

THE PURSUIT OF PERFECTION.

2009 LEXUS *ES*
the pursuit

Vehicle shown with available equipment.

the pursuit of perfection.

It's a phrase we use a lot. But what does it really mean?

The answer isn't only found in wood and leather, but in the pursuit of insight and ideas.

And how they get transformed into uncompromising luxury, world-class innovations and unexpected experiences.

This is the 2009 ES. And these are the pursuits that built it.

1. LUXURY
*the pursuit of
unparalleled comfort*

2. INNOVATION
*the pursuit of
anticipating your every need*

3. REFINEMENT
*the pursuit of
the details behind the details*

The ES is available with front seats that can be individually controlled to provide heating or ventilation to the driver and passenger.

1.

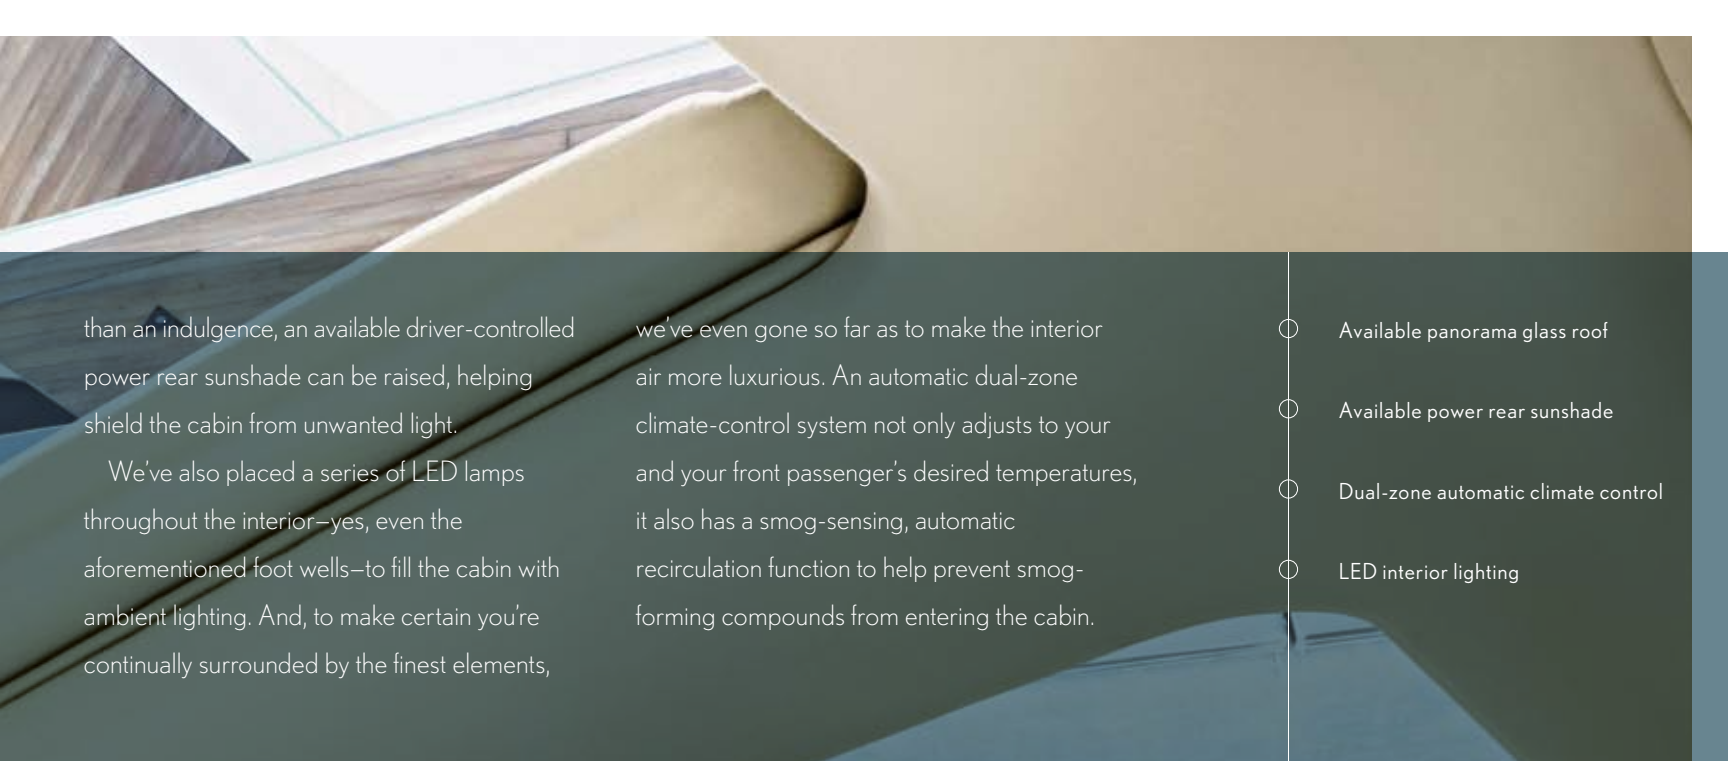

EVERY SURFACE AND EVERY INNOVATION: EXPERTLY DESIGNED to create an environment unlike any before. Consider the front seats. With an available internal heating and ventilation system, individual controls can be used to provide a desired level of heat when it's cold. And, when it's warm, available perforated leather trim allows fans mounted inside the cushions to surround you with steady streams of air. Of course, comfort has as much to do with ergonomics as it does temperature. Which is why both power front seats can be adjusted in 10 individual ways to conform to the occupant's ideal sitting position. Have a knack for encountering presumptuous valets? An available Lexus Memory System can instantly return the seat, steering wheel and side mirrors to their programmed positions. After all, unparalleled comfort should only come in one variety: yours.

*the pursuit of
unparalleled comfort*

The image is a composite of two photographs. The top photograph shows a close-up of the car's interior ceiling, featuring a large panoramic glass roof and a wood-grain panel with several triangular-shaped vents. The bottom photograph shows a wider view of the car's interior, focusing on the front passenger seat and the panoramic glass roof. The seats are upholstered in a light-colored, possibly leather, material with visible stitching. The overall lighting is bright, suggesting a sunny day.

*EVERY AUTOMOBILE HAS A
CERTAIN DEGREE OF LUXURY.
THIS ONE HAPPENS TO HAVE 360.*

It's not often a car company suggests, much less compels, you take a good long look at every aspect of a vehicle's interior. After all, foot wells and ceilings usually leave a lot to be desired. Not so in the case of the ES. An available panorama glass roof offers every passenger natural sunlight and fresh air. And for those times of the day when the sun is more of a nuisance

than an indulgence, an available driver-controlled power rear sunshade can be raised, helping shield the cabin from unwanted light.

We've also placed a series of LED lamps throughout the interior—yes, even the aforementioned foot wells—to fill the cabin with ambient lighting. And, to make certain you're continually surrounded by the finest elements,

we've even gone so far as to make the interior air more luxurious. An automatic dual-zone climate-control system not only adjusts to your and your front passenger's desired temperatures, it also has a smog-sensing, automatic recirculation function to help prevent smog-forming compounds from entering the cabin.

- Available panorama glass roof
- Available power rear sunshade
- Dual-zone automatic climate control
- LED interior lighting

*IF IT FEELS LIKE IT WAS ASSEMBLED BY HAND,
THAT'S BECAUSE IN MANY WAYS IT WAS.*

The wood paneling in every ES is selected by hand to ensure the grain, color and shade are consistent throughout the cabin.

IN THE AUTOMOTIVE WORLD, AN ELEMENT OF HUMAN TOUCH HAS long been a trademark of exceptional craftsmanship, reserved only for the world's most exclusive marques. Who are we to disagree? The side panels and center console inside an ES are crafted from a single piece of wood and then chosen by hand to ensure

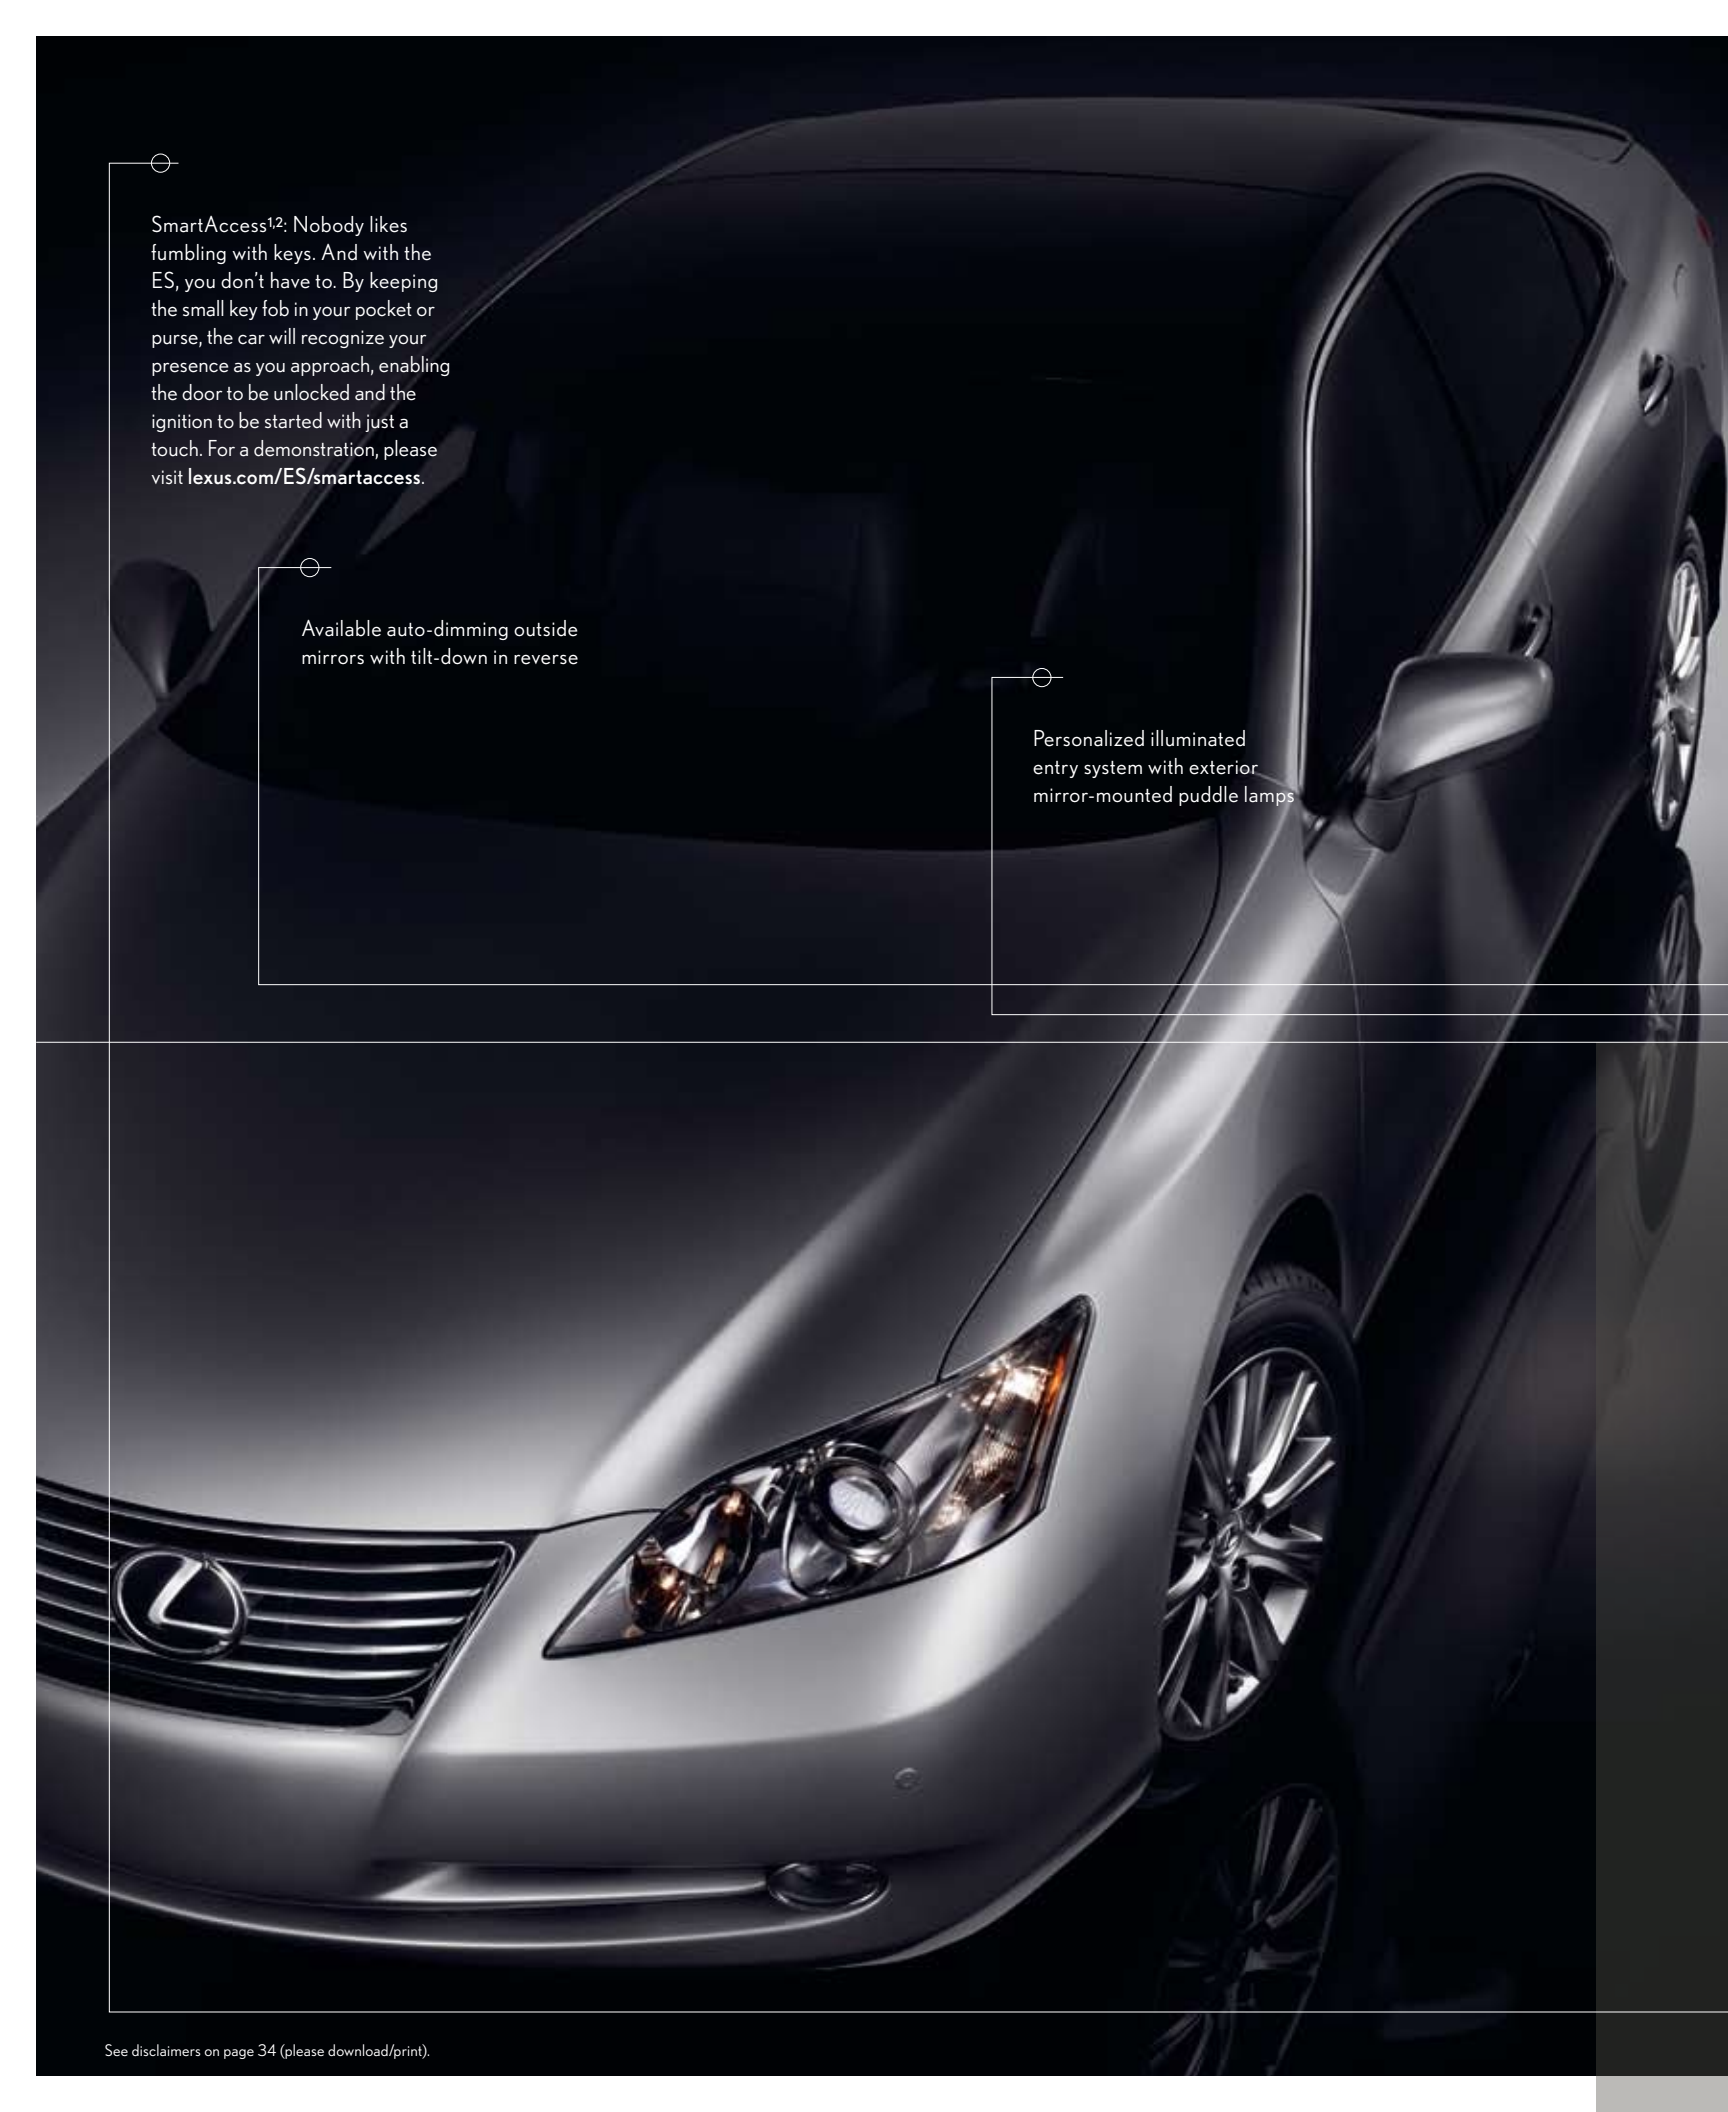

consistency in grain, color and shade. Of course, this isn't the only area where you'll find human involvement. The semi-aniline leather trim available on the ES is among the finest in the category. To be sure it looks the part, every piece is individually inspected for flaws and inconsistent textures before it is ever fitted for the interior.

It's not your imagination that the available semi-aniline leather in the ES feels softer and more natural than leather found in many other luxury vehicles. It's a result of using a dye-penetration process rather than the more common dye-coating process that can leave leather feeling stiff.

Vehicle shown with available equipment.

SmartAccess^{1,2}: Nobody likes fumbling with keys. And with the ES, you don't have to. By keeping the small key fob in your pocket or purse, the car will recognize your presence as you approach, enabling the door to be unlocked and the ignition to be started with just a touch. For a demonstration, please visit lexus.com/ES/smartaccess.

Available auto-dimming outside mirrors with tilt-down in reverse

Personalized illuminated entry system with exterior mirror-mounted puddle lamps

2.

A VEHICLE THAT SENSES AND REACTS TO ITS OWNER. WHAT WAS ONCE considered fantasy is now one of the most considerate luxuries. An ingenious feature, SmartAccess¹² uses a key fob that projects an encrypted signal to communicate with the ES, all while remaining safely tucked away in your pocket or purse. Before you even reach the vehicle, lamps underneath the side mirrors illuminate, casting light on the ground to help you avoid puddles and other hazards. Simultaneously, the interior lights slowly turn on, and the driver's door unlocks the moment you touch the handle. Once you're inside, the ignition button illuminates, indicating it's ready to be pressed. Some may call it futuristic technology. We prefer to call it old-fashioned etiquette.

*the pursuit of
anticipating your every need*

*THOUSANDS OF THE WORLD'S FINEST ENGINEERS,
AND THE PERSON WE LISTENED TO MOST WAS THE DRIVER.*

DESIGNING A VEHICLE AROUND A DRIVER'S NEEDS ISN'T JUST COMMON sense, it's common courtesy. You are, after all, the one who will be spending the majority of the time within it. For that purpose, we've outfitted the ES with some of our most thoughtful innovations. Like an available backup camera³ that is activated by placing the ES in reverse, helping you to see obstacles that might not be visible through the rear window. As well as an available DVD Navigation System⁴ that responds to your voice as you drive (in three languages, no less). Use it to find the nearest ATM, the closest gas station or a local restaurant by cuisine. With a compatible Bluetooth®-enabled phone,⁵ you can even

find many locations by phone number. Once you decide on a destination, choose the shortest, fastest or an alternate route. And if your directions take you onto a freeway, the system can even tell you which lane you need to be in to help you exit safely.

In a hurry? Fortunately, the ES features an innovative engine system that gives you maximum power on demand while still providing improved mileage and reduced emissions. Known as dual Variable Valve Timing with intelligence, the system automatically monitors the engine's needs and adjusts the timing of the intake and exhaust valves accordingly, helping to ensure that power is there when you need it.

Available voice-activated DVD

Available Bluetooth[®] technology⁵

Dual Variable Valve Timing
with intelligence (VVT-i)

Six-speed automatic transmission

Electronic Throttle Control System
with intelligence (ETCS-i)

Vehicle shown with available equipment.

Vehicle shown with available equipment.

STAYING AHEAD OF THE CURVE MAY SOUND LIKE A CLICHÉ,
BUT IT WAS ACTUALLY A MANDATE.

An available **Dual-swivel Adaptive Front Lighting System** can rotate the headlamps together or individually into a curve. In a left turn at speeds above 19 mph, for instance, the left headlamp can rotate up to 15 degrees and the right headlamp up to 7.5 degrees.

Available **Dynamic Radar Cruise Control**⁶ sensors use advanced millimeter-wave radar technology to help you maintain a pre-set following distance from an automobile traveling in front of you, reducing the throttle and even applying the brakes if necessary.

An available **Pre-Collision System**⁷ is designed to determine when a frontal collision is unavoidable and automatically retract the driver's seatbelt to prepare for impact while simultaneously delivering the maximum braking force once you press the brake pedal. For a demonstration, please visit lexus.com/ES/pcs.

SOMETIMES, VISIONARY THINKING HAS EVERYTHING TO DO WITH VISION, itself. After all, how you see determines what you see. And what you see determines how you react. It's the inspiration behind innovations like the

Dual-swivel Adaptive Front Lighting System available on the ES. Depending on the speed at which you're traveling, the headlamps can rotate together or individually into a curve to illuminate more of the road ahead.

*the pursuit of
the details behind the details*

3.

WITH ACOUSTICS, THE SMALLEST ADJUSTMENTS CAN HAVE THE greatest impact. Take the windshield. To help reduce exterior noise, a layer of film was developed and placed between two layers of glass. And in the front wheel wells, a lining of Thinsulate™ is used to dampen the sounds of the road below. Relatively minor modifications until you realize there are 112 more examples just like it. What about vibrations? The ES has 88 ways to minimize those as well. Like a computer-controlled engine mount that can detect the frequency of the engine's vibration and counter it with the opposite frequency, negating the effect. To those who wonder if we've gone a bit overboard, we have one reply: This is Lexus. There's no such thing.

114 points of sound dampening

88 measures taken to prevent vibrations

43 sensors for comfort⁸

23 sensors for safety

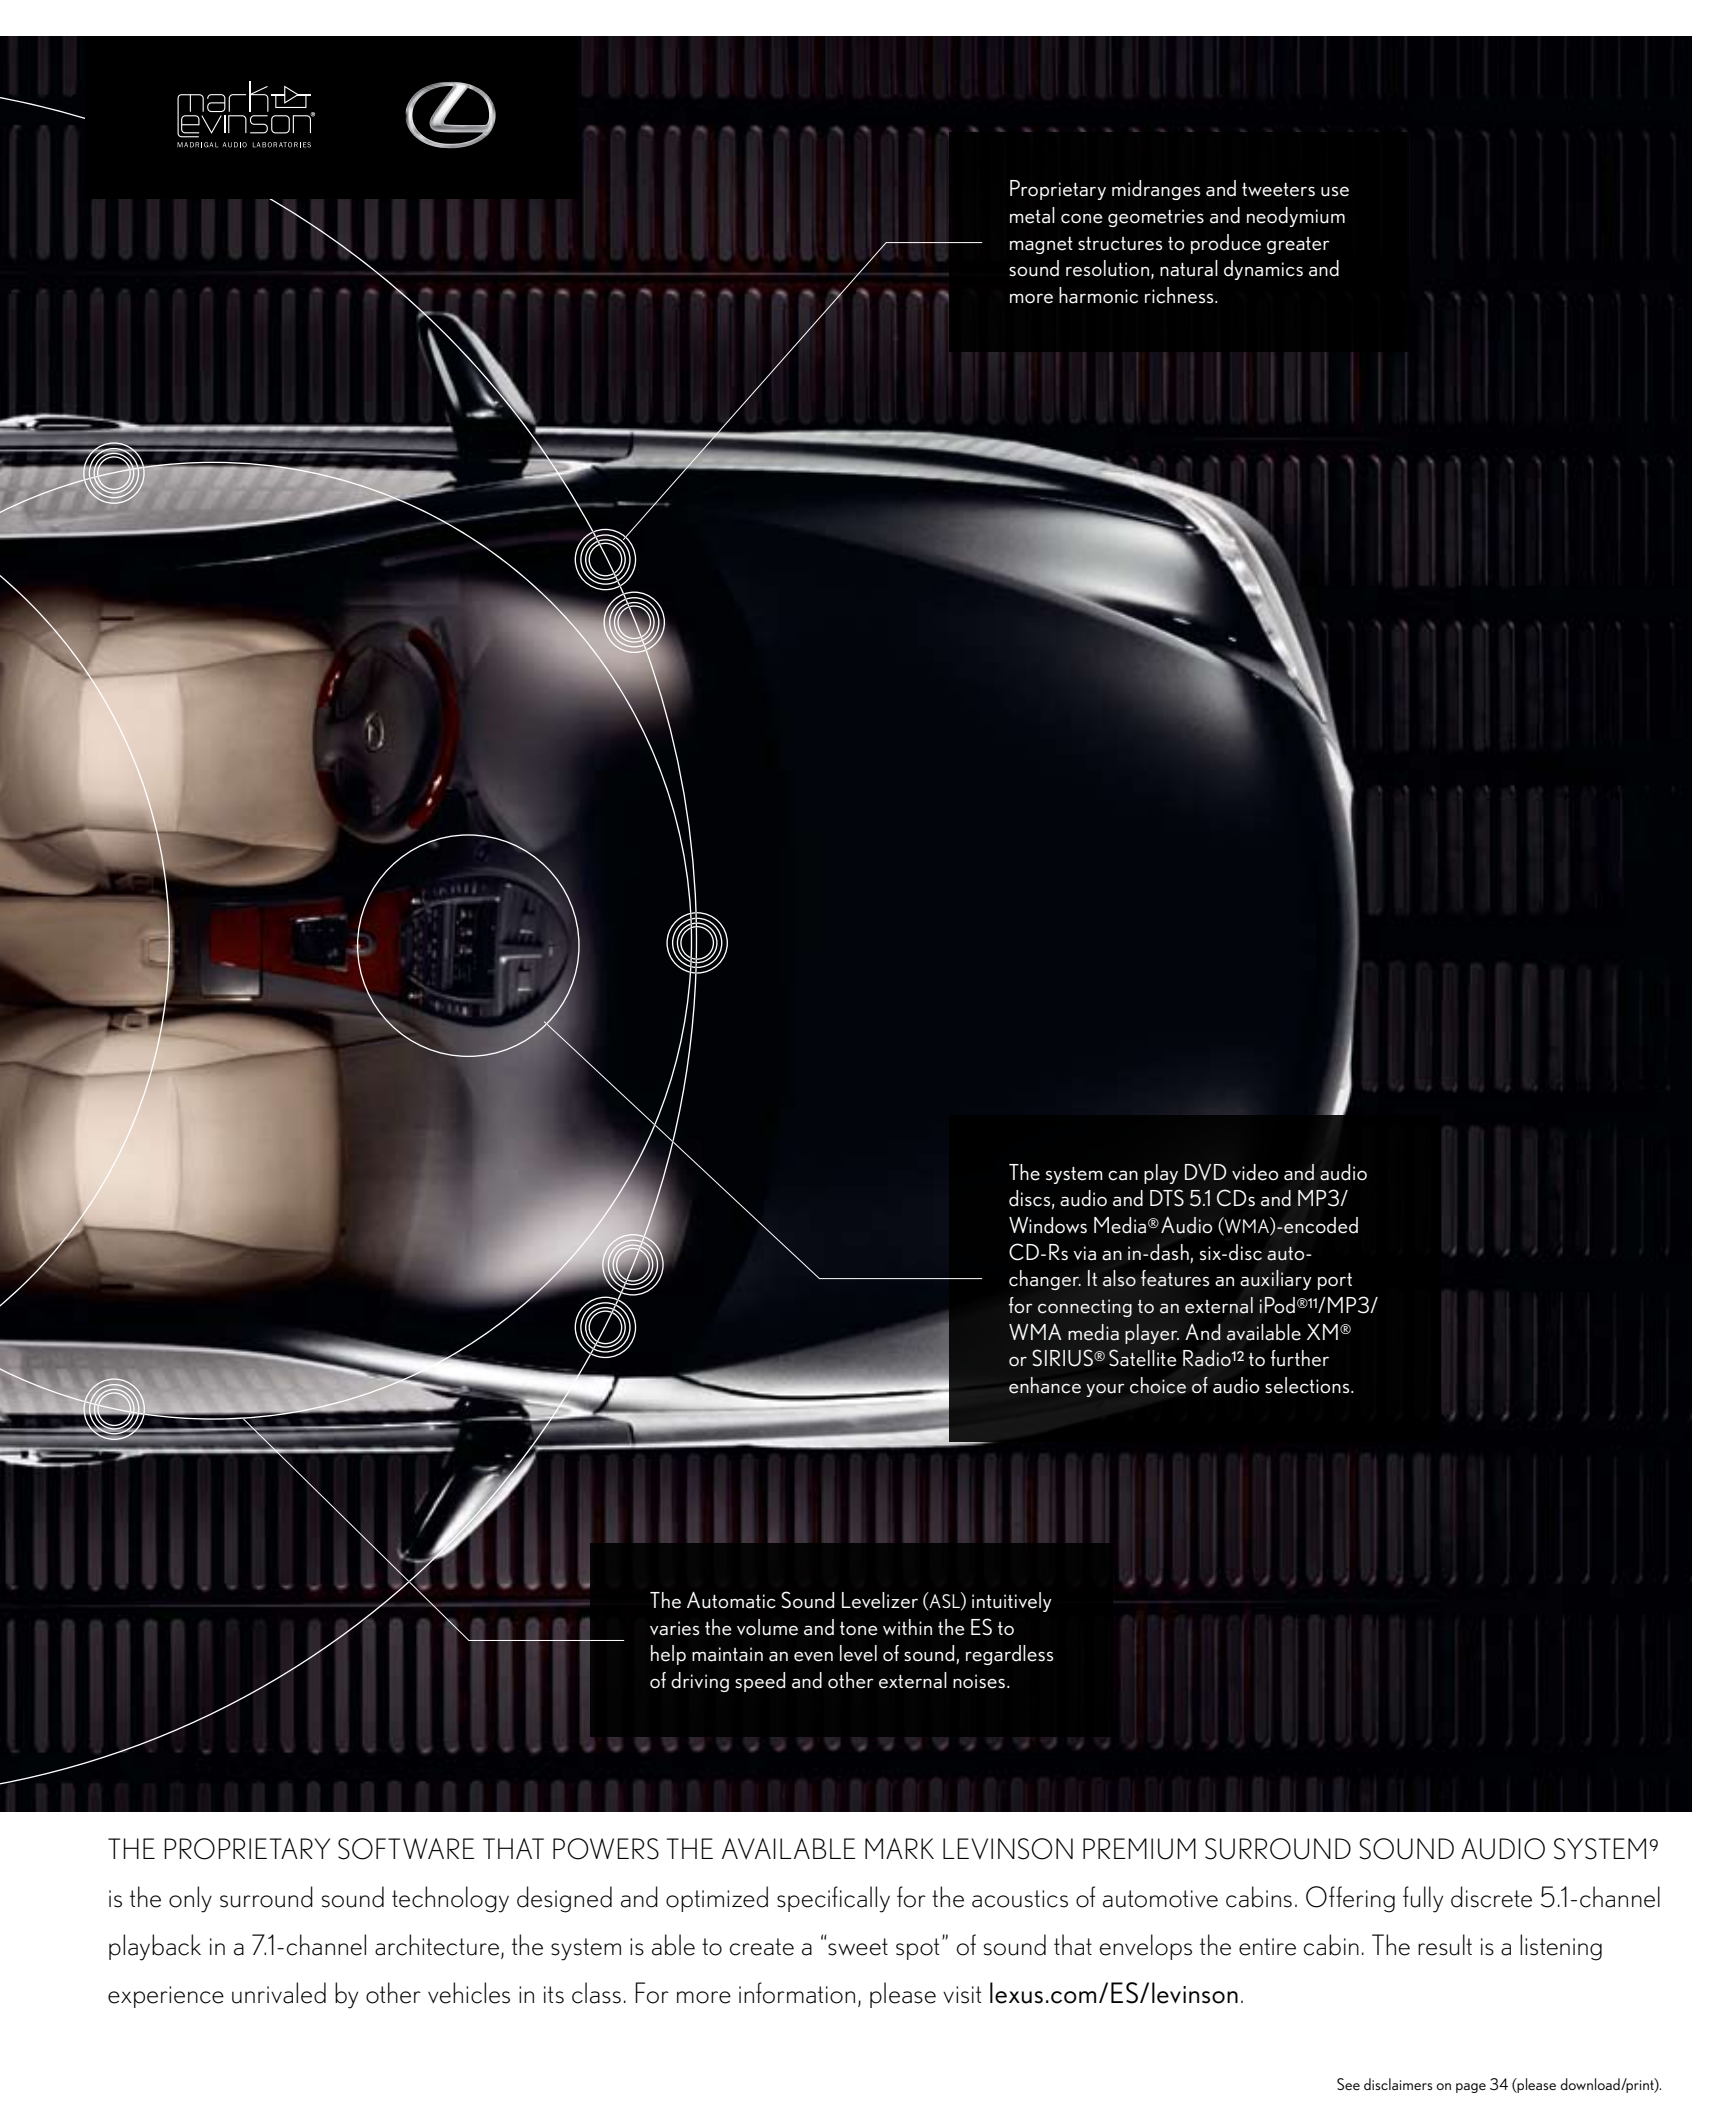

7 sensors to monitor the sensors

More than three years of development and over 1,000 man-hours of laboratory and on-road testing were spent tuning the system to the particular acoustics of the ES interior.

An 8-inch subwoofer, one of 14 strategically placed Mark Levinson®⁹ speakers in the ES cabin.

A 10-channel processor/amplifier makes 300 total watts of power available for all channels over the 20-20,000 Hz audible spectrum, at less than 0.1% THD.¹⁰ A 24-bit digital pathway from the head unit to the amplifier helps minimize sonic interference and eliminates unnecessary signal conversion steps.

AUDIO SYSTEMS ARE KNOWN TO CREATE A "SWEET SPOT" OF SOUND. ON THE ES, IT'S CALLED THE INTERIOR.

Proprietary midranges and tweeters use metal cone geometries and neodymium magnet structures to produce greater sound resolution, natural dynamics and more harmonic richness.

The system can play DVD video and audio discs, audio and DTS 5.1 CDs and MP3/Windows Media® Audio (WMA)-encoded CD-Rs via an in-dash, six-disc auto-changer. It also features an auxiliary port for connecting to an external iPod®11/MP3/WMA media player. And available XM® or SIRIUS® Satellite Radio12 to further enhance your choice of audio selections.

The Automatic Sound Levelizer (ASL) intuitively varies the volume and tone within the ES to help maintain an even level of sound, regardless of driving speed and other external noises.

THE PROPRIETARY SOFTWARE THAT POWERS THE AVAILABLE MARK LEVINSON PREMIUM SURROUND SOUND AUDIO SYSTEM⁹ is the only surround sound technology designed and optimized specifically for the acoustics of automotive cabins. Offering fully discrete 5.1-channel playback in a 7.1-channel architecture, the system is able to create a "sweet spot" of sound that envelops the entire cabin. The result is a listening experience unrivaled by other vehicles in its class. For more information, please visit lexus.com/ES/levinson.

Customer service beyond expectations. It's the one pursuit that has nothing to do with the design of our vehicles and everything to do with our philosophy as a company. "Treat each customer as we would a guest in our home" is not just a promise we make. It's a promise we keep.

THE DEALERSHIP EXPERIENCE

If you visit one of our dealerships, make yourself at home. Help yourself to a beverage or some light fare. Been awhile since you've checked your stocks or e-mail? Most dealerships provide Internet access. Picking up your new Lexus? Rest assured that our associates will make the transition as seamless as possible. From setting your favorite radio stations to connecting and transferring your compatible cell phone's contacts to the available Bluetooth®* system on your vehicle. We'll even position and adjust the driver's seat to your exact specifications.

LEXUS MAGAZINE

Every three months, owners are mailed a complimentary issue of Lexus magazine, an award-winning journal of experiences, trends and human-interest pieces. While some stories are directly related to Lexus vehicles and innovations, the magazine primarily focuses on the more unique and lifestyle-oriented aspects of luxury. Readers will find interesting information and thought-provoking articles on cuisine, culture and travel destinations and will enjoy beautifully photographed articles by well-regarded editors and writers. In fact, current Lexus owners find the magazine so entertaining that the majority pass their personal copy along to family and friends for their enjoyment.

VIP TREATMENT

We've made arrangements with select partners across the country to provide first-class treatment to Lexus owners. At specific venues, for example, benefits include waived parking fees, complimentary valet service and convenient, designated spaces. At certain theaters and sporting arenas, Lexus owners can receive VIP access to Lexus clubs and lounges through their dealer. And, should you ever visit California's world-renowned Napa Valley, we've arranged for VIP treatment at some of the finest wineries. Specific benefits vary from exclusive reserve tastings and complimentary shipping to personal cellar tours and private picnics overlooking the valley.

HOTEL PARTNERSHIPS

We've also formed partnerships with nearly 30 of the country's premiere vacation destinations, including the Amangani in Jackson Hole, the Fairmont Orchid in Hawaii and Blackberry Farm in Tennessee. While the benefits vary, owners are typically given a complimentary room upgrade or a \$100 credit to be applied toward the hotel's most popular amenities.

For a complete list of our hotel partners and more information on the ownership benefits listed here, please visit owners.lexus.com.

The service you receive as a Cardmember* promises everything you expect from Lexus. With the Lexus Pursuits Visa Signature Card, you will enjoy no pre-set spending limit† and no annual fee. Also enjoy exclusive Visa Signature concierge benefits, including complimentary assistance with travel, hard-to-get tickets and even the perfect gift. Plus, you will receive preferred access to popular entertainment, dining and special events.

With Lexus Pursuits Points, you will earn Lexus rewards, which are part of one of the richest rewards programs available. Earn 5 points for every \$1 spent at your participating Lexus dealership and 1.5 points for every \$1 spent everywhere else. Points are redeemable toward Lexus service, parts, accessories—and even up to 10% off your next new Lexus vehicle purchase or lease at participating Lexus dealerships. With the optional Travel Rewards Program (yearly fee required) you may choose to redeem your points toward virtually all your travel needs.

To apply, call 888-777-5555 ext. 82246 or visit LexusPursuits.com/apply/vehicle09.

**On approved credit. Subject to Terms and Conditions in the Lexus Pursuits Visa Cardmember Agreement and Lexus Pursuits Rewards Program Terms and Conditions. Points redemption not available at dealerships in Hawaii.*

†No pre-set spending limit does not mean unlimited spending.

The creditor and issuer of the Lexus Pursuits Visa is Lexus Financial Savings Bank.

*The Bluetooth® technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus.

OPTION PACKAGES*

NAVIGATION SYSTEM/MARK LEVINSON PREMIUM AUDIO SYSTEM PACKAGE

Voice-activated DVD Navigation System⁴ with backup camera³ and Bluetooth[®] technology⁵

Mark Levinson 14-speaker 300-watt @ less than 0.1% THD, 20-20,000 Hz¹⁰ Premium Surround Sound Audio System⁹ with 7.1 architecture and in-dash, single-feed, six-disc DVD/CD auto-changer featuring DVD-audio and DVD-video playback

PREMIUM PLUS PACKAGE

Leather-trimmed interior

Heated and ventilated front seats

Driver's-seat power cushion extender

Lexus Memory System to control power driver's and front passenger's seats (except lumbar), outside mirrors and steering wheel

Remote keyless entry-linked memory

Electrochromic (auto-dimming) outside mirrors with tilt-down in reverse

Rain-sensing intermittent windshield wipers with mist cycle

ULTRA LUXURY PACKAGE

Semi-aniline leather-trimmed interior

Wood- and leather-trimmed steering wheel and shift knob

Heated and ventilated front seats

Driver's-seat power cushion extender

Lexus Memory System to control power driver's and front passenger's seats (except lumbar), outside mirrors and steering wheel

Rear-seat side airbags (SRS)¹³

Remote keyless entry-linked memory

Panorama glass roof

Power rear sunshade

High-Intensity Discharge (HID) headlamps

Dual-swivel Adaptive Front Lighting System (AFS)

Electrochromic (auto-dimming) outside mirrors with tilt-down in reverse

Rain-sensing intermittent windshield wipers with mist cycle

17 x 7.0-in 10-spoke Graphite-polished alloy wheels¹⁴

Full-size spare tire with 17-in alloy wheel¹⁴

OPTIONS AND ACCESSORIES*

Voice-activated DVD Navigation System⁴ with backup camera³ and Bluetooth[®] technology⁵

Intuitive Parking Assist

Pre-Collision System (PCS)⁷ and Dynamic Radar Cruise Control⁶

Rear-seat side airbags (SRS)¹³ (requires Premium Plus Package)

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *ES Warranty and Services Guide* at your Lexus dealer for details.

1. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **2.** The engine immobilizer is a state-of-the-art anti-theft system. The key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key, it can be costly to replace. If you lose a key, your Lexus dealer can help, or you can find a qualified independent locksmith to perform high-security key services at www.aloa.org. **3.** The backup camera, available only with the Navigation System, does not provide comprehensive view of the rear area of the vehicle. You should also look around the outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **4.** The Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details. **5.** The Bluetooth® technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. **6.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. **7.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. **8.** Comfort sensors include relays and receivers. **9.** Mark Levinson is a registered trademark of Harman International Industries, Inc. **10.** Continuous average power, all channels driven, at less than 0.1% THD; 20–20,000 Hz. **11.** iPod is a registered trademark of Apple Inc. **12.** Satellite Radio requires an XM or SIRIUS compatible receiver and monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to the terms and conditions available at www.xmradio.com or www.sirius.com. Available only in the 48 contiguous United States. **13.** All the airbag ("AB") systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing childseat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. **14.** 17-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending on driving conditions. **15.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **16.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **17.** 2009 EPA-estimated mileage. Actual mileage will vary. **18.** Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **19.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **20.** The Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **21.** Cover stock is composed of 10% post-consumer waste.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
