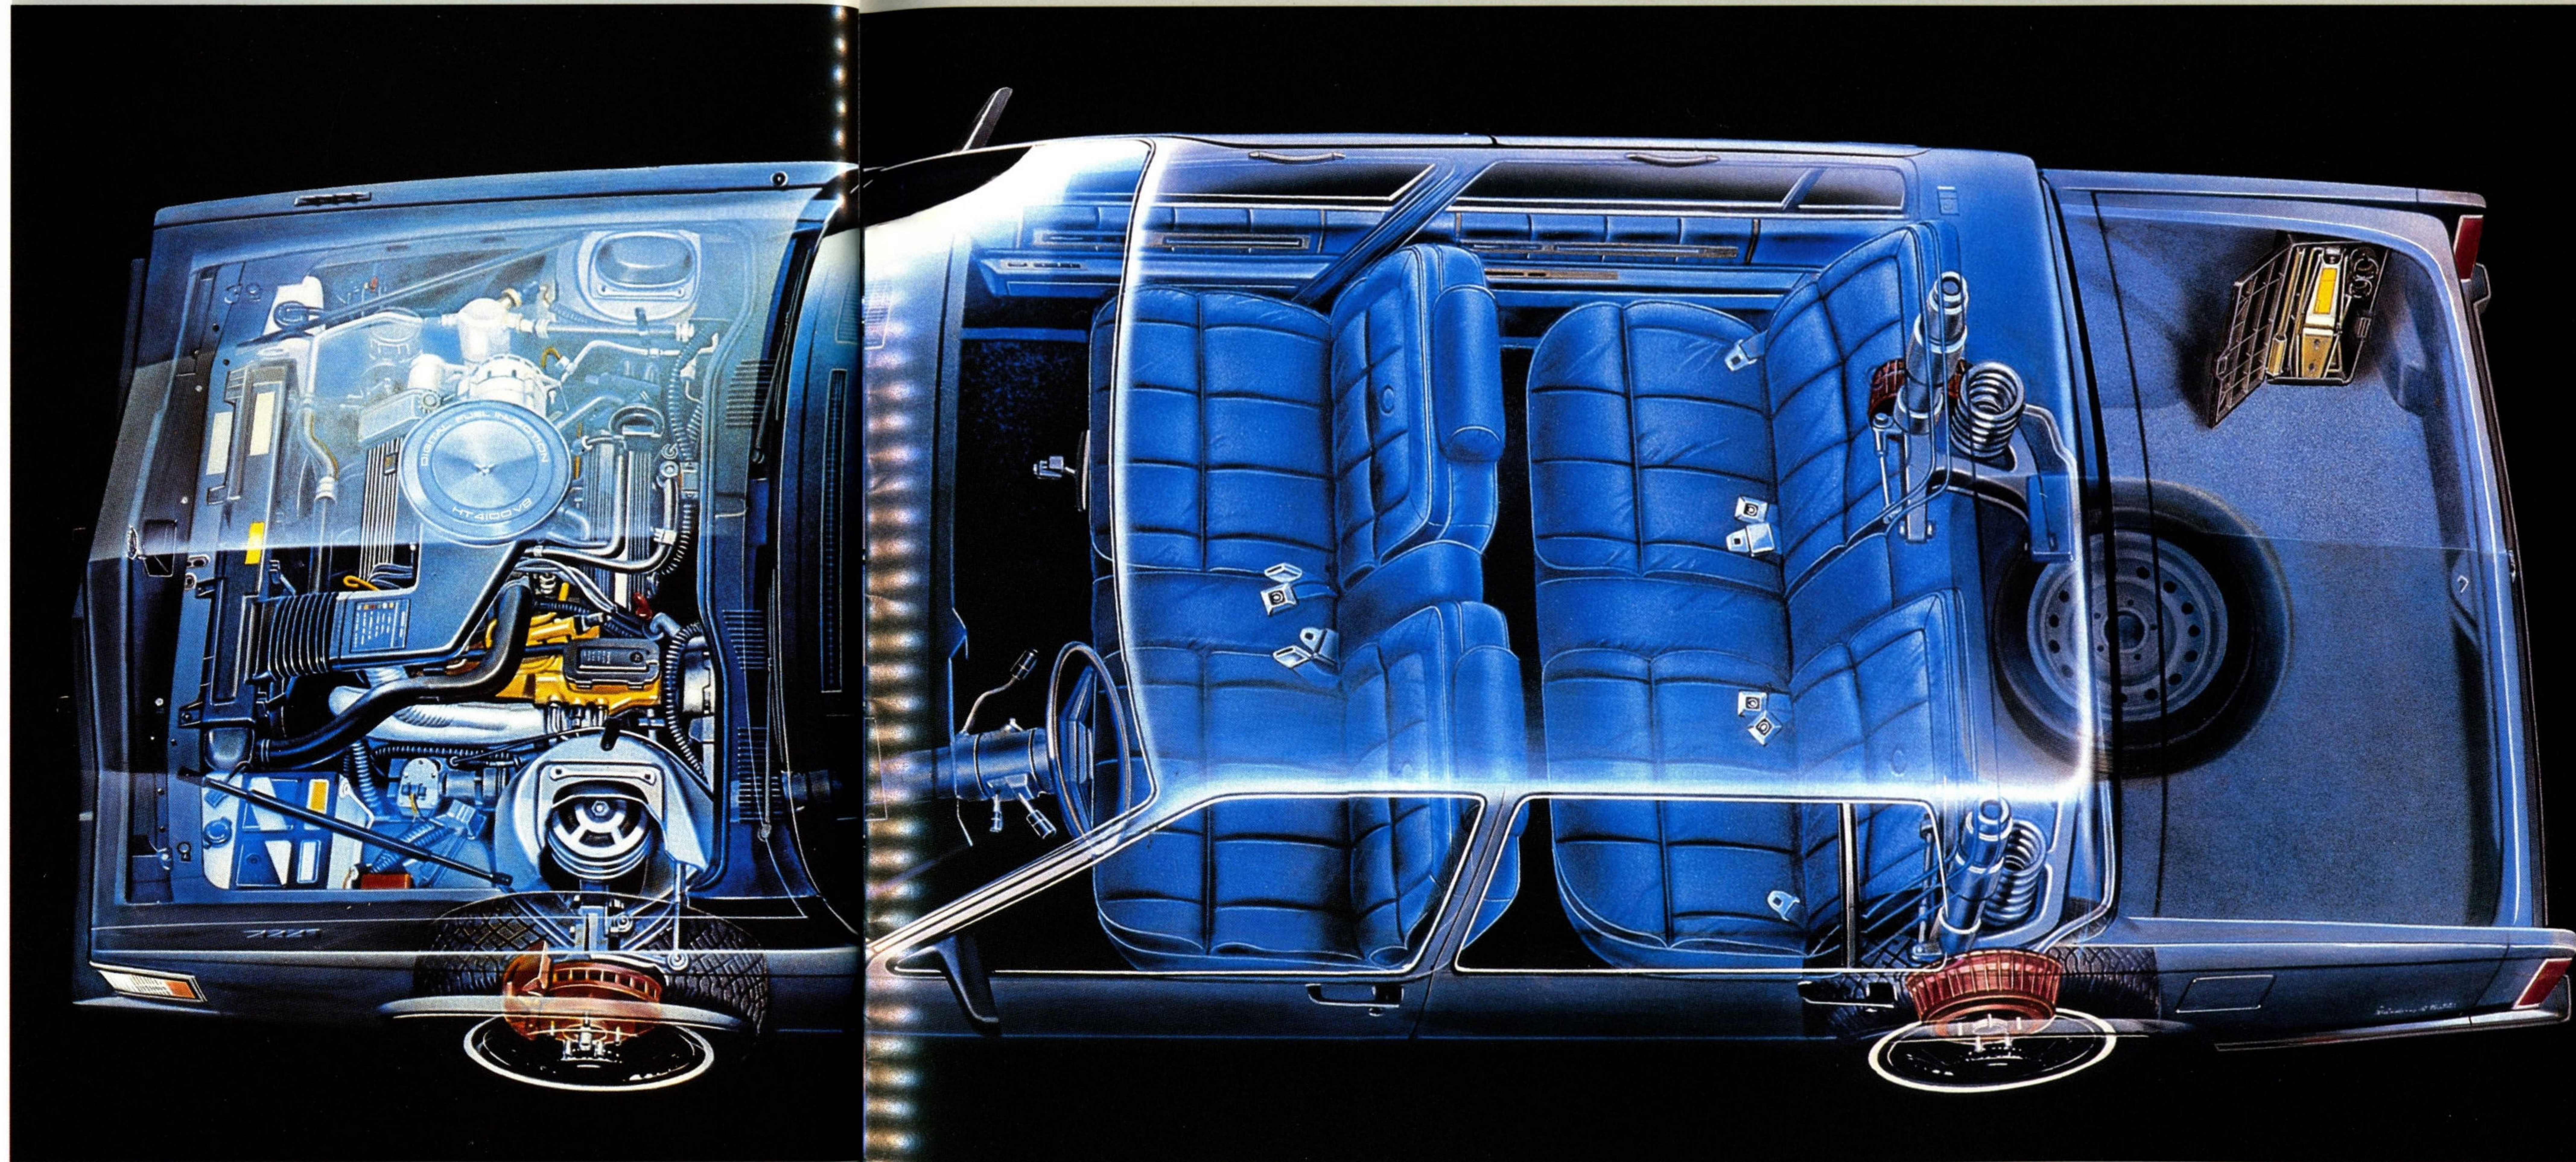

Graphic evidence of Cadillac's commitment to state-of-the-art technology is the Driver Information Centre in 1987 Seville and Edorado. The DIC displays over 20 driver information messages and an extensive list of diagnostic service reports. This includes the Cadillac-exclusive "Electronic Snapshot" function, a feature that allows technicians to "freeze" vital mechanical data while the car is in operation, for later diagnostic use. Together with Cadillac's Digital Instrument Cluster, the DIC gives you access to virtually every bit of information possible about the functional nature of the engine.

Other impressive examples of Cadillac technology include an Electronic Climate Control with a sensor that monitors the amount of sunlight entering the car. The Body Computer Module (BCM) then automatically adjusts the Electronic Climate Control.

The accommodating BCM also allows the uninterrupted use of stereo radio, power windows and other power conveniences up to 10 minutes after you turn off the ignition or until a door is opened.

A Twilight Sentinel turns headlamps on and off in response to outside light via an instrument panel photosensor.

And a convenient driver's seat that provides for the automatic adjustment of the driver's seat to two preset positions. Includes added convenience of "exit" button which moves seat all the way down and back for easier exit.

Exclusive transverse-mounted 4.1 litre DFI V8 with front-wheel drive.

STANDARD FEATURES

COMFORT AND CONVENIENCE

Electronic Climate Control with Outside Temperature Digital Display. Change interior temperature setting as precisely as one degree.

Six-Passenger Seating Capacity. Full-size roominess for six adults.

New Rear Door Power Lock Switches. For added convenience (Sedans only).

Retained Accessory Power. Allows you to operate the power windows or the available remote trunk lid release, and (new for 1987), the radio, windshield wipers and washer for up to ten minutes after you turn off the ignition or until a door is opened.

SOUND SYSTEMS

The driving pleasure of the new 1987 Cadillac is greatly enhanced by the Delco Electronics Sound Systems. These radios are designed with the same technology and expertise that are utilized in the design of body and engine computers, Electronic Climate Control, theft-deterrent systems and many other automotive electronic devices.

This world-class audio technology provides the discriminating Cadillac owner the level of comfort and enjoyment expected when driving a Cadillac.

Antenna, Tri-Band. Standard with Universal Citizens Band Transceiver. Available with standard receiver or available Cassette Tape Player.

Delco-GM/Bose Symphony Sound System. Customized to the exact dimensions and acoustical characteristics of your Cadillac. Includes integral Cassette Tape Player.

Universal Citizens Band Transceiver. Available with standard receiver or available Cassette Tape Player.

APPEARANCE AND PROTECTION

New Cambria Cloth Texture Full-Roof Treatment. Cloth texture offered in Black, Dark Blue, Dark Brown and Maroon (Coupe de Ville, Fleetwood d'Elegance only).

Formal Cabriolet Half-Roof Treatment. Features narrow textured lace mouldings around the roof periphery, the closed-in limousine-style rear window and rear quarter windows. Includes Opera Lamps. (Available Coupe de Ville only).

Full Cabriolet Roof Treatment. Recreates the look of a convertible and is available in White, Black, Dark Blue, Dark Brown or Tan (Available Coupe de Ville only).

New Two-Tone Paint Treatment. Five combinations add further distinction and beauty (de Villes only).

AVAILABLE FEATURES

AS WELL AS:

Astrorof (Except with full Cabriolet or available Cambria Roofs) • Accent Striping (Side and Deck Lid) (Standard, Fleetwoods) • Door Edge Guards—Car-Colour • Fuel Filler Door, Remote Release • Leather Seating Areas—Includes Leather-Trimmed Front Headrests • License Frame—Rear • License Frames—Front and Rear • Paint, Firemist • Paint, Pearlmist • Reversible, Two-Sided, Carpeted Floor Mats—Front and/or Rear • Steering Wheel Rim, Leather-Trimmed (Standard, Fleetwoods) • Theft-Deterrent System • Trunk Mat • Wheel Discs, Wire (Locking) (Standard, Fleetwoods) • Wheels, Aluminum Alloy.

ENGINE/CHASSIS

Ride and Handling Touring Package. (Included on Cadillac Touring Coupe or Touring Sedan). Contributing to refined road manners are 15-inch aluminum alloy wheels and high-performance, low-profile Goodyear Eagle GT P215/65R-15 blackwall tires. (New white-stripe design available). Also includes a 32 mm diameter solid front stabilizer bar, an 18 mm diameter solid rear stabilizer bar, tighter front and rear strut valving tuned to Cadillac specifications, higher front and rear spring and suspension bushing rates and faster-ratio steering.

Anti-Lock Braking System. Electronic sensors at each wheel detect impending wheel lockup. Instantaneously, the computer-controlled Anti-Lock Braking System begins pumping each front brake individually and the rear brakes as a pair, as traction demands, up to 15 times per second—far faster and more accurately than is humanly possible.

Your wheels do not lock! This system can significantly reduce stopping distances under slippery conditions and help maintain the ability to steer. (Standard on Fleetwood Sixty Special).

AS WELL AS:

Battery, Heavy-Duty Delco-GM Freedom® II-Plus • Engine Block Heater • Tires, Puncture-Sealing.

SPECIFICATIONS

Engine	
4.1 Litre V8 Gasoline Engine with Digital Fuel Injection	Standard
Horsepower (bhp)	130 @ 4200 rpm

1987 ELDORADO AND SEVILLE STANDARD FEATURES

COMFORT AND CONVENIENCE

Driver Information Centre. A vacuum fluorescent display for outside temperature, date, time, fuel economy data, engine display data (including tachometer) and more.

Digital Instrument Cluster. Features digital readout of speedometer, mileage and trip odometers and fuel gauge, vacuum fluorescent display of low fuel indicator and "cruise control engaged" indicator.

Retained Accessory Power. Allows you to operate many standard and available features up to 10 minutes after you turn off the ignition or until a door is opened, including the electrically powered windows, power trunk lid release, wipers, stereo radio and available Astrorooftop.

Body Computer Module. Provides enhanced function of body-related customer convenience items including Driver Information Centre, digital instrument cluster, Electronic Climate Control, retained accessory power, Cruise Control, Twilight Sentinel, flash-to-pass feature, Battery Guard feature, electrical system check, expanded body system diagnostics.

Front Bucket Seats (Two-Passenger). With manual driver and passenger seat recliners.

Front-Floor Console. Includes automatic transmission shift selector, fold-down armrest, two storage compartments, optional cassette storage, rotating cup holder, coin holder and more.

Electronic Climate Control with Sunload-Sensor. Cruise Control.

Electrically Powered Windows and Door Locks (Seville features New Rear Door Lock Switch).

Power Trunk Lid Release.

Twilight Sentinel. Automatically turns headlamps on and off.

Leather-Trimmed, Tilt-and-Telescope Steering Wheel.

Electrically Powered Outside Rearview Mirrors (Car-Coloured).

AS WELL AS: Armrest, Centre-Front and Rear • Armrest-Front Doors and Rear Quarters • Ash Receivers—One Front and Two Rear • Assist Handles—Overhead (Seville) Lock Pillar (Eldorado) • Audible Reminders—Headlights On, Key in Ignition, Safety Belt • Cigarette Lighters—One Front and Two Rear • Clock, Digital Display (In Driver Information Centre) • Controlled Cycle Wiper System • Defogger, Front Side Windows • Defroster Rear Window—includes Heated Outside Mirrors • Digital Fuel Gauge • Door-into-Roof Design • Door Pull Straps • Headrests—Front Seats, Adjustable • Lamp Monitors—Front and Rear • Lights, Exterior—Including Tungsten Halogen Front Cornering Lights and Tungsten Halogen Composite Headlamps • Lights, Interior—Underhood, Glove Compartment, Front Ash Receiver, Instrument Panel Courtesy, Overhead Dual Map, Door Courtesy and Warning, Rear Reading (Prefocused), Sail Panel Courtesy, Luggage Compartment • Low Brake Fluid Warning Indicator • Low Windshield Washer Fluid Level Indicator • Luggage Compartment—Carpeted • Parking Brake Release, Automatic—Multi-

Stroke System • Seat Adjuster, 2-Way Manual—Passenger's Seat • Seat Adjuster, 6-Way Power—Driver's Seat • Soft-Ray Tinted Glass • Trip Odometer, Digital • Visor Vanity Mirror—Passenger • Visors, Padded Dual Sun—with adjustable sunshades.

SOUND SYSTEM

Power Antenna.

AM/FM Stereo Radio with Signal Seeking and Scanner and Digital Display (ETR.™)

APPEARANCE AND PROTECTION

Inner Shield Windshield. A thin transparent plastic inner layer added to the inside glass surface, helps reduce lacerations from broken windshield.

Cadillac's 5-Year/80,000-kilometre (50,000-mile) Limited Warranty. In some cases, a deductible applies. See your dealer for details.

Two-Tone Paint Treatment (Seville only). Specific two-tone combinations with a lustrous clearcoat finish enhance Seville's new exterior styling.

Genuine American Walnut Interior Trim (Seville only).

New Cashmere Cloth and Leather Combination Seating Areas.

New Rear Seat Centre Armrest Closeout Panel. For a more luxurious appearance.

New Vehicle-Sensitive Rear Safety Belts. Allows normal movement; locks up during sudden decelerations.

AS WELL AS:

Accent Striping (Side and Deck Lid) • Anti-Corrosion Treatments • Bumper Fascias wrap around to wheel openings • Bumper Guards—Front and Integral Rear • Bumper Rub Strip—Front and Rear • Centre High-Mounted Stop Lamp • Clearcoat Paint • Door Sill Plates with specific model identification • Floor Carpet • Front Seat Back Trim Panel • Mouldings—Including Body Side (Car Colour), Rocker Panel (Black on Eldorado, Car Colour on Seville), Wheel Opening; Lower Body Side Accent (on Seville only) • Spare Tire, Compact High Pressure Type • Spare Tire Cover • Trunk Mat • Wreath and Crest Ornamentation.

ENGINE/CHASSIS

HT 4100 (4.1 Litre) DFI V8 Gasoline Engine. This front-drive, transverse-mounted V8 is a Cadillac exclusive. Includes Digital Fuel Injection and On-Board Computer Diagnostics. Automatically adjusts for altitude and outside temperature.

Independent Four-Wheel Suspension. MacPherson Struts in the front and transverse fiberglass leaf spring rear suspension.

Four-Speed Automatic Transmission with Overdrive and Viscous Converter Clutch. A Cadillac exclusive, the Viscous Converter Clutch provides a silky drivetrain feel.

Front-Wheel Drive.

Power Four-Wheel Disc Brakes.

Electronic Level Control.

Power-Assisted Rack-and-Pinion Steering.

Aluminum Alloy Wheels.

AS WELL AS:

Body-Frame Integral Construction • Delco-GM Freedom® II-Plus Battery • Generator, 120 Amp • High-Energy Ignition • Tires Steel-Belted, All-Seasons Radial Whitewall • Wheel Balance, Dynamic Computer • Wheels and Tires, Match-Mounted.

ADDITIONAL STANDARD FEATURES ON ELDORADO BIARRITZ AND SEVILLE ELEGANTE

COMFORT AND CONVENIENCE

Power Lumbar Support Adjusters and Power Recliners for Front Bucket Seats.

Six-Way Power Seat Adjuster for Front Passenger Bucket Seat.

Front Seatback Pockets.

SAFETY FEATURES AND WARRANTIES

By Cadillac

OCCUPANT PROTECTION

Safety Belts for Driver and Right Front Passenger (Driver Side Includes Visual and Audible Warning System) • Safety Belts at Each Rear Seat Position, (except Limousine auxiliary seats) and centre front, when applicable • Energy Absorbing Steering Column • Energy Absorbing Instrument Panel • Energy Absorbing Front Seatback Tops • Laminated Safety Windshield Glass and Tempered Safety Side and Rear Window Glass (also, Inner Shield Windshield on Seville and Eldorado) • Safety Interlocking Door Latches • Passenger-Guard Inside Door Lock Handles • Inertia-Locking, Folding Front Seatbacks (Coupes) • Safety Armrests • Head Restraints, Driver and Right Front Passenger (Adjustable) • Dual Sun Visors • Smooth Contoured Door Handles • Pressure Lock Radiator Cap.

ACCIDENT AVOIDANCE

Side Marker Lights and Reflectors • Parking Lamps That Illuminate with Headlamps • Four-Way Hazard Warning Flasher • Back-Up Lights • Centre High-Mounted Stop Lamp • Directional Signal Control with Lane Change Feature • Windshield Defroster, Washer and Dual-Speed Wipers (3-Speed on Brougham; Controlled-Cycle wipers on Allanté, Seville and Eldorado) • Inside Rearview Mirror with Vinyl-Bonded Glass • Outside Left and Right Rearview Mirrors • Brake System with Dual Master Cylinder and Warning Light • Starter Safety Switch • Dual Action Hood Latch System • Low Glare Finish on Instrument Panel Top, Inside Windshield Mouldings, Wiper Arms/Blades, Metallic Steering Wheel Surfaces • Illuminated Heater and Defroster Controls • Tires with Built-In Tread-Wear Indicators • Safety Road Wheel Rims • Audible Brake Lining Wear Indicators, all Disc Brakes • Self-Adjusting Brake Feature • Pressure Relief Fuel Cap.

AVAILABLE ACCIDENT AVOIDANCE FEATURE

Anti-Lock Braking System
(Standard on Fleetwood Sixty Special)

THEFT DETERRENCE

Audible Reminder for Ignition Key Removal • Theft Deterrence Steering Column Lock • Visible Vehicle Identification Number • Remote Inside

Hood Release • Theft Deterrent Key System (Separate Ignition Key).

AVAILABLE THEFT DETERRENCE FEATURE

• Theft Deterrent System

FOR YOUR PROTECTION*

1. New Vehicle Limited Warranty—12 months or 20,000 kilometres, whichever comes first.
2. Major Assembly Coverage (1st Purchaser)—after expiration of basic coverage up to a total of 5 years or 80,000 kilometres† whichever comes first on engine, transaxle, front-wheel drive, engine cooling and fuel, steering, front suspension, brakes, factory-installed air conditioner, electrical, electronic instrument cluster* (\$100 deductible). 2nd Purchaser \$25 transfer fee required for unexpired portion of coverage.
3. Owner Assistance Program.
4. Special Policy Adjustment Program.

* Ask your dealer for details.

† Rear-Wheel-Drive Cadillac Brougham Powertrain Coverage is 36 months or 60,000 kilometres.

* Deductible does not apply.

COMMITMENT TO

Excellence

General Motors recognizes that taking delivery of your new vehicle is a significant event. To ensure that your delivery experience contributes to your overall satisfaction, we have implemented a "Commitment to Excellence" Delivery Procedure.

This procedure includes a thorough new vehicle inspection by both the service technician and salesperson, a full tank of fuel, and a follow-up survey to determine your satisfaction with the delivery experience.

General Motors "Commitment to Excellence" is yet another excellent reason to "Look at GM Today".

MAJOR-GUARD COVERAGE

While there are many service contracts available on the market today, there is only one which gives you an agreement directly with General Motors. It is the one with the GM Protection Plan

logo shown above. This logo on all Plan material assures you that the service contract you are buying is the GM Plan. We believe it is the finest program of its kind available to GM owners.

GM Protection Plan Major-Guard Coverage provides additional protection during and after the new vehicle limited warranties. Ask your General Motors dealers for details and information about the genuine GM Protection Plan.

5-year unlimited kilometres corrosion perforation warranty. On all 1987 GM passenger cars. Ask your dealer for details.

A WORD ABOUT THIS CATALOGUE

The vehicles described in this catalogue incorporate components produced by General Motors of Canada Limited and related companies and suppliers. During manufacturing, different components than initially scheduled may be used.

All illustrations and specifications contained in this catalogue are based on the latest product information at time of publication approval. The right is reserved to make changes at any time, without notice, in prices, colours, materials, equipment, specifications and models, and to discontinue models. Some of the equipment shown or described throughout this catalogue is available at extra cost or can only be ordered in conjunction with the other optional equipment. Some options may not be available when your vehicle is built. Check with your dealer for complete information.

A WORD ABOUT ENGINES

Cadillacs are equipped with engines produced at facilities operated by GM car groups, subsidiaries or affiliated companies worldwide.

GMAC

FINANCING OR LEASING,
IT'S AS EASY AS GMAC

The good feeling that comes when you buy or lease a new GM vehicle can be enhanced when it comes to making the financial arrangements.

Which is why so many people finance with General Motors Acceptance Corporation. With GMAC it's done right in the showroom. Terms are tailor-made to suit your personal needs. You can choose your own monthly payment date. And the rates are friendly as can be.

So when the time comes, just tell us "I want GMAC." We'll take it from there while you relax.

GM AUTOPLEX: A PLEDGE TO CANADA. AN EXAMPLE TO THE WORLD.

Throughout North America, General Motors is embarking on a new manufacturing program that will set new standards for building cars and trucks right into the next century.

In Canada, it's called GM Autoplex. Although our technology and techniques are ultra modern, our philosophy still holds true to the original standard set by Col. Sam McLaughlin, GM Canada's first president—"One grade only, and that the best".

That philosophy, exemplified in the GM Canada workforce, was one of the main reasons Canada was chosen to spearhead this world-class program.

Consider the calendar of events. Starting in 1987, GM Autoplex will be part of our new truck program. In 1988, it will include a new GM world-class car program. By 1989, when all the key elements have been put in place, GM Autoplex will be the largest single automotive manufacturing complex in North America.

But the philosophy goes beyond even a project of this magnitude. Our on-going objective is to make sure that every vehicle that we make reflects GM's standard of excellence.

To maintain that excellence, we are insisting on more supplier involvement at the early stages of production, more training for the employees and greater use of sophisticated technology like robotics and fibre optics.

This is GM's on-going commitment to excellence, to Canada and to you. A commitment to produce the best quality cars and trucks possible at a price that's competitive.

XV WINTER OLYMPICS CALGARY '88

General Motors of Canada is proud of our involvement with major events in Canada, from Expo '67 in Montreal to Expo '86 in Vancouver, from the 1976 Olympics to the Winter Olympics in Calgary in 1988.

General Motors is a sponsor and Official Supplier of Transportation to the XV Olympic Winter Games in Calgary in 1988. This world event will be a showcase for Canadian athletes, for all of Canada and all Canadians—a symbol of Canadian excellence.

At General Motors we are committed to excellence. And to Canada.
