The 2010 Camaro is the 21st century sports car, the modern interpretation of an icon. It has the credentials one expects, but also offers technical advances, including its standard 3.6L Direct Injection DOHC V6 with a projected 300 hp that provides an estimated 26 MPG highway⁴ with available TAPshift automatic. Camaro also offers a 4.5-link independent rear suspension and an available nine-speaker, 245-watt Boston Acoustics sound system in select models. The RS Appearance Package – available on LT and SS models – even boasts a unique front-end signature, thanks to its high intensity discharge headlamps with integrated “halo ring.” The 2010 Camaro is writing the next chapter in automotive performance. For more information and additional specs, visit chevy.com/camaro.
