For over forty years, we've put thoughtful engineering to the test on the international rally circuit. In addition to the obvious thrill of winning, competing against our peers helps us develop and refine new ideas. Ideas that find their way into all our vehicles. Ideas that look good sitting in your driveway.

wake up and drive™

We are Mitsubishi. We build quality cars. Yet we also offer something more. Because while a car should answer your needs, it should also stir your emotions. Like it or not, cars are a window through which the world views us. Through that window we can appear dull and lifeless—sensible to the point of boring. Or we can show the world that our hearts beat strong, and our minds are quick. Mitsubishi takes pride in building cars that ignite the vital spark which often lies sleeping just beneath the surface in each of us. Cars that challenge us to **wake up and drive.**™

From the moment you lay your eyes on the 2003 Lancer, you'll know it's fighting above its weight class. Decked out with an embarrassing number of standard options, it isn't hard to see why this vehicle hates to be mentioned with other cars in its category. The '03 Lancer. If it had a shoulder, there'd be a chip on it.

Not all features standard on every Lancer model. See specifications for details on optional equipment and accessories.

STYLING

The style section. Unlike a lot of other cars in its category, the Lancer actually warrants one. Need proof? The tinted glass, power sunroof, roof-mounted antenna and optional spoiler are happy to act as exhibits A through D. Still skeptical? You won't be after taking in the Lancer's overall sleek, refined body style. Combine this with the tailored look of the clean, creased side panels and you're going to find yourself looking back over your shoulder more times than a snitch in a mob trial.

THINK OF YOURSELF AS ITS ACTION FIGURE

PERFORMANCE

Sporting a world-class chassis that spawned the legendary Lancer Evolution, this car keeps a grin on your face both behind the wheel and in front of the mirror. A high-torquing 2.0L engine, rack-and-pinion steering and 4-wheel independent suspension make sure of that. In fact, in addition to the 5-speed manual, the Lancer offers an adaptive shift control automatic transmission. It learns individual acceleration habits, then shifts gears to accommodate your driving style. If that weren't enough, this car also boasts a stainless steel exhaust system and has achieved Ultra Low Emissions Vehicle standards.* Considering all that this car has to offer, you'll understand why the 2003 Lancer has a hard time making small talk with its peers.

WE CONSIDERED A WELCOME MAT

INTERIOR

With this vehicle's cabin space, you'll close the door, but you might not believe you're inside. Especially when your undercarriage finds itself seated in an 8-way adjustable driver's seat. But don't get too high and mighty, you're not the only one with a good view. Rear, theatre-style inclined seating lets all your passengers vie for bystander attention. And a wide door opening allows them to pile in easily without the mastery of some forgotten yoga.

But make no mistake. Once you're inside, the air conditioning, cruise control, power door locks, power windows and folding power mirrors ensure you are the undisputed master of the interior. Any dissenters? Let them voice their concerns against the six-speaker in-dash CD system. Forget about your friends questioning who's in the driver's seat. With features like 60/40 rear fold-down seats, auto-off headlights and dimming interior lights, you might be searching for your reflection in the dual vanity mirrors to keep from doubting it yourself.

SECURITY

Just when you think you've exhausted all the features this car has to offer, it hides a few extras where nobody can see them. Take for instance the neatly tucked away LATCH child seat system, dual front air bags¹ and available front side air bags.¹ The ventilated front discs, flex-resistant RISE chassis and optional anti-lock brakes are well concealed too. But don't take it personally, they're just busy doing their job. Designed to help provide greater protection in a collision, the RISE chassis is aided by steel side-impact door beams and energy-absorbing crumple zones. In fact, this frame is so resilient that we use it on our Lancer Evolution rally car. You might ask how can an affordable car support so many safety features? However, a better question might be, how can any car afford not to?

FEATURES LIKE THESE OUGHT TO BE WRAPPED.

² EPA fuel estimates to be used as a standardized comparison with other vehicles. Your mileage may vary depending on your driving style and environmental conditions.

Transportation is more than just getting from A to B. Things happen in between. It's a little thing called "driving." It's where what you drive and who you are share a spot on the road. It's where a vehicle should provide the amenities needed to bridge the gap between what you want and what you need. The 2003 Lancer. Are you in?

ACCESSORIES

Make it your own. There's no better way than with Mitsubishi Genuine Accessories. Add them at the time of purchase and they'll not only be installed, but covered under a 3yr/36,000-mile limited warranty. And even better, you may be able to work them into your monthly car payment. Why not? Let the leather-trimmed seats soothe your body as the 6-disc in-dash CD changer takes care of your mind. Crack the sunroof, take in the rays and let the wind deflector deal with the breeze. After all, why should the spoiler get all the fun.
