LeBaron LX Convertible

# Chrysler LeBarons

*One sleek aerodynamic restyling.* Displaying a redesigned front end, the 1993 Chrysler LeBarons have evolved to a new level of refinement.

*Two attractive body styles.* No matter your choice, every quality LeBaron Convertible and Coupe features the safety of a standard driver-side air bag and available four-wheel anti-lock brakes, plus the smooth power of a 3.0-liter V6 engine.\*

*Three well-appointed trim levels.* LeBaron LX comforts you with the luxury of leather seat facings† and a four-speed automatic transaxle; LeBaron GTC allows you to unwind with the performance of a five-speed manual transaxle and beefed-up suspension; and LeBaron

*Highline* affords you the value of an appealing Sport Package option.

*For your utmost satisfaction.* LeBarons are backed by Chrysler's innovative Owner's Choice Protection Plan, which allows you to choose one of two comprehensive limited warranties (see page 29 for details).

Even with all their significant advantages, Chrysler LeBarons remain remarkably affordable. That's precisely why **Chrysler LeBaron Convertibles and Coupes are the perfect balance between self-indulgence and common sense.**

\*Standard on LX and GTC. Optional on Highline. See page 28 for details.

†Standard on LX Convertible. Available on LX Coupe.

*ABOUT THIS CATALOG.* Since the time of printing, some of the information you'll find in this catalog may have been updated. Ask your dealer for details.

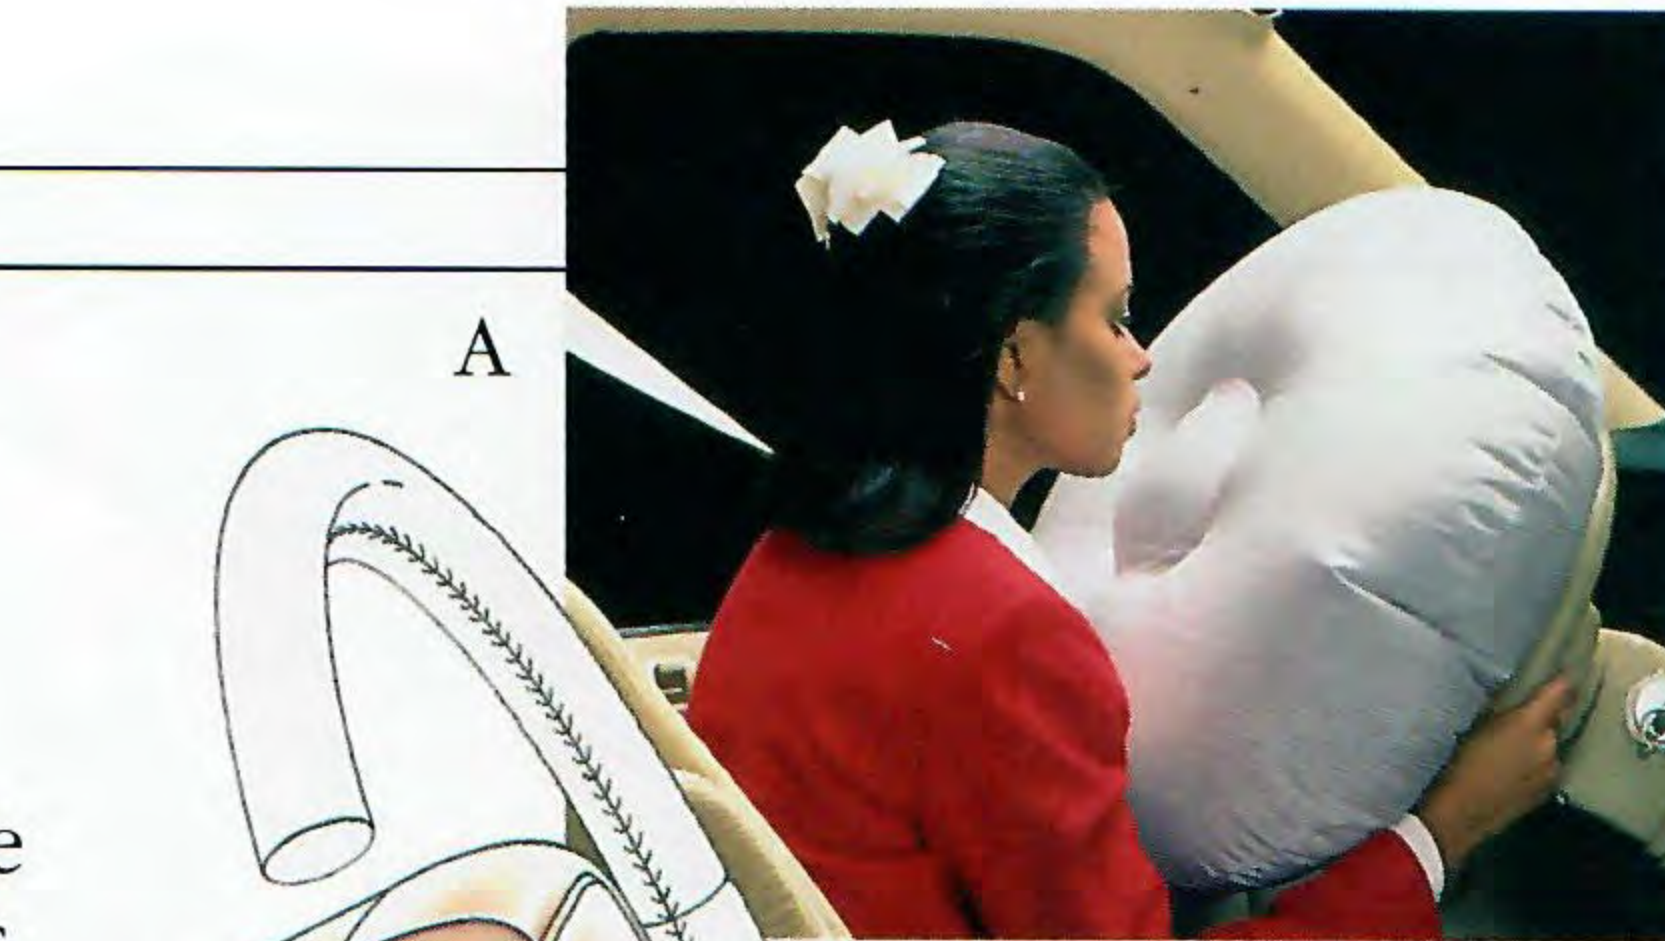

Some of the equipment shown or described throughout this catalog is available at extra cost.

# Safety First

## Form Follows Safety

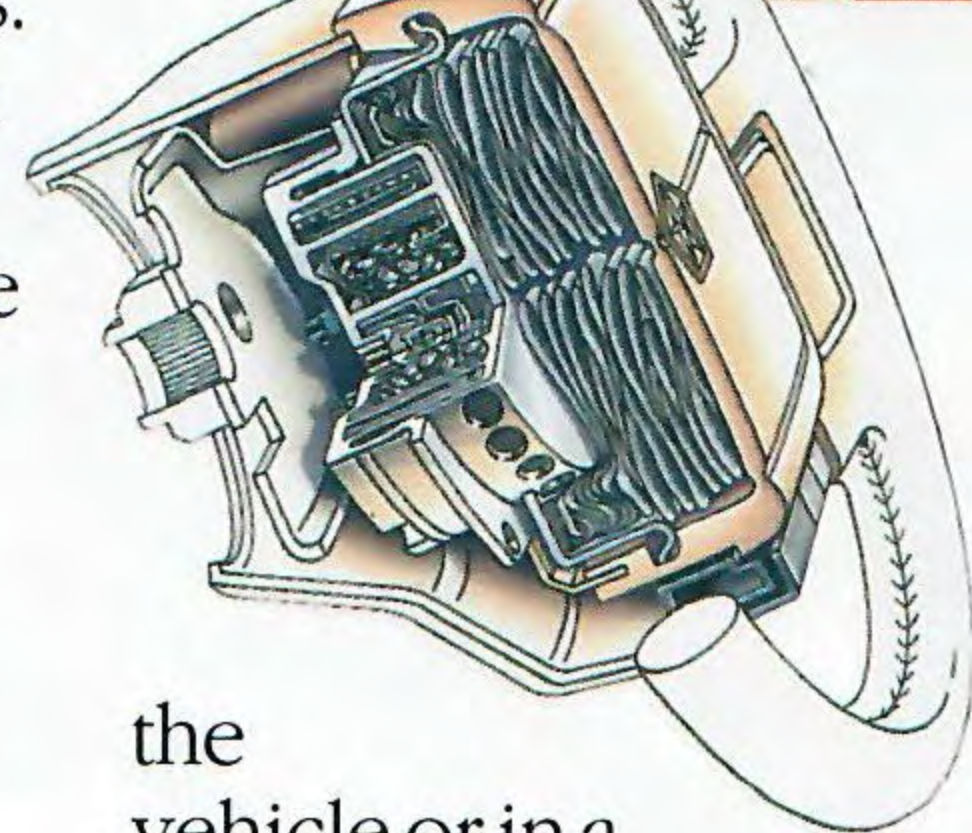

Your safety is of paramount importance, that's why Chrysler engineers pioneered the extensive use of air bags. Every Chrysler Division passenger car Chrysler Corporation builds in the U.S. is equipped with a driver-side air bag (A). All Chrysler air bag systems are factory-certified and feature gold-plated electronic terminals to resist corrosion, humidity-sealed sensors and connectors to prevent the entry of moisture, soldered terminal grips to guarantee conductivity and neoprene-coated sewn nylon bags to protect against deterioration. The air bag, in combination with a lap/shoulder belt, is one of the best driver protection systems available.

Three-point Unibelt restraints (B) are provided for front and rear passengers on all LeBarons. This safety device employs a one-piece lap and shoulder belt — the safety belt retractor locks instantly during severe deceleration of

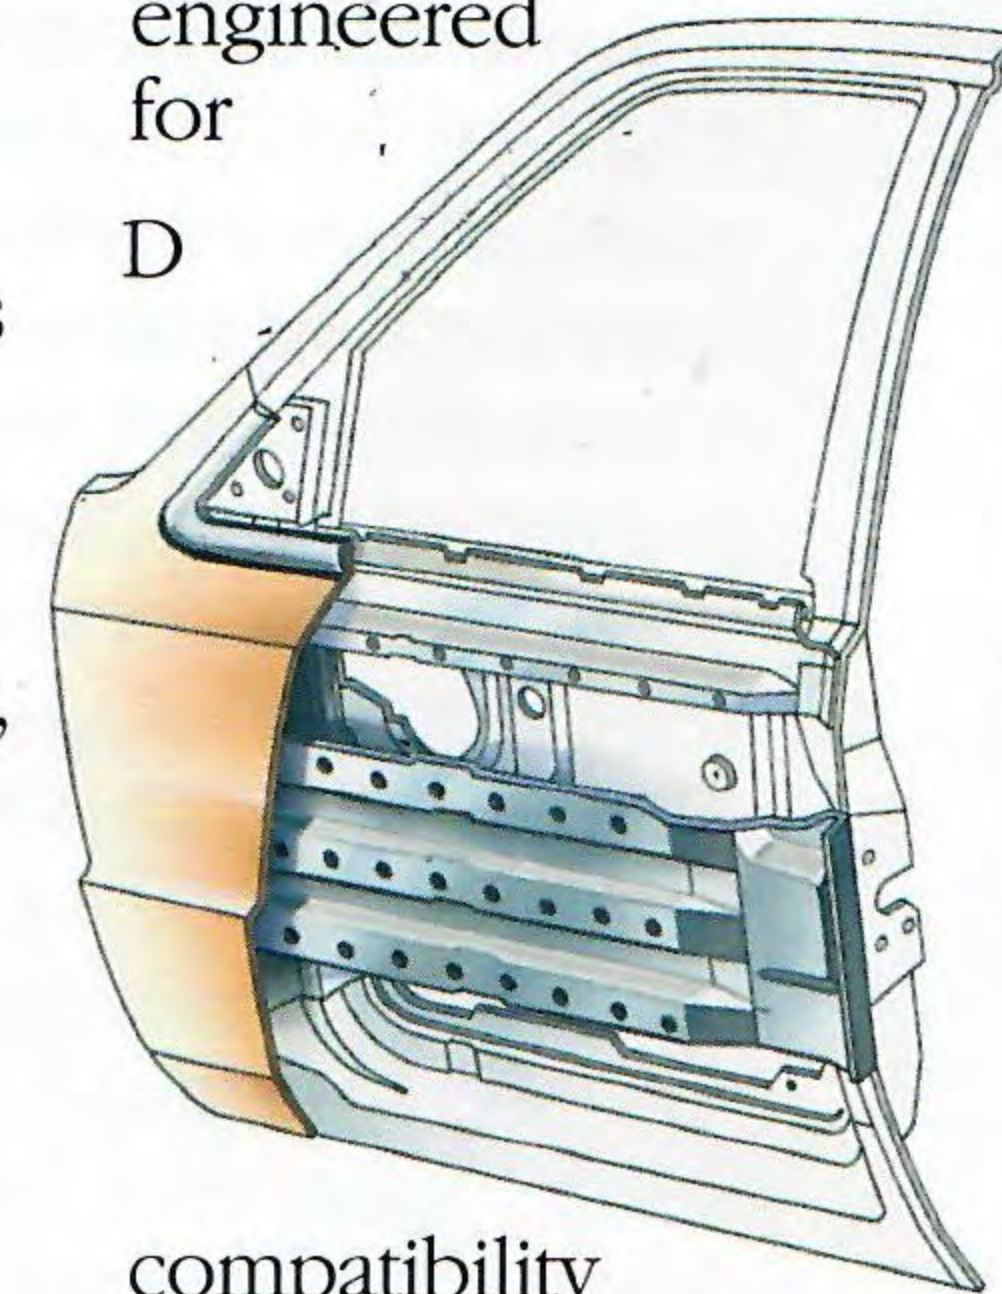

A

Simulated air bag deployment shown.

the vehicle or in a collision.

Chrysler dealer-installed cellular phone systems deliver convenient communication and are engineered for

D

compatibility with your LeBaron. Lightweight and compact, the versatile Portable Cellular Phone\* measures less than seven inches long and weighs in at just a fraction more

B

than 13 ounces. It also includes a rechargeable battery and charging unit.

## Safety That's Out Of Sight

Helping to maintain steering ability during severe braking, Chrysler's available four-wheel antilock disc brake system (C) is tuned to the particular characteristics of each LeBaron model. Special wheel speed sensors detect impending lockup, then the system's microprocessor selectively adjusts braking pressure up to 15 times per second. If one front wheel begins

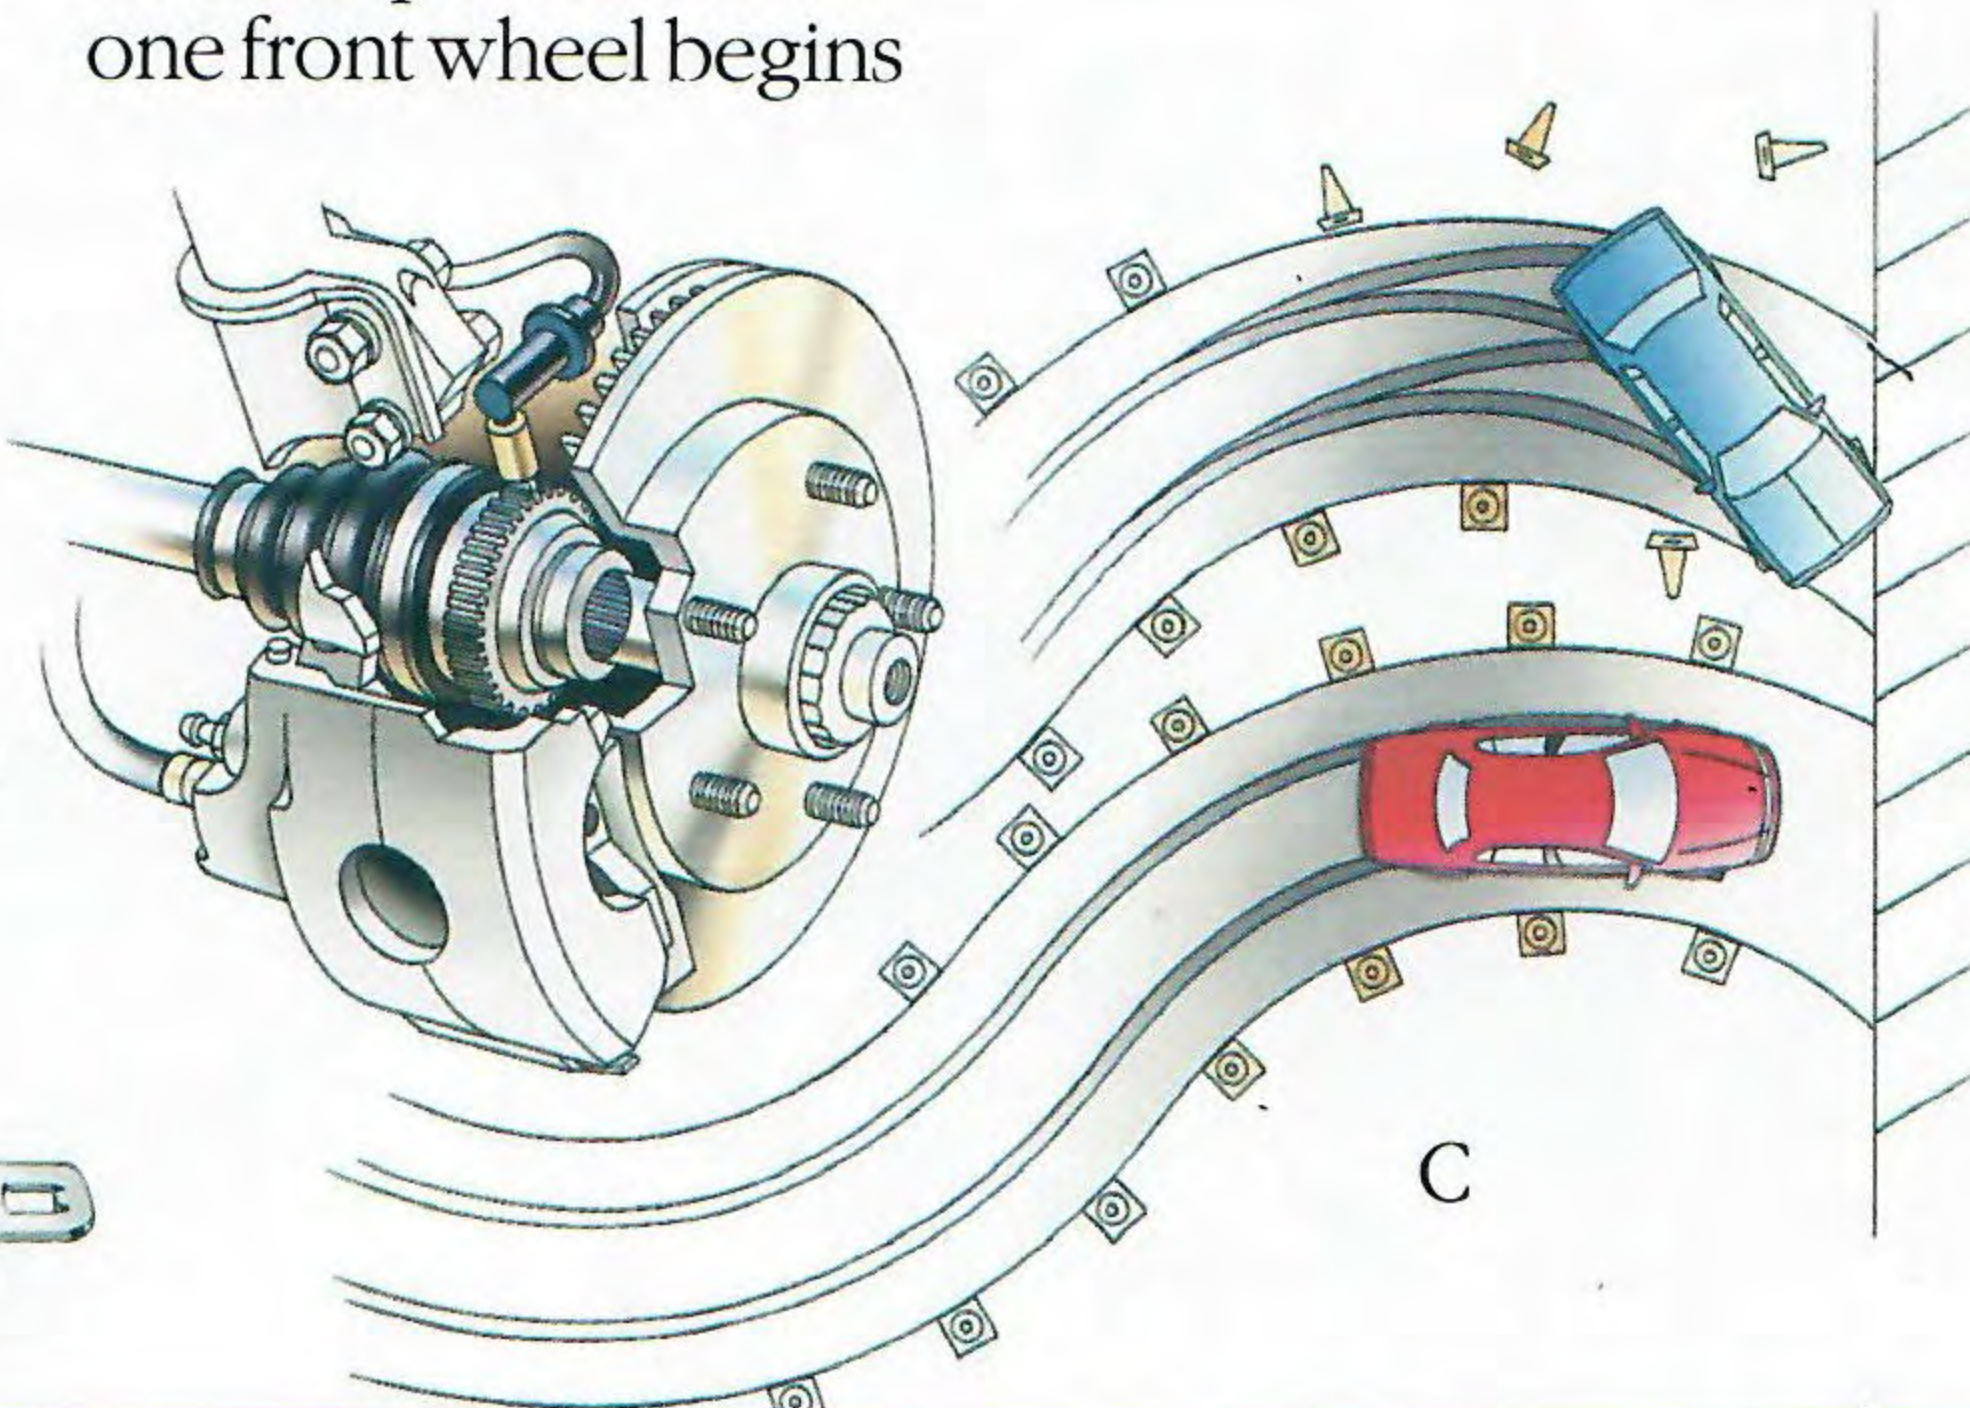

E

to lock, only pressure to that brake is reduced. If either rear wheel starts to lock, pressure to both rear brakes is reduced.

To better guard you in a lateral impact, every LeBaron is reinforced with steel side-door beams (D). And to better guard your LeBaron while you're away from it, an optional security alarm or Chrysler's dealer-installed Electronic Vehicle Security II (EVS II) system (E) are available. These state-of-the-art alarms have been engineered for passive (automatic) operation and include a status monitor, last-door arming, automatic re-arming, valet override and soft-tone audible arming indicator (EVS II only).

\*See page 29 for warranty details.

C

# Quality Assurance

All Chryslers are designed, engineered and assembled with a remarkable combination of computer technology, strenuous testing and skilled craftsmanship. The goal: make every Chrysler as solid and dependable as possible.

An "anaerobic" assembly process applies a thick head of epoxy/resin-based cement around the entire circumference of the inner door structure. Combined with welding, this process provides reduced noise, greater strength and improved rust resistance (A).

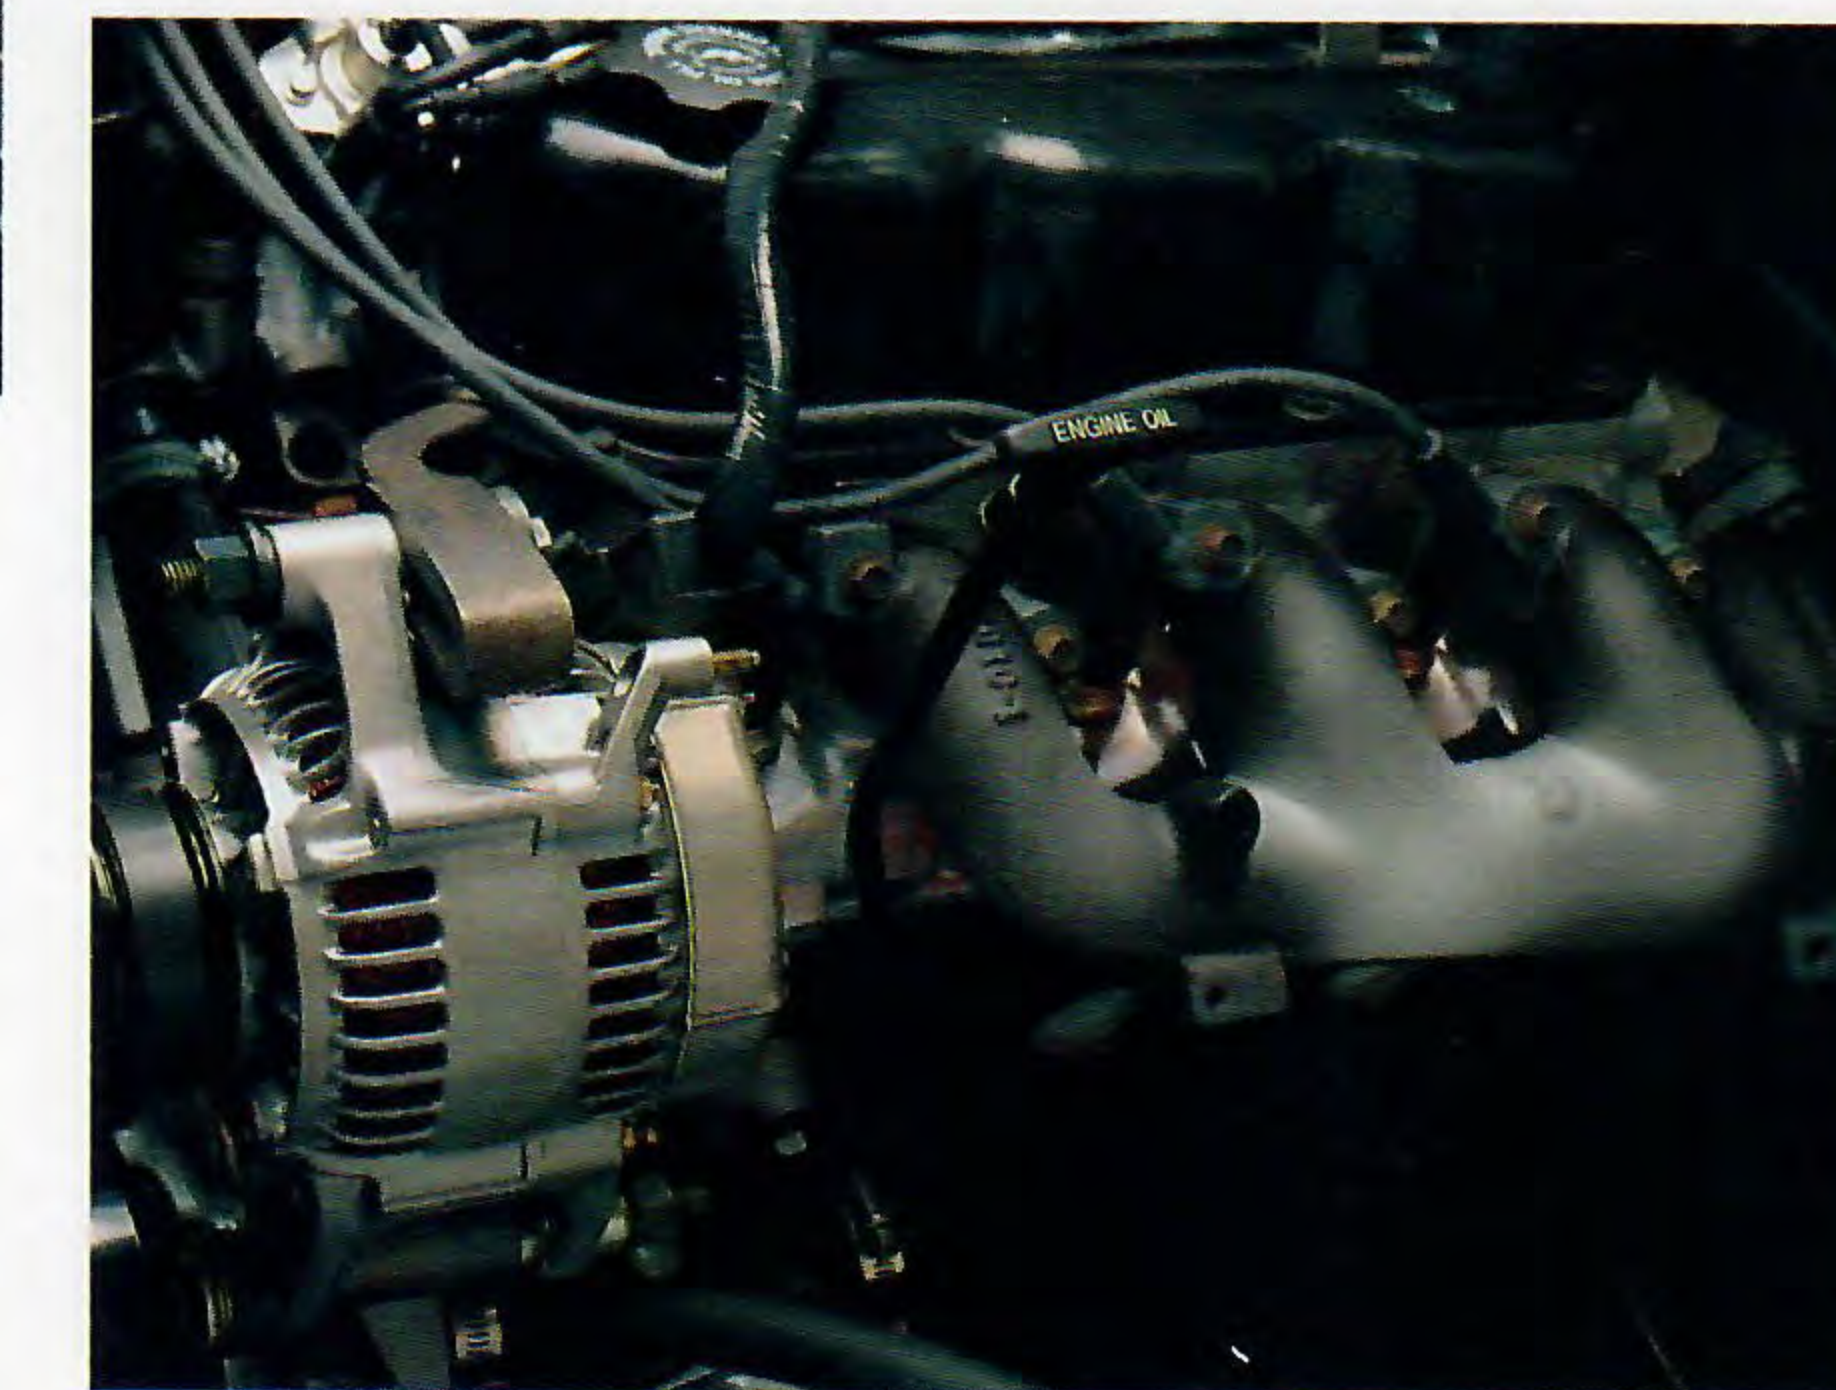

To help improve aerodynamic design for a quiet ride and increased operating efficiency, wind tunnel testing is performed.

Better protection of automobile occupants is the aim of Chrysler engi-

neers who utilize a three-dimensional computer model in efforts to help control occupant body movements during a collision (B).

A computer-operated Road Simulator creates a variety of street surfaces to determine the effect of various vibrations.

C

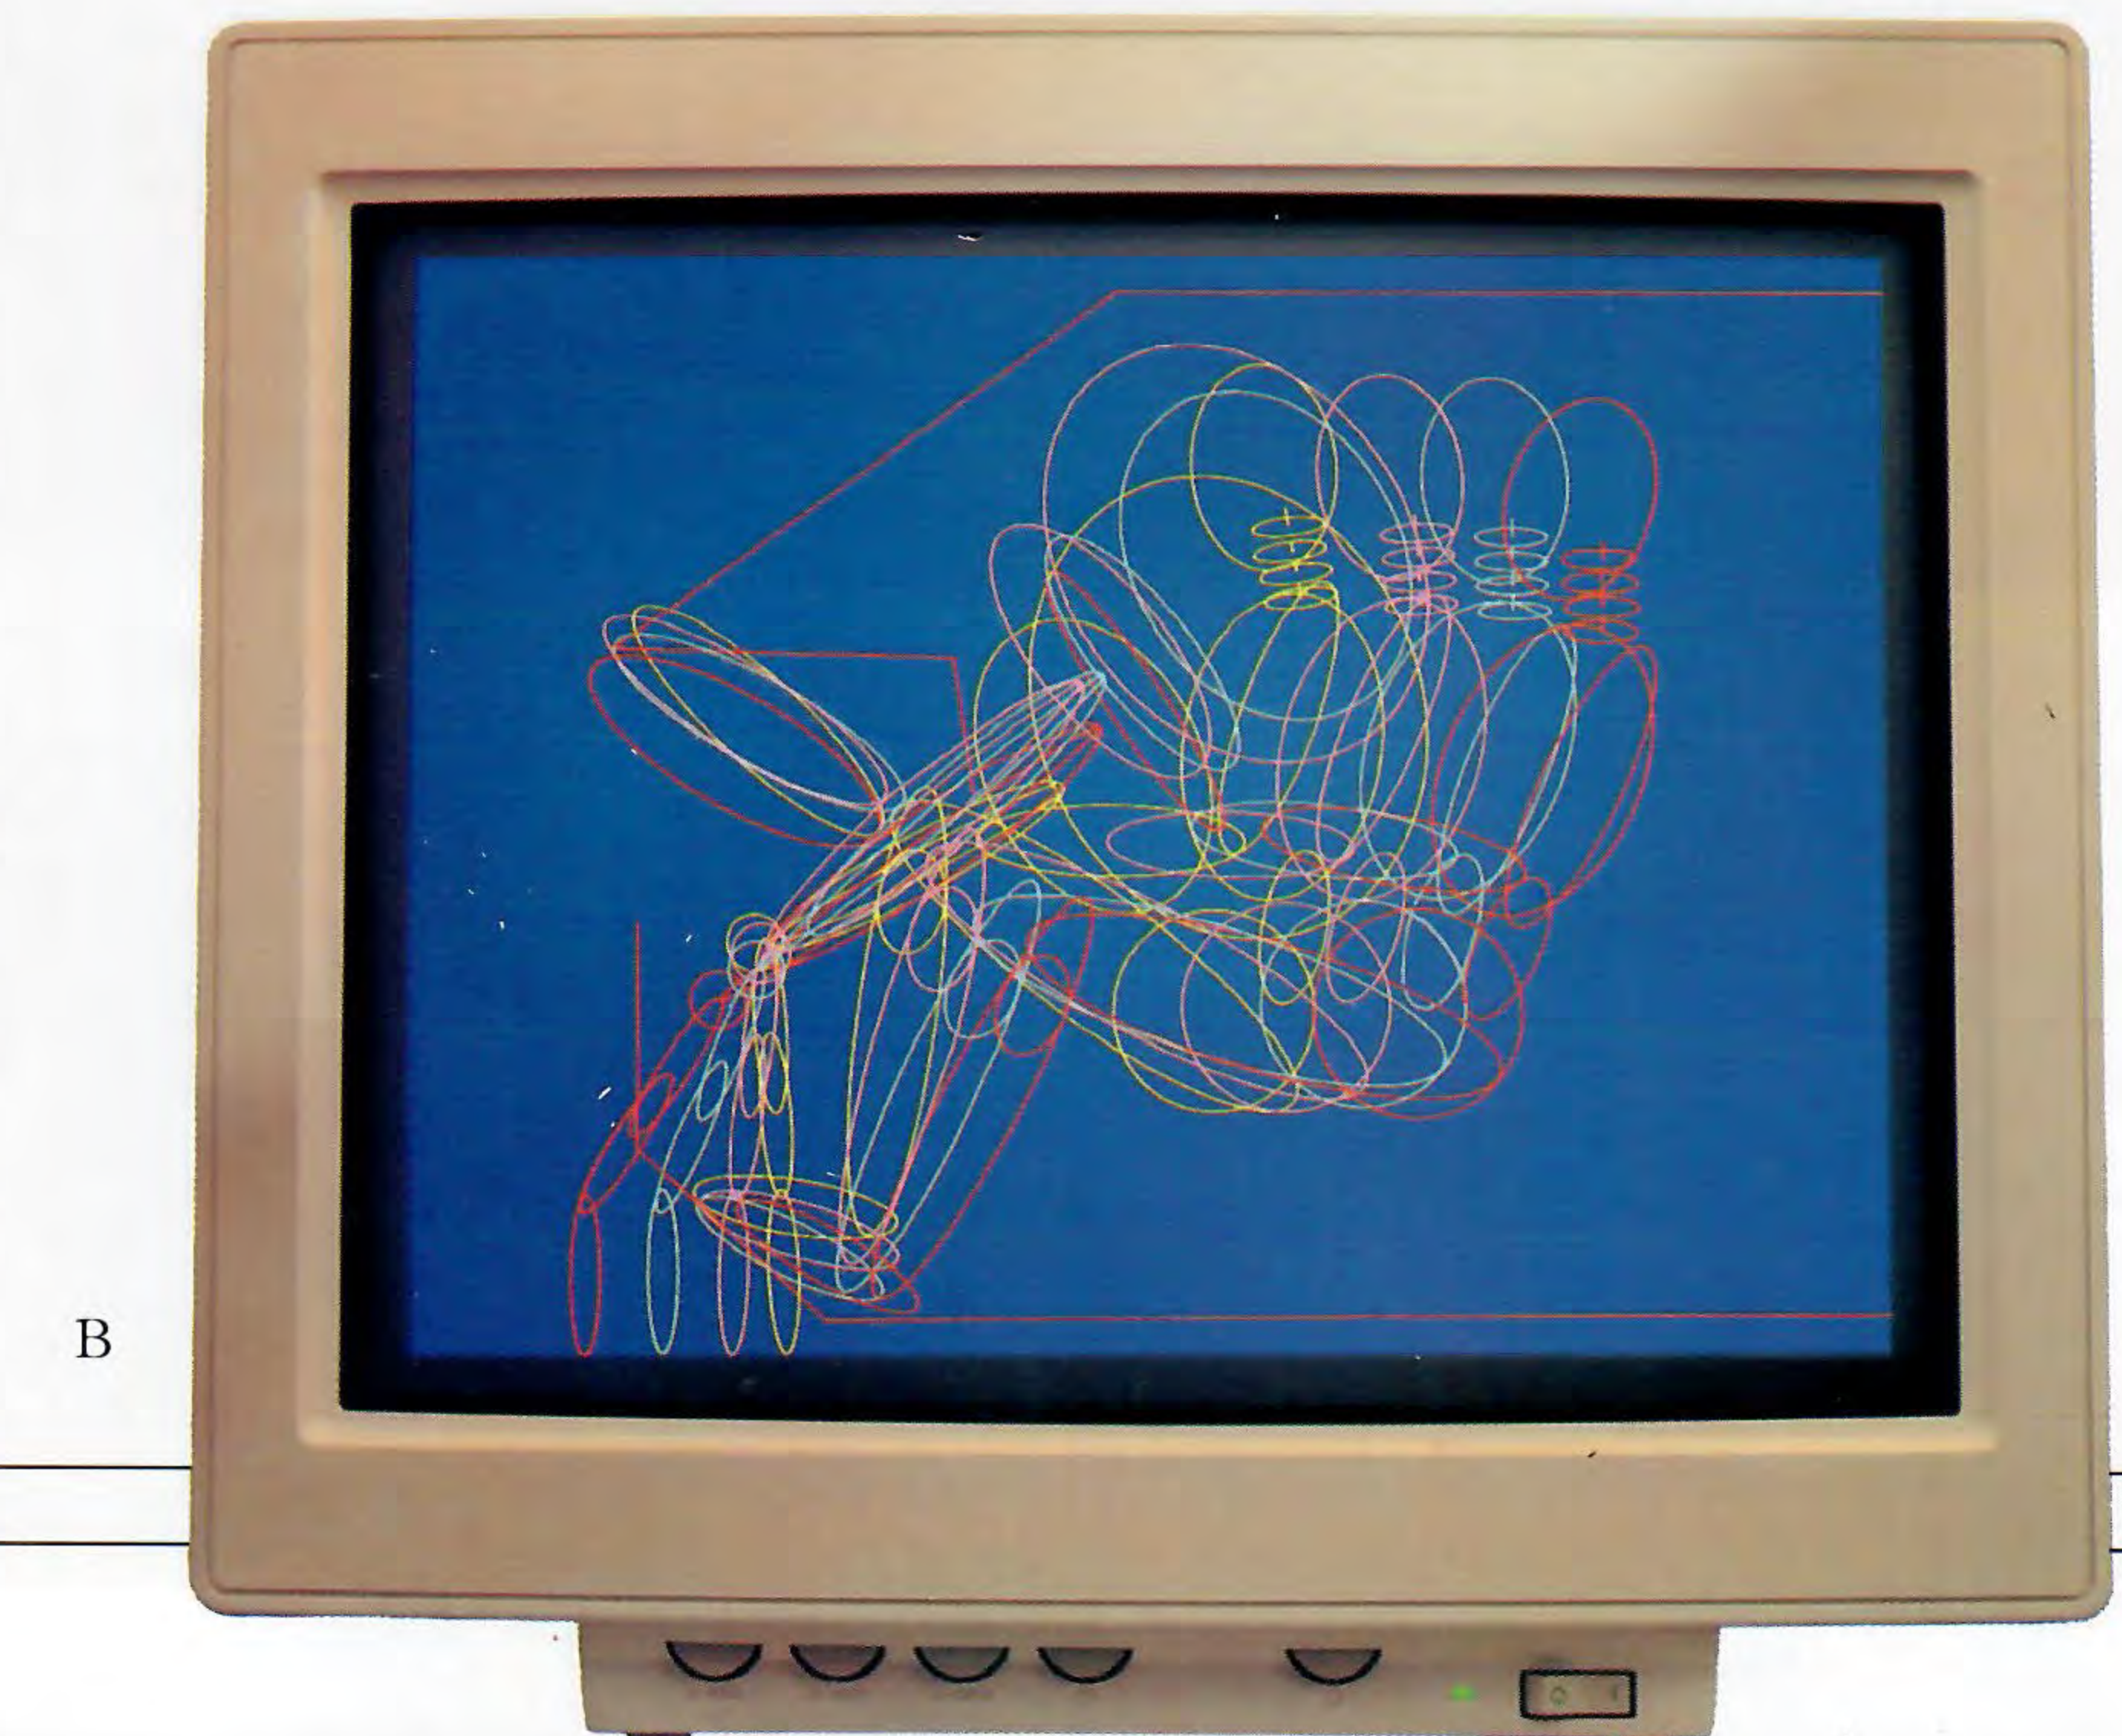

D

To learn more about structural reliability, every crash test is filmed with high-speed cameras for detailed analysis (C).

At the Chrysler test track, 50,000-mile power train endurance tests, which simulate very aggressive driving conditions, go on 24 hours a day.

For durability, test engines are run at 4,000 rpm for 800 hours in dynamometer booths (D).

B

# Leading-Edge Engineering

## LeBaron Engineering Highlights

The designed-in safety and quality, which you expect, and the

luxurious amenities, which you desire, are the responsibility of the people who engineer your car. Chrysler engineers work to achieve the best overall combination of components that make up every 1993 Chrysler LeBaron Convertible and Coupe. Because for nearly 70 years,

Chrysler Engineering has maintained a tradition of progressive automotive engineering excellence.

1. Supplemental driver-side air bag is located in a module at the center of the

steering wheel. The air bag is designed to activate when sensors detect a frontal impact of more than 12 mph.

2. Restyled grille and a new, flush-mounted headlight treatment create a refined aerodynamic appearance.

3. Powerful 3.0-liter V6 engine features sequential multipoint electronic fuel injection, which allows for a smooth, steady idle by injecting the fuel directly into each cylinder port at the exact time it is needed. This advanced V6 power plant is equipped with a tuned intake manifold and overhead camshafts to readily deliver 141 horsepower at 5,200 rpm and 171 lb-ft of torque at 2,400 rpm (see page 28 for details).

4. Front-wheel drive provides superb directional stability and all-weather traction, along with maximum interior roominess and space efficiency.

5. Performance handling suspension includes up-graded spring rates, gas-

charged front Iso-Struts and gas-charged rear shocks for precise handling and better adaptability over most road surfaces. For optimum cornering control and steering response, this sports-car-like suspension is also equipped with larger diameter front and rear antisway bars.

6. Close-ratio five-speed manual overdrive transaxle transmits power to produce quick acceleration response and feel. All forward gears are synchronized for precision-smooth, short-stroke shifting.

7. Four-wheel power-assisted antilock disc brake system is equipped with a microprocessor and speed sensors to prevent lockup during heavy braking, which helps prevent skidding and allows the driver to maintain steering control.

8. Heat-reflecting tinted glass windows reduce glare and help improve interior temperature control.

9. C<sup>2</sup>D<sup>®</sup> multiplex electrical system is a sophisticated communication network of microcomputers at the forefront of automotive technology. Utilizing just two wires, this patented Chrysler system allows the various electronic micro-computer modules on the vehicle to "talk" to each other. The coordinated decisions that result help ensure occupant safety, comfort and convenience, and also improve efficiency, enhance performance and reduce emissions.

10. Sixteen-inch color-keyed cast aluminum road wheels are lightweight, corrosion-resistant and matched with P205/55R16 steel-belted radial all-season performance tires. (Sets of four.)

11. Galvanized steel, anti-chip protective coatings, zinc-rich primers and electroplated paints offer superior resistance to corrosion. Two applications of special Clear Coat finish produce a high-gloss lustre and protect against abrasion, weathering and chemicals. And every LeBaron is backed with Chrysler's innovative Owner's Choice Protection Plan (see page 29 for details).

12. Unibody construction creates solid-strength passenger compartment safety and vehicular structural integrity—body sheet metal and frame members are welded into one sturdy unit.

13. Sound-deadeners, baffles, isolators, seals, silencers and extensive amounts of acoustic cavity

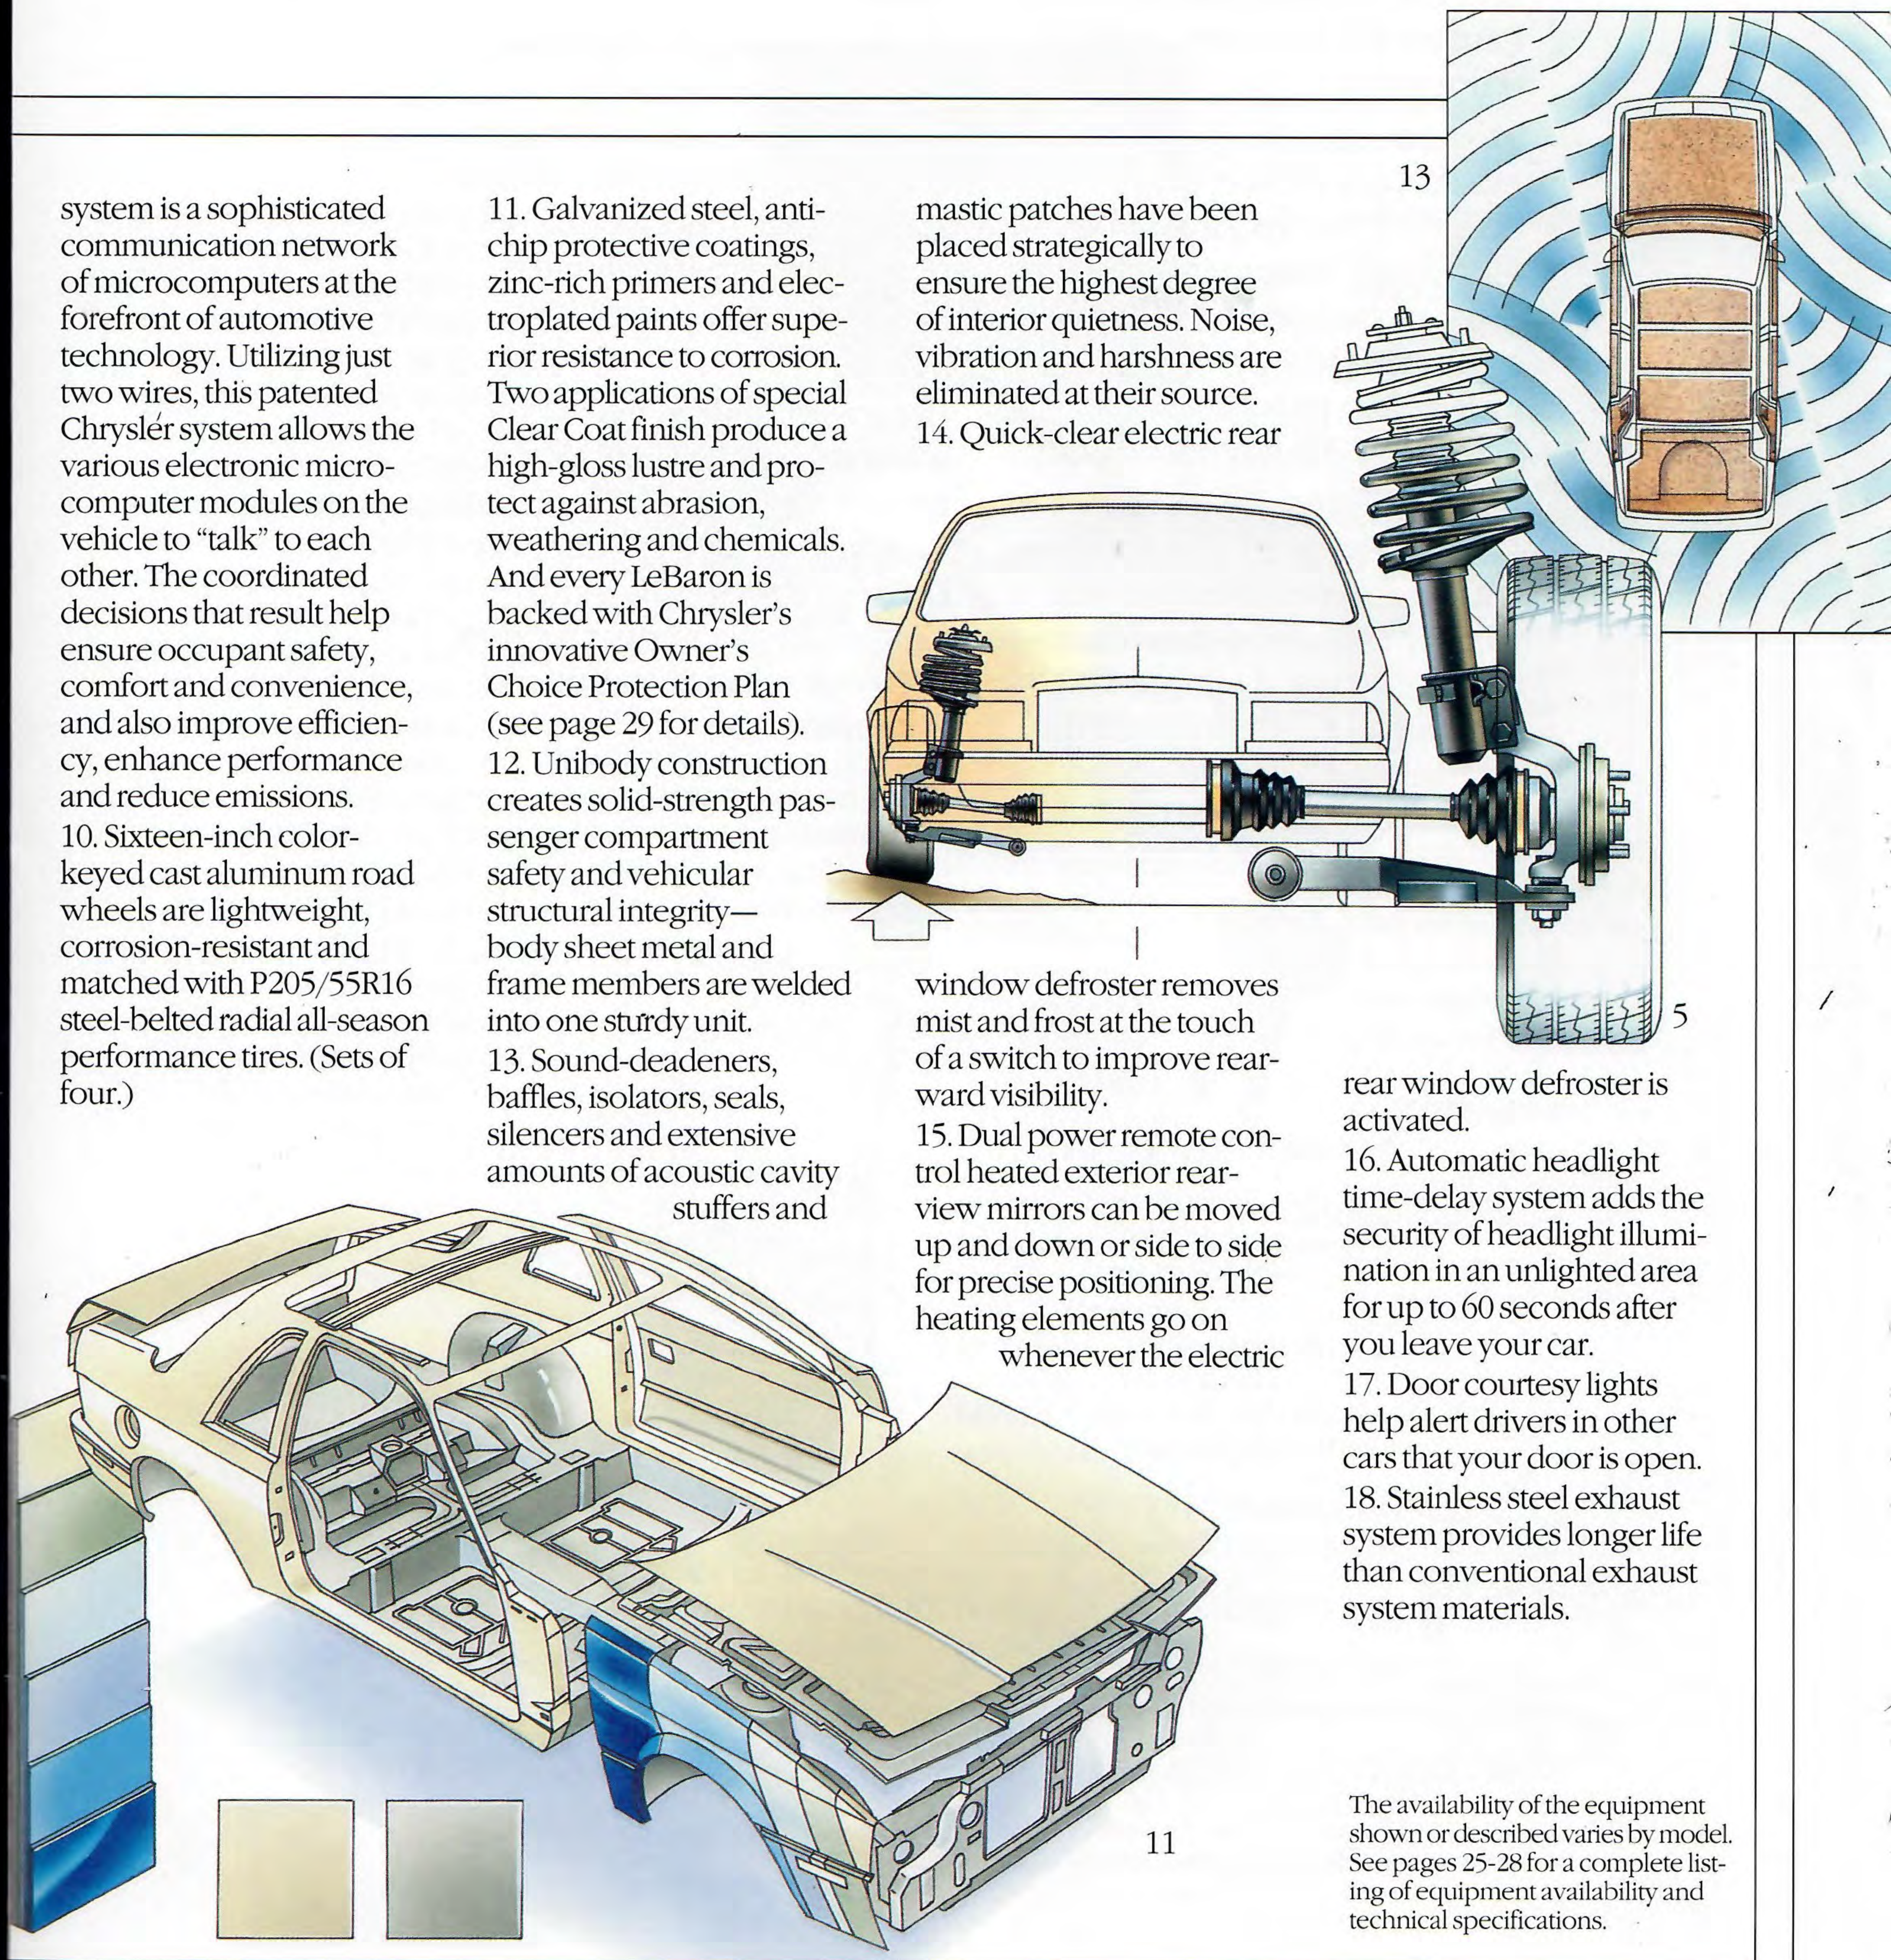

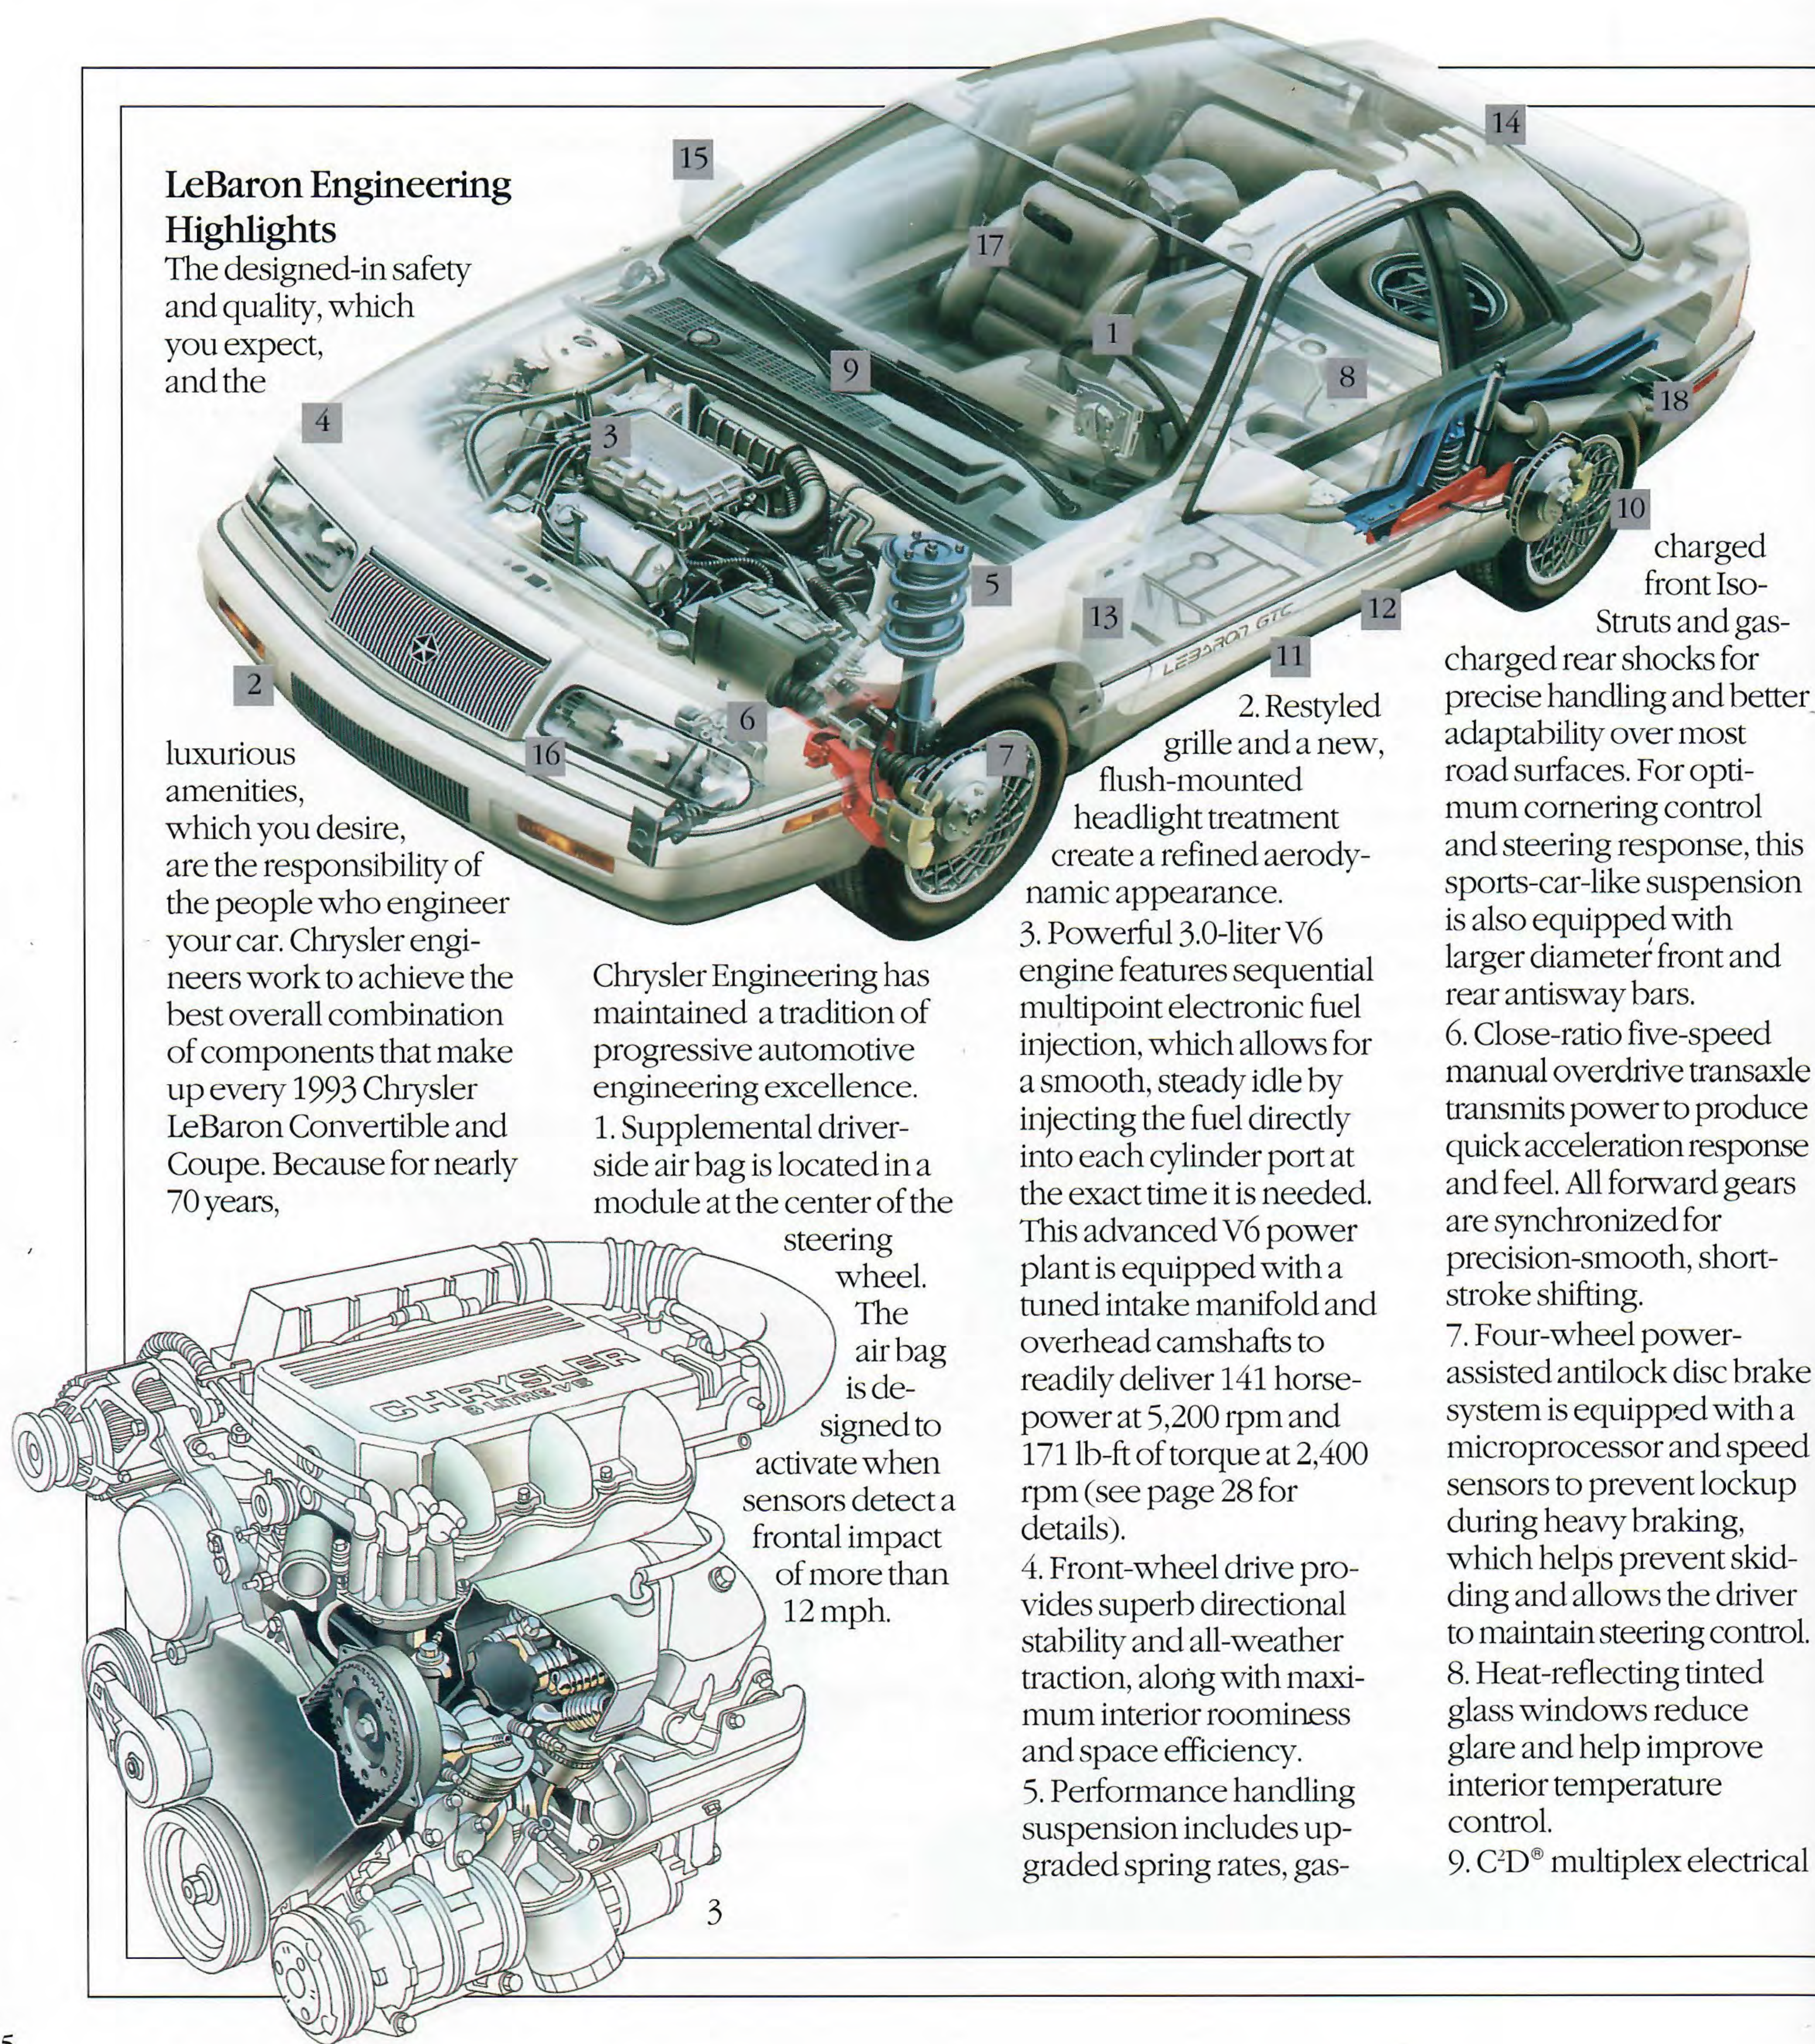

stuffers and window defroster removes mist and frost at the touch of a switch to improve rearward visibility.

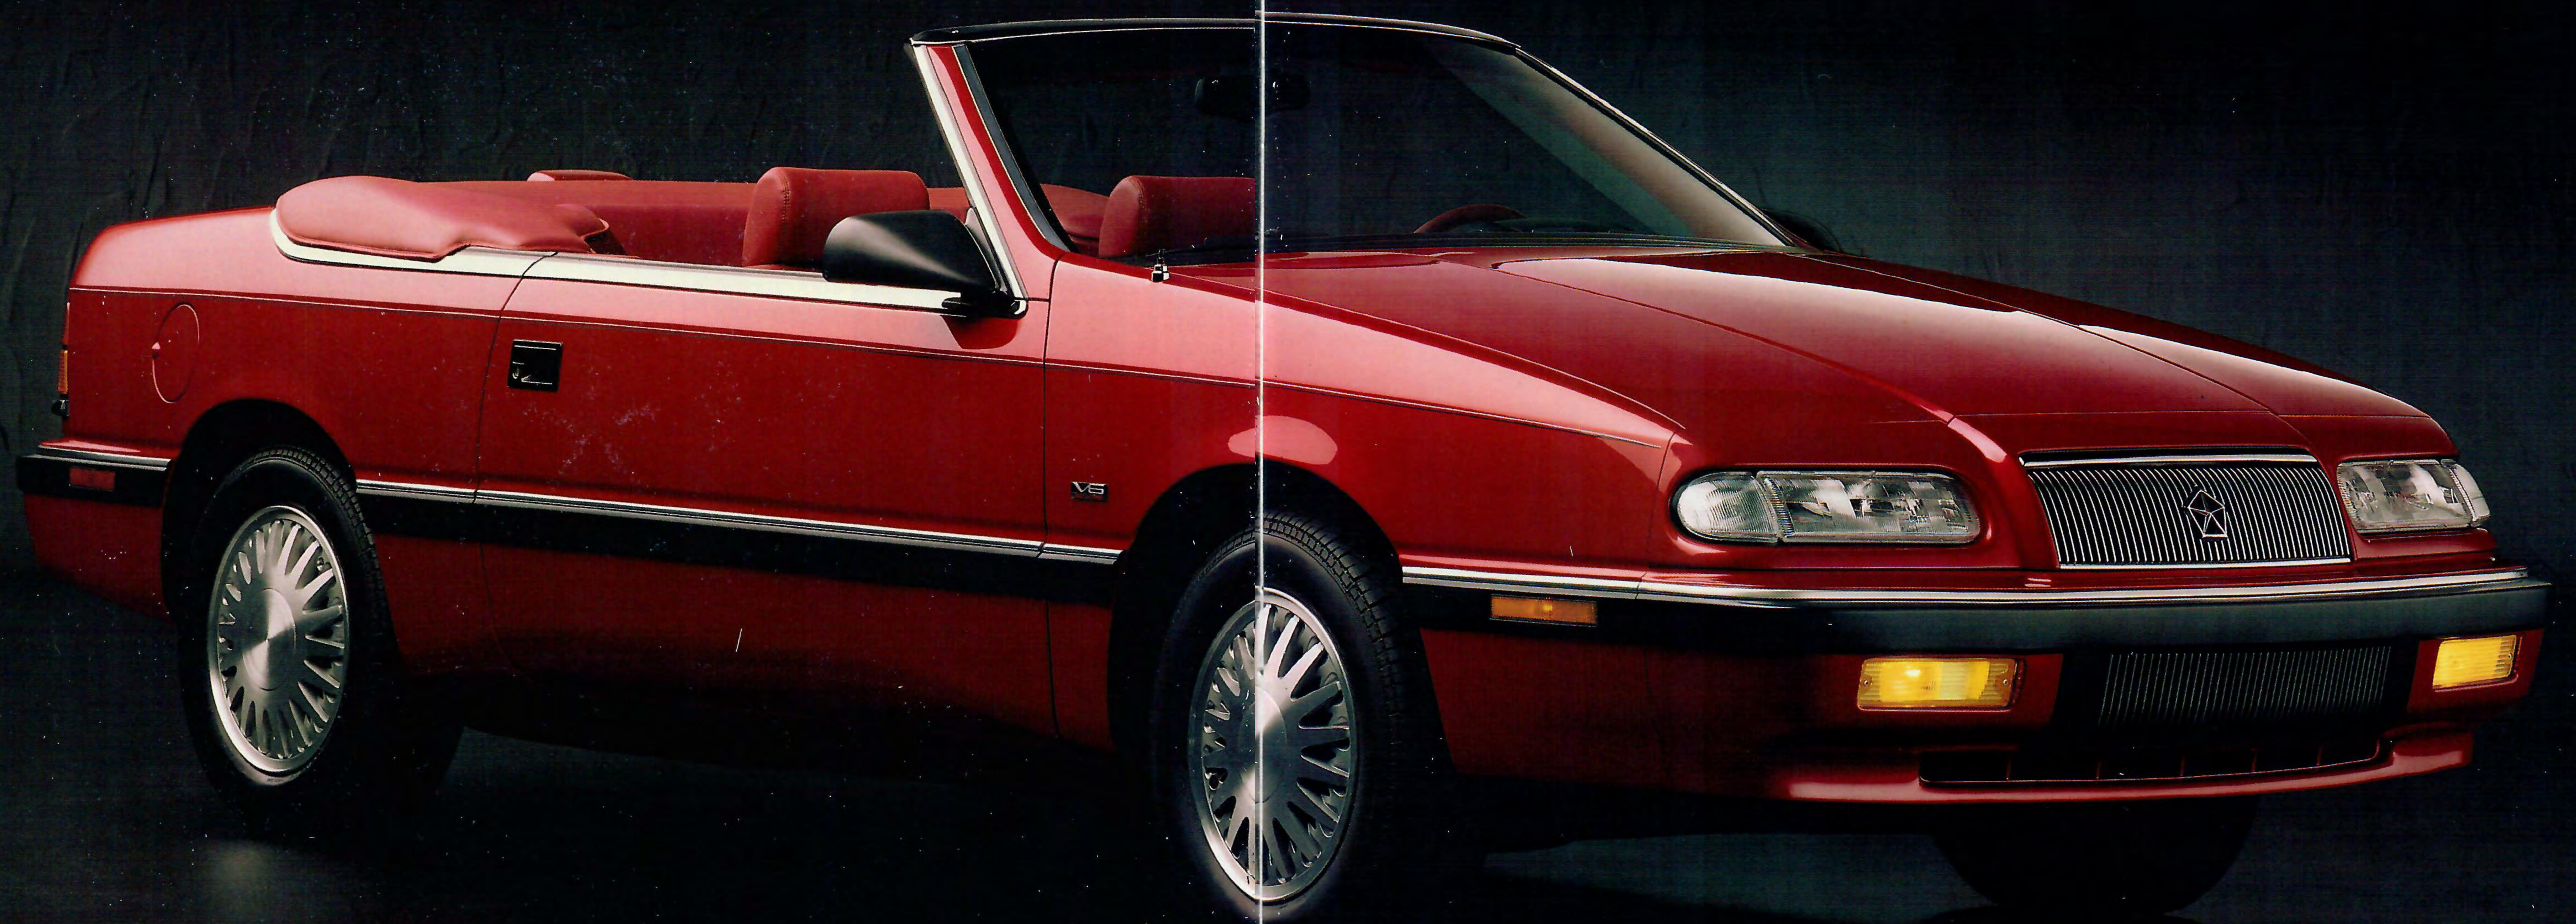

14. Quick-clear electric rear window defroster is activated.

15. Dual power remote control heated exterior rear-view mirrors can be moved up and down or side to side for precise positioning. The heating elements go on whenever the electric

rear window defroster is activated. 16. Automatic headlight time-delay system adds the security of headlight illumination in an unlighted area for up to 60 seconds after you leave your car. 17. Door courtesy lights help alert drivers in other cars that your door is open. 18. Stainless steel exhaust system provides longer life than conventional exhaust system materials.

The availability of the equipment shown or described varies by model. See pages 25-28 for a complete listing of equipment availability and technical specifications.

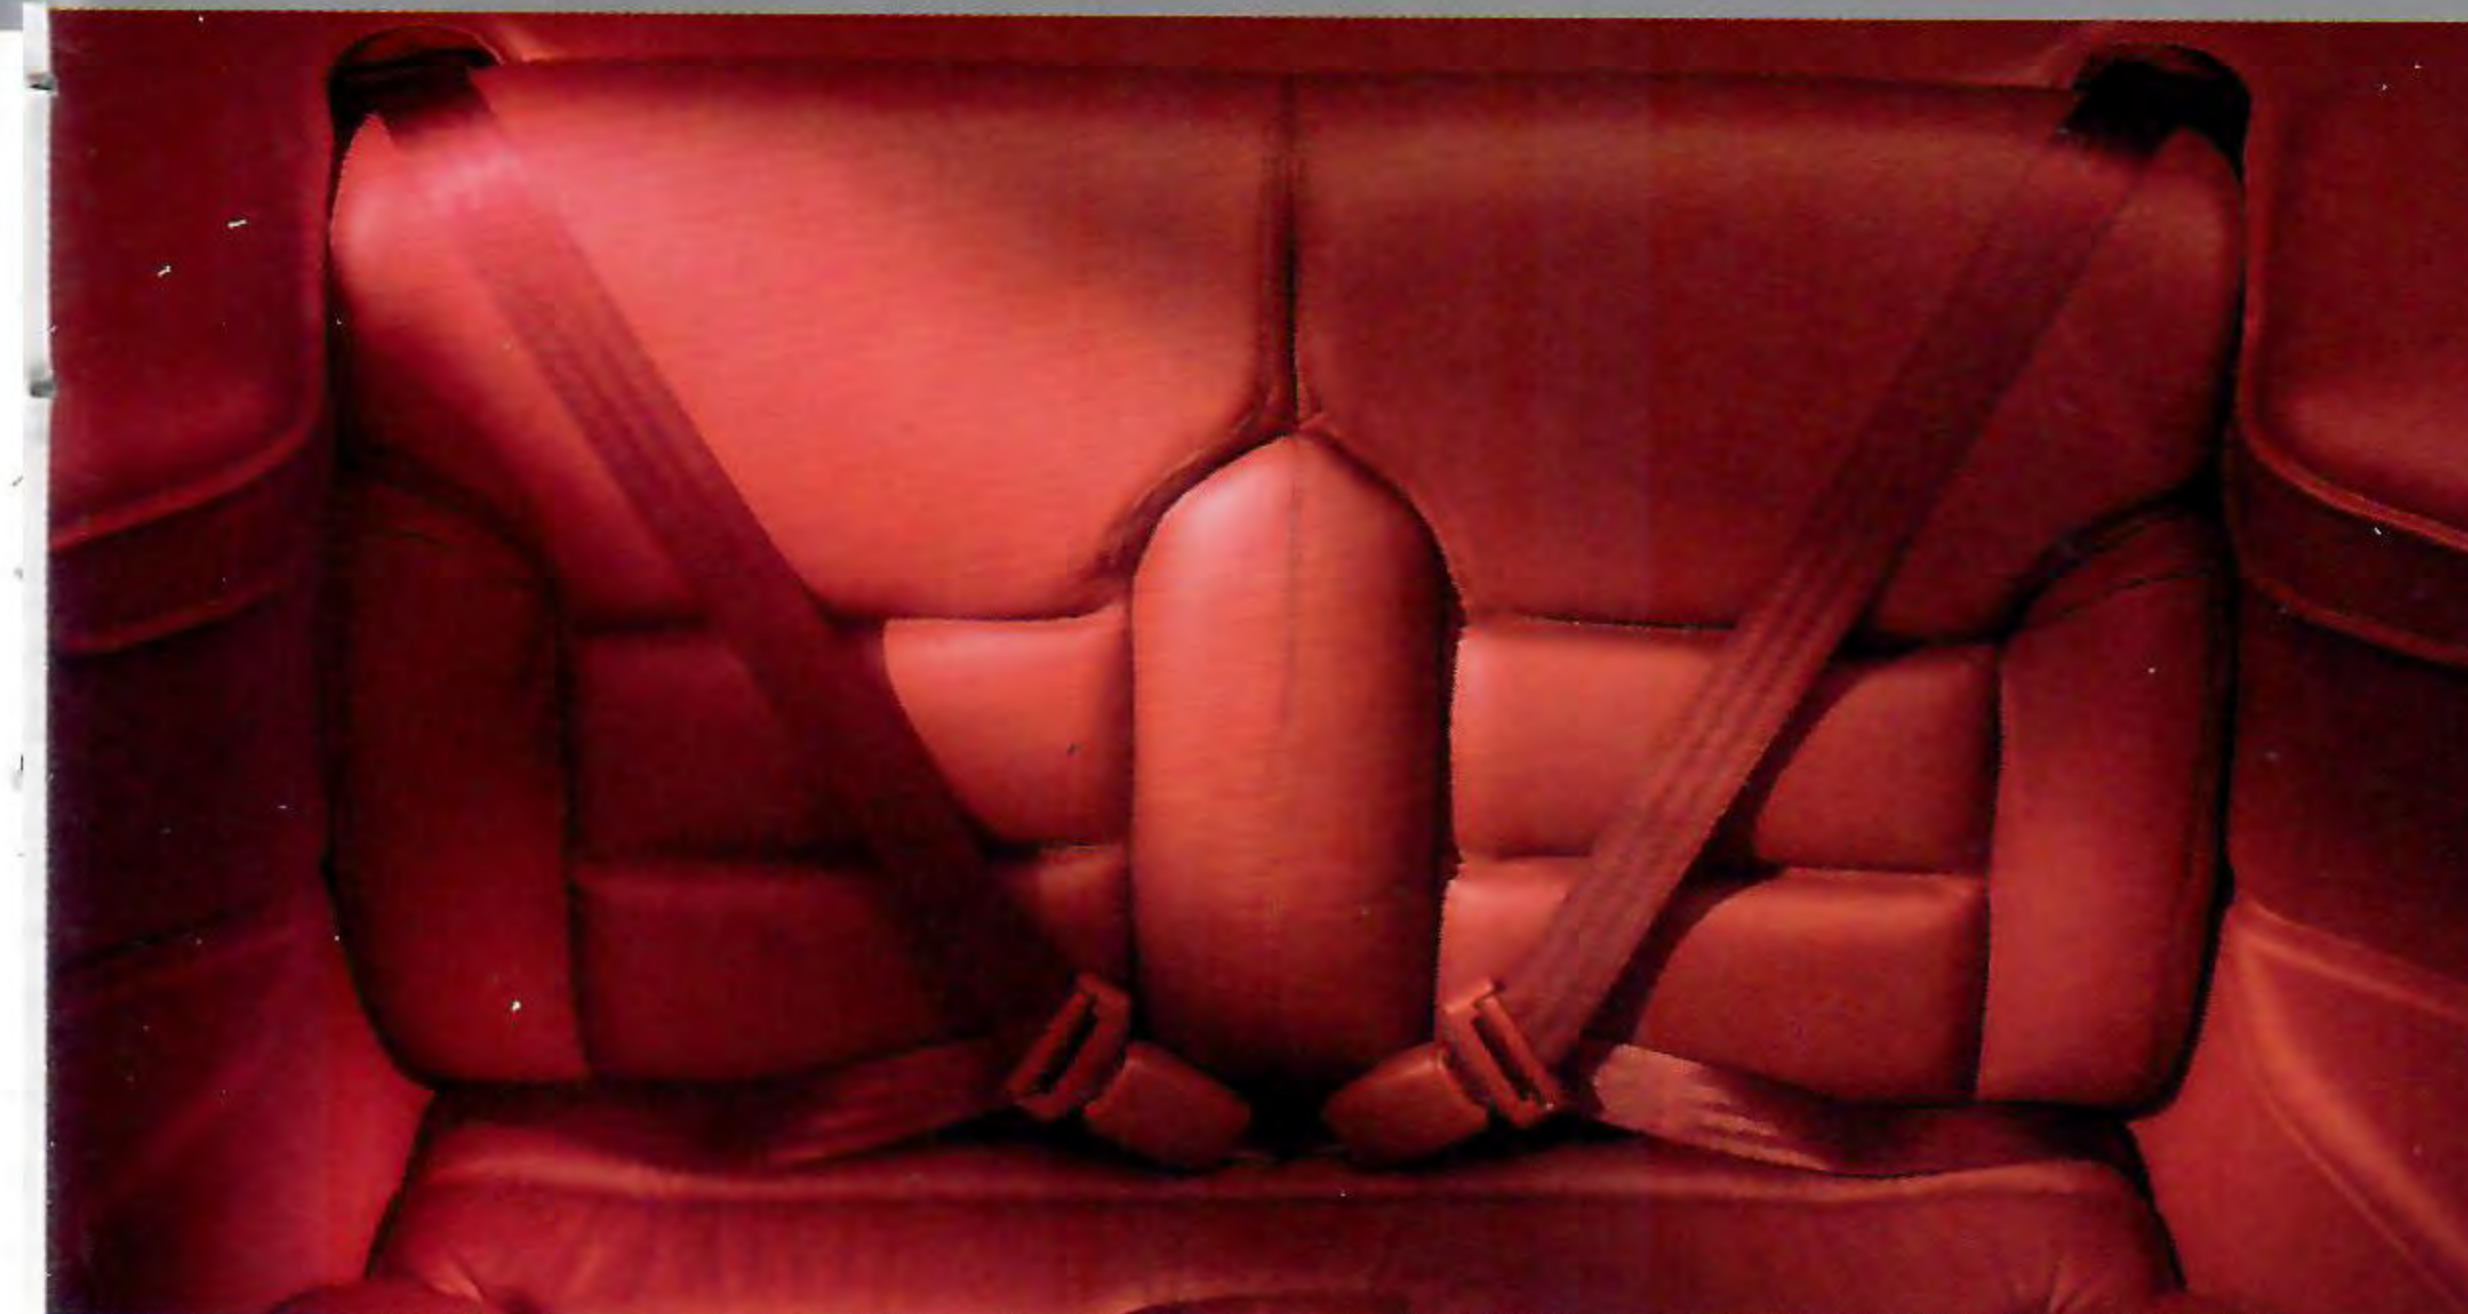

## LeBaron LX Convertible

Fresh air and a fresh look await you in the luxurious LeBaron. A new grille and new flush-mounted halogen headlights improve aerodynamic appearance. Not only is LeBaron Convertible's front end smoother and sleeker, but also

its structural integrity is retained to ensure smooth and serene travel — top up or top down. Unlike competitive makes that are merely production coupes with chopped-off hard tops, Chrysler LeBarons are the only American-built convertibles in

Rear seat Unibelt restraints

their class *designed, engineered and manufactured to be convertibles from the ground up*. It's a solid reason why Chrysler Corporation has sold more convertibles than any other company in the world during the past decade.

Leather-faced seating

## LeBaron LX Convertible

Retract the power top in seconds at the simple push of a button and let the world see what you *aren't* missing. LX's roomy interior is finely finished with the long-lasting luxury of leather seat facings; its body-contoured Enthusiast

driver's seat has 12-way power adjustments; the leather-wrapped steering wheel houses an air bag; and the power-on-demand V6 engine\* is connected to a computer-controlled four-speed automatic overdrive

Full-length, full-function center console

transaxle. Notable standard amenities also include air conditioning, electronic speed control, an AM/FM stereo radio with cassette, power windows, speed-actuated power door locks and heated power exterior mirrors.

\*See page 28 for details.

## LeBaron GTC Convertible

Take command of the road in LeBaron GTC — with its monochromatic appearance, you'll command attention even when standing still. Color-keyed exterior fineries include new 15-inch cast aluminum road wheels, wide bodyside

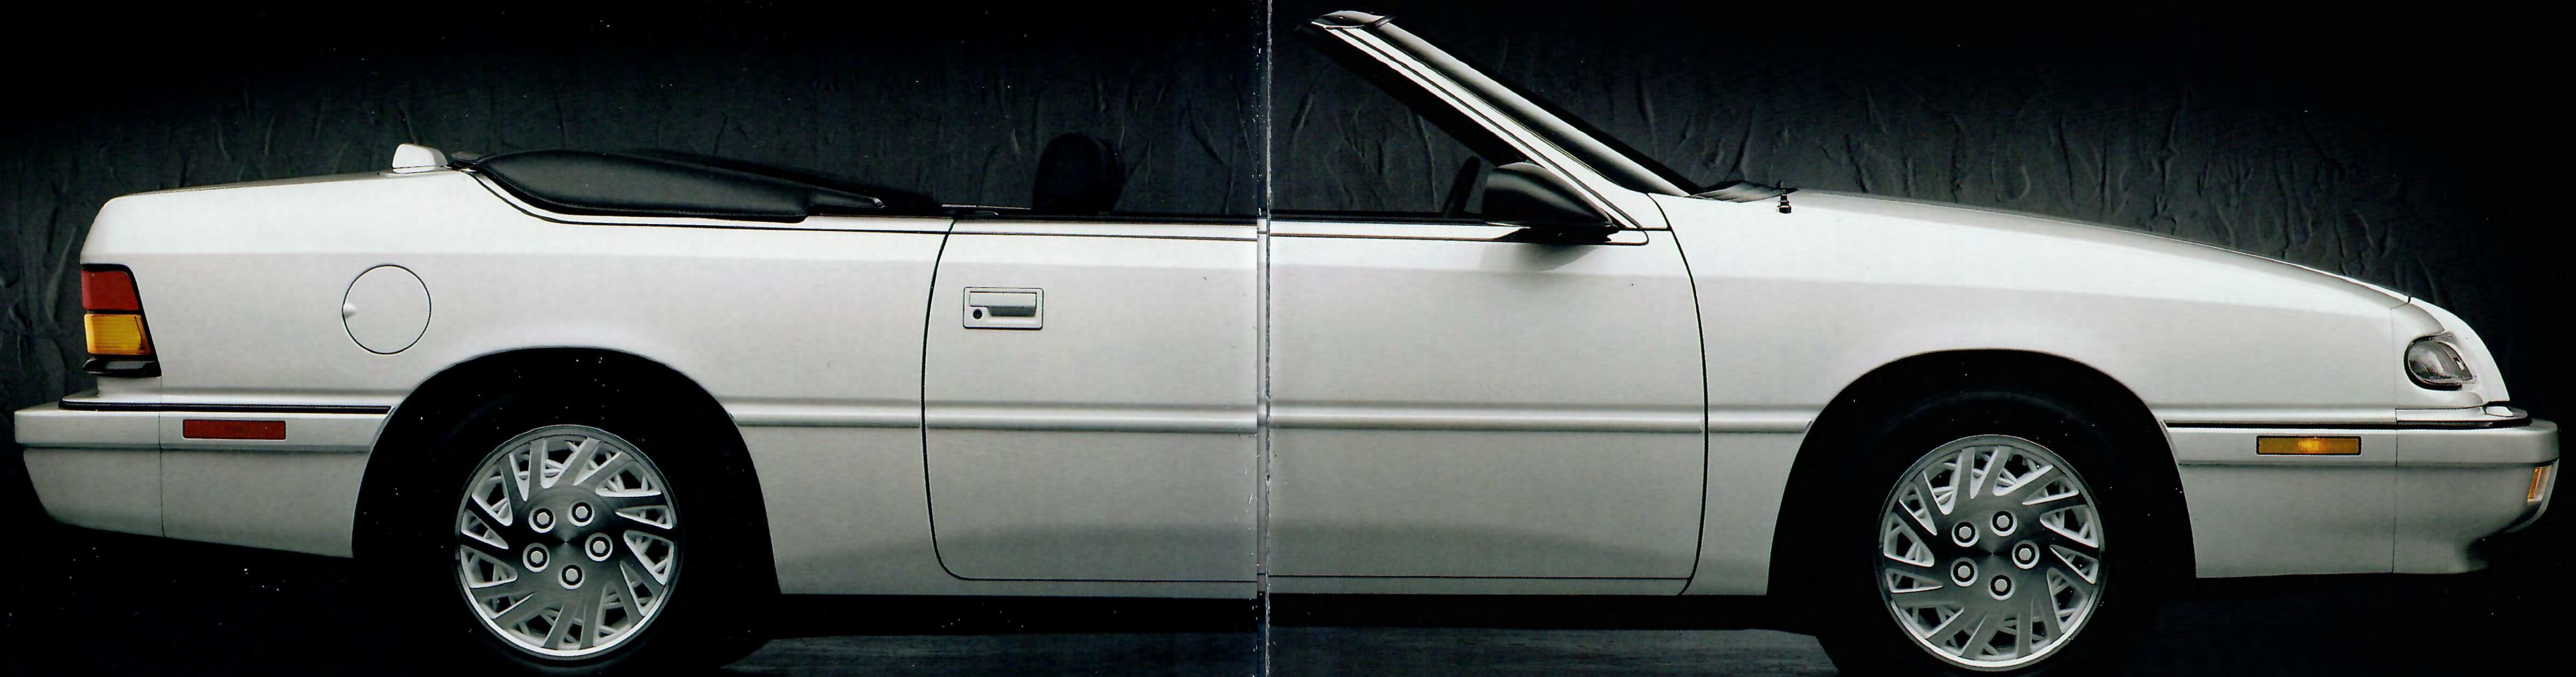

moldings, a new grille and dual heated power remote control mirrors. Sporting sequential multipoint electronic fuel injection and overhead camshafts, GTC's highly responsive 141-horsepower 3.0-liter V6 engine\* is coupled to a close-ratio

New monochromatic grille and new aero headlights

five-speed manual overdrive transaxle for maximum exhilaration. For peak performance, the sport handling suspension caresses winding highways, negotiates tight corners and maintains straight-line stability *masterfully*.

\*See page 28 for details.

Available Sport Package

## LeBaron Highline Convertible

What price freedom? Highline offers you open-air independence at a lower cost than much of the competition. LeBaron's proven quality — Chrysler engineers were among the pioneers of America's first convertibles in 1927 — and

beautiful styling have won the hearts of drivers nationwide. In fact, of the 1,000,000+ convertibles sold across North America since 1982, *over 25 percent have been Chrysler Corporation vehicles.* A fully lined, watertight power top

Available Sport Package

with a scratch-resistant glass rear window is standard. And Highline's visual value can be enhanced with an eye-catching *Sport Package* option that includes new 15-inch wheel covers and a host of color-keyed exterior accents.

## LeBaron LX Coupe

LX stands for *luxury*. The inviting premium cloth front bucket seats provide ample support and the leather-wrapped steering wheel ensures a secure grip. Air conditioning, power windows, speed-sensitive power door locks, electronic

speed control, heated power exterior mirrors and a folding rear seatback are but a few exceptional LX advantages. And this year, LeBaron's front end has been refashioned for slicker style. Beneath the low, sloping hood resides the

Premium cloth interior

power of a 3.0-liter V6 engine.\* It functions smoothly and quietly in tandem with a computer-controlled four-speed automatic transaxle that constantly monitors driving conditions. LeBaron does the work, *while you have the fun.*

\*See page 28 for details.

## LeBaron GTC Coupe

Engineered to handle ideally under any condition and designed to please the eye from any angle, LeBaron GTC is a proven winner on both counts. Its dynamic V6 power plant\* is raring to go and the short-throw five-speed manual

shifter puts you in definite control. An available *Performance Suspension Package* includes upgraded struts and shocks, larger diameter antisway bars and 16-inch cast aluminum road wheels for crisp and sure

Ergonomically designed cockpit

cornering. Sophisticated styling cues, such as a new color-keyed grille and bodyside graphics, enhance the alluring monochromatic finish. And the progressive Eurostyle interior is a fitting complement to GTC's dashing athletic prowess.

\*See page 28 for details.

## LeBaron GTC Coupe

*Ergonomics* is the driving force behind the layout of LeBaron's wraparound instrument panel — all surfaces and components have been integrated logically for a true driver-oriented environment. The control module's rounded curves

parallel the leather-wrapped steering wheel's arc, clearing the way for a full set of analog electromechanical gauges that feature bright red indicators and guarantee accurate reads. Switches, buttons and knobs are user-friendly and impart a

60/40 split fold-down rear seatback

precision feel. Even the sweeping center console is angled toward you for effortless access. Behind you, either portion of LeBaron GTC's 60/40 split rear seatback can be folded forward. And both sections are lockable to prevent unauthorized entry.

Available Sport Package

## LeBaron Highline Coupe

With the head-turning advantages of LeBaron Highline's available *Sport Package*, you can project your image smartly — with money to spare. Along with body-colored front and rear fascias and narrow body-side moldings, this outstanding

value package includes unique wheel covers teamed with road touring 15-inch all-season steel-belted radials. Inside, low-back front bucket seats bolster your driving confidence and the full-featured AM/FM stereo radio transmits crystal-clear music

New taillight treatment

and news. Ensuring smooth starts and efficient passing power, the spirited 2.5-liter overhead cam engine utilizes counterrotating balance shafts and high-pressure electronic fuel delivery. That's technical jargon for *precision*.

# Features And Options

**A. Infinity® RS Audio System.** Experience the concert-hall realism of 10-speaker, laser-clear sound. Along with an integral compact disc player, this scientific audio system includes a seek-and-scan AM stereo\*/FM stereo radio, five-band graphic equalizer and centralized 120-watt amplifier.

## B. Wheels and Wheel Covers (sets of four).

1. New 14-inch Luxury wheel cover, 2. new 14-inch cast aluminum road wheel, 3. new 15-inch Triad wheel cover, 4. 15-inch Luxury wheel cover, 5. new 15-inch color-keyed cast aluminum road wheel, 6. 15-inch cast aluminum road wheel, 7. 16-inch color-keyed cast aluminum road wheel. Availability varies with model. See pages 26-27 for details.

\*Some AM stereo broadcasting may not be compatible with this radio.

## Mopar® Genuine Accessories

Here is a partial list of the more popular Mopar accessories available for Chrysler LeBarons. See your dealer for a complete list and availability by model.

- Electronic Vehicle Security II/Keyless Entry
- Compact Disc Player
- Compact Disc Changer
- Deck Lid Luggage Rack

- Day/night rearview mirror adjustment • Dual diagonal braking system with separate brake fluid reservoirs in the master cylinder • Dual throttle return springs • Electric windshield washers/wipers with intermittent wipe feature • Energy-absorbing front and rear bumper system
- Energy-absorbing front seatbacks • Energy-absorbing instrument panel • Energy-absorbing steering column
- Fade-resistant ventilated power-assisted front disc brakes
- Fasten seat belt reminder • Front brake lining wear detectors • Glare reduction measures for instrument panel, steering wheel and windshield wipers • Hazard warning flasher system • Headlight and wiper circuit breakers with automatic reset • Impact-actuated fuel supply shutdown relay • Inside and outside rearview mirrors
- Inside hood release • Interlocking door latches
- Key-left-in-ignition warning • Recessed inside door release handles • Reinforced windshield header and roof (not applicable to LeBaron Convertible models) • Safety-Rim wheels • Shatter-resistant glass • Side door beams
- Side marker lights and reflectors • Turn signals with lane-change feature

## THE OWNER'S CHOICE PROTECTION PLAN

Now you have a choice of protection plans to suit your needs. When you purchase a new 1993 Chrysler LeBaron, you can choose either of the two limited warranty plans described below.

### 3/36 Bumper-to-Bumper Limited Warranty

The three-year or 36,000-mile Basic Bumper-to-Bumper Limited Warranty covers the entire vehicle including power train (excludes adjustments, tires, normal wear items and maintenance). No deductible applies. Restrictions apply. See your dealer for a copy of this limited warranty.

OR

### 7/70 Power Train Limited Warranty

Upon expiration of the 12-month or 12,000-mile Basic Limited Warranty, coverage is extended on power train components to seven years or 70,000 miles. No deductible applies. Restrictions apply. See your dealer for a copy of these limited warranties.

### 7/100,000 Anticorrosion Limited Warranty

In addition, all Chrysler Corporation vehicles are covered by the 7/100,000 Outer Panel Anticorrosion Limited Warranty. Your dealer will repair or replace at no charge outer body sheet metal panels found to have developed perforation (rust-through) in normal use up to seven years or 100,000 miles. No deductible applies. See your dealer for a copy of the warranty.

We sell satisfaction.

## CHRYSLER SERVICE CONTRACTS

Additional peace-of-mind protection for vehicle owners is available through optional Chrysler Service Contracts. These services are available in a variety of time and mileage combinations to meet your particular driving needs.

## CHRYSLER CREDIT FINANCING

Chrysler Credit offers a variety of finance programs that can help make your new Chrysler LeBaron even more affordable. These flexible finance and lease programs can be tailored to suit your budget and your lifestyle. They include Gold Key Plus, College Graduate Plans, Gold Key Lease, Retail Financing and other special payment plans. Ask your salesperson for details.

## CHRYSLER CORPORATION GENUINE PARTS

MOPAR parts are engineered by Chrysler Corporation for use in your new Chrysler LeBaron. When replacement is necessary, be sure to specify MOPAR parts. Used by professional automotive technicians worldwide.

## ASK FOR A TEST TALK

For 1993, Chrysler will be offering a selection of dealer-installed/supplied cellular phones in several models to enhance the available optional equipment list. Ask your dealer for details. Panasonic warrants and services these products. Restrictions apply. Ask your dealer for details and a copy of these limited warranties.

## PHYSICALLY CHALLENGED ASSISTANCE PROGRAM

Cash reimbursement of up to \$500 for purchase and installation of adaptive driving aids or passenger equipment on new 1993 Chrysler Corporation cars, trucks or vans. For further information, contact your dealer or the PHYSICALLY CHALLENGED RESOURCE CENTER at 1-800-255-9877.
