

THE MOST INTENSE STI EVER. FROM JAPAN WITH LOVE.

It's finally here—the best of Subaru Tecnica International. Unleashed for the first time, the 2019 Subaru STI S209 is the rawest, most exhilarating Subaru ever: best handling, best braking and best acceleration, for starters.¹ Its potent turbocharged SUBARU BOXER® engine delivers 341 hp,¹ thanks to forged pistons, a larger turbo, revised ECU tuning, and an all-new intake and free-flowing exhaust. And with a bevy of suspension enhancements, a wider track and custom Dunlop® performance tires, it achieves the most lateral grip yet, at over 1.0 g.¹

A limited number of S209 models will be made, all engineered to outperform cars that cost far more. What used to be untouchable is now firmly within reach. Hold on tight.

- Individually numbered, available in Crystal White Pearl with gold wheels and WR Blue Pearl with dark gray wheels²
- 341-hp turbocharged SUBARU BOXER® engine¹
- Subaru Symmetrical All-Wheel Drive with Driver Controlled Center Differential (DCCD)
