

'77 AMC

There's more to an AMC!

SPECIAL AUTO SHOW EDITION

PACER WAGON & SEDAN

In 1975, AMC introduced the revolutionary Pacer Sedan. In 1977, we're proud to announce that the revolution isn't over—the all new Pacer Wagon is here!

Like the Sedan, the Pacer Wagon is clean-lined, good-looking and extremely roomy. A yawning rear-hatch opens to 47.8 cu. ft. of cargo space with rear seat down.

The new Pacer Wagon has all the features that made the Sedan a sudden success, too. A 100-inch wheelbase coupled with an extra-wide stance and isolated suspension system for solid roadability, easy handling and a smooth, quiet ride. A responsive proven 6-cylinder engine with a 22-gallon fuel tank for excellent performance and driving range. And the unique passenger door that's even wider than the driver's for quick and easy rear-seat access.

The Pacer Wagon and Sedan are loaded with standard features. Make them even more comfortable and luxurious with options like Air Conditioning, D/L Package, AM/FM stereo radio, automatic speed control and many more!

And on top of everything else, you get AMC's new BUYER PROTECTION PLAN II to protect all that value. Pacer Wagon and Pacer Sedan . . . truly one-of-a-kind compacts.

GREMLIN

Right from the start, Gremlin's unique styling and sporty individuality appealed to a wide range of drivers. For 1977, we've given Gremlin a fresh new look that's bound to make it even more appealing.

There's a rich-looking new front end treatment and distinctive taillights that give Gremlin an exciting new look from bumper to bumper. But in spite of the good looks, practicality and value still get top billing.

Gremlin has a new more expansive rear lift window for easier-than-ever loading. (The back seat folds down to provide a handy, roomy cargo space of nearly 27 cubic feet.) Front disc brakes. Parking brake warning light. Foam-cushioned seats in Rallye Perforated vinyl. Bright exterior moldings and much, much more. To add a distinctive flair to all this new Gremlin excitement, add the sporty X Package, one of many options.

Gremlin features an easy-handling 96-inch wheelbase, and a proven 6-cylinder engine with a 21-gallon fuel tank. The new Gremlin 2-Liter 4-Cylinder model offers even greater fuel economy and longer driving range.

And to protect Gremlin value, there's the new BUYER PROTECTION PLAN II, an AMC "standard" that other cars don't even offer as an option!

◀ Hornet Wagon D/L

▲ Hornet AMX (standard Hatchback model also available)
▼ Hornet 4-Door Sedan (2-Door Sedan also available)

HORNET

For most people who need wagons—Hornet Wagon is really all they need. It's roomy, seating five or carrying two plus 62.8 cubic feet of cargo. It's convenient, with four doors and a rear liftgate. It's easy to maneuver, with a turning diameter of just 38½ feet. And it has standard features like carpeting (even in the cargo area).

Or maybe the Hornet Hatchback is more your style—especially in the sporty AMX (left). Either way, you get bucket seats and a lot of usable space plus style. Open the big “third door,” flip down the rear seat for 30½ cubic feet of cargo room. The AMX comes on strong with a floor shift, console, sporty gauges, soft-feel sports steering wheel, and more. You can add options like aluminum wheels and unique super-graphic Hornet decals on the hood and deck lid.

For outstanding value, the Hornet Sedans (2- or 4-door) rate your consideration. Here's a combination of riding comfort, handling ease and solid quality.

All Hornet models feature an easy-to-handle 108-inch wheelbase, and a selection of 6- or V-8 engine/transmission choices to suit any need. And of course, adding to the value of every new Hornet is AMC's new Buyer Protection Plan II.

MATADOR

There are three ways to get more style, big-car comfort and luxury, and greater value in the mid-size field. Matador Coupe on a 114-inch wheelbase. Matador 4-Door Sedan and Wagon on a 118-inch wheelbase.

Matador style speaks for itself—as exemplified by the luxurious styling features of the Special Edition Matador Barcelona II—landau type vinyl roof, two tone paint treatments, opera type quarter windows, reclining seats in soft, rich, tan nap fabrics and more. The Coupe and Sedan have over 14 cubic feet of trunk space and a 24½ gallon fuel tank. Yet their trim overall dimensions make them easy to handle and park.

The Matador Wagon has the most all-around room of any wagon in its class. That translates into stretch-out room for five, a cargo space of more than 95 cubic feet with the rear seat down. And the dual-swing tailgate converts from tailgate to door for your convenience.

Power steering, power front disc brakes, automatic transmission, 304 V-8 in the Wagon, 258 Six in the Coupe and Sedan, individual reclining seats, custom steering wheel, wheel covers, and a lot more—all come standard. Plus that great exclusive “standard,” AMC’s new Buyer Protection Plan II.

AMC offers the only full 2 year, 24,000 mile warranty on engine and drive train.

INTRODUCING BUYER PROTECTION PLAN® II

BUYER PROTECTION PLAN II from American Motors is the only full warranty covering engine and drive train for 2 years or 24,000 miles. In addition, it gives you a full 1 year/12,000 mile warranty protecting everything else on your car except tires.

Furthermore, only American Motors offers service adjustments

for 4 months or 4,000 miles on wheel alignment/balancing, headlights, carburetor, distributor, brakes, manual transmission clutch, automatic transmission bands, belts and tightening of nuts/bolts.

All you do is properly maintain and care for your new AMC car with normal use and service. And have guaranteed repairs made by an

AMC Dealer.

No other American car maker protects you like this. We even provide a free loaner car should guaranteed repairs take overnight.

See for yourself. Compare our coverage against the competition. You'll discover American Motors is the leader when it comes to warranty coverage.
