

1975 Dodge Colt

Dodge Colt GT...for the driver who expects something special in his car.

Of all the small cars that cross the oceans, Dodge Colt is unique.

Dodge Colt now begins its fifth year of giving owners a real run for their money.

The 1975 Dodge Colt is no big thing in size, cost of operation, price. But it's very big in utility. Reasons enough why Dodge Colt owners are convinced they're getting the most out of their automotive dollars.

GT: A very complete automobile.

Dodge Colt GT gets it all together: from bold racing stripes and rallye wheels to 8000 r.p.m. tachometer.

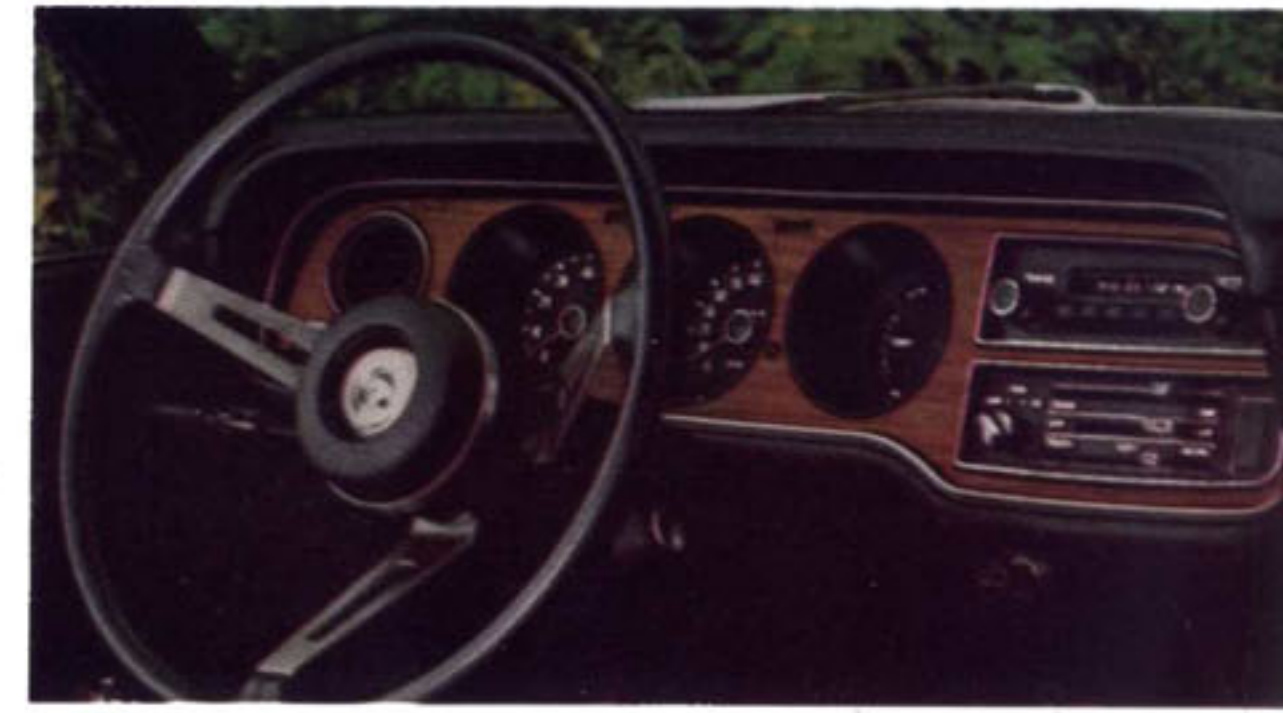

For 1975 the Dodge Colt GT power train has a 2000 cc overhead-cam engine and 5-speed fully synchronized transmission with floor-mounted shifter, standard. It's a power team to meet every challenge. Combined with the standard 3.89 axle ratio, you get performance in 4th gear—and economy in the overdrive 5th gear. Sports-car driving precision combined with economy and generous seating for four, that's GT.

Dodge Colt GT comes to you with all the goodies standard, including power disc brakes. Of course you can order air conditioning, an AM radio, electrically heated rear window and Chrysler's TorqueFlite automatic transmission if shifting is not for you.

Standard on Dodge Colt GT:

5" wide argent rallye road wheels with chrome hubs and lug nuts; and wide, BR-70 profile radial-ply white stripe tires. GT trim includes wheel opening accent and sill moldings.

Vinyl roof and wheel trim rings are optional at extra cost.

Take The Wheel and Take Off! Its soft-molded rim has three-spoke convenience with raised hub horn button. Three-and-a-half turns, lock to lock, for gymkhana course maneuverability. Adjustable steering column, standard on all Dodge Colts, allows every size driver to find the ideal steering position. Besides the glovebox and the package tray, there's a large console with a handy storage compartment, standard.

Smart and Comfortable Seat Designs: High-back bucket seats are covered with soft expanded vinyl and have integral head restraints. They are highlighted with white or black striping. Fore-and-aft adjustment; seat-backs adjustable to reduce fatigue, even allow passenger to catnap.

Dodge Colt Carousel 2-door Hardtop ...for a little more fun in your driving.

Instrument panel cluster in Colt Carousel is recessed below a padded hood. Simulated denim trim is standard. So is fully transistorized AM/FM radio. Instruments and controls are easy to see, easy to use. Three-spoke wheel is deep-dish design, with two horn buttons.

Reclining foam-padded front bucket seats welcome you to Dodge Colt Carousel 2-door Hardtop. A lever on the side of the seat locks seat-back at just about any angle. Very comfortable, very convenient.

Vinyl roof and wheel trim rings are optional at extra cost.

Colt 2-door Coupe

Vinyl roof, whitewall tires and accent tape stripe are optional at extra cost.

Smart styling accented by red-white-and-blue body stripes, striped blue-denim and white-vinyl seat trim, matching blue inserts on the door panels and console, even to the optional denim vinyl roof.

As a luxury note, color-keyed shag carpeting is standard. **Colt Carousel is a very happy car at a very happy price.**

For all-out economy, Dodge Colt 2-door Coupe (on the right). With these standard value features: floor carpetings, recliner bucket seats, flow-through ventilation, wheel covers, tilt steering column, inside hood release, locking fuel filler door, 1600 cc overhead-cam engine with 4-speed transmission with floor-mounted shifter, tinted glass, automatically retracting rear seat belts, simulated woodgrain trim instrument panel and enclosed glove box. **Dodge Colt Coupe: it does a lot for your image without damage to your budget.**

Plenty of headroom, legroom, shoulder-room and plenty of trunk space for luggage and gear. With four doors that make getting in and out as easy as it gets. Independent front suspension with coil springs and rear leaf springs absorb those road imperfections. The ride inside the sound-insulated Unibody is smooth, comfortable, quiet with extra insulation added to all Colts for 1975.

For the first 12 months of use, any Chrysler Motors Corporation dealer will fix, without charge for parts or labor, any part of our 1975 passenger cars we supply (except tires) which proves defective in normal use, regardless of mileage.

The owner is responsible for normal maintenance service such as changing filters and wiper blades.

That's a lot of protection. Protection you get nowhere else. It could save you less than \$100. Or more than \$1000. Gives you a nice warm feeling.

Dodge Colt is made for Chrysler Motors Corporation by Mitsubishi Motors Corporation in Japan. Some of the equipment shown on product illustrations is optional, at extra cost.
