

# Sapporo

The new sophisticated car  
from Plymouth.

# Sheer pleasure.

It's called Sapporo. And you've never seen anything like it before. Its styling is intriguing, so you decide to explore it further.

As you pop open the hood, you discover Chrysler's exclusive Silent Shaft engine, designed to be one of the smoothest and quietest 4-cylinder engines available anywhere. You discover Sapporo's new MCA Jet System, a sophisticated innovation that utilizes a special air valve for each cylinder that maximizes fuel economy.

As you settle into the cockpit, you find standard sport gauges, forced air ventilation, a stylish overhead console with digital clock. You're also impressed by the comfort that surrounds you. Luxurious pleated cloth seating, reclining seat backs, lumbar supports in both front bucket seats, and more.

You're impressed with Sapporo, but now there's one more thing you need. You need some open road. 'Cause there's no way to appreciate Sheer Pleasure when it's standing still.

Some items pictured on vehicles on this and other pages of this catalog are extra cost options.

The functional overhead console in Sapporo neatly contains a digital clock at the front, a swivel map light, two warning lights — windshield washer fluid level and door ajar — and the dome light.

Standard Sapporo interior features full instrumentation, inside deck release, reclining buckets trimmed in vinyl and cloth and more. Power windows, AM/FM stereo radio with 8-track tape, air conditioning and automatic transmission, shown, are optional.

### Standard Features
