Ford 05 TAURUS

Family Valued.

Ford Taurus — the Sedan and Wagon that richly reward families, large and small. Its 4-wheel independent suspension, up to 200-hp engine, and power rack-and-pinion steering deliver the smooth, agile ride and handling of a luxury automobile. The interior is host to an extensive list of premium features. And with numerous safety features, it provides the peace of mind everyone will appreciate.

Taurus SEL: Express Yourself. Elegantly.

Whether you're traveling across town or across the country, here's an interior designed to spoil you. You'll savor the wood- and leather-trimmed steering wheel. Other luxurious touches include woodgrain accents and plush carpeting. With the SEL Premium Package you'll also be rewarded with a 6-disc CD changer and cassette player, Electronic Automatic Temperature Control, premium leather-trimmed seats, a power passenger's seat, automatic headlamps and a rear spoiler (Sedan only).

Don't See The Light

Auto-Dimming Rearview Mirror - This mirror automatically dims when it detects the glare of bright lights from behind. Standard on SEL models.

HomeLink® Universal Transceiver - Standard on SEL, HomeLink can be programmed to activate your garage door opener and two other home-based units (like an alarm system or house lights).

Stay Comfortable

Electronic Automatic Temperature Control -This system operates the heating and air conditioning systems. All you need to do is set the temperature and it maintains it for you. Available in SEL Premium Package.

Feel The Control

Mirror, Mirror

Illuminated Visor Vanity Mirrors — These handy mirrors make it easy to check out your appearance. Standard on SEL models.

SEL Premium Package

- Leather-trimmed seats
- Power passenger's seat
- 6-disc CD changer
- Electronic Automatic Temperature Control
- Rear spoiler (Sedan)
- Automatic headlamps

A Heritage Of Safety Excellence.

Over the years, Ford Taurus has been on the leading edge for safety improvements. Engineers work diligently to incorporate the latest technologies, from dual-stage front airbags to safety belts with energy-management retractors that help hold occupants securely and prevent injuries. The results? A vehicle that's known for delivering true peace of mind. And that's something everyone appreciates.

The Protection You Deserve

Personal Safety SystemTM – This standard system manages safety belt tension and airbag deployment to better protect the driver and right-front passenger. The crash severity sensor measures the impact of a front collision. Front-seat sensors determine the driver's seat position and front passenger's weight. The system uses safety belt pretensioners and energy-management retractors to control belt tension and hold occupants securely during an impact. It also manages the energy levels at which the front airbags deploy in order to provide improved protection for occupants.

Up Front About Safety

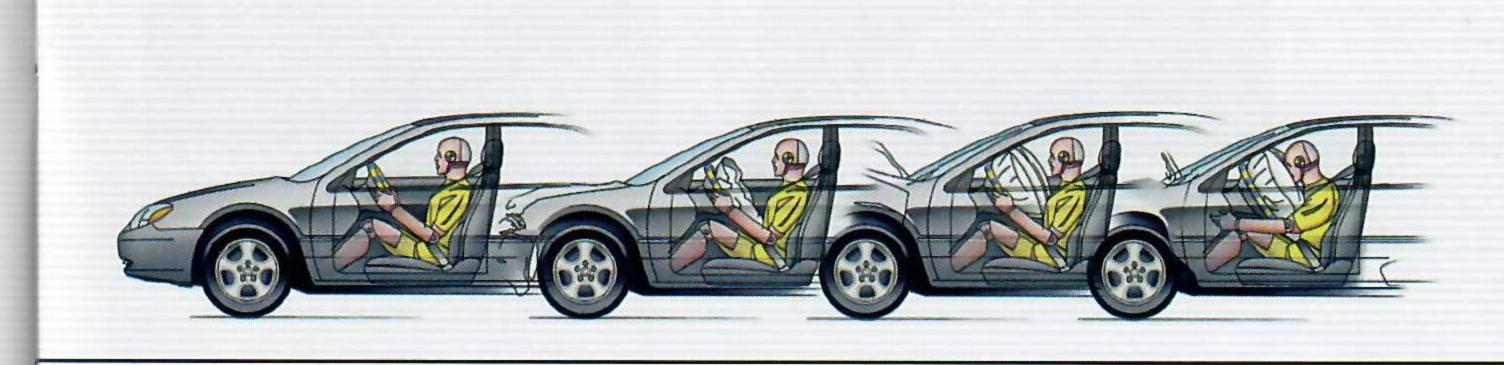

Dual-Stage Airbags – Special sensors deploy these airbags at the right pressure based on several criteria, including: the severity of the impact, whether safety belts are in use, the weight of the right-front passenger, and the distance of the driver's seat from the steering wheel. Dual-stage airbags are standard on all Taurus models.

Strong Bodies

"Safety Cell" Unitized Body Construction – Special crumple zones were designed to absorb the force of a collision, while the passenger cabin structure helps dissipate impact energy around and away from the occupants. Standard on all Taurus models.

Safety/Security Package

- Side-impact airbags for driver and front passenger
- Anti-lock brakes
- Traction Control

Your Sides Are Covered

Side-Impact Airbags — They're ready to help protect the driver and front passenger by deploying in certain side-impact collisions. They're available on all models as part of the Safety/Security Package.
